The information compiled in this catalog was prepared for the 2017-2018 academic year, but should not be regarded as a contract between the student and Daemen College. This Catalog contains information about the College’s graduate programs. Information on linked undergraduate and graduate programs in Accounting, Athletic Training, Cytotechnology, Physical Therapy, and Physician Assistant Studies are contained in the separately published undergraduate Catalog. The right is reserved to change any of the rules and regulations of the College at any time, including those relating to admission, instruction, and graduation. The right to withdraw curricula and specific courses, to alter course content, to change the calendar, and to impose or increase fees similarly is reserved. All such changes are effective at such times as the proper authorities determine and may apply not only to prospective students but also to those who already are enrolled in the College.

Policy on Nondiscrimination
Daemen College subscribes to all state and federal regulations prohibiting discrimination on the basis of sex, sexual orientation, gender, race, color, creed, religion, veteran or military status, national origin, age,
disability, familial status, marital status, domestic violence victim status, status as an ex-offender, arrest record, predisposing genetic characteristics or genetic information, or any other characteristic protected by federal or New York State law. Daemen College's nondiscrimination policy complies with all current statutes and applies to admission, employment, and access to all programs, services, and other activities offered by the College. Inquiries regarding compliance with Title IX of the Education Amendments of 1972, Titles VI and VII of the Civil Rights Act, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act should be directed to the Daemen College Equal Opportunity and Affirmative Action Officer (the Associate Vice President for Academic Affairs) Duns Scotus Hall, Room 102; telephone: (716) 839-8301.

**Student Right-to-Know**

Any individual who is considering enrolling at Daemen College may secure a copy of the College's graduation rate and additional College statistics compiled in accordance with the Student Right-to-Know Act by contacting the College's Admissions Office or visiting the Fast Facts web page.

In compliance with the Department of Education and the Clery Act, Daemen College publishes an Annual Security and and Fire Safety Report which is available online at [https://www.daemen.edu/ASR](https://www.daemen.edu/ASR) or via the United States Department of Education website at: [https://ope.ed.gov/security/GetOneInstitutionData](https://ope.ed.gov/security/GetOneInstitutionData). Visitors can also request to see a copy of the College Crime and Fire Logs available in the Office of Campus Safety.

Procedures in case of a major emergency disrupting normal campus operations are detailed in the Annual Security and Fire Safety Report, as well as the Student Handbook.

GENERAL INFORMATION ABOUT DAEMEN

The Campus

**Daemen College** is located on a 46.5-acre campus in Amherst, New York. The suburban location enables students of the College to have ready access to metropolitan Buffalo while enjoying the charm of a beautifully landscaped campus. Daemen is easily accessible by major rail, plane, and motor routes which service Buffalo. The College is less than five minutes from exit 50 of the New York State Thruway. The Buffalo Niagara International Airport, serviced by most major airlines, is a 15-minute drive from the campus.

For directions and campus map: [daemen.edu/directions](http://daemen.edu/directions)

Buildings and Facilities

- **Academic and Wellness Center (AWC)**, located across from Daemen’s Main Street campus, houses the fitness center and recreation space, as well as state-of-the-art classrooms for Physical Therapy, Athletic Training, and Health Promotion.
- **Alumni House** is the home for Institutional Advancement/Alumni and Publication Offices.
- **Athletics Complex** houses the Lumsden Gymnasium as well as the College’s intercollegiate athletic office and athletic training room.
- **Business Building** includes faculty offices, classrooms, computer lab and student lounge as well as the Office of Information Technology.
- **Campus Village Apartments** is comprised of seven buildings with apartment style units. Each apartment has four bedrooms, two bathrooms, living room and kitchen. Lounges and laundry facilities are also available on each floor.
- **Canavan Hall** is a suite-style residence hall with kitchenettes, lounges, and laundry facilities.
- **Charles J. Wick Campus Center** houses student life offices including Campus Safety, CHIP Center (Counseling, Health, Insurance, Prevention), Conference Services, Diversity and Multicultural Affairs and the 24/7 Information Desk, lounges, the main dining room seating 650, the Den, and a social room/auditorium seating 500.
- **Patricia E. Curtis Hall** houses Physician Assistant, Psychology, and Social Work faculty offices.
- **Duns Scotus Hall** houses administrative and faculty offices, classrooms, science laboratories, art studios, lounges and the bookstore.
- **Haberman Gacioch Center for Visual & Performing Arts** features the Tower Gallery, graphic design production area, computer labs, faculty offices, the Sr. Jeanne File Resource room, the Animation Center and studios for illustration, figure drawing and painting. The building was designed with green technology and uses geothermal heating to contain energy costs.
- **Honors House**, located in a newly renovated home near the College’s Getzville Road entrance, serves as a study and communal space specifically for Honors Program students.

- **MusicalFare Theatre** houses the theater and offices of MusicalFare Theatre as well as campus event space.

- **Research and Information Commons (RIC)** was built with innovative green technology and is LEED Gold-certified. The RIC houses a comprehensive library, Student Success Center, Smart Squad, the Professional Educator Resource Center, RIC’s Daily Grind Cafe, small-group study rooms, a seminar and screening room with surround sound and 3D projection capabilities, and many state-of-the-art amenities to enhance the study experience.

- **Rosary Hall** is the original College administrative and classroom building, which was restored and now houses the division of Enrollment Management & Admissions.

- **Schenck Hall** houses laboratory facilities, classrooms, and a 300-seat lecture hall.

- **The Thomas Reynolds Center for Special Education & After-School Programs** includes a conference room, observation room, and four classrooms, one of which is equipped with a smart-board.

**History and Identity**

Daemen College is a private, nonsectarian, co-educational, comprehensive college in Amherst, New York. Its attractive suburban location offers convenient access to the cultural amenities of metropolitan Buffalo and the scenic outdoor recreation areas of Western New York, the Niagara Frontier, and the Great Lakes. In addition, the College is near Canada, with cosmopolitan Toronto in easy driving distance.

The College was established in 1947 as Rosary Hill College by the Sisters of St. Francis of Penance and Christian Charity, whose foundress was Magdalene Daemen, a Dutch woman dedicated to working with the poor. Her faith and courage have inspired many to give themselves to the service of others. The College has been accredited by the Middle States Commission on Higher Education since 1956. Institutional accreditation was last reaffirmed in 2016. Originally a liberal arts college for women, the College became co-educational in 1971, extending its commitment to academic excellence to the education of both men and women. In 1976, the College became independent and nonsectarian, changing its name to Daemen College. In 1992, New York State amended the college’s charter, authorizing the award of graduate level degrees as well as baccalaureate degrees.

Committed to an academic atmosphere that leads to open inquiry and debate, Daemen has achieved a creative balance between programs providing career preparation and education in the liberal arts. Programs in the major and the competency-based core curriculum encourage students to expand their horizons beyond the classroom through internships, service learning, clinical and field experiences, collaborative research with faculty, and study abroad. The Core Curriculum is designed to develop students’ skills and competencies in seven areas that will benefit them personally and professionally throughout their lives.

**Mission Statement**

The mission of Daemen College is to prepare students for life and leadership in an increasingly complex world. Founded on the principle that education should elevate human dignity and foster civic responsibility and compassion, the College seeks to integrate the intellectual qualities acquired through study of the liberal arts with the education necessary for professional accomplishment. This integration
which recognizes equal value in liberal studies and professional programs aims at preparing graduates who are dedicated to the health and well-being of both their local and global communities.

With a Daemen education, students will acquire the skill to solve problems creatively and think critically. They will be comfortable with diversity and will recognize the importance of a global perspective. They will be able to work with others and be invigorated by environments that present challenges and demand innovation. Daemen students are expected to be active participants in their own education and informed citizens who understand that learning is a life-long journey.

At the heart of Daemen’s integrated learning experience is the relationship that can develop between the College’s faculty and its students. Daemen prides itself on maintaining a student-centered atmosphere and a close professional and collaborative association among all members of the College community. Assisted by a supportive faculty, Daemen students are encouraged to pursue goals beyond their initial expectations, to respond to academic challenges, and to develop habits of mind that enrich their lives and their community.

**Mission Statement of the Graduate Program**

Grounded in Daemen College’s mission to prepare students for life and leadership in an increasingly complex world, the College’s Graduate Program enables development of the expertise required for leadership in the student’s chosen profession and in the community. The Graduate Program emphasizes a dynamic teaching and learning environment, research, and civic responsibility, preparing graduates capable of contributing at an advanced level to the health and well-being of both their local and global communities.
Admissions Policy

Admission to the College is based on academic potential without regard to sex, sexual orientation, gender, race, color, creed, religion, veteran or military status, national origin, age, disability, familial status, marital status, domestic violence victim status, status as an ex-offender, arrest record, predisposing genetic characteristics or genetic information, or any other characteristic protected by federal or New York State law. (Please see “Institutional Policies” for the College policy on accommodation of students with disabilities.) Persons who desire application materials or wish to arrange for an interview and a tour should contact the Office of Admissions, Daemen College, 4380 Main Street, Amherst, New York 14226. Telephone: (716) 839-8225, admissions@daemen.edu.

Criteria for Graduate Student Admission

Applicants for admission must meet the following requirements:

1. All requirements specific to the student's intended program of study (see departmental sections of this catalog for details).
2. Possession of a bachelor’s degree from an accredited college or university, or an equivalent degree from a foreign university or college. (For details on the accelerated R.N. to M.S. program, see the Nursing Department section of this catalog.)
3. Letters of recommendation, as specified by the intended program of study, preferably including one from the last school attended.
4. A written statement describing educational objectives and areas of personal interest, and/or a resume summarizing professional activities and continuing education, as specified by the intended program of study.
5. An on-site or telephone interview with the graduate program director/department chair, if required by the intended program of study.

International Students

International students for whom English is a non-native language must submit a TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System) score.

Students who receive a score lower than the minimum requirement will be required to enroll in an Intensive English Program.
Daemen College will offer conditional admission to students who successfully complete level 112 at an ELS Language Center or to students who plan on writing the TOEFL or IELTS exam after completion of an IEP program.

Students who achieve the minimum requirement of a 77 or higher on the TOEFL or a 6.5 on the IELTS will enroll in academic course work.

**Application Procedure for Degree-Seeking Graduate Students (including Applicants to Advanced Certificate Programs)**

1. **Graduate application materials** may be obtained from the Office of Admissions, Daemen College.
2. Completed applications for admission should be returned to the Office of Admissions. Applications will be accepted on a rolling basis unless otherwise stated in departmental sections of this catalog.
3. To be complete the application must include all of the following:
   1. Application for Admission form.
   2. Nonrefundable application fee of $25.00. (The fee is waived for online applications or Daemen College graduates.)
   3. Copy of current certification or professional licensure if applicable (consult departmental policies).
   4. Students should request an official copy of transcripts of all college-level academic work, regardless of whether or not a degree was earned. (In the case of Daemen College graduates, a transcript will automatically be furnished to the Admissions office at no charge.)
   5. Official transcripts of graduate courses completed at other institutions should be submitted at the time of application, and will be evaluated for acceptability as transfer credit within the first semester by departmental faculty:
      1. Up to forty percent (40%) of Daemen graduate credits may be satisfied by transferring credits from another graduate program. Grades (and quality points) are not recorded for transferred credits. Any Credit for Learning from Life Experience (CLLE) or credit earned through Challenge Examination would be considered transfer credit for this purpose. Ordinarily, no more than eight graduate credits may be earned through challenge or CLLE.
      2. Transfer courses must have been taken within the previous seven years.
      3. No transfer credit will be awarded for a course in which a grade lower than B was received.
      4. Students who believe that their requests for transfer credit have been inappropriately denied may appeal to the Graduate Committee on Academic Standards.
   6. Any additional materials as required by program of study, such as letters of recommendation, personal statement, resume, standardized test scores.
4. The Application for Admission will be reviewed for completeness by each academic department. The student will be notified in writing if the application is incomplete. It is the responsibility of the applicant to assure that the application is complete.
Application for Non-Degree Status

Students wishing to enroll in a graduate class without matriculating in a graduate degree or certificate program may do so on a space-available basis with written consent of both the course instructor and the graduate program director. Non-matriculated students must fill out a Graduate Application and Registration Form, Non-Degree Status, available in departmental offices. Ordinarily, non-matriculated students may take a maximum of nine graduate credits at Daemen. To continue taking graduate courses, the student must apply for admission as a degree or certificate candidate and be accepted into the graduate program. Any exceptions to this policy are made by the Graduate Committee on Academic Standards.

Admission of Degree-Seeking Students to Graduate Study (including Advanced Certificate Programs)

1. The completed Application for Admission is reviewed by the graduate admissions coordinator and graduate program faculty, with the director of the program notifying the student in writing of the admission decision.

2. The acceptance letter will be accompanied by a packet of materials which should be read carefully.
   1. The Graduate Tuition Deposit Agreement reserves the student a seat in a subsequent semester. Tuition deposits will be accepted on a first-come, first-served basis and are not refundable.
      TUITION DEPOSIT:
      Physical Therapy and Physician Assistant – $500.00
      All other graduate programs – $100.00
   2. The Health Form should be filled out and returned to the Health Services Office as soon as possible, since registration cannot be completed until this is done. All students taking four or more credits, whether full-time or part-time, must file the Daemen College Health Services Form prior to registering for classes. Failure to return the Health Form will result in delay of completing registration. If applicable, the student must also meet any health-related requirements specific to his/her graduate program.

   **Please note:** As soon as the student remits the tuition deposit and is health compliant, he or she should contact the office of his/her graduate program to make an appointment to register for classes. Registration is carried out by individual appointment in the departmental office. At the time of registration, the student will be assigned an advisor.

Financial Aid

Information on eligibility for and availability of Financial Aid can be obtained from the Financial Aid Office (716-839-8254) and in the Financial Aid section of this catalog. In general, to be considered for financial aid, the student must be admitted to a graduate program and register for at least five credit hours.
Students are advised to check with their employers regarding the availability of tuition reimbursement for graduate coursework.

**Alcohol and Drug Policy**

The unlawful possession, use or distribution of alcohol and illegal drugs by students and employees on college property or while engaged in College activities off the College campus is prohibited. A complete description of the College's Drug and Alcohol Abuse Policy, pursuant to the Drug-Free Schools and Communities Act Amendments of 1989, is published in the Daemen College Student Handbook.
FINANCIAL INFORMATION

Tuition & Fees 2017-2018

GRADUATE

Tuition (per credit hour): $967.00

Student Activity Fee per credit hour for 1-8 credit hours $11.00

Student Activity Fee for 9 or more credit hours $100.00

Audited Graduate Course (per credit hour): $483.50

SPECIAL FEES

- Application Fee Payable with Application: $25.00
- Tuition deposit required first year (non-refundable):
  - PA & PT Graduate Students: $500.00
  - All Other Graduate Students: $200.00
- Room reservation deposit (if resident student): $200.00
- Transcript Fee: $5.00
- Late Payment Fee: $100.00
- Returned Check Charges (NSF): $15.00
- Challenge Examination Fee: $100.00 plus $30 tuition per credit hour
- Credit for Learning from Life Experience (CLLE) Assessment Fee: $100.00 plus $30.00 tuition per credit hour.

Students wishing to reside on campus should consult the Daemen College undergraduate Catalog or the Office of Housing and Residence Life for residence life information, including costs and refund policies.

FINANCIAL AGREEMENTS

The College reserves the right to change its schedule of tuition, residence and board, and special fees when it is deemed advisable. The College will not be responsible for the loss of money or other valuables. Personal property is the student’s own responsibility. It is recommended that students residing in campus housing contact their personal or family insurance carrier to review coverage. Any damage to College property will be charged to the student.
PAYMENTS

Students are expected to make payment arrangements with the Office of Student Accounts (Duns Scotus Hall, Room 112) by the due date on their billing statement for the amount of the semester charges less any financial aid and/or bank loans. A $100.00 late payment fee will be assessed if arrangements are made after this date. If financial aid and/or bank loans are pending, students must sign a promissory note in the Office of Student Accounts in order to complete the registration process and be admitted to classes. Registrations will be cancelled for any student who does not make satisfactory payment arrangements. Tuition bills are mailed to students if they register at least 1 month before the start of a semester. Students who register after that date or make changes to their original registration should call or come to the Office of Student Accounts for their bill. Checks should be made payable to Daemen College and mailed to the Office of Student Accounts, Duns Scotus Hall, Room 112, 4380 Main Street, Amherst, New York 14226.

Effective Fall 2017: Online payments through “Official Payments” will be available, enabling students and/or parents to pay tuition and fees by electronic check (ACH) or by credit/debit card via https://webadvisor.daemen.edu. The payment process is simple and secure. Payments by electronic checks (ACH) as well as Visa®, MasterCard®, and Discover® cards are accepted.

All financial obligations must be settled in full before any claim is made for a degree, semester grade reports, or transcripts. Students will be charged for collection agency fees and reasonable attorney’s fees incurred in enforcing collection of any and all outstanding amounts owed to the College.

WITHDRAWALS AND REFUNDS

The College views registration as the student’s official statement of intent to enroll in a subsequent semester. Therefore, once registered, the student is financially obligated for the payment of all applicable tuition and fees unless a Notice of Intent to Withdraw form is filed in the Office of Academic Advisement, Room 108, Research and Information Commons. The date of withdrawal will in every case be considered to be the date on which a Notice of Intent to Withdraw form has been filed. Should a student fail to follow the withdrawal procedure outlined above, no refund will be made. The tuition refund policy for all students will be as follows:

Prior to and within first week of classes 100%
Within the second week 80%
Within the third week 60%
Within the fourth week 40%
Within the fifth week 20%
After the fifth week No Refund
If a student’s enrollment is canceled because of an error on the part of the College, full tuition and fees will be refunded. The refunds will be sent to the student within thirty days of filing a properly completed Notice of Intent to Withdraw form.

CREDIT FOR FINANCIAL AID

It is the student’s responsibility to complete all arrangements for any financial aid which he or she may be eligible to receive. Credit toward college bills for financial aid awards will be given when the payment or award notice, approved by the appropriate agency, is received by the Office of Student Accounts, Room 112, Duns Scotus Hall. The student must resolve any financial aid and college bill discrepancies through consultation with the Financial Aid Office and the Office of Student Accounts.
FINANCIAL AID

General Information
Daemen College offers students many types of financial assistance in the form of scholarships, grants, and loans. In most cases graduate students are only eligible for Federal Loans. Daemen College participates in the federal Title IV programs and complies with the regulatory requirements as mandated by the Higher Education Opportunity Act – 2008 (HEOA). The following is a breakdown of the types of assistance and the means by which a student may apply. It is important to note that students interested in Daemen College should not hesitate because of financial circumstances. DAEMEN COLLEGE IS AFFORDABLE.

Students applying for financial aid must submit the following forms that are used to establish eligibility and financial need.

FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA)
This is available from the Daemen Financial Aid Office, or any high school guidance office. Students are also able to apply over the internet at www.fafsa.gov. After completing the FAFSA, the student returns it directly to the U.S. Department of Education in the envelope provided, designating Daemen College as a recipient. The Daemen College Title IV institution code number is 002808.

VERIFICATION OF INCOME
All students who receive federal, state, or institutional aid and have been selected for verification must submit to the Financial Aid Office verification of their family income. Students can use the IRS Data Retrieval Tool in FAFSA on the web to retrieve and transfer IRS income information into the student’s FAFSA or request the IRS Tax transcript at www.IRS.gov. Students who receive a request for additional information should respond promptly as it is the policy of the Financial Aid Office not to disburse aid until the student’s FAFSA has been verified.

WHEN TO APPLY FOR FINANCIAL AID
The Free Application For Federal Student Aid (FAFSA) and Express TAP Application should be submitted as soon as possible after October 1st.

Suggested filing deadlines for:
Allow at least six weeks for processing the application.

TO BE CONSIDERED FOR FINANCIAL AID, STUDENTS MUST RE-APPLY EACH YEAR AND CONTINUE TO SHOW FINANCIAL NEED AND SATISFACTORY ACADEMIC PROGRESS.

NOTIFICATION OF FINANCIAL AID AWARDS

After the student has been accepted for admission, and the Free Application for Federal Student Aid (FAFSA) is reviewed, notifications of award packages will be sent to students who qualify. They are asked to accept or decline the award within two weeks of notification.

FEDERAL STUDENT FINANCIAL AID PENALTIES FOR DRUG LAW VIOLATIONS

Students who are currently enrolled and are completing the FAFSA will be asked: “Have you been convicted for the possession or sale of illegal drugs for an offense that occurred while you were receiving federal student aid?” Students who answer “Yes” will be asked an additional series of questions to determine if the conviction affects their eligibility for federal student aid.

Students convicted of a federal or state offense of selling or possessing illegal drugs that occurred while they were receiving federal student aid should still complete and submit the FAFSA to determine if there is aid for which they are still eligible. Students who leave question 23 blank cannot receive federal financial aid until they respond by making a correction to their FAFSA.

A student who has been convicted of possession or sale of illegal drugs loses Title IV eligibility for a period of time specified in law. The period of ineligibility depends on whether the conviction was for possession or sale of (including conspiring to sell) illegal drugs.

FOR CONVICTIONS INVOLVING POSSESSION, THE PERIODS OF INELIGIBILITY ARE AS FOLLOWS:

- One conviction: one year after the date of conviction.
- Two convictions: two years after the date of the second conviction.
- Three or more convictions: indefinite from the date of the third conviction

FOR CONVICTIONS INVOLVING SALE, THE PERIODS OF INELIGIBILITY ARE AS FOLLOWS:
- One conviction: two years after the date of conviction.
- Two or more convictions: indefinite from the date of the second conviction.

A federal or state drug conviction can disqualify a student for federal aid.

Convictions only count if they were for an offense that occurred during a period of enrollment for which the student was receiving Title IV aid—they do not count if the offense was not during such a period. Also, a conviction that was reversed, set aside, or removed from the student’s record does not count, nor does one received when the student was a juvenile, unless the student was tried as an adult.

**REGAINING ELIGIBILITY**

A student regains eligibility the day after the period of ineligibility ends or when the student successfully completes a qualified drug rehabilitation program. Further drug convictions will make the student ineligible again.

A student whose Title IV eligibility has been suspended indefinitely may regain eligibility only by successfully completing a drug rehabilitation program. A student who is under a one- or two-year penalty may regain eligibility before the expiration of the period of ineligibility by successfully completing a drug rehabilitation program. If the student successfully completes an approved drug rehabilitation program, eligibility is regained on the date the student successfully completes the program. It is the student’s responsibility to certify to the school that he/she has successfully completed the rehabilitation program.

To qualify the student for eligibility, the drug rehabilitation program must include at least two unannounced drug tests, and:

- have received or be qualified to receive funds directly or indirectly under a Federal, State, or local government program; or
- be administered or recognized by a Federal, State, or local government agency or court; or
- have received or be qualified to receive payment directly or indirectly from a Federally- or State-licensed insurance company; or
- be administered or recognized by a Federally- or State-licensed hospital, health clinic or medical doctor.

**FINANCIAL NEED ASSESSMENT**

The vast majority of all financial aid programs from all sources are based on financial need. The amount of aid a student receives is determined by the student’s budget for anticipated expenses minus the expected contribution from the student or his/her family.
Student's Budget
(determined by Financial Aid Office)
  – Expected Family Contribution
(determined by FAFSA data)

= Financial Need

STUDENT CONTRIBUTIONS

The Financial Aid Office uses income and net worth to estimate how much students can afford to pay toward a college education. The financial contribution that is to be made by a student is determined by applying conventional estimating formulas that take into account the student’s financial situation according to his/her FAFSA data.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS FOR DETERMINING ELIGIBILITY FOR GRADUATE FEDERAL STUDENT AID

A student must make satisfactory academic progress at the end of each term to be eligible for federal financial aid. Graduate students must have a cumulative grade point average of 3.0 after three terms of study. Students must also successfully complete at least two-thirds of the credits attempted at Daemen College each semester (known as completion rate). The following designations are considered to be attempted but are not considered to be successfully completed: I, W, UW, F.

Students must also complete their degrees within 150 percent of the published program length as measured in credit hours or they forfeit federal aid eligibility. For example, if the published length of a program is 30 credit hours, the maximum period must not exceed 45 (30 x 1.5) attempted credit hours. There is no waiver of the maximum time frame allowed for any reason.

RIGHT TO APPEAL

In the event a student is denied financial aid due to failure to maintain satisfactory academic progress, the student has the right to appeal by providing a personal statement together with any relevant documentation supporting the student’s appeal. The Financial Aid Office will provide full information and counseling to students wishing to appeal to request reinstatement of aid.

Description of Financial Aid Programs

INSTITUTIONAL AID (FINANCIAL AID AWARDED BY THE DAEMEN COLLEGE FINANCIAL AID OFFICE)
FEDERAL PROGRAMS:

DIRECT UNSUBSIDIZED FEDERAL STAFFORD LOAN FOR INDEPENDENT GRADUATE STUDENTS

Application Procedures:

All loans signed after October 17, 1986 are based on need after family contribution is established; therefore, students must complete the Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov and receive a financial aid award letter in order to be eligible for Stafford Loans. To apply for a Stafford loan, students must also complete Direct Loan Entrance Counseling and a Direct Loan Master Promissory Note (MPN) at www.studentloans.gov. The Financial Aid office will originate the Stafford Loan for the amount indicated on the award notice, unless the student declines or modifies the loan amount.

A Master Promissory Note is completed once by the student and is used to borrow additional loans for subsequent periods of enrollment.

The MPN is good up to ten years from the date of the student’s signature. Each academic year the student will be notified of his/her loan eligibility on the financial aid award notice. The student’s loan will be originated for the amount listed on the award notice, unless the student indicates otherwise by signing and returning the award letter.

Selection of Recipients and Allocation of Awards:

To be eligible for an Unsubsidized Federal Stafford Loan a student must:

1. be a graduate student;
2. be a U.S. citizen or permanent resident alien;
3. be enrolled in or accepted for enrollment in a degree or certificate program;
4. study at least half-time (5 credits).

Loan Schedule:

A graduate student who is enrolled in at least 5 credits at a participating school is eligible for the following loan amounts:

1. $20,500 – graduate year maximum eligibility.
2. $138,500 – aggregate amount for graduate study.
Effective for loans disbursed on or after July 1, 2017 and prior to July 1, 2018, the interest rate is fixed at 6.0%. Loans disbursed on or after October 1, 2017 and before October 1, 2018 will be charged a 1.066% origination fee. This fee will be deducted from the student loan upon disbursement.

**Rights and Responsibilities of Recipients:**

Repayment of the principal begins six months after the borrower ceases to be at least a half-time student. Repayment in whole or in part may be made at any time without penalty. All borrowers must complete loan exit counseling at [www.studentloans.gov](http://www.studentloans.gov) upon graduation or withdrawal from the College. Contact the Financial Aid office about this requirement.

**Methods and Frequency of Disbursements:**

First-time borrowers must complete loan entrance counseling before loan funds can be disbursed.

Direct Stafford Loan proceeds are credited to a student’s bill after the disbursement has been received by the Office of Student Accounts.

**DIRECT GRADUATE (PLUS) LOAN**

**Application Procedures:**

Graduate students are able to apply for Graduate PLUS loans at [www.studentloans.gov](http://www.studentloans.gov). Upon credit approval of the Graduate PLUS loan application, the Daemen Financial Aid Office originates the loan. Borrowers must complete their Master Promissory Note and Loan Entrance Counseling at [www.studentloans.gov](http://www.studentloans.gov).

**Loan Schedule:**

Graduate students who do not have adverse credit history may borrow up to the cost of attendance minus any estimated financial assistance the student has been or will be awarded during the period of enrollment. Effective for loans disbursed on or after July 1, 2017 and prior to July 1, 2018 the interest rate for the Direct Graduate PLUS loan is currently fixed at 7.0%. Loans disbursed on or after October 1, 2017 and before October 1, 2018 will be charged a 4.264% origination fee. This fee will be deducted from the Graduate PLUS loan upon disbursement.

**Rights and Responsibilities of Recipients:**

The maximum repayment period will be 10 years from the date of the promissory note. The minimum repayment period is normally five years, but shorter repayment periods can be arranged. In addition,
applicants are required to complete FAFSA and they must have applied for their annual loan maximum eligibility under the Direct Stafford Loan program before applying for a Direct Graduate PLUS loan. This program takes effect for loans certified on or after July 1, 2006.

TEACH GRANT PROGRAM

Through the College Cost Reduction and Access Act of 2007, Congress created the Teacher Education Assistance for College and Higher Education (TEACH) Grant Program that provides grants of up to $4,000 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families.

Additional information regarding the TEACH grant can be found at www.teachgrant.ed.gov

Undergraduate study: maximum of $4,000 per year for the first baccalaureate to a maximum of $16,000.

Graduate study: maximum of $4,000 per year for a master’s degree to a maximum of $8,000.

Conditions

In exchange for receiving a TEACH Grant, you must agree to serve as a full-time teacher in a high-need field in a public or private elementary or secondary school that serves low-income students (see below for more information on high-need fields and schools serving low-income students). As a recipient of a TEACH Grant, you must teach for at least four academic years within eight calendar years of completing the program of study for which you received a TEACH Grant. IMPORTANT: If you fail to complete this service obligation, all amounts of TEACH Grants that you received will be converted to a Federal Direct Unsubsidized Stafford Loan. You must then repay this loan to the U.S. Department of Education. You will be charged interest from the date the grant(s) was disbursed. Note: TEACH Grant recipients will be given a 6-month grace period prior to entering repayment if a TEACH Grant is converted to a Direct Unsubsidized Loan.

Student Eligibility Requirements

To receive a TEACH Grant you must meet the following criteria:

- Complete the Free Application for Federal Student Aid (FAFSASM), although you do not have to demonstrate financial need.
- Be a U.S. citizen or eligible non-citizen.
- Be enrolled as an undergraduate, post-baccalaureate, or graduate student in a postsecondary educational institution that has chosen to participate in the TEACH Grant Program.
• Be enrolled in course work that is necessary to begin a career in teaching or plan to complete such course work. Such course work may include subject area courses (e.g., math courses for a student who intends to be a math teacher).
• Meet certain academic achievement requirements (generally, scoring above the 75th percentile on a college admissions test or maintaining a cumulative GPA of at least 3.25.
• Sign a TEACH Grant Agreement to Serve (ATS) and complete TEACH Grant Initial and Subsequent counseling at www.teach-ats.ed.gov.

High-Need Field

High-need fields are the specific areas identified below:

- Bilingual Education and English Language Acquisition
- Foreign Language
- Mathematics
- Reading Specialist
- Science
- Special Education
- Other identified teacher shortage areas as of the time you begin teaching in that field. These are teacher subject shortage areas (not geographic areas) that are listed in the Department of Education’s Annual Teacher Shortage Area Nationwide Listing. To access the listing, please go to https://www.ed.gov/about/offices/list/ope/pol/tsa.doc.

As of July 1, 2010, a recipient of an initial TEACH Grant who has received an academic degree, or expertise, in a field that was, at the time the recipient signed the TEACH Grant Agreement to Serve, designated as high-need, but no longer has that designation, can fulfill the service obligation associated with the TEACH Grant by teaching in that high-need field.

Schools Serving Low-Income Students

Schools serving low-income students include any elementary or secondary school that is listed in the Department of Education's Annual Directory of Designated Low-Income Schools for Teacher Cancellation Benefits. To access the Directory, please go to https://www.tcli.ed.gov/CBSWebApp/tcli/TCLIPubSchoolSearch.jsp.

TEACH Grant Agreement to Serve

Each year you receive a TEACH Grant, you must sign a TEACH Grant Agreement to Serve that is available electronically at www.teach-ats.ed.gov. The TEACH Grant Agreement to Serve specifies the conditions under which the grant will be awarded, the teaching service requirements, and includes an
acknowledgment by you that you understand that if you do not meet the teaching service requirements you must repay the grant as a Federal Direct Unsubsidized Loan, with interest accrued from the date the grant funds were disbursed. Specifically, the TEACH Grant Agreement to Serve will require the following:

- For each TEACH Grant-eligible program for which you received TEACH Grant funds, you must serve as a full-time teacher for a total of at least four academic years within eight calendar years after you completed or withdrew from the academic program for which you received the TEACH Grant.
- You must perform the teaching service as a highly-qualified teacher at a low-income school. The term highly-qualified teacher is defined in section 9101(23) of the Elementary and Secondary Education Act of 1965 or in section 602(10) of the Individuals With Disabilities Education Act.
- Your teaching service must be in a high-need field.
- You must comply with any other requirements that the Department of Education determines to be necessary.
- If you do not complete the required teaching service obligation, TEACH Grant funds you received will be converted to a Federal Direct Unsubsidized Stafford Loan that you must repay, with interest charged from the date of each TEACH Grant disbursement.

RETURN OF TITLE IV FUNDS DUE TO WITHDRAWAL FROM SCHOOL

In accordance with the Higher Education Opportunity Act – 2008 (HEOA), the amount of Title IV Program Funds earned is based on the amount of time spent in academic attendance for each enrollment period. Up through the 60% point in each enrollment period, a prorate schedule is used to determine the amount of Title IV funds the student has earned at the time of withdrawal. After the 60% point in the period of enrollment, a student has earned 100% of Title IV funds. Earned Title IV funds are distributed in the following order: TEACH Grant, Perkins Loan, Unsubsidized Stafford Loan and PLUS Loan.

Official notification from the student via telephone, email, or in person and the completion of a Withdrawal Form will be used to determine the date of withdrawal. For students who do not officially withdraw, it is assumed that the student attended 50% of the enrollment period, unless otherwise documented by the instructor.

VETERANS ADMINISTRATION (VA) EDUCATIONAL BENEFITS

Once applied and accepted at Daemen, veterans and other persons eligible to study using GI Bill® educational benefits will receive personalized information from Daemen's Financial Aid Office providing total program costs, student debt estimates, and other federal financial aid options. If you have already received notification of your GI Bill® award and have made your decision to attend Daemen,
you must present the award letter or Notice of Basic Eligibility (NOBE) to the Daemen College Certification Officer. Generally, a brief meeting is required prior to certification.

If you are eligible but have not yet applied to use your benefits, you may do so by visiting www.gibill.va.gov and completing a VONAPP application for the chapter of the GI Bill® in which you have eligibility. It is recommended that this application be submitted online to the Veterans Administration (VA) well in advance of registration in the event of VA backlog or processing issues which may arise.

Once enrolled and certified as a Daemen student, should you have to suspend your study due to service requirements, you may withdraw from courses with no financial liability. Depending upon the duration of service required, other options may be available to students who feel they have significant investment in the semester and who do not wish to withdraw from a semester entirely. In each case, you must notify the Daemen College Certification Officer of your impending service requirement, and to discuss financial options available to you. Regardless of the financial option chosen as a result of the service requirement, all service members may return to their academic program upon completion of service requirements.

**CONSOLIDATION LOAN PROGRAM**

Student borrowers who are in repayment or in their grace period are eligible for loan consolidation. A consolidation loan is designed to help student borrowers consolidate several types of federal student loans with various repayment schedules into one loan. With a consolidation loan, only one payment a month is made. Any consolidation loan made will be counted against a borrower’s limitations for aggregate indebtedness under the Student Loan Program. Additional information regarding loan consolidation can be found at www.studentloans.gov.

**OTHER FINANCIAL AID SOURCES**

Many other governmental agencies, private foundations, professional associations, and commercial firms offer scholarships, loans, and other forms of financial aid to qualified and deserving students. Daemen College’s Financial Aid Office can help you locate and apply for these additional sources of financial aid.
STUDENT SERVICES

Bookstore
The Daemen College Bookstore (Follett #134), located on the ground floor of Duns Scotus Hall, carries all required and optional textbooks (new and used), as well as study and exam guides. Many textbooks are available for rent as well as purchase (please see store for details). The Bookstore also carries school supplies, trade books, greeting cards, art supplies, Daemen College clothing and gifts. Research and supplementary texts can be special ordered. Change and stamps are available at the checkout. The bookstore accepts cash, personal check with proper ID, MasterCard, Visa, Discover and American Express. We also make arrangements with the office of Student Accounts to set up “book credit” accounts for students who wish to use their financial aid for the purchase of textbooks and supplies. Visit the bookstore on the Internet at www.daemen.bkstr.com or from the Daemen home page under “Student Services.” Computer software may be purchased at educational prices through the Software Shop on the bookstore website. The bookstore buys used textbooks year round.

Bookstore hours during the fall and spring semesters are:

Monday – Friday 8:30 a.m. – 4:30 p.m.
Saturday – As needed
Additional hours are scheduled at the beginning of each term. (Hours are subject to change.)

Career Services
The Career Services commitment to you begins your first day on campus and lasts throughout your lifetime. We provide a multitude of free services and support to prepare and empower you to achieve your career goals.

The benefit of a small college is Daemen’s personalized approach. We want to get to know you, your strengths, talents, and aspirations. Our student-centered approach includes advising, offering individualized assessments, the iCAP (individual Career Action Plan), leadership programs and networking events as well as career lectures specific to your major. Plan on attending the many programs on campus, including: Recruiters on Campus, professional panel discussions, resume preparation workshops and networking events.

Career Services works closely with Global Programs to support international internships as a stand-alone opportunity or added as part of an international educational experience. Please meet with your
Career Services Advisor to explore these opportunities. Information about these programs is also provided by GPO throughout the academic year.

Our staff has real world experience and business and community connections to ensure you develop a successful career strategy. More information can be found on the department website: [www.daemen.edu/career](http://www.daemen.edu/career). To schedule an appointment, please call (716) 839-8334.

**Classroom & Events Technology**

Classroom & Events Technology provides the College community with classroom technology support and instructional equipment such as computers and video projectors, document cameras, digital video cameras, sound reinforcement and many other types of digital and analog equipment. Students and organizations may request the use of equipment through email at: computing@daemen.edu or by phone: 839-8240.

**Computing Services**

Computing is an integral part of a Daemen education. All faculty and students have email accounts, and high-speed network access available from their offices and residence hall rooms. Many courses mix web resources, on-line discussion groups and other electronic resources with traditional lectures and in-class discussions for a rich and varied learning environment.

While there is no requirement for students to buy computing equipment, over 95% of our students have their own computers, and most students have laptops. Those who choose to use equipment in one of the public computing labs have access to a wide variety of resources available free of charge. Located in the Research and Information Commons and the Business and Commerce building, these labs contain Windows or Mac computers configured with high-speed internet access and productivity software. Software is updated regularly, and hardware is replaced every three years. During the fall and spring semesters, these labs are open 118 hours each week. Additional computer equipment is available in departmental labs in animation, graphic design, natural sciences, mathematics and psychology for students taking classes in those disciplines.

The Office of Information Technology provides support for the instructional, research and communication needs of the college community. A 1Gbps Ethernet network and wireless network is provided across all offices, classrooms, labs, and residence halls. Students, faculty and staff have access to a variety of local technology services such as Blackboard, WebAdvisor and the Daemen website. Students living on-campus can access this high-speed network free of charge. Faculty and students living off-campus can access many of our technology systems remotely.
The Office of Information Technology supports a standard suite of software for email, web browsing, word processing, virus protection and other standard needs. Daemen College has entered into licensing agreements with Adobe, Microsoft, SPSS, Symantec and others to provide our students, faculty, and staff with access to the most widely used productivity software.

Faculty may use dedicated computer classrooms for hands-on computer instruction, or use cart-based wireless laptops to turn any conventional classroom into a computer lab. Projection equipment also facilitates computer aided instruction and demonstrations.

In addition, faculty may make computer resources available outside of the classroom on the web via Blackboard, a learning management system. The Research and Information Commons offers on-line bibliographic searching. College administrative functions are computerized and integrated by means of an Ellucian student information system. More information can be found at: https://www.daemen.edu/computing

Counseling, Health, Insurance & Prevention (CHIP) Center

Counseling Services

The counselors of Daemen College serve the psychological well-being of the Daemen College community so that students may be successful academically, ethically, spiritually, and personally. All registered Daemen students are eligible to attend up to 15 sessions per academic year free of charge. Services provided include: individual counseling, group counseling, couples counseling (all participants must be Daemen students), mediation, and consultation.

All counseling sessions are confidential. Your privacy and trust are important to us and is protected by state laws and professional ethical standards. No information can be released without your written authorization. However, confidentiality is legally limited. Your counselor will speak with you about the limits of confidentiality when you first meet. Feel free to ask your counselor any questions or express any concerns you may have about confidentiality.

All counseling appointments take place in the Chip Center which is housed in Wick Center, first floor, room 117. To schedule an appointment, please contact the counselor of your choice:

Shannon Radder, MS. Ed., LMHC, Director of Counseling Services: (716) 839-8337

Stephanie Bordin, LMHC: (716) 839-8375

Deloris Fields-Jones, LMSW: (716) 688-3852
Additional information can be found on the Counseling Services webpage.

Health and Insurance Services

Upon acceptance to the College, a new student is required to complete the Incoming Student Health Form with a physical examination having been conducted within the past year. In accordance with New York State law, all students born on or after January 1, 1957, are required to prove immunity to measles, mumps, and rubella. These students must provide adequate evidence of immunity in order to ensure their class registration. Other vaccinations are required or recommended, as detailed on the Student Health Form sent to students upon their acceptance to the College.

In addition, NYS law requires all students, regardless of age, to make an informed decision about whether to receive the meningitis vaccine. Information about the disease and vaccine is on the Student Health Form. College students, particularly first-year students living on campus, are urged to consider vaccination. Meningococcal disease is a vaccine preventable disease. Two separate strains of the vaccine are required to prevent it. Total protection from Meningitis looks like this:

1. The conjugate meningococcal vaccine protects against serogroups A, C, W and Y. The CDC recommends this vaccine be administered at age 11, with a booster dose at 16.

   AND

2. The meningococcal B vaccine protects against serogroup B of which 50% of meningitis cases are caused. The CDC says this series may be administered to adolescents and young adults 16 through 23 years of age. Depending on which Sero B vaccine you choose, it may be a series of two vaccines or a series of three vaccines.

No vaccine is 100% effective. It is, however, our best defense against the disease. Contact your physician to discuss the importance of receiving both strains of vaccines or for further information about the risks of contracting meningitis visit the CDC and the National Meningitis Association (NMAUS) websites.

The Health and Insurance Services Office offers confidential assistance in referring students to area health care providers in the event of illness or accident, procuring necessary health evaluations prior to external learning experiences, and obtaining required immunizations. The staff also provides assistance to students with health insurance claims and questions.

Insurance

Daemen College requires all residential students, international students, student-athletes (club as well as intercollegiate sports), and students in health-related fields of study while participating in external
learning experiences (clinical affiliations, etc.) to be covered by health insurance that can be used in the Buffalo/Amherst area.

Coverage should include:

- access to local doctors and other healthcare providers
- diagnostic testing/lab services
- prescription drugs
- outpatient mental health
- inpatient and outpatient hospital services
- emergency services
- urgent care centers

Please provide the Health & Insurance Services Office with a photocopy of your health insurance card prior to the fall semester. If you do not have health insurance, Daemen offers a plan. Prior to enrolling, please review the additional information about our health insurance administrator’s plan listed under the “Need Health Insurance?” section of our website. The cost for the 2017-18 academic year (August 1, 2017 through July 31, 2018) for graduate students is $2,465.00. The cost (once you have elected to enroll) will be added to your tuition bill.

Other health insurance options are available to college students:

- Coverage as a dependent on parents’ health insurance plan to the age of 26;
- Coverage through Medicaid (www.healthcare.gov/medicaid) based on expanded eligibility requirements in some states;
- Coverage through a Marketplace (www.nystateofhealth.ny.gov); with premium tax credit, or subsidy, if income requirements are met;
- Catastrophic Plan offered through a Marketplace;
- Coverage through an individual health plan offered outside of a Marketplace;
- Coverage as a common law employee;
- A variety of plans to compare at edusure.com.

Please remember that unless a copy of your health insurance card is on file in the Health & Insurance Services Office, no keys to residence halls will be given to students who plan to live on campus; athletes will not be allowed to practice or play; international students will not be allowed to attend classes; and students assigned to an external learning experience will not be allowed to participate.

If you do not provide proof of adequate insurance (a plan that can be used in the Buffalo/Amherst area), you will be enrolled in the Daemen insurance plan and the premium will be added to your student account.
Students from the New York City area, outside the metropolitan Buffalo area, and those from out of state: Please check with your insurance company (the member services number should be found on the back of your card) to see just how, if, and where your insurance can be used in the Amherst area. A number of plans are not accepted by health care providers in this area and will not be considered acceptable proof of insurance.

**Diversity and Multicultural Affairs**

The Office of Diversity and Multicultural Affairs is responsible for facilitating an enriching diversity education experience for our community. Through collaboration with various campus partners, the Office of Diversity and Multicultural Affairs holds the primary responsibility of providing faculty, staff and students with resources, guidance and support for issues as they relate to diversity and inclusion.

Our goal is to provide all members of the Daemen community with the education and experience necessary to become an active and engaged global citizen and to utilize those skills in their academic and career pursuits. We also seek to provide our students, staff, and faculty with the tools needed to engage in productive, informed, and impactful discussions around issues of social justice and inequity of all kinds, learning what those topics mean for us in the context of our current climate.

**Global Programs**

The Global Programs Office provides information and services both for Daemen students desiring to study abroad as well as international students who have chosen Daemen for their graduate education.

Experiencing the world from another cultural perspective is essential for preparing students for global citizenship. All students studying abroad while at Daemen College must meet with Global Programs staff for program information, application assistance, and College approval of their international educational experience.

The Global Programs Office provides comprehensive assistance and support for the community of international students at Daemen College. Staff members help international students with their initial adjustment to the College and Buffalo. The office provides information and advice about immigration regulations, cultural differences, and personal concerns.

**The Daemen College Library**

The library is located in the Research & Information Commons (RIC). All library study spaces within the RIC have wireless connectivity, quiet study space, talking permitted study space, group study rooms, seminar & animation theater, a café, and two presentation rooms. Students will also find all the fixtures and furnishings to get comfortable and stay awhile.
The library has a collection of over 100,000 titles in print and e-books, as well as hundreds of print and digital periodical subscriptions, DVDs and streaming video. Our collections support the vast majority of teaching and scholarship. Fast and easy interlibrary loan is available for specialized and unique information needs.

Research librarians are available to consult with students and faculty to find the information resources they need, as well as provide classroom and one-on-one research assistance.

Students, faculty and staff need only to present their Daemen College ID card to access all the collections and services the library has to offer. The library homepage, accessed through the MyDaemen portal, provides the virtual gateway to achieve success.

**RIC hours during the academic semester:**
- Sunday 10 am – 1 am
- Monday – Thursday 7 am – 1 am
- Friday 7 am – 11 pm
- Saturday 9 am – 11 pm

**Summer Schedule (and during breaks):**
- Monday – Friday 8 am – 5 pm

Changes to this schedule are posted in advance on the library homepage and at the entrance to the RIC.

**Services for Students with Disabilities**

Students with disabilities meet with the Disability Services Coordinator to submit documentation of their disability, receive authorization of reasonable accommodations, discuss learning strategies, and arrange services. Disability Services is located in the Student Success Center in the Research and Information Commons. Students with disabilities in off-site programs can receive assistance from the Daemen College representative at their site to communicate with the Disability Services Coordinator and arrange accommodations and services. See also the College's policy on the accommodation of students with disabilities in the “Accreditation and Institutional Policies” section of this Catalog.

**Nancy Haberman Gacioch Center for Veterans**

The mission of the Gacioch Center for Veterans is to support veteran scholars and eligible family members’ success in postsecondary education by coordinating services to address their academic, financial, physical, and social needs. As a designated Military Friendly School and a participant in the Yellow Ribbon Program, Daemen College is committed to providing the best possible service to the men and women who have served our country. We recognize that the transition from military service to
Civilian life, including the rigors of pursuing a college degree, can be challenging—not only for students themselves but for their loved ones. The Gacioch Center for Veterans is part of the Division of Student Affairs and is coordinated under the Office of Diversity and Multicultural Affairs. Professional staff collaborate with various departments to provide assistance with the admissions process, financial information, academic support and advice, and liaison with other campus offices, including services for students with special needs. The Center can also help students navigate Veterans Administration and other community resources available to veterans and their families. A dedicated veteran student lounge provides a comfortable and welcoming environment for study and conversation.

**Registrar**

The Registrar’s Office provides the following services for graduate students:

- preparing course offerings for each term which are accessible (on the Search for Sections option on WebAdvisor) on the Daemen website;
- processing registrations for courses which require a permit to register;
- after the last day for drop/add, processing withdrawals from courses for students who submit a withdrawal form;
- processing final grades, as well as Incomplete and other grade changes, for publication on WebAdvisor;
- designing/revising/customizing evaluations for all programs (and approved curricular substitutions), thereby enabling students and advisors to monitor progress towards program completion and explore status on other programs;
- pending department chair’s approval, processing acceptable transfer studies for incoming and returning graduate students;
- verifying candidates for graduation/degree conferral; release of diplomas;
- verifying candidates for completion of certificate programs; preparation and release of certificates;
- processing and verifying changes in student status and general student directory information;
- processing transcript requests.
- processing professional licensure applications as appropriate.
ACADEMIC REGULATIONS AND STANDARDS

Departmental Policies
Graduate students are responsible for knowing and adhering to the academic policies and procedures specific to their graduate program. Full details on departmental policies may be found in the departmental sections of this Catalog.

Graduate Academic Standards
The Educational Policy Committee of Daemen College is responsible for advising the Dean of Graduate Studies, and thereby the Vice President for Academic Affairs and the President, on the graduate academic policies of the College. The Graduate Committee on Academic Standards is responsible for graduate admissions standards, the maintenance of academic standards for students in graduate programs, and review of student petitions for exceptions to graduate program policies. The office of the Dean of Graduate Studies (Associate Vice President for Academic Affairs/Associate Dean of the College) is in Duns Scotus Hall, Room 102.

Academic Regulations and Standards for linked undergraduate/graduate programs in Accounting, Athletic Training, Biology/Cytotechnology, Business Administration/International Business, Health Promotion/Public Health, Physical Therapy, and Physician Assistant Studies are found in the Undergraduate College Catalog.

ACADEMIC HONESTY
Academic dishonesty, of which cheating and plagiarism are the most common examples, is a serious violation of the principles of higher education. Daemen College takes the position that academic honesty is to be upheld with the highest degree of integrity. The College has a responsibility to support individual thought and the generation of new ideas. This cannot be done when violations of academic honesty go unchallenged.

Examples of academic dishonesty include, but are not limited to:

1. use of any unauthorized assistance in taking quizzes, tests, or examinations;
2. dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; or
3. the acquisition, without permission, of tests or other academic material belonging to a member of the College faculty or staff.
4. any form of plagiarism, which includes, but is not limited to:
   1. the use, by paraphrase or direct quotation, the published or unpublished work of another person
      without full and clear acknowledgement; or
   2. the unacknowledged use of materials prepared by another person or agency engaged in the selling
      or distributing of term papers or other academic materials; or
   3. submitting previously or simultaneously submitted work—in whole or in substantial part—from
      another course for academic credit in a second course, without prior and express consent of the
      instructor.

In an instance where there has been a violation of the principles of academic honesty, the instructor may
choose to follow one or more of a number of possible alternatives including but not limited to: (1)
automatic failure of the work; (2) automatic failure of the entire course; (3) recommending expulsion
from the degree program; or (4) recommending expulsion from the College. The student may appeal the
instructor’s determination in accordance with the Grade Appeal Procedure.

When a faculty member determines a violation of academic honesty has occurred, he/she will first notify
the student in writing. A copy of this letter, together with a written description of the case with
supporting evidence will also be submitted to the Dean of Graduate Studies. Should there be no
additional notifications of academic dishonesty, the initial record will be destroyed one year after the
student’s graduation from Daemen College.

Upon receipt of additional reported offenses, the Dean will formally present the materials in the file to
the Graduate Committee on Academic Standards for review and recommendation of any additional
sanctions beyond those imposed by the instructor. The Dean will also notify the student that the
materials will be the subject of Committee deliberation and will recommend that the student write a
letter regarding the offense to the Committee for purposes of clarification, explanation or denial.
Committee review will be held in a timely manner as determined by the Committee. All faculty members
who have reported offenses on the part of the student will be invited to participate in the deliberations.
In cases where expulsion is recommended, either from the degree program or the College, final
authority rests with the Dean of the College.

GENERAL CONDUCT REGULATION

The College reserves the right to dismiss or request the withdrawal of any student whose academic
standing, conduct, or manner renders his/her continued attendance at Daemen College undesirable.

Degree and Curricula Rules

DEGREE AND ADVANCED CERTIFICATE REQUIREMENTS
A student must complete a program of 30-65 (degree) or 6-30 (advanced certificate) semester hours with a minimum grade point average of 3.00 (equivalent to B) for graduation. In addition, they must complete all departmental requirements for the awarding of a graduate degree or certificate. Within his or her program, the student must fulfill all the requirements of the department in which the degree or certificate will be granted.

**CHANGE OF CURRICULA**

Daemen College reserves the right to make changes in all curricula. Students enrolled at Daemen College must meet all requirements if changed or amended by the College.

**COURSE LOAD**

A full-time course load is nine (9) credits per semester. In order to be considered for financial aid of any kind, a student must be registered for at least five credit hours per semester.

**PLAN OF STUDY**

In select graduate programs, the matriculated student is required to meet with his/her advisor to develop a Plan of Study to achieve his/her educational goals. Specific procedures and departmental timetables are referenced in the departmental sections of the Daemen website and the catalog. A Plan of Study is considered an important aspect of the student’s academic program, and students will not be permitted to register for additional courses until the Plan of Study has been submitted to the student’s graduate program office, in accordance with program requirements. It is the student’s responsibility to initiate the process required for completion of the Plan. Once the Plan of Study is approved, the student must ensure that the Plan is followed. The student must complete the specific courses listed on the Plan of Study. A student who wishes to modify his/her Plan of Study must meet with his/her advisor and make a new Plan of Study.

**GRADUATION REQUIREMENTS**

Degrees are conferred three times each year (January 15, May – date announced annually, September 30). One Commencement is held in May and is open for participation by that year’s January and May graduates. September graduates are eligible for participation in the Commencement ceremony held in the subsequent year. Participation in Commencement is available to degree candidates only. Candidates for a graduate degree or certificate from Daemen College must complete all courses on their Plan of Study and other program requirements with a minimum GPA of 3.00. In addition, they must complete all departmental requirements for the awarding of a graduate degree or certificate. All degree candidates must submit the Application for Degree by the first week of October for prospective January and May degree conferrals and by early June for September degree conferrals. (Consult the academic
calendar for the exact application due date.) All certificate candidates must submit the Application for Certificate in the semester prior to the final term of studies for completion of program requirements. The application for degree form is accessible on the Registrar’s web page; the application for certificate form is accessible on departmental web pages and in departmental offices. Completed applications should be returned to the Office of the Registrar, DS 123.

Transcripts or any document which is generally accepted in lieu of a transcript will not be sent for any student whose financial obligations to the college have not been met.

- Pending compliance with established criteria, there are instances when prospective September graduates may “walk” in the Commencement ceremony held in May of that same year. Eligibility criteria and applications are available on the Registrar’s web page.

Performance Standards

GRADE REPORTS

Grades are accessible to students online and are published at the end of each term.

GRADE APPEAL PROCEDURE

1. A student with questions or complaints about an assigned grade shall first discuss the matter with the course instructor within 30 days of receipt of the grade. In the event of the serious illness or absence from Western New York (or other instructional site vicinity) of either the student or the faculty member, an extension may be granted by the appropriate divisional dean. The instructor is expected to provide an appropriate explanation of the student's grade and, if the student’s appeal is meritorious, to be willing to change the grade.

2. If the student’s concerns remain unresolved following discussion with the instructor, the student may appeal in writing to the chair of the department in which the grade was given. This written appeal must be made within 15 days of the instructor’s determination in Step 1 above. All supporting documentation must be submitted at this time, with the written appeal. The department chair shall review the student’s appeal and consult with the course instructor. The department chair may support the instructor’s evaluation or may recommend to the instructor that the grade be changed. (If the department chair is the course instructor whose grade is under appeal, the divisional dean shall handle the appeal at this stage.) It will be the responsibility of the student to demonstrate that the grade should be changed.

3. Should the complaint still remain unresolved, the student’s appeal shall be forwarded to an ad hoc grade appeal committee, comprising: All full-time faculty within the department, including the department chair and, if fewer than three full-time faculty, members of the Departmental Personnel Advisory Committee. (See Faculty Handbook section V, C. for composition of a DPAC);, the dean of
the division in which the department is housed, unless the grade under appeal has been given by said
dean (or the dean is a member of the departmental faculty as described above), in which event, the
dean of the other division shall serve; and two faculty members from the Graduate Committee on
Academic Standards – one to be chosen by the student and one by the course instructor. If the grade
under appeal is given by a part-time faculty member, he or she will also be invited to join the
committee.

Formal minutes will be taken of the meeting. The first committee meeting will be called by the
department chair. If the grade under appeal has been given by the department chair, the first meeting
will be called by the divisional dean. The committee shall convene within two weeks of receiving the
written appeal. Members who are unable to be physically present may participate electronically. At the
discretion of the divisional dean, a member with extenuating circumstances may be excused from
participation and/or allowed to furnish his/her input in advance of the meeting. In cases where fewer
than three departmental faculty are in attendance, the dean may appoint faculty from the same division
to serve.

This committee shall examine all pertinent documentation, may interview the student and the course
instructor, in person or electronically, or consult with any other parties it may deem appropriate. The
divisional dean shall act in a non-voting, advisory capacity with regard to observance of all pertinent
College policies and procedures. The ad hoc grade appeal committee shall render its written decision to
the student and faculty member within seven days. The committee may recommend that the instructor
change the grade; if the instructor refuses, s/he shall provide a written explanation to the committee
within seven days. In the event of extenuating circumstances, this deadline may be extended at the
discretion of the divisional dean. Should the committee find the instructor’s explanation unpersuasive, it
will recommend to the department chair that the grade be changed. If, following consultation with the
instructor, the instructor still refuses to change the grade, the department chair shall have authority to
change the grade notwithstanding the objection of the instructor. (If the instructor is the department
chair, the divisional dean shall handle the chair’s duties here described.)

GRADING SCALE

Graduate students are required to maintain a minimum GPA of 3.00 on a 4.00 scale throughout their
academic program. Graduate courses will be graded on the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Superior achievement 4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.70</td>
</tr>
</tbody>
</table>
B+      Satisfactory          3.30
B         3.00
B-       Achievement below expectation          2.70
C         2.00
F         Failure; no academic credit          0.00
I         Incomplete          – – –
AU        Audit (satisfactory, but not for credit – – –
AX        Audit Unsatisfactory          – – –
W         Withdrawal          – – –

(given when courses are dropped after the last day for drop/add and no later than the last day for authorized withdrawal)

UW        Unauthorized Withdrawal          – – –

(may be given until midterm to students not attending but not officially withdrawn)

Grades of B- and C are considered unsatisfactory at the graduate level and may result in review of the student’s record by the Graduate Committee on Academic Standards.

The following graduate courses are graded on a Pass/Fail basis:

AE 579  Student Teaching and Seminar at the Intermediate Education Secondary Level (7-9) (content – specific)

AE 580  Student Teaching and Seminar at the Senior Secondary Level (10-12) (content – specific)

AE 699  Research Project in Education

CE 575  Student Teaching and Seminar in Childhood Education

CE 699  Research Project in Education

</tbody>
</table>

* May be graded Pass/Fail or using the graduate letter grade scale.

The mark of incomplete will be assigned only in cases of illness or prolonged or repeated absences for reasons beyond the control of the student, and only if the student has a substantial equity in the course. Unless an earlier deadline is given by the instructor, students receiving incomplete grades have until the end of the subsequent semester (regardless of enrollment in that semester) to complete the work. Students should consult with the course instructor regarding the exact date when all outstanding work for the course must be completed. (The student should not register for the course in that subsequent semester.) An incomplete grade which has not been repaired by the deadline will automatically be converted to a grade of “F” on the student’s transcript. At the instructor’s sole discretion, an Incomplete grade may be extended for an additional semester if circumstances warrant. Any further extension would require a formal petition from the student to the Graduate Committee on Academic Standards through the Dean of Graduate Studies, Duns Scotus Hall 102. A recommendation from the course instructor is required. Once an Incomplete grade turns to a grade of “F,” a student must re-register for the course if he/she wishes to earn credit for the course.

The grade of UW (unauthorized withdrawal) is given at mid-term to students who are not attending class but who have not officially withdrawn. There is no tuition refund for an unauthorized withdrawal.
Students may not resume attendance in classes for which UW grades have been assigned. Any student wishing to appeal the assignment of a UW grade should consult with the instructor assigning the grade, and may appeal to the Graduate Committee on Academic Standards if the matter is not resolved at the student-instructor level.

GRADUATE THESIS/PROJECT GRADING POLICIES

Specific details on graduate thesis/project requirements for each program may be found in the departmental sections of the Daemen web site and this Catalog. For those graduate programs offering thesis/project for variable credit — allowing a student to register over several terms until the thesis/project is completed — the following grading procedure is used. Either the grade of P (pass) or F (fail) is assigned in all semesters preceding the final semester of registration. The Pass grade carries credit, has no quality point value, and reflects satisfactory work in progress. The F grade reflects credit attempted but not earned and carries a quality point value of 0, thereby requiring that the student re-register for and successfully complete the course in order to be granted credit. In the final semester of registration for thesis/project, the earned grade (Pass, Pass Complete (PC), Fail or letter grade, as per individual program policy) is given. A grade of Incomplete (I) may also be given, if warranted, allowing a student an additional semester for thesis/project completion.

ACADEMIC STANDING: PROBATION, DISMISSAL, APPEAL

A graduate student whose semester or cumulative GPA falls below 3.00 in any one term is automatically placed on probation and will receive written notification of his/her status from the Dean of Graduate Studies. The student’s academic record will be reviewed by the Graduate Committee on Academic Standards. A student incurring academic probation: a) is required to meet with his or her advisor and b) must fully comply with all recommendations of the Graduate Committee on Academic Standards. Failure to attain good academic standing will result in dismissal from the College. A student who gives evidence of very poor scholarship may be subject to dismissal at the end of any semester whether or not he or she previously incurred probation.

Students may appeal decisions of the Graduate Committee on Academic Standards by writing the committee in care of the Dean of Graduate Studies (Associate Vice President for Academic Affairs). Appeals are to include pertinent supporting documentation, recommendations from faculty, and substantial evidence of the student’s ability to improve his or her academic performance.

ATTENDANCE

Regular and prompt attendance is expected at all classes and officially scheduled programs and activities. A student who is absent from class for any reason whatsoever will be required to make up the work to the satisfaction of the instructor. A student anticipating or having a prolonged absence (over
two consecutive class sessions) should report this absence to his/her graduate program director, who will convey this information to the appropriate instructors.

DEFERRED EXAMINATIONS

Arrangements for late examinations must be made with the instructor(s). Ordinarily, at the discretion of the instructor, the examination must be taken within one month of the scheduled date. The instructor will submit a grade of Incomplete (I) in such cases. Failure to comply will result in an automatic grade of F.

REPEATING A COURSE

It may be necessary for a student to repeat a course to achieve a satisfactory grade. Students are encouraged to discuss the matter with their advisors. When a course is repeated, only the higher grade is used in computing the student's GPA, although both grades appear on the transcript. A student who earns below a B when repeating a course will be subject to review by the Graduate Committee on Academic Standards.

RESIDENCY REQUIREMENTS/ALTERNATIVE METHODS FOR COMPLETION OF PROGRAM REQUIREMENTS

Students who have completed graduate courses at another institution may satisfy up to 40% of Daemen graduate credits by transferring credits from another graduate program, successfully completing Daemen challenge exams or earning credit via the Credit for Learning from Life Experience (CLLE) Program. Ordinarily, no more than eight graduate credits may be earned through challenge or CLLE.

TRANSFERRING GRADUATE CREDITS

Acceptance of transfer credits from other graduate programs must be authorized by the director of the student’s graduate program. In order to have such coursework considered for transfer, the student should write a letter to his/her graduate program director describing the course(s) taken, and indicating which program requirement(s) the transfer credits are intended to satisfy (e.g., elective credits) and must include a syllabus or catalog description of the course. The student must also arrange to have an official transcript, referencing the coursework completed and final grade earned (minimum grade of B is required), forwarded to the graduate program director. The graduate faculty will evaluate the appropriateness of the proposed transfer credit and, if credit is being accepted, will forward such determination along with the official transcript to the Registrar.

Grades (and quality points) are not recorded for transferred credits.

COURSE CHALLENGE EXAMINATIONS
On occasion, a graduate student may potentially have achieved graduate-level mastery of a course in the curriculum through professional or prior educational activities. Students should contact the appropriate graduate program office for information regarding the procedures for completion of a challenge examination. The student must also petition the Graduate Committee on Academic Standards for permission to complete a challenge examination. Ordinarily, no more than eight graduate credits may be earned through challenge or Credit for Learning from Life Experience (see below).

**CREDIT FOR LEARNING FROM LIFE EXPERIENCE**

There are instances when a student’s occupational or avocational life experiences are such that they result in knowledge acquired which may be equivalent to one or more graduate program requirements. Credit for such experience may be granted via the Credit for Learning from Life Experience (CLLE) program. Criteria for granting CLLE credit vary depending upon the course work and/or graduate program in which one is seeking credit. Students should consult with the appropriate graduate faculty for further details. The student seeking CLLE credit must petition the Graduate Committee on Academic Standards for the granting of such credit. The Committee will solicit a recommendation from the appropriate graduate faculty via the program director. Evaluative criteria will be determined by the appropriate graduate faculty and may be in the form of an oral or verbal examination, performance evaluation or any combination thereof. Ordinarily, no more than eight graduate credits may be earned through CLLE or challenge examination.

**GRADUATE PROGRAMS OF STUDY**

Students should note that enrollment in other than registered or otherwise approved programs may jeopardize eligibility for certain student aid awards. Daemen College is authorized by the Board of Regents of the State of New York to award degrees and certificates. Following is a listing of graduate degree and certificate programs registered by the New York State Education Department. The number prefixes are the HEGIS codes assigned by the New York State Education Department when programs are registered. All Daemen College programs are approved by the New York State Education Department for the training of veterans and other eligible persons.

* *dual degree program leading to BS/MS degrees – separate degree conferral*

### Global Programs (Study Abroad)

#### Overview

Graduate students are able to pursue global experiences which are designed to enhance their academic careers. Students participate in traditional academic experiences, comparative cross-cultural programs, service learning, medical missions, research, and clinical experiences. To learn more about Daemen's study abroad programs, contact the Global Programs Office at international@daemen.edu.

#### Study Abroad Opportunities

*Study Abroad for Education Students*

Daemen College is partnered with the University of Jyväskylä in Finland. Opportunities exist for
research and exchange. Students should seek information from Elizabeth Wright, Divisional Dean of Health and Human Services.

**Study Abroad for Physical Therapy Students**
PT students are able to complete one of their clinical placements abroad. Space is very limited and interested students should speak with Dr. Theresa Kolodziej for further information.

**Study Abroad for Physician Assistants**
PA students are very involved in the student-run Students Without Borders (SWOB) club. During January, the club goes on a medical mission that provides care to communities in the Dominican Republic.

**Study Abroad for Public Health Students**
MPH students have the opportunity to fulfill their practicum and/or conduct research for their capstone project abroad. Examples of these experiences include working with the NIH in Portugal, community research in Uganda, community health promotion in the Dominican Republic, and potential exchange with the University of Botswana.

**Study Abroad Requirements**
Students who intend to study, intern, volunteer, or conduct research abroad must have at least a 3.0 GPA and must have their proposed course work approved by their Department Chair and the Global Programs Office prior to departure. Students are required to adhere to the Code of Conduct of the program in which they are participating and with Daemen's Code of Conduct.

**REGISTRATION**
Registration for new graduate students is carried out individually by appointment in the student’s graduate program office. New students register on a rolling basis following submission of the tuition deposit. At that time, the student will meet with his/her advisor to review any transfer credit, review graduate program policies and, if appropriate to the graduate program, develop one's Plan of Study. Online registration may be processed at that time or the advisor may approve the plan during the meeting and then have the student complete his/her registration online. Depending upon departmental policy, returning students may advance register in their graduate program office or by submitting their electronic worksheet to the advisor. The student will receive email notification once the advisor approves the plan, thereby enabling the student to register online. **NOTE:** The advisor’s approval of the plan does not constitute registration in courses, i.e., the student must complete the online registration process in order to be registered in courses.

Registration windows open in November for the Spring and Intersemester terms and in April for the Fall and Summer terms. Registration windows remain open throughout the drop/add period for the term.
Some courses require special permission in order to enroll, thereby requiring that a student complete the appropriate permit form (forms may be downloaded from the Registrar’s web page) and submit the fully signed form to either the Registrar’s office or the advisor. Students may check their registration online on WebAdvisor. In order to register, students must comply with New York State immunization laws.

In the event of cancellation of a scheduled class by the College, any students registered in the class will be notified via their Daemen email account or telephone and recommended to contact their faculty advisor and/or graduate program office for assistance in selecting a replacement class. Every effort is made to ensure that students are informed of cancellations as expeditiously as possible and effectively assisted in revising their schedules.

**CHANGES IN REGISTRATION/COURSE WITHDRAWALS**

There are two types of changes which may be made to a student’s schedule:

1. **Drop/Add**: completed online during the first week of classes (exact dates are published in the Academic Calendar on the Daemen web page). Drops processed during the drop/add period are not reflected on the transcript.

2. **Authorized Withdrawal**: completed in the Registration office. After the last date for drop/add, a student wishing to withdraw from a course must file an official withdrawal form (and secure all required signatures) by the last date for authorized withdrawal for the term (approximately two-thirds of the way through the term; exact date is published in the Academic Calendar published on the Daemen web page).

Please note that discontinuance of attendance or notice to the instructor does not constitute an official withdrawal and may result in a grade of Unauthorized Withdrawal (UW) or a failing grade in the course. In exceptional cases, the student may petition the Graduate Committee on Academic Standards through the Associate Vice President for Academic Affairs/Dean of Graduate Studies for an authorized late withdrawal. A written recommendation from the student’s advisor, course instructor(s) and appropriate documentation of the reason for the withdrawal request must be provided to the Committee. A petition for a late withdrawal will not be considered after a final exam for that course has been taken or equivalent assignments (e.g., final project) have been submitted.

Authorized withdrawals are reflected on the transcript. Students are advised to refer to the Financial Information section of this bulletin for financial implications applicable to authorized withdrawals.

**CHANGE OF NAME OR ADDRESS**
As soon as possible after any change of name and/or address occurs, students should notify the Registrar’s Office. The Change of Address form may be downloaded from the Registrar’s web page. Name changes will be executed only when the change form is accompanied by a copy of the legal document which verifies the name change. Students whose permanent address is in a foreign country (excluding Canada) must supply a local address and telephone number.

ELECTRONIC MAIL

Every student currently enrolled at Daemen College is furnished with a Daemen email account. The Daemen email account will remain active during periods when a student is on a leave of absence. Certain important notices may be sent only via email to the student’s Daemen email account. Such announcements will include but are not limited to: opening of advance registration windows; call for applications for graduation. Students are responsible for checking their Daemen email account on a regular basis.

CHANGE OF PROGRAM

Students desiring to change graduate program may apply directly to the program in which they want to enroll. Students should consult with the program director regarding program admission criteria and application procedures. An exit interview with the director of one’s previous graduate program is required. A Change of Graduate Program Form, available in the Registration Office, must be filed.

WITHDRAWAL FROM THE COLLEGE

A student who withdraws from the College before completing his/her graduate program is required to fill out a Leave of Absence/Withdrawal form, available in the Office of Academic Advisement (Student Success Center-RIC, first floor) and online from the web pages of the offices of Academic Advisement and Registrar. Upon completing the form, the student arranges for an exit interview with a staff member of the Academic Advisement office, as well as the graduate program director. Upon completion of these exit interviews, the withdrawal process is finalized. Withdrawal necessitates a formal application to the Office of Admissions for readmission. A student accepted for readmission following withdrawal must meet all requirements in force at the time of the student’s return to Daemen College.

If a student wishes to withdraw from the College after the last date for authorized withdrawal, a formal petition for withdrawal from all classes must be presented to the Dean of Graduate Studies for review by the Graduate Committee on Academic Standards as described above.

LEAVE OF ABSENCE
A leave of absence from the graduate program may be granted to students for reasons other than academic difficulty for up to one full year after the end of the semester in progress. Any matriculated graduate student who is not enrolled in Daemen coursework in a given semester must file a leave of absence for that semester. The leave requires approval by the Graduate Program Director and the Office of Academic Advisement and begins after the end of the semester in progress. Students desiring a leave of absence should complete the Leave of Absence/Withdrawal form available online (accessible from the Academic Advisement and Registrar’s offices web pages) and in the Office of Academic Advisement. The student must indicate his/her intended date of return to the College on the form. If the student does not return to the college by the appropriate date, he/she will be considered as having withdrawn from the College. Withdrawal necessitates a formal application to the Office of Admissions for readmission. Students returning from a Leave of Absence or accepted for readmission following Withdrawal from the College must meet all requirements which are in force at the time of the student’s return to Daemen College.

**Policy for veteran students**: Once enrolled and certified as a Daemen student, should there be a need to suspend study due to service requirements, a veteran student may withdraw from courses with no financial liability. Depending upon the duration of service required, other options may be available to students who feel they have significant investment in the semester and who do not wish to withdraw from a semester entirely. In each case, the student must notify the Veterans’ Certification Officer of the impending service requirement and discuss the financial options available. Regardless of the financial option chosen as a result of the service requirement, all service members may return to their academic program upon completion of service requirements.

**TIME LIMITATIONS FOR COMPLETION OF PROGRAM**

Graduate students are expected to maintain continuity in their academic programs. Each program also stipulates that all requirements for the graduate degree or certificate must be completed within a specified period of time from the student’s initial registration for graduate study, regardless of whether the student was initially accepted as a degree or non-degree student. For the specific requirements of each graduate program, consult the departmental sections of the Catalog.

Periods of time spent on officially granted leaves of absence are not included in the computation of time for completion of the degree/certificate. Extension of the time limit may be granted when circumstances warrant. The student is responsible for writing an extension request which specifies the reasons for the extension and the amount of additional time needed. The request must first be approved by the graduate program director and then by the Dean of Graduate Studies.

Extensions will not normally exceed one year. The maximum extension which may be granted is two years. A student who withdraws and is later readmitted to a graduate program is not automatically
granted additional time to complete his or her studies. The Dean of Graduate Studies will review each situation individually in conjunction with the director of the student's graduate program.

Application for readmission requires payment of the application fee.

**TRANSCRIPTS**

Transcripts are released only by written permission of the student. Official transcripts may be sent to outside parties; students generally receive a student copy. The student’s signature must be included on the request, which may be delivered, faxed, or sent to the Office of the Registrar. Students may complete the transcript request form (downloaded from the Registrar’s web page) or send a letter of request. Processing time is generally 3-5 business days from the date of receipt of the request, longer during peak periods. Consult the Registrar’s web page or the Registrar’s Office for further details. The transcript reflects both undergraduate and graduate studies at Daemen. Transcript fees, $5.00 per transcript, are the responsibility of the student. Transcript fees must be paid in full when the request for a transcript is submitted. Payment options are referenced on the Registrar’s web page. Transcripts or any document which is generally accepted in lieu of a transcript (including licensure applications for professional programs) will not be sent for any student whose financial obligations to the College have not been satisfied.

**AUDITING**

Auditing of graduate courses is subject to the permission of the instructor and graduate program director. Auditing of courses is also subject to space availability. A student must complete and file with the Registrar the Permit to Audit Form, include the course(s) as AUDIT on their semester load, and pay the appropriate fee, if applicable.
APPLIED BEHAVIOR ANALYSIS GRADUATE PROGRAMS

Master of Science and Advanced Certificate ABA Programs

These programs are for individuals seeking licensure in behavior analysis from the State of New York. For more information about licensure requirements, please visit: https://www.op.nysed.gov/prof/aba/.

Admission

In addition to satisfying the general criteria for graduate admission to Daemen College, applicants must:

1. For the Master’s Degree Program, possess a Bachelor’s degree (from an accredited college or university) in: Education; Special Education; Psychology; Applied Behavior Analysis; or a related field that specifically addresses learning or behavioral changes;
2. For the Advanced Certificate Program, possess a Master’s degree (from an accredited college or university) in: Education; Special Education; Psychology; or Applied Behavior Analysis;
3. Possess a 3.0 GPA in their accredited Bachelor’s degree program;
4. Submit scores from the Graduate Record Exam (GRE). School code for GRE scores: 2762;
5. Submit two letters of recommendation, preferably including one professional reference and one character reference;
6. Participate in a personal interview with the ABA Program Director, Vicki Madaus Knapp; Ph.D., BCBA-D, LBA;
7. Provide a written statement describing personal and educational goals and objectives; and
8. Provide a copy of a current resume, including all certifications and licensures.

Additional Program Requirements

1. Students enrolled in the Master’s in ABA or the ABA Advanced Certificate must maintain a cumulative grade point average of 3.0 or above (on a 4.00 scale);
2. The Graduate Committee on Academic Standards will be notified if a student falls below a 3.0 grade point average;
3. Students who receive a course grade below 3.0 may repeat said course one time; failure to achieve a 3.0 on the second attempt will be grounds for academic dismissal;
4. Students who are found to have engaged in unethical conduct during SED 714: Supervised Practicum and Seminar in Applied Behavior Analysis will automatically fail the course. Depending upon the circumstances, a determination may be made for students to reenroll in the course in a subsequent semester.
ABA Department Mission

Daemen College, through its Applied Behavior Analysis (ABA) programs, will prepare and inspire students to become licensed and certified independent practitioners of ABA services in settings that promote ethical and professional practice, diversity, and lifelong learning.

ABA Department Philosophy

The Philosophy of the Applied Behavior Analysis (ABA) Program at Daemen College is to encourage, foster, and promote, within all student cohorts, a commitment to compassionate, informed, and ethical therapy through evidenced-based treatment of persons with Autism Spectrum Disorders (ASDs). ABA faculty will prepare students for licensure and certification eligibility leading to careers as independent practitioners of ABA services. These practitioners will understand and uphold laws, rules, and regulations that govern the practice of behavior analysts. Graduates of Daemen’s ABA Program will recognize the importance of advancing competency, professionalism, and life-long learning within the field, and seek out opportunities to engage in dialogue and reflection surrounding the practice of ABA. Daemen ABA graduates will assume leadership roles in efforts to recognize and respond to emerging and evolving trends in the field. Through research and clinical experiences, these graduates will have developed a keen appreciation of the value of assessment and its role in improving outcomes. Finally, graduates of Daemen’s ABA Program will foster community understanding regarding equity and in providing for the needs of diverse populations. Housed in the Daemen College Education Department, the ABA learning community exists within the broader learning community of the College and its wider constituencies, where resources, support services, technology, information, and an ethic of inclusivity empower both faculty and students.

Capstone Experience

Students admitted to the Master’s Degree program are required to complete a capstone experience at the end of their program of study. Graduate research is carried out during the course SED 722: Capstone Research Project. Based on personal career goals and with faculty advisement, candidates will complete a thesis in partial fulfillment of degree requirements. The thesis is prepared under the direction of the major department and should demonstrate capacity for independent research and scholarly writing. The thesis must receive the approval of the Department Graduate Committee and must comply with Human Subjects Research Review Committee guidelines, if applicable. A candidate for the oral presentation and defense of thesis must:

1. be an admitted degree candidate;
2. be finished with all major area course requirements by the end of the semester in which the SED 722 course is taken;
3. be able to provide the examining committee with copies of the completed thesis a minimum of two weeks prior to the oral presentation;
4. have a graduate grade point average of 3.00 or higher.

Early in the graduate program, M.S. degree candidates will consult with their faculty advisor and begin to formulate a plan for their research project. After familiarizing him/herself with the research interests of the faculty, the candidate, with guidance from his/her advisor, will choose a two-person research committee consisting of:

1. a primary member who must be a full-time or part-time faculty member with research experience or expertise in the area of study;
2. a secondary member who may be either a full- or part-time faculty member or an adjunct graduate faculty member.

The candidate will design and execute a research project with guidance from his or her committee. The detailed process for completion of research is laid out in the course syllabus.

The candidate will prepare a research manuscript in a format suitable for submission for publication. The candidate will also present his/her research orally within the College or professional community. Such presentation requires the presence of at least one member of the research committee. Any proposed investigation involving human subjects must be reviewed and approved by Daemen College’s Human Subjects Research Review Committee. The HSRRC Guidelines are published on the Daemen College website.

**M.S. IN APPLIED BEHAVIOR ANALYSIS**

**REQUIREMENTS**

- SED700 Applied Behavior Analysis (3)
- SED702 Behavior Measurement and Assessment (3)
- SED704 Functional Assessment (3)
- SED706 Research Methods and Experimental Design (3)
- SED708 Ethics and Professional Conduct (3)
- SED710 Behavior Change Procedures (3)
- SED712 Autism Spectrum Disorders (3)
- SED714 Supervised Practicum and Seminar in Applied Behavior Analysis (2)
- SED716 Maintenance of Client Records (2)
- SED718 Issues of Cultural and Ethnic Diversity (3)
- SED722 Applied Behavior Analysis Capstone Research Project (3)

**TOTAL PROGRAM REQUIREMENTS = 31 CREDITS**
COURSE REPEATS

It may be necessary for a student to repeat a course to achieve a satisfactory grade. Students are encouraged to discuss the matter with their Graduate Faculty Advisor. Students must earn a minimum grade of B when repeating a course.

REQUIREMENTS FOR GRADUATION

1. Completion of all course work as defined on the student’s Plan of Study;
2. A minimum grade of B earned in all courses, thereby resulting in a minimum cumulative grade point average of 3.00;
3. All degree students are required to file an Application for Degree form with the Registrar's Office at the onset of the final term of study. The Application for Degree form is accessible from the Registrar’s web page.

ADDITIONAL REQUIREMENTS FOR LICENSURE

Consult the Applied Behavior Analysis Program for further information.

TIME LIMITATION

A student admitted to the program is expected to maintain continuity in his/her academic program and enroll each semester until all requirements are completed. Normally, a part time student should complete a minimum of three (3) credits per semester. Full time students must complete a minimum of nine (9) credits per semester. All requirements for the Master of Science degree must be completed within a period of five years from the student’s enrollment for graduate study. For information on leaves of absence and extensions, consult the Academic Regulations and Standards section in the electronic catalog, Graduate Section, on the Daemen web page or in the Graduate Catalog.

ADVANCED CERTIFICATE IN APPLIED BEHAVIOR ANALYSIS

REQUIREMENTS

- SED700 Applied Behavior Analysis (3)
- SED702 Behavior Measurement and Assessment (3)
- SED704 Functional Assessment (3)
- SED706 Research Methods and Experimental Design (3)
- SED708 Ethics and Professional Conduct (3)
- SED710 Behavior Change Procedures (3)
- SED712 Autism Spectrum Disorders (3)
- SED714 Supervised Practicum and Seminar in Applied Behavior Analysis (2)
- SED716 Maintenance of Client Records (2)
- SED718 Issues of Cultural and Ethnic Diversity (3)

**TOTAL PROGRAM REQUIREMENTS = 28 CREDITS**

**COURSE REPEATS**

It may be necessary for a student to repeat a course to achieve a satisfactory grade. Students are encouraged to discuss the matter with their Graduate Faculty Advisor. Students must earn a minimum grade of B when repeating a course.

**REQUIREMENTS FOR COMPLETION**

1. Completion of all course work as defined on the student’s Plan of Study;
2. A minimum grade of B earned in all courses, thereby resulting in a minimum cumulative grade point average of 3.00;
3. All Advanced Certification students are required to file an Application for Certificate form with the Registrar’s Office at the onset of the final term of study. The Application for Certificate form is accessible from the Registrar’s office.

**ADDITIONAL REQUIREMENTS FOR LICENSURE**

Consult the Applied Behavior Analysis Program for further information.

**TIME LIMITATION**

A student admitted to the program is expected to maintain continuity in his/her academic program and enroll each semester until all requirements are completed. Normally, a part time student should complete a minimum of three (3) credits per semester. Full time students must complete a minimum of nine (9) credits per semester. All requirements for the Advanced Certificate must be completed within a period of five years from the student’s enrollment for graduate study. For information on leaves of absence and extensions, consult the Academic Regulations and Standards section in the electronic catalog, Graduate Section, on the Daemen web page, and in the Graduate Bulletin.

**Suggested Course Sequence**

Use this link to access the suggested course sequences for the MS, Applied Behavior Analysis and Adv Cert, Applied Behavior Analysis
Applied Behavior Analysis Program: Non-NY Distance Education/Non-Degree

This program is for students outside New York State ONLY. These courses are to be taken as online/distance education ONLY. There is no degree or certificate from Daemen College at completion of below courses.

Courses Available

- SED700 Applied Behavior Analysis (3)
- SED702 Behavioral Measurement and Assessment (3)
- SED704 Functional Assessment (3)
- SED706 Research Methods and Experimental Design (3)
- SED708 Ethics and Professional Conduct (3)
- SED710 Behavior Change Procedures (3)
Program Description

The MS in Arts Administration is offered by the Department of Visual and Performing Arts in partnership with the Daemen College program in Executive Leadership and Change. The program, which is aimed at students with an interest in working within the not-for-profit cultural community as administrators or managers, is unique in that it places balanced emphasis both on a foundation in business courses and on practical experience with some of the numerous not-for-profit organizations in Buffalo. Graduates will find themselves positioned to seek jobs and careers in the not-for-profit cultural sector, working with some of the museums, galleries, theatres, dance companies, symphonies, and other agencies that represent, serve, foster or nurture artists and the arts throughout the USA or world-wide.

This program is suited to both students who wish to hone a particular skill or pursue a career as an artist and those who see themselves working as part of a team or organization or in a position that fosters, supports, presents, or promotes any one of numerous artistic disciplines.

Faculty are drawn from the College’s departments of Visual & Performing Arts, Business Administration, and Executive Leadership and Change. Instructors in the program include nationally recognized professionals whose accomplishments and interests encompass business leadership, corporate management, and fundraising as well as professional and organizational contributions to the visual and performing arts in the USA, Britain, China, and elsewhere.

Candidacy/Eligibility Requirements

STUDENTS ENTERING THE MS PROGRAM MUST HAVE:

- A bachelor’s degree from an accredited institution;
- Completed prerequisite studies in Art and Business Administration as specified following a review by the Arts Administration director. Students entering the program with a bachelor’s degree should ideally have completed a minimum of 12 credit hours of a Business curriculum and 12 hours of an Arts curriculum. It is recognized, however, that students will come from a variety of academic backgrounds. Candidates are therefore urged to consult the Program Director to discuss their transcripts and/or eligibility and/or the possible need to complete prerequisite studies.
- A demonstrable interest in the arts, determined by a) an interview with the Program Director and b) a personal written statement that also speaks to the applicant’s career and educational goals;
• At least two letters of recommendation;
• Undergraduate GPA of at least 2.75, or GRE/GMAT scores that indicate an appropriate level of academic ability.

REQUIRED COURSES

• ARTA501 Arts Administration Overview (3)
• ARTA535 Professional Seminar in Arts Administration: Visiting Lecturer Series (3)
• ARTA550 Practicum Seminar in Arts Administration & Management (Graduate level) (3)
• ARTA640 Arts Administration Thesis Project (3)
• ARTA650 Capstone in Arts Administration (3)
• LEAF513 Developing Leadership Skills: One-on-One Leadership, Conflict Management, and Team Building (3)
• LEAF514 Leadership and Community: Empowerment, Collaboration and Dialogue (3)
• LEAF515 The Business of Leadership: Financial, Organizational, and Cultural (3)
• LEAF529 Transformational Leadership and Organizational Change (3)
• LEAF530 Modeling, Branding and Marketing Your Leadership (3)

TOTAL PROGRAM REQUIREMENTS = 30 CREDITS

Practical Experience

A distinctive feature of the program is the emphasis on practical experience with a number of the diverse arts organizations, large and small, that form Western New York's rich cultural landscape. Course work such as the Practicum in Arts Administration and the Professional Seminar in Arts Administration may be evaluated by arts professionals in consultation with the Program Director. Students will be expected to demonstrate both academic excellence and professionalism in all courses and classes, whether their work is on campus, on site at one or more of the not-for-profit cultural organizations associated with the program, or in association with arts professionals or administrators within the cultural community.

Time Limitation for Degree Completion

Excluding an approved leave of absence, all requirements for the MS, Arts Administration, must be completed within a period of four (4) calendar years, effective from the first date of matriculation in the program.

Requirements for Graduation
• Application for Degree: All graduate students are required to file an Application for Degree form with the Registrar’s Office at the onset of the final term of study. The application is accessible on the Registrar’s web page.
• Minimum grade point average (GPA) of 3.00.
Visual and Performing Arts Courses

Arts Administration

ARTA 501: Arts Administration Overview
3 Credit Hour(s)
This course provides an overview of most aspects of not-for-profit arts administration through site visits to leading professional organizations (theatre, galleries, etc) in Buffalo. Students will also gain hands-on experience in gallery administration, curating, public relations and marketing. Prerequisite: Graduate Status.
Session: As Needed
Year: As Needed (GR)

ARTA 535: Professional Seminar in Arts Administration: Visiting Lecturer Series
3 Credit Hour(s)
This course will utilize the expertise of area arts professionals who will interact with students over the course of one five week session. This format allows for in-depth discussions about a particular arts environment, and will allow student to see first-hand how area professionals approach planning, research, and problem solving. Prerequisites: Graduate Status and ARTA-501 or Permission of Instructor.
Session: As Needed
Year: As Needed (GR)

ARTA 550: Practicum Seminar in Arts Administration and Management
3 Credit Hour(s)
Students participating in this seminar will intern at one of Buffalo's leading arts organizations, where they will gain experience by working on a special project or by assisting a key arts manager or executive. Prerequisites: Graduate Status and ARTA-535 or Permission of Instructor. (GR)
ARTA 640: Arts Administration Thesis Project

3 Credit Hour(s)

A semi-independent study that entails research conducted under the supervision of a faculty member, and that builds directly on an internship or administrative assistantship with a participating not-for-profit cultural organization, this course will be geared towards the development, completion, and acceptance (by the participating cultural organization) of a fully realized project, proposal, or portfolio. Examples of completed projects might include (but are not limited to) strategic plans, project grants or funding proposals, marketing, fundraising, subscription or audience development plans, arts-in-education programs, print campaigns, audio or video guides for patrons, websites, etc. Prerequisites: Graduate Status and ARTA-535 or Permission of Instructor.

Session: As Needed
Year: As Needed (GR)

ARTA 650: Capstone in Arts Administration

3 Credit Hour(s)

This course seeks to synthesize the content of previous Arts Administration and Leadership courses and prepare students for public presentation of their research. Prerequisites: Graduate Status and ARTA-535 or Permission of Instructor.

Session: As Needed
Year: As Needed (GR)
DIRECT ENTRY MS, ATHLETIC TRAINING

1. ATHLETIC TRAINING (65 CREDITS):
   - ATH500/L Introduction to Emergency Athletic Care (3/0)
   - ATH501/L Foundations of Athletic Training I (2/0)
   - ATH502 Foundations of Athletic Training II (2)
   - ATH509/L Gross Anatomy (6/0)
   - ATH510/L-511/L Pathology and Clinical Examination I/II (4/0; 4/0)
   - ATH512 Neuroscience (2)
   - ATH515/L Musculoskeletal Fitness Assessment and Training (3/0)
   - ATH520/L Therapeutic Agents (4/0)
   - ATH521 Pharmacology in Sports Medicine (2)
   - ATH522 General Medical Conditions (3)
   - ATH523/L Therapeutic Intervention (4/0)
   - ATH524 Sports Nutrition (2)
   - ATH525 Organization and Administration in Athletic Training (3)
   - ATH530 Psychosocial Aspects in Athletic Training (3)
   - ATH580 Research Methods (3)
   - ATH581/582 Research Seminar I/II (1/2)

MS: TOTAL PROGRAM REQUIREMENTS = 65 CREDITS

Admissions Requirements

1. Baccalaureate degree.
2. Minimum overall GPA of 2.75.
3. Completion of the following prerequisite courses with a minimum grade of C and combined prerequisite GPA of 2.75: anatomy with lab (4 credits); physiology with lab (4 credits); exercise physiology (3 credits); kinesiology/biomechanics (3 credits); nutrition (3 credits); chemistry with lab (4 credits); physics with lab (4 credits); psychology (3 credits); statistics (3 credits).
4. Applicants must submit documentation of at least 50 hours of athletic training exposure under the supervision of a BOC Certified Athletic Trainer, with 15 of these hours being in a traditional Athletic Training setting such as a high school or college. Applicants may use the Daemen Athletic Training Student Observation Record Form available on the Athletic Training website or submit a letter signed by a BOC Certified Athletic Trainer with dates, number of hours, and setting.
5. Applicants must submit two character references (one must be completed by a BOC Certified Athletic Trainer). Applicants may use the Graduate Reference report available on the Daemen Athletic Training website.

6. Applicants must submit a biographical sketch (brief narrative, no longer than two pages double spaced, describing their goal/philosophy related to a personal, academic, professional and service development, interest in athletic training, and/or relevant background in another allied health profession).

7. Applicants must submit copies of current CPR/AED and First Aid certification.

8. Applicants must submit a signed Technical Standards Verification form.

9. Applicants must submit a resume.

10. Submit Application materials through ATCAS.

NOTE:

- Consideration will be given to applicants with an overall and/or prerequisite GPA of 2.75 to 2.5 if the applicant demonstrates evidence to succeed as determined by the Athletic Training Department, which may include, but is not limited to:
  - evaluation of their last 60 credit hours;
  - evaluation of their Athletic Training Program Admission interview.
- Conditional Acceptance may be considered if an applicant:
  - is in his/her final semester of a Bachelor degree program;
  - is in the process of completing prerequisite coursework or other requirements;
  - is deficient in no more than one (1) prerequisite course. That course must be successfully completed by the start of his/her first fall semester of the Athletic Training Program.

Requirements for Continuance in the Program

Detailed information on policies relative to academic requirements to maintain good academic standing in the program is available from the Athletic Training Department and is also published in the Athletic Training Student Handbook.

Graduation Requirements

1. All students must satisfactorily complete all requirements of the Athletic Training Department.
2. All students must complete a minimum of 800 clinical education experience hours.
3. All students must have a cumulative grade point average (GPA) of 2.75.
4. All students must earn a letter grade of C or better in all Athletic Training Program courses.

Suggested Course Sequence

Access the suggested course sequence for the Direct Entry MS, Athletic Training, from the Athletic Training Department web page or the Program Plans site on the Registrar’s web page.
ATH 500: Introduction to Emergency Athletic Care

3 Credit Hour(s)

This lecture/lab course will present the roles and responsibilities of the Athletic Trainer and Sports Medicine Team and the basic principles in the prevention, recognition, and care of acute, traumatic and exertional athletic injuries/illnesses. Topics will include: risk management, blood-borne pathogen training, life-threatening conditions, CPR/AED certification, head and spine injury management (stabilization and equipment removal), musculoskeletal injury, selected taping/wrapping techniques, environmental considerations, and sudden medical illnesses. Students will be expected to recognize unsafe environments and develop critical thinking strategies to act appropriately during athletic emergencies. Students will also demonstrate emergency care skill consistent with National Athletic Trainers' Association position statements. Prerequisite: Admission into the Athletic Training Program. Students must pass ATH 509/L with a C or better in order to progress to ATH 500.

Session: Summer
Year: All Years (GR)

ATH 500L: Intro to Emergency Athletic Care Lab

0 Credit Hour(s)

This lecture/lab course will present the roles and responsibilities of the Athletic Trainer and Sports Medicine Team and the basic principles in the prevention, recognition, and care of acute, traumatic and exertional athletic injuries/illnesses. Topics will include: risk management, blood-borne pathogen training, life-threatening conditions, CPR/AED certification, head and spine injury management (stabilization and equipment removal), musculoskeletal injury, selected taping/wrapping techniques, environmental considerations, and sudden medical illnesses. Students will be expected to recognize unsafe environments and develop critical thinking strategies to act appropriately during athletic emergencies. Students will also demonstrate emergency care skill consistent with National Athletic Trainers' Association position statements. Prerequisite: Admission into the Athletic Training Program.

Session: Summer
Year: All Years (GR)
ATH 501: Foundations of Athletic Training

2 Credit Hour(s)
This lecture/lab course is designed to prepare students to critically evaluate the association between physical activity and musculoskeletal injury and use clinical decision-making skills to appropriately apply a variety of supportive and protective devices for the head, torso, upper and lower extremity. Students will develop the necessary skills to appropriately choose and properly fit protective athletic equipment (e.g. helmet and shoulder pads) and properly apply preventative taping, wrapping, splinting, bracing and orthoses.
Prerequisite: Admission into the Athletic Training Program and ATH 500 and ATH 500L.
Session: Fall
Year: All Years (GR)

ATH 501L: Foundations/Athletic Training Lab

0 Credit Hour(s)
This lecture/lab course is designed to prepare students to critically evaluate the association between physical activity and musculoskeletal injury and use clinical decision-making skills to appropriately apply a variety of supportive and protective devices for the head, torso, upper and lower extremity. Students will develop the necessary skills to appropriately choose and properly fit protective athletic equipment (e.g. helmet and shoulder pads) and properly apply preventative taping, wrapping, splinting, bracing and orthoses.
Prerequisite: Admission into the Athletic Training Program and complete ATH 500 and ATH 500L.
Session: Fall
Year: All Years (GR)

ATH 502: Foundations of Athletic Training II

2 Credit Hour(s)
This course addresses a variety of topics to further develop the students' understanding of the scope of the Athletic Trainer's duties and the complexities involved in the daily operations of an Athletic Training facility. A combination of lecture, case studies and reflection of clinical educational experiences will allow for insightful peer engaged discussions. Topics will include: legal practice, professional ethics, cross-cultural awareness, inter-professional relationships, facility principles, budgeting process, integrated injury management, imaging, rehabilitation phases, psychosocial/emotional response to injury, and injury documentation and the use of electronic medical records. Prerequisite: Admission into the Athletic Training Program and ATH 501 AND ATH-501L.
Session: Spring
Year: All Years (GR)
ATH 509: Gross Anatomy

6 Credit Hour(s)
This lecture/lab course is designed to focus on the detailed structure and function of the human neuromusculoskeletal system. The relationships of normal and abnormal embryological and developmental processes to gross anatomical structure and to movement and function across the life span will be presented. Lecture and laboratory sessions will include human cadaver dissection and prosections, models, and clinically oriented peer presentations and problem solving experiences. Specific anatomical content will be presented on a regional basis, and will include the back, head, neck, shoulder girdle, upper extremity, and thorax. Laboratory sessions will allow students to acquire a three-dimensional macroscopic appreciation of anatomical structure through human cadaver dissection guided by iPad video demonstrations. Prerequisite: Admission into the Athletic Training Program.
Session: Summer
Year: All Years (GR)

ATH 509L: Gross Anatomy Lab

0 Credit Hour(s)
This lecture/lab course is designed to focus on the detailed structure and function of the human neuromusculoskeletal system. The relationships of normal and abnormal embryological and developmental processes to gross anatomical structure and to movement and function across the life span will be presented. Lecture and laboratory sessions will include human cadaver dissection and prosections, models, and clinically oriented peer presentations and problem solving experiences. Specific anatomical content will be presented on a regional basis, and will include the back, head, neck, shoulder girdle, upper extremity, and thorax. Laboratory sessions will allow students to acquire a three-dimensional macroscopic appreciation of anatomical structure through human cadaver dissection guided by iPad video demonstrations. Prerequisite: Admission into the Athletic Training Program. Students must pass ATH 509/L with a C or better in order to progress to ATH 500.
Session: Summer
Year: All Years (GR)

ATH 510: Pathology and Clinical Examination I

4 Credit Hour(s)
This lecture/lab course is the first in the sequence of two courses designed to give the athletic training student the necessary information to identify specific injuries and illnesses associated with the neck, upper back, low back, lower extremities, reproductive organs, and abdominal region. Topics include mechanism of injury/etiology, pathology, tests and measures, and referred pain patterns of the low back and lower extremities. Students will acquire basic knowledge and skills regarding palpation, range of motion, manual muscle testing, neurological and special tests. Students will develop clinical decision making skills through the integration of evidence-based medicine. Prerequisite: Admission into the Athletic Training Program and ATH 509 and ATH 509L.
Session: Fall
Year: All Years (GR)
ATH 510L: Pathology and Clinical Examination Lab I

0 Credit Hour(s)
This lecture/lab course is the second in the sequence of two courses designed to give the athletic training student the necessary information to identify specific injuries and illnesses associated with the head and upper extremities. Topics include mechanism of injury/etiology, pathology, tests and measures, and referred pain patterns of the head, neck, upper back, and upper extremities. Students will acquire basic knowledge and skills regarding palpation, range of motion, posture analysis, gait analysis, manual muscle testing, neurological and special tests. Students will develop clinical decision making skills through the integration of evidence-based medicine. Prerequisite: Admission into the Athletic Training Program and ATH 509 and ATH 509L and ATH 510 and ATH 510L.
Session: Fall
Year: All Years (GR)

ATH 511: Pathology and Clinical Examination II

4 Credit Hour(s)
This lecture/lab course is the second in the sequence of two courses designed to give the athletic training student the necessary information to identify specific injuries and illnesses associated with the head, neck, upper back, and upper extremities. Topics include mechanism of injury/etiology, pathology, tests and measures, and referred pain patterns of the head, neck, upper back, and upper extremities. Students will acquire basic knowledge and skills regarding palpation, range of motion, posture analysis, manual muscle testing, neurological and special tests. Students will develop clinical decision making skills through the integration of evidence-based medicine. Prerequisite: Admission into the Athletic Training Program and ATH 509 and ATH 509L and ATH 510 and ATH 510L.
Session: Spring
Year: All Years (GR)

ATH 511L: Pathology and Clinical Examination II Lab

0 Credit Hour(s)
This lecture/lab course is the second in the sequence of two courses designed to give the athletic training student the necessary information to identify specific injuries and illnesses associated with the head, neck, upper back, and upper extremities. Topics include mechanism of injury/etiology, pathology, tests and measures, and referred pain patterns of the head, neck, upper back, and upper extremities. Students will acquire basic knowledge and skills regarding palpation, range of motion, posture analysis, manual muscle testing, neurological and special tests. Students will develop clinical decision making skills through the integration of evidence-based medicine. Prerequisite: Admission into the Athletic Training Program and ATH 509 and ATH 509L and ATH 510 and ATH 510L.
Session: Spring
Year: All Years (GR)
ATH 512: Neuroscience

In this course, students will examine the structure and function of the central and peripheral nervous systems through a combination of lecture, discussion of case studies and examination of cadaveric brain specimens. Students will use the neurologic examination as a systematic framework for organizing their understanding of the functional anatomy of the nervous system. We will consider the following topics: development of the central nervous system; voluntary movement and postural control; sensory pathways; motor pathways; neurodegenerative disease and trauma. Students will develop basic familiarity with electrodiagnostic tests (i.e., nerve conduction velocity, EMG). Prerequisite: Admission into the Athletic Training Program.

Session: Spring
Year: All Years (GR)

ATH 515: Current Concepts in Musculoskeletal Fitness Assessment & Training

This lecture/lab course is designed to prepare the future athletic trainer to critically evaluate patient/client physical fitness, nutritional habits, and body composition to appropriately design fitness prescription for maintaining a healthy lifestyle and prevent chronic disease. Students will develop skills in performing measurements of body composition, posture, flexibility, muscular strength, power, speed, agility, and endurance. These skills will be enhanced when learning how to develop and adjust fitness routines based on patient/client specificity. Students will also learn nutritional principles relative to strength training and in recognition of disordered eating. Prerequisite: Admission into the Athletic Training Program. Direct Entry MSAT students only.

Session: Summer
Year: All Years (GR)

ATH 515L: Current Concepts in Musculoskeletal Fitness Assessment & Training Lzb

Lab practice and co-requisite for ATH 515. Direct Entry MSAT students only.

Session: Summer
Year: All Years (GR)
ATH 520: Therapeutic Agents

4 Credit Hour(s)

This lecture/lab course is designed to prepare the future athletic trainer to critically select, provide rationale for, and skillfully apply therapeutic agents including massage, cold, superficial heat, infrared, hydrotherapy, short wave diathermy, ultrasound, iontophoresis, traction, and electrotherapy for inducing muscle contractions, reducing pain, enhancing wound healing, and curbing edema formation. Indications and contraindications relative to the selection and use of each modality are emphasized. Theory, principles, and methods of direct interventions will be discussed in lecture; associated psychomotor skills will be practiced and evaluated in lab. Prerequisite: Admission into the Athletic Training Program.

Session: Fall
Year: All Years (GR)

ATH 520L: Therapeutic Agents Lab

0 Credit Hour(s)

This lecture/lab course is designed to prepare the future athletic trainer to critically select, provide rationale for, and skillfully apply therapeutic agents including massage, cold, superficial heat, infrared, hydrotherapy, short wave diathermy, ultrasound, iontophoresis, traction, and electrotherapy for inducing muscle contractions, reducing pain, enhancing wound healing, and curbing edema formation. Indications and contraindications relative to the selection and use of each modality are emphasized. Theory, principles, and methods of direct interventions will be discussed in lecture; associated psychomotor skills will be practiced and evaluated in lab. Prerequisite: Admission into the Athletic Training Program.

Session: Fall
Year: All Years (GR)

ATH 521: Pharmacology in Sports Medicine

2 Credit Hour(s)

This course focuses on the pharmacokinetics and pharmacodynamics of drugs commonly encountered in the practice of athletic training. Topics include patient education, federal, state, and local regulations for proper storage and dispensing, and poison control protocols. Prerequisite: Admission into the Athletic Training Program.

Session: Spring
Year: All Years (GR)

ATH 522: General Medical Conditions

3 Credit Hour(s)

This course is designed to prepare the future athletic trainer to recognize the signs and symptoms of diseases and illnesses of the body systems and to know when to refer to other medical professions. Topics include etiology, pathology, assessment, and risks associated with common diseases, impairments, and physical disabilities. Prerequisite: Admission into the Athletic Training Program.

Session: Fall
Year: All Years (GR)
ATH 523: Therapeutic Intervention
4 Credit Hour(s)
This lecture/lab course is designed to enhance the student's assessment skills and to provide a foundation of appropriate exercise principles and rehabilitation techniques specific to athletic participation and the physically active. Topics will include planning, implementing, and evaluating the efficacy of therapeutic exercise and rehabilitation programs. Prerequisite: Admission into the Athletic Training Program.
Session: Fall
Year: All Years (GR)

ATH 523L: Therapeutic Intervention Laboratory
0 Credit Hour(s)
This lecture/lab course is designed to enhance the student's assessment skills and to provide a foundation of appropriate exercise principles and rehabilitation techniques specific to athletic participation and the physically active. Topics will include planning, implementing, and evaluating the efficacy of therapeutic exercise and rehabilitation programs. Prerequisite: Admission into the Athletic Training Program.
Session: Fall
Year: All Years (GR)

ATH 524: Sports Nutrition
2 Credit Hour(s)
This course discusses the physiological processes of digestion, absorption, and assimilation of food, fluids, nutritional supplements, herbs, and ergogenic aids specific to the energy needs for sports participation and the physically active. Topics include weight loss/gain, body composition, performance, illness, injury, and eating disorders. Prerequisite: Admission into the Athletic Training Program.
Session: Fall
Year: All Years (GR)

ATH 525: Organization and Administration in Athletic Training
3 Credit Hour(s)
This course focuses on management, administration, leadership, and professional responsibilities associated with providing health care in an athletic training room, health care facility, and related venues that provide health care to athletes and others involved in physical activities. Topics include athletic training room design, budget, organization and administration of pre-participation physical exams, components of a medical record, regulations, insurance, personnel management, athletic training practice acts and registration, professional responsibility, continuing education, governing bodies, scope of practice, community awareness, and preparation for the Board of Certification (BOC) exam. Prerequisite: Admission into the Athletic Training Program.
Session: Spring
Year: All Years (GR)
ATH 530: Psychosocial Aspects in Athletic Training

3 Credit Hour(s)

Psychosocial Aspects in Athletic Training (3) This course addresses a variety of integrated psychosocial topics involving the patient, the health care professional, and response to injury. Topics include motivation, self confidence, personality traits, emotional response to injury, interpersonal and cross-cultural communication. Prerequisite: Admission into the Athletic Training Program.

Session: Spring
Year: All Years (GR)

ATH 580: Research Methods

3 Credit Hour(s)

Fulfills core competency: Information Literacy; Writing Intensive. Meets Research and Presentation requirements. This course will explore the variety in research design and statistics commonly used in clinical research, further developing student analytical skills needed to support professional evidence-based practice in athletic training. Students will evaluate the merit and relevance of published research to the practice of athletic training from the perspective of experimental methodology and design. Students will select a topic of interest related to athletic training, conduct a review of the literature, define a research question, and prepare and present a report to their peers. Students will complete Collaborative Institutional Training Initiative (CITI training). Prerequisite: Admission into the Athletic Training Program.

Session: Spring
Year: All Years (GR)

ATH 581: Research Seminar I

1 Credit Hour(s)

This course is a continuation of ATH 580 and the first of a sequence of two research seminar courses. Students will refine their literature review to develop and write the introduction and methods sections of their athletic training research project. Students will present their proposals to their peers. This is directed study under the supervision of faculty research mentor. Additionally, students will learn how to efficiently and effectively use the IBM SPSS Software. Prerequisite: Admission into the Athletic Training Program and ATH 580.

Session: Fall
Year: All Years (GR)
ATH 582: Research Seminar II

2 Credit Hour(s)
This is the second in the sequence of two research seminar courses. Students will collect data, perform data analysis, and write the results, and discussion sections for their athletic training research projects. Students will revise and refine their final research project, develop a presentation, and present their findings. This is directed study under the supervision of a faculty research mentor. Additionally, students will demonstrate evidence based medicine through problem based learning scenarios in class. Prerequisite: Admission into the Athletic Training Program and ATH 581.
Session: Spring
Year: All Years (GR)

ATH 590: Athletic Training: Practical Application I

3 Credit Hour(s)
This course is the first of four required athletic training clinical education courses. Athletic training students will be evaluated on clinical integration proficiency of knowledge, skills, and abilities including: general health and fitness assessment; environmental conditions assessment; and recognition of emergencies and acute injury care. Additionally students will be expected to build upon their acquired knowledge to actively engage in facilitated integration of skills and abilities covered in the curriculum. Students will be assigned to clinical education experiences under the direct supervision of a preceptor. Students will explore evidence-based practice and reflect upon their clinical experiences to facilitate critical thinking and clinical decision making skills development. Students must complete a minimum 200 and a maximum of 500 clinical hours. Prerequisite: Admission into the Athletic Training Education Program and ATH 500 and 500L.
Session: Fall
Year: All Years (GR)

ATH 592: Athletic Training: Practical Application II

3 Credit Hour(s)
This course is the second of four required athletic training clinical education courses. Athletic training students will be evaluated on clinical integration proficiency of knowledge, skills, and abilities including: taping, wrapping, bracing, protective equipment fitting; clinical assessment, diagnosis and therapeutic intervention of the lower extremity and spine; and professional communication and documentation strategies. Additionally students will be expected to build upon their acquired knowledge to actively engage in facilitated integration of skills and abilities covered in the curriculum. Students will be assigned to clinical education experiences under the direct supervision of a preceptor. Students will explore evidence-based practice and reflect upon their clinical experiences to facilitate critical thinking and clinical decision making skills development. Students must complete a minimum of 200 and a maximum of 500 clinical hours. Prerequisite: Admission into the Athletic Training Education Program and ATH 590.
Session: Spring
Year: All Years (GR)
ATH 593: Athletic Training: Practical Application III

3 Credit Hour(s)

This course is the third of four required athletic training clinical education courses. Athletic training students will be evaluated on clinical integration proficiency of knowledge, skills, and abilities including: clinical assessment, diagnosis and therapeutic intervention of the upper extremity, lower extremity, head, neck, thorax, spine, and patients with common illnesses; psychosocial motivational strategies; recognition and referral of mental health disorders; and professional communication and documentation strategies. Additionally students will be expected to build upon their acquired knowledge to actively engage in facilitated integration of skills and abilities covered in the curriculum. Students will be assigned to clinical education experiences under the direct supervision of a preceptor. Students will explore evidence-based practice and reflect upon their clinical experiences to facilitate critical thinking and clinical decision making skills development. Students must complete minimum of 200 and a maximum of 500 clinical hours. Prerequisite: Admission into the Athletic Training Education Program and ATH 592.

Session: Fall
Year: All Years (GR)

ATH 594: Athletic Training: Practical Application IV

3 Credit Hour(s)

This course is the fourth of four required athletic training clinical education courses. Athletic training students will be evaluated on clinical integration proficiency of knowledge, skills and abilities including: comprehensive therapeutic intervention, clinical examination and diagnosis of musculoskeletal injury and common illnesses and conditions; psychosocial strategies (recognition, management and referral); and professional communication and documentation strategies. Additionally students will be expected to build upon their acquired knowledge to actively engage in facilitated integration of skills and abilities previously covered in the curriculum. Students will be assigned to clinical education experiences under the direct supervision of a preceptor. Students will explore evidence-based practice and reflect upon their clinical experiences to facilitate critical thinking and clinical decision making skills development. Students must complete minimum of 200 and a maximum of 500 clinical hours. Prerequisite: Admission into the Athletic Training Education Program, ATH 593.

Session: Spring
Year: All Years (GR)
ATH 595: Athletic Training: Optional Summer Practical Application

0 Credit Hour(s)

This course is an optional athletic training clinical education course reserved for students who will be completing a summer athletic training educational experience. Students will be expected to build upon their acquired knowledge to actively engage in facilitated integration of skills and abilities previously covered in the curriculum. Students will be assigned to clinical education experiences under the direct supervision of a preceptor. Students will explore evidence-based practice and reflect upon their clinical experiences to facilitate critical thinking and clinical decision making skills development. Students must complete a minimum of 50 and a maximum of 500 clinical hours.

Session: Summer
Year: All Years (GR)
DIETETICS INTERNSHIP

Program Description

The Daemen College Dietetic Internship (DI) program is a supervised practice program that enables graduates to establish eligibility to write the registration examination for dietitians and to apply for active membership in the Academy of Nutrition and Dietetics. Housed in the College’s Health Promotion Department, the DI provides a minimum of 1200 hours of supervised practice experience to meet the competencies for entry-level dietitians and the standards of education set forth by the Accreditation Council for Education in Nutrition and Dietetics (ACEND).

The Daemen College DI is a Distance Program in which courses will be delivered online or through offsite mentoring. Supervised practice placements will be required to be outside a 75-mile radius of Daemen College.

Fulfillment of the requisite internship experiences and a minimum of 1200 supervised clinical practice hours will lead to eligibility to sit for the Registered Dietitian Nutritionist (RDN) exam offered through the Commission on Dietetic Registration and subsequent application for state licensure for dietitian nutritionists. Passage of the RDN exam leads to the RDN credential.

Application Procedures

The Daemen College Dietetic Internship Program uses the online Dietetic Internship Centralized Application Services (DICAS), which may be accessed at https://portal.dicas.org.

Applicants who apply to internships using DICAS will be asked to complete a personal statement in 1,000 words or less. Questions to be addressed in the personal statement include:

- Why do you want to enter the dietetics profession?
- What are some experiences that have helped to prepare you for your career?
- What are your short-term and long-term goals?
- What are your strengths and weaknesses or areas needing improvement?

General Admission Requirements

- Completion of an ACEND accredited didactic program in dietetics and the minimum of a bachelor’s degree from a regionally accredited college or university;
- A 3.0 GPA;
• Three letters of recommendation, preferably including one from the last school attended;
• A written statement describing educational objectives and areas of personal/professional interest, and/or a resume summarizing professional activities, certifications, licensure, and continuing education;
• An on-site or telephone interview with the graduate program director;
• Completed Facility and Preceptor Forms for each of the three rotations.

Daemen College will admit 12 interns through the preselect option and remaining slots will be filled through the computerized matching system.

**Preselect Admission Option**

The Daemen College preselect admission option offers qualified students in the University of Alabama didactic program in Dietetics, with which Daemen College has an affiliation agreement, the opportunity to apply for admission into Daemen College's Dietetic Internship Program.

Students may apply during their senior year no later than January 5 and may be granted direct admission into the program upon final acceptance and successful completion of the DPD program and receipt of a verification statement from the University of Alabama. Students should register with DICAS, the Dietetic Internship Centralized Application System (DICAS) which is used by most internships, and complete the online application. The program may be accessed at [https://portal.dicas.org](https://portal.dicas.org).

Students applying via the preselect option will be notified by February 1 for the Spring match whether or not they are accepted to the program. If preselected, the applicant’s name and email address are submitted to D&D Digital Systems, Inc. to ensure that the applicant will not participate in the computer match. Applicants who are not preselected must register online with D&D Digital Systems, Inc. for computer matching and to select dietetic internship priority choices.

**Official Transcripts from all colleges and universities attended should be sent to:**

DICAS
Transcript Dept., POB 9118,
Watertown, MA 02472

When completing the application form, applicants must include the name and contact information (specifically an email address) for each reference. This will trigger an email message requesting completion of a reference form. The form will be completed online. Students submitting more than one application will need to use the same individuals as references for each application.
Courses Available

- DI501 Clinical Field Experience I (0)
- DI502 Clinical Field Experience II (0)
- DI503 Professionalization Seminar I (0)
- DI504 Professionalization Seminar II (0)

Clinical Field Experience Information

Food Service and Management Field Experience – this rotation will emphasize the development of the dietitian as a leader in food service. Focus will be placed on functioning in the role of the Registered Dietitian including, but not limited to, the use of management applications in food service, pursuing continuous quality improvement in food safety, and functioning as a collaborative member of the food service team.

Community/Public Health Field Experience – this rotation will emphasize the development of the dietitian as a leader in community nutrition. Focus will be placed on functioning in the role of the Registered Dietitian including, but not limited to, the use of nutrition applications in community health settings, pursuing continuous quality improvement in nutrition education and delivery, and functioning as a collaborative member in public health.
Dietetic Internship Courses

Dietetic Internship

**DI 501: Clinical Field Experience I**

0 Credit Hour(s)

This rotation will emphasize the development of the dietitian as a clinician. Focus will be placed on functioning in the role of the Registered Dietitian including, but not limited to, the use of clinical nutrition assessment and evaluation strategies, pursuing continuous quality improvement in dietetics, and functioning as a collaborative member of the health care team. (GR)

**DI 502: Clinical Field Experience II**

0 Credit Hour(s)

This rotation will emphasize the development of the dietitian as a clinician. Focus will be placed on functioning in the role of the Registered Dietitian including, but not limited to, the use of clinical nutrition assessment and evaluation strategies, pursuing continuous quality improvement in dietetics, and functioning as a collaborative member of the health care team. (GR)

**DI 503: Professionalization Seminar I Experience**

0 Credit Hour(s)

This seminar will focus on a review of didactic information in preparation for the Registered Dietitian examination, as well as other professional development topics. (GR)

**DI 504: Professionalization Seminar II**

0 Credit Hour(s)

This seminar will focus on a review of didactic information in preparation for the Registered Dietitian examination, as well as other professional development topics. (GR)
EDUCATION GRADUATE PROGRAMS

Education Degree Programs

MASTERS IN SPECIAL EDUCATION

- Special Education: Childhood Education (1-6)

ALTERNATIVE CERTIFICATION PROGRAMS IN SPECIAL EDUCATION – BROOKLYN, NY

- Childhood (1-6) or Early Childhood (Birth-2) Special Education

Certificate and Degree Programs in Applied Behavior Analysis

- Applied Behavior Analysis – Adv Certificate
- Applied Behavior Analysis – Master of Science
- Applied Behavior Analysis – Non-NY Distance Education/Non-Degree Program (Non-Degree Program)

INITIAL/PROFESSIONAL GRADUATE PROGRAMS

These programs are for individuals seeking certification from the State of New York who do not possess a teaching credential. The student must possess a bachelor’s degree, from an accredited college or university, in an acceptable liberal arts concentration and demonstrate a major area of study. Once the master’s program is completed, the student will apply to New York State for initial certification and complete all necessary New York State Education Department requirements for initial certification. For information about certification requirements, please visit: https://www.highered.nysed.gov/tcert/certificate/certprocess.html

Professional Graduate Programs

These programs are for individuals seeking Professional Certification from the State of New York. The individual must already possess a teaching certificate in a content or specialization area in order to obtain Professional Certification. The candidate must provide the College with a copy of his/her teaching certificate along with the other required documentation as part of the admission application. Candidates for certification must also complete the appropriate CST.
Admission

In addition to satisfying the general criteria for graduate admission to Daemen College, applicants must:

1. Upon acceptance, possess a cumulative undergraduate grade point average of 3.00 or above (on a 4.00 scale)*.
2. Submit scores from taking the Graduate Record Exam (GRE) by no later than December 16 for fall applicants, no later than May 1 for spring applicants, or no later than August 1 for summer applicants (Amherst campus only)**.

   School code for GRE scores: 2762

Submit two letters of recommendation, preferably including one professional reference and one character reference.

3. Applicants to professional programs (Amherst campus only) should also provide proof of graduation from an initial certification program in Education, and provide proof of initial certificate or certificate of qualification licensure from the New York State Education Department or similar documentation from other states awarding the license.
4. Participate in a personal interview.
5. Include a copy of a current resume.

* In the event the applicant does not possess a cumulative undergraduate grade point average of 3.00 or above (on a 4.00 scale), s/he may be admitted on a conditional basis, in accordance with CAEP quality standards. Candidates who do not earn a 3.0 in their first nine credits of study will be academically dismissed from the program.

** Teacher Candidate scores on the GRE must be at a level that meets Departmental standards (as set by its accrediting body).

Philosophy

The philosophy of the Education Department at Daemen College is to promote faculty and teacher candidate commitment to an established paradigm for life-long learning. The Education Department’s learning community is committed to the mastery of all appropriate standards.[1]

We believe that an active discourse regarding the general education core in the liberal arts and sciences, the content core and the pedagogical core can be utilized to instill knowledge and professionally prepare teacher candidates. This discourse also fosters community understanding regarding equity and the needs of diverse and exceptional students. We further believe that practical opportunities to apply the learning community’s knowledge and understanding must be provided to all community members.
Reflection within the learning community upon the results of assessment, in turn, inspires personal and collective growth. Our learning community exists within the Daemen College learning community and its wider constituencies, where resources, technology, support services, information, and due process rights empower both faculty and candidate. [2]

1 The faculty has adopted the Standards for Teacher Educators and has committed to an adapted version of the Interstate New Teacher Assessment and Support Consortium (INTASC) standards, the National Board for Professional Teaching Standards, and the National Education Technology Standards, the National Association for the Education of Young Children (NAEYC) Standards, the standards for the division for Early Childhood of the Council for Exceptional Children, and the USNY Early Elementary Resource Guide to Integrated Learning Standards as guiding standards for the Education Department of Daemen College in an effort to prepare teacher candidates to teach to the NYS learning standards.

2 The above philosophy is derived in part from Section 4-2.5 Standards for Regents Accreditation of Teacher Education programs/Standards of quality.

**Mission**

The Mission of the Education Department is to ensure that our graduates participate in active discourse and practica opportunities, thereby enhancing personal and professional growth. These opportunities enable our graduates to possess the following: knowledge, understanding and skills in the liberal arts and sciences; content core knowledge; pedagogical core knowledge; understanding regarding equity, diversity, and exceptionality; and professional skills necessary for reflective practice. We believe that we graduate community minded, life long learners/teachers who, like all Daemen graduates, are prepared for life and leadership in an increasingly complex and interdependent world.

The Daemen College Teacher Preparation Program, inclusive of all undergraduate and graduate offerings, are nationally accredited by TEAC/CAEP through May 2020.

**Department Learning Goals**

**The Learner and Learning**

Goal #1: Learner Development. The teacher candidate understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Goal #2: Learning Differences. The teacher candidate uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to
meet high standards.

Goal #3: Learning Environments. The teacher candidate works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Content

Goal #4: Content Knowledge. The teacher candidate understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Goal #5: Application of Content. The teacher candidate understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Instructional Practice

Goal #6: Assessment. The teacher candidate understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.

Goal #7: Planning for Instruction. The teacher candidate plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Goal #8: Instructional Strategies. The teacher candidate understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Professional Responsibility

Goal #9: Professional Learning and Ethical Practice. The teacher candidate engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Goal #10: Leadership and Collaboration. The teacher candidate seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families,
colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

**Capstone Experiences**

Candidates admitted to all graduate programs are required to complete a capstone experience at the end of their program of study. They may complete the edTPA (mandatory for first time takers only), or complete a Research Project in Education (only with faculty advisement), or pass a Comprehensive Examination. Questions on the Comprehensive Examination will be based on core courses taken by candidates in each of the graduate programs.

Graduate research is carried out during the course SED 699 Research Project. *This is not a required course*. Based on personal career goals and with faculty advisement, certain teacher candidates will complete a thesis in partial fulfillment of degree requirements, in lieu of the Comprehensive Exam. The thesis is prepared under the direction of the major department and should demonstrate capacity for independent research and scholarly writing. The thesis must receive the approval of the Department Graduate Committee and must comply with Human Subjects Research Review Committee guidelines, if applicable. A candidate for the oral presentation and defense of thesis must:

1. be an admitted degree candidate;
2. be finished with all major area course requirements by the end of the semester in which the Research Project course is taken;
3. be able to provide the examining committee with copies of the completed thesis a minimum of two weeks prior to the oral presentation;
4. have a graduate grade point average of 3.00 or higher.

Early in the graduate program, candidates who wish to pursue the completion of a thesis, and after consulting with the faculty advisor, should begin to formulate a plan for their research project. After familiarizing him/herself with the research interests of the faculty, the candidate, with guidance from his/her advisor, will choose a two-person research committee consisting of:

1. a primary member who must be a full-time or part-time faculty member with research experience or expertise in the area of study;
2. a secondary member who may be either a full- or part-time faculty member or an adjunct graduate faculty member.

The candidate will design and execute a research project with guidance from his or her committee. The detailed process for completion of research is laid out in the course syllabus. The candidate will prepare a research manuscript in a format suitable for submission for publication. The candidate will also present his/her research orally within the College or professional community. Such presentation requires the
presence of at least one member of the research committee. Any proposed investigation involving human subjects must be reviewed and approved by Daemen College's Human Subjects Research Review Committee. The HSRRC Guidelines are published on the Daemen College website.
M.S. IN SPECIAL EDUCATION (GRADES 1-6)

M.S. in Special Education: Childhood Education – Initial/Professional Certification (Grades 1-6)

REQUIREMENTS

- SED502 Special Education: Laws and Trends (3)
- SED503 Assessment and Evaluation of Students with Disabilities (3)
- SED504 The Reading Process for Students with Disabilities (3)
- SED505 Classroom and Behavior Management for Students with Disabilities (3)
- SED506 Instructional Methods and Strategies for Learners with Special Needs (3)
- SED512 Collaborative Approaches within Inclusive Programs (3)
- SED513 Survey of Learning Disabilities (3)
- SED535 Reading Diagnosis and Instruction (3)
- SED540 Survey of Emotional and Behavioral Disorders (3)
- SED559 Introduction to Autism Spectrum Disorders (3)
- SED570 Special Education Student Teaching and Seminar at the Primary Level for Children with Disabilities (3)
- SED580 Special Education Student Teaching and Seminar at the Intermediate Level for Children with Disabilities (3)
- SED600 Research Methods in Special Education (3)
- SED610 Seminar in Special Education/Action Research (3)
- SED699 Research Project in Special Education OR successful completion of the Comprehensive Exam (0-3):

  The option selected will be at the advisor’s recommendation. The Comprehensive Examination yields no credit. Successful completion of the exam will be referenced on the academic record as SED696 Comprehensive Exam, grade of Pass, 0 credit.

TOTAL PROGRAM REQUIREMENTS = 42 – 45 CREDITS

ADDITIONAL REQUIRED COURSES

There may be instances when prerequisite courses are required for completion in addition to the 42-45 credits in the prescribed curriculum. Such course work must be authorized for completion by the Graduate Program Director. Courses may include but are not limited to: SED500 Educational Psychology (3); SED501 Introduction to Special Education (3).
M.S. in Special Education: Childhood Education – Professional Certification (Grades 1-6)

REQUIREMENTS

- SED600 Research Methods in Special Education (3)
- SED602 Special Education: Laws and Trends (3)
- SED603 Standards Based Assessment and Instruction for Students with Disabilities (3)
- SED606 Instructional Methods and Strategies for Students with Disabilities (3)
- SED610 Seminar in Special Education/Action Research (3)
- SED612 Quality Inclusion/Collaboration Methods (3)
- SED615 Issues, Trends, and Research in Special Education (3)
- SED635 Reading Diagnosis and Instruction (3)
- SED639 The Writing Process and Students with Disabilities (3)
- SED642 Curriculum Modifications in the Content Areas of Mathematics, Science, Social Studies, and Technology (3)
- SED699 Research Project in Special Education OR successful completion of the Comprehensive Examination (0-3):
  The option selected will be at the advisor’s recommendation. The Comprehensive Examination yields no credit. Successful completion of the exam will be referenced on the academic record as SED696 Comprehensive Exam, grade of Pass, 0 credit.

TOTAL PROGRAM REQUIREMENTS = 30 – 33 CREDITS

PLAN OF STUDY

At the end of the first year of study, each matriculated student is required to meet with his/her Graduate Faculty Advisor to design a Plan of Study. The Plan will outline the time frame for the completion of program requirements.

COURSE REPEATS

It may be necessary for a student to repeat a course to achieve a satisfactory grade. Students are encouraged to discuss the matter with their Graduate Faculty Advisor. Students must earn a minimum grade of B when repeating a course.

REQUIREMENTS FOR GRADUATION

1. Completion of all course work as defined on the student’s Plan of Study
2. A minimum grade of B earned in all courses, thereby resulting in a minimum cumulative grade point average of 3.00

3. All degree students are required to file an Application for Degree form with the Registrar’s Office at the onset of the final term of study. The Application for Degree form is accessible from the Registrar’s web page.

**ADDITIONAL REQUIREMENTS FOR CERTIFICATION**

Consult the Graduate Education Department for further information.

**TIME LIMITATION**

A student admitted to the program is expected to maintain continuity in his/her academic program and enroll each semester until all requirements are completed. Normally, a part time student should complete a minimum of three (3) credits per semester. Full time students must complete a minimum of nine (9) credits per semester. All requirements for the Master of Science degree must be completed within a period of five years from the student’s enrollment for graduate study. For information on leaves of absence and extensions, consult the Academic Regulations and Standards section in the electronic catalogue, Graduate Section, on the Daemen web page, and in the Graduate Bulletin. [NOTE: Regarding leaves and/or extensions, applying for a leave or an extension from Daemen College does not preclude students from applying to the New York State Education Department for an extension of their initial certification. The New York State Education Department stipulates that from the date of their initial certification, individuals have five years to complete their professional certification, which includes the completion of a Masters degree.]
ALTERNATIVE CERTIFICATION (TRANS B)

Master of Science in Childhood Special Education and General Education (Grades 1-6) – Alternative Certification (Transitional B Certificate)

- SED503 Assessment and Evaluation of Students with Disabilities (3)
- SED504 The Reading Process for Students with Disabilities (3)
- SED505 Classroom and Behavior Management for Students with Disabilities (3)
- SED515 Introduction to Theories of Learning, Child Development and Cognitive Studies (3)
- SED516 Introduction to Special Education, Educational Policies, Community Education, and Working with Families (3)
- SED517 Instructional Methods and Strategies for Effective Classroom Management of Learners with Special Needs (3)
- SED519 Literacy Instruction and Students with Learning Disabilities (3)
- SED522 Curriculum Adaptation/Modifications in the Content Areas of Mathematics, Science, Social Studies and Technology (3)
- SED523 Survey of Learning Disabilities and Instructional Methods (3)
- SED570 Special Education Student Teaching and Seminar at the Primary Level for Children with Disabilities (3)
- SED600 Research Methods in Special Education (3)
- SED610 Seminar in Special Education/Action Research (3)
- SED696 – edTPA: Successful submission of the edTPA will be referenced on the academic record as SED696 Comprehensive Exam, Grade of Pass, 0 Credit.

TOTAL PROGRAM REQUIREMENTS = 36-39 CREDITS

ADDITONAL REQUIREMENTS FOR CERTIFICATION

Consult Daemen’s Office of Education – Alternative Certification (Brooklyn) Programs for further information.

NOTE: Students completing the following additional two courses will also be eligible for the Early Childhood Special Education certificate: ECSE521 Language Communication Development for Young Children with Special Needs (3); ECSE522 Infant Development & Intervention with Assistive Technology (3).
Master of Science in Early Childhood Special Education and General Education (Birth – 2) – Alternative Certification (Transitional B Certificate)

REQUIREMENTS

- ECSE521 Language/Communication Development and Intervention for the Young Child with Special Needs (3)
- ECSE522 Infant Development and Intervention with Assistive Technology (3)
- ECSE524 Transdisciplinary Intervention and Family Involvement (3)
- ECSE570 Student Teaching and Seminar in Early Childhood Special Education (B-2) (3)
- ECSE610 Seminar in Early Childhood Special Education/Action Research (3)
- ECSE504 The Reading Process for Students with Disabilities (3)
- ECSE505 Classroom and Behavior Management for Students with Disabilities (3)
- ECSE516 Introduction to Special Education, Educational Policies, Community Education, and Working with Families (3)
- ECSE517 Instructional Methods and Strategies for Effective Classroom Management of Learners with Special Needs (3)
- SED519 Literacy Instruction and Students with Disabilities (3)
- ECSE535 Reading Diagnosis and Instruction (3)
- ECSE553 Assessment, Evaluation and Intervention Strategies for Young Children with Special Needs (3)
- ECSE600 Research Methods in Special Education (3)
- ECSE696 -edTPA : Successful submission of the edTPA will be referenced on the academic record as ECSE696 Comprehensive Exam, Grade of Pass, 0 Credit.

TOTAL PROGRAM REQUIREMENTS = 39-42 CREDITS

ADDITONAL REQUIREMENTS FOR CERTIFICATION

Consult Daemen's Office of Education – Alternative Certification (Brooklyn) Programs for further information.

NOTE: Students completing the following additional two courses will also be eligible for the Childhood Special Education certificate: SED522 Curriculum Adaptation/Modifications in the Content Areas of Mathematics, Science, Social Studies, and Technology (3); SED523 Survey of Learning Disabilities and Instructional Methods (3).

Plan Of Study
In most cases, students follow a pre-designed sequence of courses which results in completion of degree requirements in 3-4 terms. Those matriculated students who do not follow the traditional sequence of studies are required, early in their enrollment in Daemen courses, to meet with a program representative to design a Plan of Study. The Plan will outline the timeframe for completion of program requirements.

**Course Repeats**

It may be necessary for a student to repeat a course to achieve a satisfactory grade. Students must earn a minimum grade of B when repeating a course. Issues and questions regarding minimum grade requirements should be directed to the Program Director or to a program representative.

**Transfer Credit**

Any student seeking permission to transfer courses or seeking permission for course substitutions must contact the Program Director. Any academic credit for which the student seeks permission to be transferred from other institutions/agencies to fulfill a required course requires submission of an official transcript directly from the institution at which they were completed, or the agency which sponsors the course/examination. Official transcripts may be sent directly from the source institution to any of the following: Daemen’s Registrar’s Office; Daemen’s Office of Education – Alternative Certification (Brooklyn) Programs; Total Testing Incorporated (TTI), whose personnel will forward the documents to Daemen’s Office of Education – Alternative Certification (Brooklyn) Programs. Official transcripts must be received by the date announced by Daemen’s Registrar for each prospective degree conferral period. The Program Director will review the viability of individual course-related requests and, if the request is approved, will provide written approval for documentation purposes.

**Requirements for Graduation**

1. Completion of all course work as defined on the student’s Plan of Study
2. A minimum grade of B earned in all courses, thereby resulting in a minimum cumulative grade point average of 3.00.
3. All degree students are required to file a Brooklyn program Application for Degree form with the Registrar’s Office at the onset of the final term of study. The form is accessible from Daemen’s Office of Education – Alternative Certification (Brooklyn) Programs.

**Time Limitation**

A student admitted to the program is expected to maintain continuity in the academic program and enroll in each cycle in each term until all requirements are completed (generally 3-4 terms). Typically, all requirements for the program must be completed within a period of 18 months from the student’s initial enrollment for graduate study. Extension of the time limit may be granted when circumstances warrant.
Education Courses

Early Childhood Special Education

**ECSE 504: The Reading Process for Students with Disabilities**

3 Credit Hour(s)

This course presents the fundamentals of reading theory, instruction and assessment. Teaching strategies based on current special education methods and materials will be presented. Emphasis is placed on the development and utilization of a broad spectrum of pedagogical methodologies designed to foster reading literacy. Diagnostic, prescriptive and evaluative techniques appropriate to the child with disabilities are addressed. Critical assessment of commercial reading and other language arts programs/materials is included. Prerequisite: SED 502. Field Experience Required. Offered Summer.

Session: Fall and Spring and Summer (GR)

**ECSE 505: Classroom and Behavior Management for Students with Disabilities**

3 Credit Hour(s)

The competencies, knowledge and skills necessary to conduct effective behavior management programs for the benefit of students with disabilities in a variety of special education settings and inclusive programs will be emphasized. The course will also examine the principles of applied behavior analysis, cognitive behavior modification, and other approaches used in assisting students with special needs to monitor and manage their own behavior. Field Experience Required. Offered Spring.

Session: Spring (GR)
ECSE 516: Introduction to Special Education, Educational Policies, Community Education, and Working with Families

3 Credit Hour(s)

The course is a comprehensive survey of factors related to individuals with disabilities, including those who have learning disabilities, mental retardation, emotional or behavioral disorders, visual impairments, hearing impairments, physical handicaps, multiple handicaps, or who are gifted. Topics addressed in the course include definitions, prevalence, identification, characteristics, related vocabulary, educational implications, ancillary services, relevant legislation and litigation. The course will also provide an advance understanding of the historical, philosophical and sociological practices in education, an analysis of the social structure of the community and suggestions on how to involve community members and families in the education of children. Focus will also be given to collaboration with family members as a part of the educational team. Field Experience Required.

Session: Fall and Spring (GR)

ECSE 517: Instructional Methods and Strategies for Effective Classroom Management for Learners with Special Needs

3 Credit Hour(s)

The skills and competencies needed to effectively organize instructional programs and environments will be covered. Techniques for organizing instruction will include such skills as: designing educational goals, instructional objectives, task analysis, lesson planning, curriculum design, environmental arrangements, scheduling, developing IEPs and use of informal assessment/evaluation methods in the classroom. Other skills addressed include classroom management and working with mildly disabled learners within an inclusive setting. Field Experience Required. Offered Fall and Spring.

Session: Fall and Spring (GR)

ECSE 521: Language/Communication Development And Intervention for the Young Child

3 Credit Hour(s)

This course will focus on the language and communication development of young children. Attention will focus on teaching students to design learning environments for infants and preschoolers that will enable, accommodate, and enhance the unique receptive and expressive modes of communication of children with special needs. Field Experience Required.

Session: Fall and Spring (GR)
ECSE 522: Infant Development and Intervention with Assistive Technology

3 Credit Hour(s)

This course will prepare students to understand and appreciate the complex developmental issues and comprehensive interdisciplinary service needs of infants who are disabled or are at risk for a disability, and their families. From an educational perspective, it is impossible to view the needs and goals for the young child apart from those of the family. Early intervention (EI) services are now found throughout the United States, and recent research on brain development highlights the unique characteristics and needs of infants and the critical role of their caregivers in fostering optimal growth and development. The transactional model of EI emphasizes the importance of the continual and progressive interactions between the infant and the environment. Current research on the use of assistive technology in facilitating the infant's interactions with the environment will also be explored and incorporated into class discussions and assignments. Field Experience Required.
Session: Fall and Spring (GR)

ECSE 524: Transdisciplinary Intervention and Family Involvement

3 Credit Hour(s)

With the implementation of family-centered services and the inclusion of young children with special needs in naturalistic environments, personnel need to be able to work collaboratively as members of teams with family members, with others in their own disciplines, and with individuals from an array of other disciplines. The early childhood special educator must be knowledgeable about the philosophical base, methodological approaches, and terminologies of the discipline with which collaboration/consultation occurs. In transdisciplinary team approaches, all team members share their expertise, become sensitive to understanding boundaries of their professional disciplines to maximize what they can offer to the child and his or her family. Students will receive instruction from a parent of a child with a disability and a team of professionals who will model transdisciplinary service delivery and instruct students in a cross-disciplinary model of intervention. Field Experience Required.
Session: Fall and Spring (GR)

ECSE 535: Reading Diagnosis and Instruction

3 Credit Hour(s)

This course provides for advance skill development of competencies for successful assessment and instruction for problem readers. The course will cover specific informal and formal assessment methods used in reading. The primary purpose of this course is to assist in the development of a competent classroom teacher who can successfully assess and design instructional plans for problem readers. In this course, the participants will develop competence in assessing and evaluating readers. They will explore and critique various informal and formal assessments. They will also have the opportunity to implement assessments, and analyze and interpret results, determine an instructional focus based on the data gathered, and address materials and methods that can be used with atypical readers. Field Experience Required. Offered Spring.
Session: As Needed (GR)
ECSE 553: Assessment, Evaluation, and Intervention Strategies for Young Children with Special Needs

3 Credit Hour(s)
This course provides a look at issues, the legal basis, and the functions of assessment of infants, toddlers and preschoolers with special needs. Assessment is an important and ongoing responsibility of professionals who work with young children with special needs and is necessary, not only to meet federal and state mandates, but also to plan appropriate intervention strategies and to monitor the effectiveness of services provided. Special emphasis will be placed on incorporating current research into the course objectives, including a recognition of the high priority now placed on family-centered assessment and intervention, on assessment in the natural environment, and on the importance afforded to the role of interdisciplinary assessment strategies. After reviewing assessment issues and instruments in class, students will select one or more authentic and performance-based assessment tools; conduct an assessment of a young child in a natural environment, using both informal and formal assessment methods; review the child's records; interview with significant caregivers; and then, based on the findings, develop and implement an intervention strategy and record the results. All phases of the process will be monitored and supervised by college and professional personnel. Field Experience Required. Offered Fall and Spring.
Session: Fall and Spring (GR)

ECSE 570: Student Teaching and Seminar in Early Childhood Special Education (B-Gr2)

3 Credit Hour(s)
One professional laboratory experience covers observation of special education classroom situation with gradual increasing responsibility through participation under supervision. Individual student teachers are guided by periodic seminars with the ECSE 570 college supervisor.
Session: Fall and Spring (GR)

ECSE 600: Research Methods in Special Education

3 Credit Hour(s)
The course will emphasize direct investigation, methods, procedures, and reviews of research in special education. It will examine the various types of research that can be and are conducted and the collection, analysis and reporting of findings based on sound methodological procedures. Prerequisites: SED 502, 503, 506.
Session: Fall and Spring (GR)
ECSE 610: Seminar in Early Childhood Special/Action Education/Action Research

3 Credit Hour(s)

This course will provide an opportunity for students to investigate and research the literature in their respective specializations and integrate this with knowledge of best practices, current trends and controversial issues. The course is designed to promote an interdisciplinary perspective by insuring that students within different specializations comprise each seminar group.

Session: Fall and Spring and Summer (GR)

ECSE 696: Comprehensive Examination

0 Credit Hour(s)

Candidates admitted to the graduate programs may, with advisement, complete the edTPA (mandatory for first time takers only) or the Comprehensive Exam based upon courses and field experiences within the graduate programs. The Comprehensive Exam is available to students who have already passed the edTPA. (GR)

---

Education

EDU 518: Teaching to the Standards

3 Credit Hour(s)

This course is intended to provide an advance level of training to students regarding the use of the Common Core learning standards and how specifically children with disabilities will meet these seven standards. The course will also examine methods of instruction, evaluation and content related to assisting the learner. Students will also participate in a PEER review process using Academy of Learning protocol.

Session: As Needed (GR)

---

Special Education

SED 498: Student Teaching Seminar At the Early Adolescent School Level (7-9)

6 Credit Hour(s)

One professional laboratory at the early adolescent school level (7-9) experience covers observation of special education classroom situations with gradually increasing responsibility through participation with the lead content teacher under supervision. Individual student teachers are guided by periodic conference with the college supervisor. Six hours. (GR)
SED 499: Student Teaching Seminar At the Secondary Adolescent School Level (10-12)

6 Credit Hour(s)
One professional laboratory experience at the secondary adolescent school level (10-12) covers observation of special education classroom situations with gradually increasing responsibility through participation with the lead content teacher under supervision. Individual student teachers are guided by periodic conferences with the college supervisor. Six hours. (GR)

SED 500: Educational Psychology

3 Credit Hour(s)
This course is designed to provide a thorough understanding of psychological concepts, principles and theories central to the teaching-learning process, including classroom problems encountered by educators. Session: Fall (GR)

SED 501: Introduction to Special Education

3 Credit Hour(s)
The course is a comprehensive survey of factors related to individuals with disabilities, including those who have learning disabilities, mental retardation, emotional or behavioral disorders, visual impairments, hearing impairments, physical handicaps, multiple handicaps, or who are gifted. Topics addressed in the course include definitions, prevalence, identification, characteristics, related vocabulary, educational implications, ancillary services, relevant legislation and litigation, and current issues and trends in special education. Session: Fall (GR)

SED 502: Special Education: Laws and Trends

3 Credit Hour(s)
This course provides an in-depth review of trends and legislation which impact on the disabled, the families of children with disabilities, and the professional people who serve the disabled. Identification, evaluation, and implementation of service delivery models will be included. The course will examine research implications and social movements for future trends in prevention, services, legislation, litigation and personnel preparation in special education. Co-requisite: SED 501. Session: Fall (GR)
SED 503: Assessment & Evaluation of Students with Disabilities

3 Credit Hour(s)

The purpose of this course is to offer an advance set of skills in assessment as it applies to the characteristics and needs of the student who is disabled (e.g. mentally retarded, learning disabled, or emotionally/behaviorally disordered). The course will emphasize the basic considerations of assessment and measurement, as well as the actual assessment instruments, techniques, and decisions which lead to appropriate educational programming for these target groups. The course will also examine the use of informal methods used in special education classrooms; portfolio assessment, authentic assessment, observation, anecdotal and various recording methods will also be covered. Field Experience Required. (Brooklyn only).

Session: Fall and Spring and Summer (GR)

SED 504: The Reading Process for Students with Disabilities

3 Credit Hour(s)

This course presents the fundamentals of reading theory, instruction and assessment. Teaching strategies based on current special education methods and materials will be presented. Emphasis is placed on the development and utilization of a broad spectrum of pedagogical methodologies designed to foster reading literacy. Diagnostic, prescriptive and evaluative techniques appropriate to the child with disabilities are addressed. Critical assessment of commercial reading and other language arts programs/materials is included. Prerequisite: SED 502. Field Experience Required.

Session: Fall and Spring and Summer (GR)

SED 505: Classroom and Behavior Management for Students with Disabilities

3 Credit Hour(s)

The competencies, knowledge and skills necessary to conduct effective behavior management programs for the benefit of students with disabilities in a variety of special education settings and inclusive programs will be emphasized. The course will also examine the principles of applied behavior analysis, cognitive behavior modification, and other approaches used in assisting students with special needs to monitor and manage their own behavior. Field Experience Required.

Session: Spring (GR)
SED 506: Instructional Methods and Strategies for Learners with Special Needs

3 Credit Hour(s)

The skills and competencies needed to effectively organize instructional programs and environments will be covered. Techniques for organizing instruction will include such skills as: designing educational goals, instructional objectives, task analysis, lesson planning, curriculum design, environmental arrangements, scheduling, developing IEPs and use of informal assessment/evaluation methods in the classroom. Other skills addressed include classroom management and working with mildly disabled learners within an inclusive setting. Field Experience Required.

Session: Fall and Spring and Summer (GR)

SED 512: Collaborative Approaches within Inclusive Programs

3 Credit Hour(s)

A course designed for the study of the teaching process with special emphasis on competencies necessary for effective communication and interaction with parents, students, ancillary personnel, peers, paraprofessionals, and volunteers. Specific emphasis will be given to the development of interpersonal skills required for various team members both in special and regular education. Issues explored will include: interpersonal relationships - the roles played by one's self-concept, perceptions, emotions; language, nonverbal communication, and listening versus hearing; intimacy and distance in relationships, improving communication climates, and managing interpersonal conflicts. Field Experience Required. Prerequisites: SED 502, 506.

Session: Fall and Summer (GR)

SED 513: Survey of Learning Disabilities

3 Credit Hour(s)

This course provides an historical overview of services, assessment, theories of intervention strategies, and classroom models for children with learning disorders. The etiology of learning disabilities and its' prolific growth will be presented and what schools and teachers must do to accommodate these learners. This course will also examine national organizations, definitions, discrepancy of potential and achievement and other identification issues for these learners.

Session: Fall (GR)

SED 515: Introduction to Theories of Learning, Child Development and Cognitive Studies

3 Credit Hour(s)

The course will provide a thorough understanding of child development, psychological concepts, principles and theories involved in the teaching-learning process. This course will also cover current cognitive theories of learning and brain-based learning studies used in today's classroom.

Session: As Needed (GR)
SED 516: Introduction to Special Education, Educational Policies, Community Education, and Working with Families

3 Credit Hour(s)

The course is a comprehensive survey of factors related to individuals with disabilities, including those who have learning disabilities, mental retardation, emotional or behavioral disorders, visual impairments, hearing impairments, physical handicaps, multiple handicaps, or who are gifted. Topics addressed in the course include definitions, prevalence, identification, characteristics, related vocabulary, educational implications, ancillary services, relevant legislation and litigation. The course will also provide an advance understanding of the historical, philosophical and sociological practices in education, an analysis of the social structure of the community and suggestions on how to involve community members and families in the education of children. Focus will also be given to collaboration with family members as a part of the educational team. Field Experience Required.

Session: Fall and Spring (GR)

SED 517: Instructional Methods and Strategies for Effective Classroom Management for Learners with Special Needs

3 Credit Hour(s)

The skills and competencies needed to effectively organize instructional programs and environments will be covered. Techniques for organizing instruction will include such skills as: designing educational goals, instructional objectives, task analysis, lesson planning, curriculum design, environmental arrangements, scheduling, developing IEPs and use of informal assessment/evaluation methods in the classroom. Other skills addressed include classroom management and working with mildly disabled learners within an inclusive setting. Field Experience Required.

Session: Fall and Spring (GR)

SED 519: Literacy Instruction and Students with Learning Disabilities

3 Credit Hour(s)

Offered in the Alternative TRANS-B program; not available at Main Campus. This course presents a variety of research-based methods and curricula currently used for teaching literacy skills for students with special needs. Emphasis will be placed on the development and utilization of a broad spectrum of pedagogical methodologies designed to foster literacy. Diagnostic, prescriptive and evaluative techniques appropriate to the child with disabilities will be addressed. Critical assessment of commercial reading and other language arts materials/programs is included. Field Experience Required.

Session: Fall and Spring and Summer (GR)
**SED 522: Curriculum Adaptations/Modifications In the Content Areas of Math, Science, Social Studies, and Technology**

3 Credit Hour(s)

IDEA (1997) affords students with learning disabilities special services within the least restrictive environment. These services include accommodations and modifications as documented by the child's IEP. This course will cover mandated modifications in the areas of environmental/management, materials, content, instructional and testing/evaluation modifications across content areas in order to maintain the child with special needs in the regular education classroom and curriculum. Field Experience Required.

Session: Fall (GR)

**SED 523: Survey of Learning Disabilities and Instructional Methods**

3 Credit Hour(s)

This course provides an historical overview of services, assessment, theories of intervention strategies, and classroom models for children with learning disorders. The etiology of learning disabilities and its prolific growth will be presented and what schools and teachers must do to accommodate these learners. This course will also examine national organizations, definitions, discrepancy of potential and achievement and other identification issues for these learners. Field Experience Required.

Session: Fall and Spring (GR)

**SED 535: Reading Diagnosis and Instruction**

3 Credit Hour(s)

This course provides for advance skill development of competencies for successful assessment and instruction for problem readers. The course will cover specific informal and formal assessment methods used in reading. The primary purpose of this course is to assist in the development of a competent classroom teacher who can successfully assess and design instructional plans for problem readers. In this course, the participants will develop competence in assessing and evaluating readers. They will explore and critique various informal and formal assessments. They will also have the opportunity to implement assessments, and analyze and interpret results, determine an instructional focus based on the data gathered, and address materials and methods that can be used with atypical readers. Field Experience Required.

Session: As Needed (GR)

**SED 540: Survey of Emotional and Behavioral Disorders**

3 Credit Hour(s)

This course provides a historical overview of services, assessment, theories of and intervention strategies for children with emotional/behavioral disorders. Etiological concerns will cover the roles of biology, sociological phenomena, family, and the school.

Session: Summer

Year: All Years (GR)
SED 553: Assessment, Evaluation, and Intervention Strategies for Young Children with Special Needs

3 Credit Hour(s)

This course provides a look at issues, the legal basis, and the functions of assessment of infants, toddlers and preschoolers with special needs. Assessment is an important and ongoing responsibility of professionals who work with young children with special needs and is necessary, not only to meet federal and state mandates, but also to plan appropriate intervention strategies and to monitor the effectiveness of services provided. Special emphasis will be placed on incorporating current research into the course objectives, including a recognition of the high priority now placed on family-centered assessment and intervention, on assessment in the natural environment, and on the importance afforded to the role of interdisciplinary assessment strategies. After reviewing assessment issues and instruments in class, students will select one or more authentic and performance-based assessment tools; conduct an assessment of a young child in a natural environment, using both informal and formal assessment methods; review the child's records; interview with significant caregivers; and then, based on the findings, develop and implement an intervention strategy and record the results. All phases of the process will be monitored and supervised by college and professional personnel. Field Experience Required.
Session: Fall and Spring (GR)

SED 559: Introduction to Autism Spectrum Disorders

3 Credit Hour(s)

The course will provide participants with a framework for understanding the definition and history of autism. The medical and educational knowledge of treatment efforts to promote the appropriate education and services for young children, adolescents and young adults with Autism Spectrum Disorders (ASD) will be discussed. The course will also focus on the social and communication needs of children with ASD. This course is intended as a general overview of autism.
Session: Spring and Summer (GR)

SED 570: Special Education Student Teaching and Seminar at the Primary Level for Children with Disabilities

3 Credit Hour(s)

Two professional laboratory experiences cover observation of special education classroom situation with gradually increasing responsibility through participation under supervision. Individual student teachers are guided by periodic conferences with the college supervisor. Students seeking initial certification will complete this experience. Prerequisites: 502, 503, 504, 505, 506, 512.
Session: Fall and Spring (GR)
SED 580: Special Education Student Teaching and Seminar at the Intermediate Level for Children with Disabilities

3 Credit Hour(s)
This course is designed to provide candidates with comprehensive classroom teaching experiences, which serve to culminate the professional sequence of teacher preparation and other related courses. Student teachers will be presented with the opportunity to observe, practice, discuss, evaluate, and modify teaching strategies and methods in intermediate childhood special education classroom settings (grades 4-6). Within the professional laboratory experience, candidates will be provided with gradually increasing lesson presentation and teaching responsibilities with the ultimate outcome of attending to all of the details that comprise a full day and week(s) of teaching.
Session: Fall and Spring
Year: All Years (GR)

SED 600: Research Methods in Special Education

3 Credit Hour(s)
The course will emphasize direct investigation, methods, procedures, and reviews of research in special education. It will examine the various types of research that can be and are conducted and the collection, analysis and reporting of findings based on sound methodological procedures. Prerequisites: SED 502, 503, 506.
Session: Fall and Spring (GR)

SED 602: Special Education: Laws and Trends

3 Credit Hour(s)
An in-depth review of legislation which impacts on the disabled, the families of children with disabilities, and the professional people who serve the disabled. Research implications and social trends in prevention, service, legislation, litigation and personnel preparation in special education.
Session: Fall (GR)

SED 603: Standards Based Assessment and Instruction for Students with Disabilities

3 Credit Hour(s)
The course will emphasize the use of standards-based instruction and learning with assessment and measurement, as well as assessment instruments and decisions which lead to appropriate educational programming.
Session: Spring (GR)
SED 606: Instructional Methods and Strategies for Students with Disabilities
3 Credit Hour(s)
The course will focus on understanding and facilitating the learning process to support students with mild to moderate disabilities who are within regular and special education settings to become independent and lifelong learners. The components of effective curricular and instructional design, including outcomes, assessment, goal setting, learning activities and measurement of outcomes will be related to NYS Standards.
Session: Fall (GR)

SED 610: Seminar in Special Education/Action Research
3 Credit Hour(s)
This course will provide an opportunity for candidates to investigate and research the literature in a designated and/or variety of specializations(s) and integrate the results of this research with knowledge of best practices, current trends and controversial issues. Candidates will have opportunities to 1) evaluate published research utilizing their existing SED 600 knowledge base, 2) expand their analytical abilities by learning about additional quantitative, as well as qualitative, research designs (e.g. correlational, single-subject, ethnographic, etc.), and 3) synthesize findings in designated research areas in the form of at least one well-crafted literature review.
Session: Fall and Spring and Summer (GR)

SED 612: Quality Inclusion/Collaboration Methods
3 Credit Hour(s)
The study of the teaching process with special emphasis on competencies necessary for effective communication and interaction with parents, students, ancillary personnel, peers, paraprofessionals, and volunteers. The focus will be on mastery of how inclusion and the various service models allow for the team teaching of students with disabilities in the regular education setting. The course will examine collaboration, reciprocal teaching methods and strategies for academic and social inclusion of students.
Session: Fall (GR)

SED 615: Issues, Trends, and Research in Special Education
3 Credit Hour(s)
This course is designed as a seminar for the discussion of current issues and trends in special education. The role of research in educational reform will be highly emphasized. Topics may include, but are not limited to, inclusive education, collaborating with parents and professionals, assessment, early intervention, transition, and categories of disability.
Session: Summer
Year: All Years (GR)
SED 635: Reading Diagnosis and Instruction

3 Credit Hour(s)

This course provides for advanced skill development of competencies for successful assessment and instruction for problem readers. The course will cover specific informal and formal assessment methods used in reading. A 10 hour practicum is required.

Session: Spring (GR)

SED 639: The Writing Process and Students with Disabilities

3 Credit Hour(s)

This course will investigate all stages of the writing process from both a student and teacher perspective. The focus will be on how to apply this information with students with disabilities in the regular and special education classroom.

Session: Summer (GR)

SED 642: Curriculum Modifications in the Content Areas of Mathematics, Science, Social Studies, and Technology

3 Credit Hour(s)

This course examines specific content and instructional strategies for teaching Math, Science, Technology and Social Studies to students with disabilities in the regular and special education classroom.

Session: Spring (GR)

SED 696: Comprehensive Examination

0 Credit Hour(s)

Candidates admitted to the graduate programs may, with advisement, complete the edTPA (mandatory for first time takers only) or the Comprehensive Exam based upon courses and field experiences within the graduate programs. The Comprehensive Exam is available to students who have already passed the edTPA.

Session: Spring (GR)

SED 699: Research Project in Special Education

3 Credit Hour(s)

This course is an alternative culminating project to the comprehensive exam, and is available, with the approval of the chair, to graduate candidates pursuing a Master’s degree in special education. Candidates admitted to the graduate programs have the option to take a comprehensive exam (SED 696) at the end of their program of study or complete a thesis/research project. Under the direction of a faculty advisor, the candidate will demonstrate the capacity to complete independent research that he/she facilitates, organizes, and expresses in both oral and written form of an original thought or of questions that relate to his/her professional skills or interests in the field of special education. Prerequisites: Core courses and specialization courses.

Session: Summer

Year: All Years (GR)
SED 700: Applied Behavior Analysis
3 Credit Hour(s)
Applied Behavior Analysis (ABA) is a course designed to provide the student with an understanding of the Concepts and Principles that underlie the science of ABA. The historical and philosophical background of ABA will be covered and students will learn about the essential elements of ABA. An introduction to behavioral measurement will be provided in the context of some basic behavior change methods. Additionally, students will be introduced to the Laws, Rules, and Regulations regarding the practice of ABA.
Session: Fall
Year: All Years (GR)

SED 702: Behavioral Measurement and Assessment
3 Credit Hour(s)
Behavioral Measurement and Assessment is a course designed to provide the student with experience in careful measurement and assessment of behavior. Methods for obtaining specific types of behavioral data, graphing and analyzing data, making recommendations and terminating services will be covered. Additionally, some behavior change procedures will be introduced for students to learn, measure, and evaluate.
Session: Spring
Year: All Years (GR)

SED 704: Functional Assessment
3 Credit Hour(s)
Functional Assessment is a course designed to provide the student with the history and hands on experience in fundamental elements of direct observation, functional behavioral assessment, functional analysis methodology, function-based intervention, and function-based behavior change intervention procedures.
Session: Summer
Year: All Years (GR)

SED 706: Research Methods and Experimental Design
3 Credit Hour(s)
Research Methods and Experimental Design is a course designed to provide the student an understanding of the importance of Single Case Research Designs (SCRDs) and the ability to evaluate and implement them. Students will design evaluations of the influence of independent variables on dependent variables in representative SCRDs. Students will also conduct component and parametric analyses. Additionally, students will design ethical evaluations of the effectiveness of interventions, state and plan for the unwanted effects of independent variables, and assess and interpret the threats to internal and external validity in experimental designs, including interobserver agreement, and reliability of the independent variable.
Session: Fall
Year: All Years (GR)
SED 708: Ethics and Professional Conduct

3 Credit Hour(s)

Ethics and Professional Conduct is a course designed to provide the student with a background in fundamental elements of ethical and professional behavioral practice. Students will learn to apply the "Professional and Ethical Compliance Code for Behavior Analysts" to ethical and professional conflicts.
Session: Spring
Year: All Years (GR)

SED 710: Behavior Change Procedures

3 Credit Hour(s)

Behavior Change Procedures is a course designed to provide the student with a comprehensive experience in the fundamental elements of behavior change and specific behavior change procedures. This will also cover the design and implementation of behavioral interventions, including environmental modification and generalization. Students will learn general concepts and principles, including matching law, behavioral cusps, verbal behavior, and derived stimulus relations. Students will also learn specific techniques that include shaping, chaining, punishment, extinction, and generalization.
Session: Summer
Year: All Years (GR)

SED 712: Autism Spectrum Disorders

3 Credit Hour(s)

Autism Spectrum Disorders (ASD) is a course designed to provide the student with an overview of the history and current considerations related to the diagnosis of autism across the lifespan. The biological bases and behavioral phenotype of autism will be taught within the framework of child development and transition to adulthood to geriatric. Students will learn to plan and evaluate treatments for people with ASD and will write and communicate to the audience of the consumer. The New York State regulations on ABA will be reviewed and the students will take and pass a state mandated course on Identification and Reporting of Child Abuse.
Session: Fall
Year: All Years (GR)

SED 714: Supervised Practicum and Seminar In Applied Behavior Analysis

2 Credit Hour(s)

This course is the introduction to a Supervised Practicum in Applied Behavior Analysis, and consists of a 150 clock hour supervised placement (10 hours per week at site), along with a weekly class Seminar. (Students are not permitted to work less than 10 hours for their practicum hours).
Session: Spring
Year: All Years (GR)
SED 716: Maintenance of Client Records

2 Credit Hour(s)

Maintenance of Client Records is a course designed to provide the student with an ability to identify and apply federal, state, and professional standards for maintenance of client records, including specific state agency standards while in practice, in the office, and while working remotely. Students will also learn about best practice for maintenance of client records while file-sharing, using telepractice, professional social media and advertising, and conducting research with consented participants. Students will also identify and apply best practice for maintenance of client records while saving, archiving, and destroying records.

Session: Spring
Year: All Years (GR)

SED 718: Issues of Cultural and Ethnic Diversity

3 Credit Hour(s)

Issues in Cultural and Ethnic Diversity in ABA is a course designed to provide the student with an overview of the history and current considerations related to providing ABA services to individuals with autism who are members of diverse populations. Aspects of cultural and ethnic diversity will be covered and the students will apply behavioral assessments and interventions with modifications based on needs from the individuals served.

Session: Fall
Year: All Years (GR)

SED 722: Applied Behavior Analysis Capstone Research Project

3 Credit Hour(s)

The ABA Capstone Research Project will provide the structure and guidance for students to create a Master’s-level thesis based on a research project of the student’s area of interest in ABA and Autism Spectrum Disorders (ASD). Students will be engaged in a systematic process of research which is expected to be genuine, of high quality, and maintains a level of rigor and integrity. Students will also follow the formal process for developing a research idea, securing appropriate research approvals, conducting the research, and writing the Master’s thesis.

Session: Summer
Year: All Years (GR)
Mission Statement

The Philosophy of the Executive Leadership and Change Program: Effective leaders have an accurate sense of themselves. They model, teach, and advocate the values of authenticity, empowerment, creative and critical thinking. To promote collaboration, trust and community building, they take advantage of diversity of style, experience and culture. Executive leaders understand and facilitate change to meet the challenges of an increasingly complex, fast-paced, global society. Leaders need the skills to create and communicate a positive view of the future, which is in harmony with the values of their organization and the larger community. The role of the leader is to inspire and facilitate this transition to the desired future state.

In keeping with Daemen College’s belief that leadership is fundamentally service, the leader’s role is defined to include a sense of civic responsibility and ethical decision making. The interdisciplinary curriculum provides participatory interactive experiences and opportunities for practice and reflection as the primary methods for exploring leadership and change.

The Executive Leadership and Change program characterizes leadership development as an ongoing learning process, thus building capacity in the leader, their organizations and in the other team members involved in leading positive change.

Program Objectives

- Apply contemporary leadership models and theories as they analyze and shape personal leadership style of the student (create personal Mission – Vision, Strategic Goals and Learning Objectives).
- Change behavior through self-knowledge, cultural sensitivity, emotional intelligence, team dynamics and systems thinking.
- Reflect on their experience when applying new knowledge, skills and approaches.
- Develop skills for effective leadership guided by ethical values.
- Nurture creative and critical thinking skills necessary to effect personal and organizational change.
- Integrate the advantages of a liberal learning philosophy into a framework of leadership skills and organizational behavior development.
- Acknowledge and fulfill their roles as leaders of change personally, organizationally and in the community with specializations in Business, Health Professions, Not for Profit or Higher Education contexts.
Admission Requirements

1. Complete [online application](#).
2. Provide a written statement from the applicant which describes the applicant’s own interest in the Executive Leadership and Change degree and assesses the applicant’s strengths as a leader and describes what the applicant hopes to gain from a graduate degree.
3. Provide a resume of professional experience.
4. Provide two letters of recommendation from an employer, professional colleague, or major professor which evaluate the applicant’s leadership potential and capacity to complete a graduate degree.
5. Submit official transcript(s) from all accredited colleges or universities attended indicating the award of an undergraduate degree (international applicants must submit foreign transcripts in the original language and an English copy).
6. Complete Health form.
7. Submit an official TOEFL score by each international applicant who has graduated from a foreign college or university and whose native language is not English.
8. Complete personal interview with program director.

M.S. Degree Requirements

- LEAF500 Organizational Leadership and Self Development (3)
- LEAF501 Critical Thinking, Problem Solving & Decision Making: Methods of Organizational Research (3)
- LEAF502 Leadership and Organizational Ethics, Values, and Social Environment (3)
- LEAF513 Developing Leadership Skills: One-on-One Leadership, Conflict Management, and Team Building (3)
- LEAF514 Leadership and Community: Empowerment, Collaboration and Dialogue (3)
- LEAF515 The Business of Leadership: Financial, Organizational, and Cultural (3)
- Specialty Track Studies: Students complete 3 credits in their specialty track. Course options are:
  - LEAF525 Leadership in Higher Education (3)
  - LEAF526 Leadership in Business (3)
  - LEAF527 Leadership in Non-Profit Organizations (3)
  - LEAF528 Leadership in Health Care Organizations (3)
- LEAF529 Transformational Leadership and Organizational Change (3)
- LEAF530 Modeling, Branding And Marketing Your Leadership (3)
- LEAF540 Research Project/Thesis in Executive Leadership and Change I (3)
- LEAF541 Research Project/Thesis in Executive Leadership and Change II (3)
- LEAF560 Capstone Course in Leadership (3)

TOTAL PROGRAM REQUIREMENTS = 36 CREDITS
Specialty Track

Executive Leadership and Change students customize their research project/thesis, do an organizational analysis and complete the specialization leadership course in one of four specialty tracks: Business; Health Professions; Higher Education; Not-for-Profit Organizations.

Program Structure and Time Limitation

Students in the program enter and finish as a cohort, maintaining continuous registration in sequenced courses. The ordinary time limitation for completion of the program is accordingly, from the time of first enrollment, three years. Compliance with the time limitation will be monitored by the Program Director. While this model offers an optimal learning experience, exceptions may be made for people who must temporarily leave the program. Such students must discuss their situation with the Program Director and file a formal Leave of Absence. The precise timing of the student’s return from leave will be subject to the sequence availability within an appropriate cohort for the student’s program re-entry. In cases where lack of an appropriate cohort causes a student to exceed the allowed one year’s leave of absence from the program, the student will be permitted, and expected, to re-enroll at the earliest availability of an appropriate cohort. All other Daemen College policies on Leaves of Absence and time limitations for program completion (including extensions) will apply.

Requirements for Graduation

A minimum cumulative grade point average (GPA) of 3.00 must be maintained to remain in good standing. A failed course must be repeated. It may also be necessary to repeat coursework in which a grade below B (3.0) has been earned in order to maintain the 3.0 overall GPA. A student is allowed a maximum of two repeats before being dismissed from the Executive Leadership and Change program.

Application for Degree: All graduate students are required to file an Application for Degree form with the Registrar’s Office at the onset of the final term of study. The application form is accessible on the Registrar’s web page.

Advanced Certificate – Executive Leadership and Change

A post-baccalaureate certificate program is available for candidates who possess a minimum of a bachelor’s degree. The purpose of this program is to enhance the student’s knowledge and skills in leadership.

This program will meet the needs of any individual that is interested in expanding their their capacity to lead by increasing awareness of oneself, groups, and organizations and systems. The program is also useful as it prepares professionals to help their organizations navigate change. Students who pursue the
post-baccalaureate certificate have the option of continuing in the program to complete the requirements for the Master of Science in Executive Leadership and Change.

**REQUIREMENTS**

- LEAF500 Organizational Leadership and Self Development (3)
- LEAF501 Critical Thinking, Problem Solving & Decision Making: Methods of Organizational Research (3)
- LEAF513 Developing Leadership Skills: One-on-One Leadership, Conflict Management, and Team Building (3)
- LEAF515 The Business of Leadership: Financial, Organizational, and Cultural (3)

**Specialization**

- **SELECT ONE:**
  - LEAF525 Leadership in Higher Education (3)
  - LEAF526 Leadership in Business (3)
  - LEAF527 Leadership in Non-Profit Organization (3)
  - LEAF528 Leadership in Health Care Organizations (3)

**Program Elective**

- **SELECT ONE:**
  - LEAF502 Leadership and Organizational Ethics, Values, and Social Environment (3)
  - LEAF529 Transitional Leadership and Organizational Change (3)
  - LEAF530 Modeling, Branding and Marketing Your Leadership (3)

**TOTAL CERTIFICATE REQUIREMENTS = 18 CREDITS**

**Certificate: Admission Requirements**

This post-baccalaureate certificate requires possession of a bachelor’s degree.

Application for Certificate: All graduate students are required to file an Application for Certificate form with the Registrar’s Office at the onset of the final term of study. The application form is accessible on the Registrar’s web page as well as at this link – Application for Certificate.

**NOTE**

Consumer Information on Certificate Programs is published on the Daemen Website.
Executive Leadership and Change Courses

Leadership

LEAF 500: Organizational Leadership and Self Development

3 Credit Hour(s)

Drawing on material from various social science disciplines, this integrative course focuses on the research and models of leadership relevant to defining and achieving collective goals in a variety of organizational settings. Students explore the relationship between personality style and effective behaviors of the socially responsible leader. This course follows the historical development of leadership theory and examines multiple leadership models with their associated strengths and criticisms. Personal assessments are used to promote a broad understanding of leadership in an ethical context. Topics include personality theory, leadership style, including transactional leadership, path goal, contingency and trait approach theories, transformational leadership, leader-member exchange, holistic, servant, and social change models. Also covered are theories of group development, motivation, power, authority, disclosure and feedback. Approaches include diagnostic instruments for self and others, role-plays, case studies, writing projects to establish a personal mission statement, use of a reflective "leadership log" and formulating strategies for balancing work and personal goals. The Leadership Portfolio is introduced. Prerequisite: Majors only or permission of instructor.

Session: Spring
Year: Odd Years (GR)
LEAF 501: Critical Thinking, Creative Problem Solving, and Decision Making: Methods of Organization Research

3 Credit Hour(s)

The main goal of this course is to provide students with balanced, differentiated thinking skills and facilitation tools necessary for effective problem solving and decision-making. The course is based on the Osborn-Parnes model of creative problem solving and decision-making, originating in Buffalo, which unites a firm understanding of various problem solving methodologies with deliberate creative and critical thinking skills. The course includes the study of the inquiry process appropriate to investigation of organizational climate and group behavior. Topics include divergent, convergent and systems thinking, facilitation, collecting and processing information, clarifying core issues, weighing multiple potential solutions, and developing and implementing an action plan. The organizational processes and skills practiced include identifying complex challenges, data collection, ideation, forecasting, decision-making under uncertainty, and communicating or implementing results. Teaching methods include lecture, experiential activities, case studies, and projects. Also, "scientific" ways of knowing will be contrasted with more intuitively based decision-making processes, demonstrating the importance of both in making ethical and personal leadership decisions. During this course, students will be encouraged to apply methodologies to their own experiences, and will engage in facilitation projects designed to allow them to use various methods to aid in the discovery of their own leadership decision-making processes. Prerequisite: Majors only.

Session: Intersession
Year: All Years (GR)

LEAF 502: Leadership and Organizational Ethics, Values and Social Environment

3 Credit Hour(s)

Effective leadership encompasses the ability to understand, rationalize and apply ethical principles in the decision making process. This course focuses on the influence that sound moral reasoning has in achieving appropriate parameters of conduct that benefits the individual, the institution as well as the larger community. Class lectures are forged around a participatory process wherein each student is required to present an in depth analysis of ethical issues common in everyday activities. Through the use of selective material and reading, core ethical dilemmas are explored for the purpose of assisting the student in recognizing the pervasiveness of ethics in our quest for effective leadership. Prerequisite: Majors only.

Session: Fall and Summer (GR)
LEAF 513: Developing Leadership Skills: One-on-One Leadership, Conflict Management, and Team Building

3 Credit Hour(s)

This course explores challenges and opportunities for effective leadership at three levels - the individual (both self and those being engaged in one-on-one interactions), the group or team, and the organization or system as a whole. Topics include systems thinking, coaching and feedback, the use and application of standardized assessment tools (including a 360 degree instrument), organizational theory, conflict management, emotional intelligence, leadership styles and team development. The emphasis throughout the course is on the practical application of leadership theories and models; participants are encouraged and supported in making connections with their real worlds of work, past, present and future. Significant in-class time of the course is used as a learning laboratory to explore various concepts around the self and team leadership. This includes collaboratively setting up a self-directing team and delivering a product to a defined customer. The context for the exploration of leadership at the three levels in LEAF 513 reflects the inherent complexity of organizations and organizational life, and the critical role of the leader in the organization's achievement of results and long-term sustainability. Learning methodologies include personal reflection and sharing of experiences, action learning, a written paper and presentation, completion of leadership/learning log and extensive reading and dialogue. Prerequisite: Majors only.
Session: Spring and Summer
Year: All Years (GR)
LEAF 514: Leadership and Community: Empowerment, Collaboration, and Dialogue

3 Credit Hour(s)

Students experience a leadership immersion in an organizational setting. Through this experience they gain an appreciation for and an understanding of the leadership processes of empowerment, collaboration, strategy, and dialogue; this occurs in an organizational context providing students the experience of understanding the internal and external forces that create change and transform organizations, communities, and systems. Emphasis is given to understanding the processes of leadership focusing on individual and group development, social capital, strategy, organizational mission, vision, and values, structures of collaboration, problem solving and dialogue. For this course, the student will work individually to become knowledgeable about an agency, business, or community group (identified below as practice setting). The student will apply action research methods to become knowledgeable about the practice setting. By spending time with various leaders within the practice setting, the student will become increasingly sensitive to the culture of the practice setting. Collaborating with their organizational host the student will identify a goal/problem within the practice setting and develop a mini-project. Drawing on foundational theories relating to organizational behavior, leadership style, decision-making, and problem solving, the student will become familiar with the communication and decision making mechanisms already in place at the practice setting to develop and enhance the organization's competitive advantage. The remainder of the course will be spent on activating appropriate resources to meet mutually agreed upon goals. Upon completion of this course, students will be well prepared based on “best practices” and theoretical leadership foundation knowledge acquired in the program to undertake leadership roles/positions in various organizations, agencies, communities, businesses/international corporations, or Non-Governmental Organizations. Prerequisite: Majors only.

Session: Fall and Summer
Year: All Years (GR)

LEAF 515: The Business of Leadership: Financial, Organizational and Cultural

3 Credit Hour(s)

This course examines financial administrative tools and leadership techniques as they apply to a variety of organizations. Financial accounting and financial reporting concepts are introduced as important analysis and planning tools. The course covers the basic financial statements including the balance sheet, income statement, cash flow statement and notes to financial statements. Analytical procedures, budgeting cost concepts and ratio analysis are also examined to evaluate profitability, liquidity and solvency of organizations. An additional component of the course addresses the changing nature of the market place and explores the implications and ramifications for leadership. Cultural considerations are woven through the managerial topics of planning and organizing for domestic and global organizations. This course includes common business processes and skills, such as innovative problem solving, negotiation, and effective presentations. Teaching methods include role-plays, discussions, case studies, readings statistical analysis and financial modeling. Prerequisites: Majors only.

Session: Fall and Spring
Year: All Years (GR)
LEAF 525: Leadership in Higher Education

3 Credit Hour(s)

This course offers a critical examination of leadership within the context of 21st century higher education, with a focus on trends, issues, challenges, and competencies influencing the effective practice of leadership in local, regional and U.S. colleges and universities. Beginning with a brief history and the theoretical foundations of higher education in the United States, the course further explores leadership models and approaches, as well as content in a variety of topic areas related to the leadership and management of higher education institutions including: organizational administration and governance; finance; strategic planning; community and government relations; student affairs; and ethics and diversity. The course is presented in seminar format and involves a variety of written, Web-enhanced (Blackboard), oral assignments, and classroom activities. These include individual and group work, presentations, discussions, lecture, and guest speakers. For the final project, students develop a leadership plan for the effective administration and management of a college/ university division or department. Prerequisite: Majors only.

Session: Spring
Year: All Years (GR)

LEAF 526: Leadership in Business

3 Credit Hour(s)

This course focuses on synthesizing the study of ethical and creative leadership into the context of business organizations. The course encourages examination of the leadership demands specific to the business environment as well as personal application of these concepts. Common business process and skills studied are financial statement analysis, segment analysis, strategic business units, balance scorecard, budgeting, enterprise resource planning and acquisition analysis. Demonstrated application of these approaches will be assessed through a strategic business and leadership plan. Special attention is given to the legal and ethical context in the practice of interviewing, selecting, training, promoting, and terminating employees. Teaching methods include lecture, computer assignments, case studies, research and projects illuminating the different and often-conflicting factors involved in incorporating financial data in visionary decision-making.

Prerequisite: Majors only.
Session: Summer (GR)
LEAF 527: Leadership in Non-Profit Organizations and Community-Based Change

3 Credit Hour(s)

This course expands on the student's understanding of Leadership Theory by applying the theories within the context of Not-for-Profit (NFP) organizations. Students have the opportunity to learn about the unique aspects of leadership within the NFP sector through "Guest Speakers" from the sector. The course engages students in the exploration of complex system issues such as the role and impact of the Non-Profit Board of Directors, budgetary constraints and the impact of governmental regulation and funding guidelines. Students are challenged to study these complex issues within the context of the over-arching responsibility of the non-profit leader to deliver on the organizational mission while maintaining fiscal viability and sustainability. The course also explores the theory and practice of community-based change. Within this exploration, students consider the level of community engagement necessary for a successful change strategy, the decision-making processes that ensure buy-in and engagement and the strategies to ensure that the different priorities of various stakeholders are considered in the final decision. Teaching methods include: lecture; guest speaker presentations; case studies; interviews with non-profit leaders and small group projects. Prerequisites: Majors only.

Session: Spring
Year: All Years (GR)

LEAF 528: Leadership in Health Care Organizations

3 Credit Hour(s)

This course focuses on the integration of new knowledge, professional leadership practices, critical thinking and experiential reflection to promote an understanding of the role of leadership in healthcare environments. This course also focuses on the integration of course content from preceding LEAF classes. It promotes discussions of leadership challenges in healthcare and the implementation of evidence-based approaches to developing leadership capacity. The course explores leadership theories, and competencies that promote authentic behavior at all leadership levels. Emphasis is placed on the unique, complex systems within healthcare and those forces (both internal and external) that impact the decisions of healthcare leaders. The course examines healthy work environments, labor/management relationships, risk management practices, budgetary analysis, regulatory influences and diversity in the workplace. The course is designed for students preparing to assume the role and duties of a leader, manager, supervisor, officer or governing board member of a healthcare organization. Teaching methods include lecture, computer-based assignments, case studies, discourse on current events, special projects and presentations. Prerequisite: Majors only.

Session: Spring
Year: All Years (GR)
LEAF 529: Transformational Leadership and Organizational Change
3 Credit Hour(s)
This course examines, in both theoretical and practical terms, the process of organizational change and the critical role that effective self leadership plays in successfully orchestrating organizational change and in delivering the results required for long-term sustainability. Change is examined at three levels - from the perspective of the individual leader, the impact of change on groups as well as on the organization. Topics include the organization as a system, patterns of relationships in a hierarchical organization, how individuals create reality through personal frames of reference, Appreciative Inquiry, resistance to change, change as transition, transformational leadership, the change leader's habits and tactics, and change as a structured process. Throughout the course the participants are encouraged to translate the course content to their work experience, both past and future, and to bring their work experience to the course. Learning methodologies include personal reflection and sharing of experiences, case studies, a written project and presentation, completion of leadership/learning log and extensive reading and dialogue. Prerequisite: Majors only.
Session: Summer (GR)

LEAF 530: Modeling, Branding and Marketing Your Leadership
3 Credit Hour(s)
This course focuses on the individual as a leader and helps build understanding of the value the individual leader brings to his/her professional and personal arenas including how the leader is perceived by stakeholders and customers. Students examine the key elements of positioning, branding and marketing as well as the economic and motivational drivers in markets. Students refine their vision and mission statements and explore their uniqueness as leaders. They determine the market position of themselves as leaders and how their value proposition supports effective leadership and can serve as a leadership tool. Students develop their individual leadership brands and models and use the principles and practices of marketing to develop their individual leadership marketing plan. Learning methodologies include action learning, case and article analysis, personal reflection, and presentation. Prerequisite: Majors only.
Session: Fall and Summer
Year: All Years (GR)
LEAF 540: Research Project/Thesis in Executive Leadership and Change I

3 Credit Hour(s)

This course is the first of two courses that focus on research. This course prefaces LEAF 541. In this course, students develop a project or thesis through independent study that entails research conducted under the supervision of a faculty member in an area of mutual interest to the student and the faculty member. Student assignments incorporate the collecting and processing of information, statistical inference, risk analysis, qualitative methodologies, and information technology. The course affords an opportunity to study a specific organizational problem or to institute an organizational change. In the second course, LEAF 541, students will design a new project or complete their thesis. Both courses afford students an opportunity to study and approach a specific organizational problem or to institute an organizational change. Both courses are offered in seminar fashion with an opportunity to explore projects/thesis topics, and to examine practical and timely leadership issues. Prerequisite: Majors only.

Session: Fall and Summer
Year: All Years (GR)

LEAF 541: Research Project/Thesis in Executive Leadership and Change II

3 Credit Hour(s)

The second section of the research project/thesis consists of completing the thesis or identifying an independent project that entails research and leadership conducted under the supervision of a faculty member in an area of mutual interest to the student and the faculty member. Research support includes collecting and processing information, statistical inference, risk analysis, and information technology. The course affords an opportunity to study and approach a specific organizational problem or to institute an organizational change. While it is expected that LEAF 541 will be completed within the term of enrollment, the course automatically extends one semester to allow completion of the project/thesis. Prerequisite: LEAF 540.

Session: Spring and Summer
Year: All Years (GR)

LEAF 545: Research Guidance

1 Credit Hour(s)

This research guidance course is intended for students finishing their research projects or thesis. Guidance will be provided in the final writing and analysis of student's research activity. This course may be taken up to three times for credit. Prerequisites: Prior enrollment in LEAF 540 and LEAF 541.

Session: As Needed
Year: As Needed (GR)
LEAF 560: Capstone Course in Leadership

3 Credit Hour(s)

This is the concluding integrative course of the leadership program. There are three important components of this capstone experience. First is the finalization and testing of each student's personalized model for their on-going leadership. Secondly, peer evaluation and discussion of the thesis or research projects under the direction of the seminar leader takes place. Finally, students present their leadership portfolio reflecting on their development and growth as a leader of change. The course helps individuals develop a renewed sense of self and learn how to foster the development of self-confidence and leadership competence. Individuals assess their core values and finalize a strategic personal leadership plan including a vision and mission statement, to be included in their leadership portfolio. The course helps participants focus attention on their individual creative potential, the creative potential within their colleagues and how human creative potential extends into organizations. Students gain an appreciation for and understanding of different strategies and tools that help foster creative potential in others. Teaching methods include student presentation and simulations. As part of the second part of the course, students will be exposed to the concepts of leadership development, personal growth, leading with soul, managing stress and self-management, working effectively with people, organizational and personal change. Prerequisite: Majors only.

Session: Fall
Year: All Years (GR)

LEAF 597: Independent Study in Executive Leadership Studies

1-6 Credit Hour(s)

This independent study entails research conducted under the supervision of a faculty member in an area of mutual interest to the student and faculty member. The course affords an opportunity to study a specific organizational problem or area of interest. Prerequisite: Majors only.

Session: As Needed
Year: As Needed (GR)
MASTER OF SCIENCE IN INTERNATIONAL BUSINESS

Mission Statement

In support of Daemen College’s mission to prepare students for life and leadership in a complex multicultural world, the College’s Master of Science in International Business is designed to provide business perspective and expertise to facilitate sustained economic growth. The program relies on experienced professionals who incorporate collaborative and integrative business strategies necessary for the development of outstanding, ethical business leaders. The MSIB program inspires graduates to become responsible and resourceful global citizens.

Outcome Objectives

Upon completion of the master’s program in International Business the graduate will:

1. Demonstrate creative critical thinking skills to recognize problems, analyze uncertain situations, interpret evidence, develop alternative solutions, and to adapt and innovate with a global perspective.
2. Recognize the opportunities and challenges of globalization and apply managerial skills to international business.
3. Recognize ethical problems and apply standards of ethical behavior to management decisions.
4. Recognize the importance of corporate responsibility and incorporate socially responsible actions in the development of global organizational strategies.
5. Use technology and appropriate quantitative methods as tools of effective management.
6. Demonstrate effective, culturally appropriate communication skills.
7. Demonstrate well-developed leadership and teamwork skills for the effective implementation of mission-driven organizational policy in a multicultural global environment.
8. Integrate theoretical and practical applications across functional business areas and networks for the purpose of strategic planning, implementation and control.

Admissions

Students must meet the following master’s level admission requirements:

1. Possess a baccalaureate degree from an accredited college or university with a major concentration in a business related field, such as accounting, business administration, economics, management, or marketing.
2. Have an undergraduate grade point average of 3.0 or higher. If a student has an undergraduate grade point average of less than 3.0, (s)he will be required to take the Graduate Management Admission Test (GMAT). The following guideline will be used to determine admission for matriculation: \((200 \times \text{undergraduate GPA}) + \text{GMAT score} > 1000\).

3. A student with a baccalaureate degree from an accredited college or university not in a business related field may be admitted if 30 credit hours or more of the undergraduate degree were in business related courses, or if the student has the equivalent work experience. In either case, the following topics must be covered as prerequisites through previous undergraduate course work or through bridge courses by the end of the first semester: Financial Accounting, Managerial Accounting, Business Law (including contract law), Business Statistics or Business Mathematics, and Principles of Marketing.

4. Provide two letters of recommendation that demonstrate the applicant’s ability to undertake a rigorous program of academic study as well as address the applicant’s leadership ability as the person making reference knows it.

5. Demonstrate satisfactory oral and written English by a pre-admission interview, a pre-admission essay or, if applicable, a satisfactory TOEFL score.

6. Submit a completed application form with fee.

7. Submit a personal goal statement.

8. Provide official transcripts from the institution that awarded the baccalaureate degree and any work completed at the graduate level.

9. A student may enter the program on a non-matriculated basis and complete a maximum of two courses while gathering the above materials and awaiting official acceptance.

**M.S. International Business Scholarships**

Four $1,500 scholarships are available annually to new, full-time students in the M.S. International Business program. These scholarships will be awarded based upon an application and essay submitted to a committee of the graduate faculty of the program. The scholarship will be prorated between two semesters ($750/semester).

Application requirements may be obtained from the Director of the MS International Business Program, Torsten Doering, tdoering@daemen.edu.

**Requirements**

**STAGE ONE: 9 CREDITS**

- MGT501 The Global Competitive Framework (3)
- MGT502 Ethics for Professionals in a Multicultural World (3)
- MGT503 Comparative Management (3)
STAGE TWO: 9 CREDITS

- FIN601 Global Monetary Systems and Capital Markets (3)
- MGT504 Operational and Technology Issues in Global Business (3)
- MKT507 Strategic Planning for the Global Market (3)

STAGE THREE: 9 CREDITS

- Electives (see below-Program Design/Specialty Track) (9)

STAGE FOUR: 3 CREDITS

- MGT650 Directed Research (Accounting Specialty Track must complete ACC650 Directed Research in Acctg) (3)

TOTAL PROGRAM REQUIREMENTS = 30 CREDITS

Program Design/Specialty Track

Students may opt to complete a generalized program in International Business or they may select a functional area of business in which to specialize. A specialty track is available in Marketing. In addition, a student who has previously completed a B.S. in Accounting may choose to fulfill their electives by taking a series of graduate Accounting courses.

ACCOUNTING SPECIALTY TRACK

Students will complete the following courses in fulfillment of electives: ACC618 Advanced Taxation; ACC620 Advanced Auditing; ACC630 Global Financial Reporting & Statement Analysis. Students will satisfy Stage Four of the program by completing ACC650 Directed Research in Accounting

MARKETING SPECIALTY TRACK

The 9 elective credits in the program must be satisfied with course work in that specialty track.

Time Limitation

Excluding an approved leave of absence, all requirements for the MS, International Business, must be completed within a period of five (5) calendar years, effective from the first date of matriculation in the International Business program.
Course Repeats

It may be necessary for a student to repeat a course to achieve a satisfactory grade. Students are encouraged to discuss the matter with their Graduate Faculty Advisor. A maximum of one course may be repeated in the International Business program.

Requirements For Graduation

- Application for Degree: All graduate students are required to file an Application for Degree form with the Registrar’s Office at the onset of the final term of study. The application is accessible on the Registrar’s web page.
- A minimum cumulative grade point average (GPA) of 3.00.
International Business Courses

Accounting

ACC 618: Advanced Taxation
3 Credit Hour(s)
This course focuses on the basic principles of federal income taxation of corporations, partnerships, trusts, gifts, and estates. It reinforces the use of tax research tools, and provides an overview of administrative and procedural aspects of tax practice. Accounting Majors must earn a minimum of a "C" grade. If they do not earn the required final grade, they will be allowed to repeat the course only once to earn the minimum grade.
Prerequisites: Acceptance into the 5-year B.S./M.S. program and completion of ACC 318.
Session: Spring
Year: All Years (GR)

ACC 620: Advanced Auditing
3 Credit Hour(s)
An advanced study of auditing standards, principles, theory, and practice. Current trends in auditing and assurance services will be emphasized. The class offers an in-depth examination of auditor legal liability, ethics, audit procedures, statistical sampling, and audit research using electronic databases and the Internet. The class will also be focused on the Information Technology Audit function, the use of technology in audits, auditing through computer systems and auditing around computer systems. Accounting Majors must earn a minimum of a "C" grade. If they do not earn the required final grade, they will be allowed to repeat the course only once to earn the minimum grade.
Prerequisites: ACC 420 and acceptance into the 5-year B.S./M.S. program.
Session: Fall
Year: All Years (GR)
ACC 630: Global Financial Reporting and Statement Analysis

This course presents a five step framework for effective financial statement analysis. It begins with an understanding of the industry economic characteristics and current conditions of the firm's businesses and the particular strategies the firm selects to compete in each of these businesses. It then assesses how well the firm's financial statements reflect the economic effects of the firm's decisions and actions. With the use of financial statement ratios and other analytical tools, it assesses the profitability and risk of the firm in the recent past and, by incorporating information about expected changes, forecasts expected profitability and risk. Finally, the analyst values the firm using various valuation tools and models. The framework will be applied to both domestic and international companies. Accounting Majors must earn a minimum of a "C" grade. If they do not earn the required final grade, they will be allowed to repeat the course only once to earn the minimum grade. Prerequisite: Acceptance into the 5-year B.S./M.S. program.
Session: Summer
Year: All Years (GR)

ACC 650: Directed Research in Accounting

This course is the capstone course for the 150-hour accounting program. The student, under the guidance of a mentor, will prepare a research study in the field of accounting. The topic of the study must be approved by the graduate committee and defended in a public forum when complete. Details of the process will be provided to the student by their faculty mentor. Prerequisite: Permission of Instructor.
Session: As Needed
Year: All Years (GR)

Finance

FIN 601: Global Monetary System and Capital Markets

This course is devoted to in-depth discussion and practical application of business finance as practiced in a borderless world. The major topics covered include the international monetary system, the balance of payments, foreign exchange, the management of foreign exchange risk, the role of banks in international finance, and a discussion and analysis of the non-bank financial institutions and international financial markets that represent an inventory of financial resources for the global company.
Session: Fall
Year: As Needed (GR)

Management
MGT 501: The Global Competitive Framework

3 Credit Hour(s)

Success in the global marketplace depends first upon understanding international economic and business developments, and then applying this knowledge to the process of gaining a global competitive advantage. This course examines the evolving competitive characteristics of the global economy, including the new World Trade Organization (WTO) rules, technological development, the globalization of business activities, the advent of specific regional trading blocs, the rise of newly industrializing nations as major competitors in selected industries, and the various ways industries develop and sustain international competitiveness. Students examine these issues by exploring the effects on business decision making of key economic and business concerns in the United States, the European Union, the Centrally Planned Economies, and Japan and the Pacific Basin region (including China).

Session: Spring
Year: All Years (GR)

MGT 502: Ethics for Professionals in a Multicultural World

3 Credit Hour(s)

As business becomes increasingly internationalized and a global economy further develops, ethical issues that affect business in the international arena have also become of increasing importance. This course specifically addresses the following moral and ethical issues: employment practices and policies, consumer protection, environmental protection, political payments and involvement, and basic human rights and fundamental freedoms. Case study analysis, videos and guest speakers will provide the student with an increased understanding and sensitivity to these issues.

Session: Fall (GR)

MGT 503: Comparative Management

3 Credit Hour(s)

This course serves as an introduction to the field of international organizational behavior and management. It presents the material from a global rather than from a North American or Western European perspective. It views culture not only as important for understanding other societies and managing organizations, but as a major cause of much behavior in organizations, specifically addressing how technology, strategy, size and goals of an organization relate to culture. Finally, it attempts to improve a student's interpersonal behavior concerning the cultural variations found in international organizations.

Session: Fall
Year: All Years (GR)
MGT 504: Operational and Technology Issues in Global Business

3 Credit Hour(s)

This course instructs students on how manufacturing and service operations can support a global strategy. Course topics will include supply chain network design and management from incoming raw materials to final product delivery. Capacity planning, inventory, outsourcing, information technology, sustainability, risk management and recent trends will be discussed.
Session: Fall
Year: All Years (GR)

MGT 650: Directed Research

3 Credit Hour(s)

This course is the last course taken by the student in the MS - International Business program. All other course work must be complete. The student will be assigned a faculty mentor by the director of the program based upon the specific area of study the student wishes to undertake. In close consultation with the faculty mentor, the student will develop a thesis in the form of a case study, a management consulting report, or a theoretical research study. The work generated in this course needs to be approved by graduate program faculty at various stages. The student will be provided more detail on this process by the faculty mentor.
Session: As Needed
Year: All Years (GR)

Marketing

MKT 507: Strategic Planning for the International Market

3 Credit Hour(s)

This course lays out the competitive orientation and strategies for initial entry, market expansion, and integration of international marketing operations. The course reviews current market opportunities and competitive conditions at the global, regional, and national levels. The student learns how to successfully participate in both emerging markets and regional economic blocs such as APEC, ASEAN, EU, EFTA, NAFTA, MERCOSUR. Participants use case study analysis to develop their skills in analyzing and formulating international marketing initiatives.
Session: As Needed
Year: All Years (GR)
MKT 611: Regional Business in Latin American Countries
3 Credit Hour(s)
These courses (MKT 611, MKT 612, MKT 613, MKT 614) are designed to concentrate on the issues and needs of a specific geographic region in relation to the student's own involvement in global business. Each course is devoted to discussing various topics relevant to a specific geographic region, including trade and business environments, political stability, and case analysis of selected business ventures in the region. In addition to coursework, participants produce an independent research project designed to be applied in some facet of their current or future work in a specific region. Students are encouraged to look at global business issues in new and innovative ways.
Session: As Needed
Year: As Needed (GR)

MKT 612: Regional Business in Canada
3 Credit Hour(s)
These courses (MKT 611, MKT 612, MKT 613, MKT 614) are designed to concentrate on the issues and needs of a specific geographic region in relation to the student's own involvement in global business. Each course is devoted to discussing various topics relevant to a specific geographic region, including trade and business environments, political stability, and case analysis of selected business ventures in the region. In addition to coursework, participants produce an independent research project designed to be applied in some facet of their current or future work in a specific region. Students are encouraged to look at global business issues in new and innovative ways.
Session: As Needed
Year: As Needed (GR)

MKT 613: Regional Business in the Pacific Rim
3 Credit Hour(s)
These courses (MKT 611, MKT 612, MKT 613, MKT 614) are designed to concentrate on the issues and needs of a specific geographic region in relation to the student's own involvement in global business. Each course is devoted to discussing various topics relevant to a specific geographic region, including trade and business environments, political stability, and case analysis of selected business ventures in the region. In addition to coursework, participants produce an independent research project designed to be applied in some facet of their current or future work in a specific region. Students are encouraged to look at global business issues in new and innovative ways.
Session: As Needed
Year: As Needed (GR)
MKT 614: Regional Business in the European Union

3 Credit Hour(s)

These courses (MKT 611, MKT 612, MKT 613, MKT 614) are designed to concentrate on the issues and needs of a specific geographic region in relation to the student's own involvement in global business. Each course is devoted to discussing various topics relevant to a specific geographic business. Each course is devoted to discussing various topics relevant to a specific geographic region, including trade and business environments, political stability, and case analysis of selected business ventures in the region. In addition to coursework, participants produce an independent research project designed to be applied in some facet of their current or future work in a specific region. Students are encouraged to look at global business issues in new and innovative ways.

Session: As Needed (GR)
NURSING GRADUATE PROGRAMS

Degrees

- Doctor of Nursing Practice *(currently not accepting new students)*
- Master of Science in Adult-Gerontology Primary Care Nurse Practitioner
- Master of Science in Nursing Education
- Master of Science in Nursing Executive Leadership
- RN to MS Accelerated Programs

Certificate Programs

- Post-Baccalaureate Nursing Executive Leadership
- Post-Baccalaureate Partners in Health for People with Disabilities *(currently not accepting new students)*
- Post-Master Adult-Gerontology Primary Care Nurse Practitioner
- Post-Master Nursing Education

NOTE

Consumer Information on Certificate Programs is published on the Daemen Website.

Nursing Department Philosophy

Consistent with the stated mission of Daemen College, the nursing philosophy embodies compassion, personal and professional commitment, and lifelong learning. The complexity of healthcare demands Registered Nurses (RNs) in different levels of practice with a variety of educational backgrounds as crucial members of the health care team. Baccalaureate education is viewed as the foundation for professional practice. Graduate education builds on baccalaureate education through the acquisition of advanced knowledge, skill, and technology proficiency that would facilitate complex decision making to prepare nurses for independent advanced practice in clinical, education, research, and leadership roles.

The faculty views professionalism as the consistent demonstration of core nursing values. Caring and compassion are essential to professional nursing practice. Professionalism involves accountability for one’s self and nursing practice through the demonstration of professional standards of moral, ethical, and legal conduct. Nursing embodies continuous professional engagement to assure competent practice. Service to the community and the profession are essential components of professionalism.
Daemen seeks to build on the RN's existing knowledge to prepare nurses as leaders in the healthcare community. Leadership promotes ethical, critical decision-making as the nurse designs, coordinates, and manages patient care at all levels of practice. Nurse leaders are necessary to shape healthcare policy and to organize healthcare delivery systems that span the continuum from acute to community-based care. Leadership involves the utilization of interpersonal skills to influence others to move toward achieving a vision or goal with emphasis on practice, improving health outcomes, and ensuring patient safety. The curriculum emphasizes leadership practice, improvement of health outcomes, and ensuring of patient safety.

Central to the nurse's ability to provide care as a leader in a complex world is clinical reasoning. Clinical reasoning is developed through continual assessment of the quality of information from multiple perspectives including, but not limited to, the humanistic arts and sciences and the biological arts and sciences. Critical thinking employs multiple lenses and perspectives to understanding and interpreting a situation that provides a background for bringing creative and innovative approaches to the healthcare environment.

Clinical reasoning and critical thinking are developed through evidence-based practice. Evidence based practice embodies the application of existing knowledge and the generation of new knowledge. This implies the use of informatics to gather information, and critical thinking skills to apply the information at the appropriate time. It further promotes the generation of new knowledge through research to answer questions that affect professional practice.

The provision of nursing to a global community encompasses patient centered care of diverse individuals, families, groups, and communities through the recognition and respect of patient differences, values, and preferences. Health needs of the underserved members of the local community are considered in relation to their connection to larger populations. Care to the global community includes demonstration of cultural sensitivity in the identification and formulation of strategies for improved access and use of healthcare services and the sustainability of these strategies.

Vital to providing care to the global community is a nurse's ability to utilize healthcare informatics. Health care informatics encompasses knowledge, skills, and application of technological advances that are used to optimize delivery of quality patient care. This incorporates both information systems/technology and patient care technology. Graduates from the program will acquire technological skills accessing, utilizing, and evaluating information systems that support and guide safe nursing practice.

Nursing education is viewed as a collaborative process where learners are engaged in classroom, clinical, and external learning environments. Faculty acts as the facilitator to promote and support professional development and student-directed, lifelong learning. The student-centered atmosphere empowers
students to grow personally and professionally beyond their initial expectations. The transformation that occurs allows the graduate to impact the nursing profession and society.

**Admission requirements applicable to the DNP program**

- Master’s degree in advance nursing practice from a NLNAC or CCNE accredited nursing program. The program must include completion, with a minimum grade of B, of the following graduate level nursing courses or their equivalent: Advanced Health Assessment; Advanced Pathophysiology; Advanced Pharmacology.
- New York State License and current professional nurse registration.
- New York State licensure as an Advance Practice Nurse (APN) or eligibility to practice according to specialty standards.
- Completion of an undergraduate or graduate statistics course with a grade of C or better.
- Three letters of recommendation, one being from a professional colleague; For Daemen alumni, only two professional references are required.
- Submission of curriculum vitae and a written personal goals statement.
- Interview with the nursing faculty.

**Admission requirements applicable to MS programs in Adult-Gerontology Primary Care Nurse Practitioner, Nursing Executive Leadership, and Nursing Education**

- Possession of a baccalaureate degree in nursing from a NLNAC or CCNE accredited program or possession of a baccalaureate degree in another discipline. Students possessing a baccalaureate degree in another discipline document their achievement of identified baccalaureate nursing competencies through a process of academic transcript and resume review, and a personal interview with the nursing faculty. Consult the Nursing Department for complete details.
- One year medical-surgical clinical experience (or equivalent).
- Completion of an undergraduate or graduate statistics course with a grade of C or better.
- Cumulative grade point average of 3.25 or above (on a 4.0 scale) from all colleges/universities attended. Applicants with GPAs below 3.25 in undergraduate studies may be admitted on a provisional basis if they submit evidence of the potential to be successful in graduate studies.
- New York State License and current professional nurse registration (Adult-Gerontology Primary Care Nurse Practitioner Program); registered professional nursing license and registration (Nursing Executive Leadership Program, Nursing Education Program).
- Three letters of recommendation; for Daemen alumni, only two professional references are required.
- Interview with the nursing faculty.

**General Policies**
COURSE REPEATS

Students must achieve a grade of “B” or above in all curricular course requirements. A GPA of 3.0 overall must be attained to remain in good academic standing. In the event that a grade of “B” is not achieved in a graduate nursing course, the course must be repeated. A student may repeat up to two different courses, one time each, before being dismissed from the graduate program. A repeat of a graduate course due to a prior grade of “W” will also be counted as a course repeat.

TIME LIMITATIONS

A student admitted to any of the graduate degree programs is expected to maintain continuity in his/her academic program and enroll each semester until all requirements are completed. A part time student may complete 1-8 credits per semester. Full time students must complete a minimum of 9 credits per semester.

Excluding an approved Leave of Absence, all requirements for MS program or advanced certificate must be completed within a period of four calendar years from the student’s initial enrollment for graduate study, regardless of whether the student was initially accepted as a degree or non-degree student. Students following the RN to MS pathway for the Adult-Gerontology Primary Care Nurse Practitioner program will be granted four calendar years for completion of studies for the MS, the time frame commencing when the student is moved from the undergraduate to the graduate classification.

Excluding an approved Leave of Absence, all requirements for the DNP program must be completed within a period of 5 calendar years from the student’s initial enrollment for graduate study, regardless of whether the student was initially accepted as a degree or non-degree student.

ACADEMIC BANKRUPTCY

The Nursing Department’s academic bankruptcy policy is intended to allow students who are pursuing a new graduate nursing program to repair their cumulative grade point average (GPA) by “bankrupting” certain course work taken while pursuing their former program. The record of course work taken and grades earned still appears on the student’s official transcript; however, both credits and quality point values are removed from the record of credits earned and the cumulative grade point average, respectively. A notation on the official transcript will indicate which courses have been bankrupted. Academic bankruptcy is available only to graduate students in nursing. The following criteria apply to the academic bankruptcy program:

1. The student must have changed his/her nursing graduate program and maintained a minimum semester GPA of 3.00 for at least one semester following the change of program.
2. Application may be made no earlier than upon completion of the first full semester in the student’s new program, and no later than the semester before the semester of anticipated graduation.
3. Only courses required in the student’s former nursing program may be bankrupted. Core courses required in all nursing graduate programs may not be bankrupted.

4. No more than 10 credit hours may be considered for bankruptcy.

5. A bankrupted course may not be repeated. Therefore, if a specific course is still required in the student’s new program, it may not be bankrupted.

6. Regardless of the number of semesters or number of credit hours included in a student’s petition for academic bankruptcy, a student may declare bankruptcy only once.

7. A successful petition for academic bankruptcy has no retroactive effect on any academic determinations made prior to bankruptcy, including but not limited to: academic probation or dismissal; financial aid eligibility; or tuition liability. A student with bankrupted course work is eligible for any honors which are based on the cumulative GPA.

The student must submit a written petition to the Graduate Committee on Academic Standards, clearly identifying the specific course work for which bankruptcy is desired. A letter of recommendation from the student’s current faculty advisor should also be submitted.

The Graduate Committee on Academic Standards will review the petition for compliance with program criteria and may, at its discretion, consider the entirety of the student’s academic record in rendering its decision. Note well: Students receiving financial aid for their graduate study should determine whether their petition will affect eligibility for continued aid.

**Requirements for graduation for all degree programs and for completion of advanced certificate programs**

Completion of all course work as defined under the curricular requirements for the program and:

1. A minimum grade of B in all courses, thereby resulting in a cumulative grade point average (GPA) of 3.00.

2. Application for degree/certificate:

   **DEGREE CANDIDATES:** All degree students are required to file an Application for Degree form with the Registrar’s Office at the onset of the final term of study. The Application for Degree form is accessible from the Registrar’s web page.

   **CERTIFICATE CANDIDATES:** All certificate students are required to file an Application for Certificate form with the Registrar’s Office at the onset of the final term of study. Forms are available upon request from the Nursing Program Office.

   **NOTE:** Participation in the Commencement ceremony is not applicable to certificate candidates.

**Course Sequences**
Access the course sequences for the DNP, MS, Adult-Gerontology Primary Care Nurse Practitioner, MS, Nursing Education, MS, Nursing Executive Leadership, from the Nursing Department web pages or the Program Plans site on the Registrar’s web page.

Insurance

When a student enrolls in NUR 561 and NUR 562, a mandatory fee of $50.00 is imposed to cover malpractice insurance during the clinical practicum experiences. This is required by the College regardless of whether the student has additional malpractice insurance of his or her own.
DOCTOR OF NURSING PRACTICE (DNP)

Daemen’s DNP Program has been granted initial 5 year accreditation by NLNAC

Applications not currently being accepted for Academic Year 2017-2018.

Student Learning Outcomes

UPON COMPLETION OF THE DOCTOR OF NURSING PRACTICE PROGRAM, THE GRADUATE WILL:

1. Integrate nursing science with knowledge from ethics, the biophysical, psychosocial, analytical, and organizational sciences as the basis to attend to health and illness experiences of individuals, groups, and communities.
2. Demonstrate systems analysis to work collaboratively in the development, implementation, and evaluation of quality health care models.
3. Use analytic methods to critically appraise literature and evidence from the health sciences in the development of practice guidelines and deliverance of direct patient care to individuals, groups, and communities.
4. Disseminate results of scholarly work within the college and outside the college environment.
5. Demonstrate leadership in the evaluation and resolution of ethical and legal issues within healthcare systems relating to the use of information, information technology, communication networks, and patient care technology.
6. Demonstrate leadership in the development and implementation of institutional, local, state, federal, and/or international health policy through critical appraisal of health policy proposals, health policies and related issues.
7. Formulate and deliver population focused health care on the basis of synthesis of epidemiological, biostatistical, environmental, psychosocial dimensions, and cultural diversity and evaluation of health care delivery models.
8. Contribute to professional nursing through leadership, education, and advocacy within the policy and health care communities.
9. Influence professional nursing through leadership, education, and advocacy of healthcare policy and in healthcare communities.
Requirements

- NUR606 Applied Statistics for Evidence Based Practice (3)
- NUR608 Practice Theories (2)
- NUR610 Organizational Theory and Health Care Management (2)
- NUR612 Environmental and Genetic Influences on Health (2)
- NUR614 Ethical Issues in Advanced Nursing Practice (2)
- NUR616 Leadership Development (2)
- NUR618 Informatics and Related Technology for Advanced Practice (1)
- NUR621 Scholarly Writing in Health Care (2)
- NUR623 Research for Evidence Based Practice (3)
- NUR625 Public Policy and Health Care Financing (3)
- NUR627 Clinical Theories (2)
- NUR702 Clinical Internship (8) – see below for pertinent information
- NUR704 Scholarly Project (4) – see below for pertinent information

TOTAL PROGRAM REQUIREMENTS = 36

NUR702 Clinical Internship

Students are required to complete 500 post-Master’s supervised clinical hours. The course will be completed over multiple terms of enrollment for a cumulative total of 8 credits.

NUR704 Scholarly Project

This capstone course may be completed over multiple terms of enrollment, for a cumulative total of 4 credits.

Additional information for graduate Nursing programs: Admissions Requirements; Course Repeats; Time Limitations; Requirements for Graduation – consult the Nursing Department web page or the Program Plans site on the Registrar’s web page.

Course Sequence

Access the course sequence for the Doctor of Nursing Practice from the Nursing Department web page or the Program Plans site on the Registrar’s web page.
MASTER OF SCIENCE IN ADULT-GERONTOLOGY PRIMARY CARE NURSE PRACTITIONER

Student Learning Outcomes

UPON COMPLETION OF THE ADULT-GERONTOLOGY PRIMARY CARE NURSE PRACTITIONER PROGRAM, THE GRADUATE WILL:

1. Attend to the health and illness experiences of clients from a variety of familial/socio-cultural backgrounds.
2. Create a supportive, caring environment that enhances each client’s dignity and acknowledges his/her strengths.
3. Use applicable research and theory to assist clients in changing modifiable risk factors.
4. Synthesize information from a variety of disciplines to develop differential diagnostic and treatment strategies for clients with common, acute, and/or chronic illnesses.
5. Work to enhance the lived experience for clients with acute illnesses, clients with chronic illnesses, and clients who are dying.
6. Provide therapeutic interventions and regimens that incorporate an understanding of the client’s needs and desires, while considering multiple systems variables and the impact of these variables on treatment options (e.g. treatment efficacy, cost factors, and safety issues).
7. Work collaboratively with other health care team members in providing care for clients with complex health care needs.
8. Monitor the quality of health care provided to clients in a variety of settings.
9. Incorporate professional, legal, moral, and ethical standards into practice.
10. Critically analyze and synthesize research to determine applicability to clinical practice.
11. Develop a research project or thesis pertinent to advanced nursing practice.
12. Contribute to professional nursing through advanced nursing practice and professional involvement.

Requirements

1. GRADUATE NURSING RESEARCH AND CORE REQUIREMENTS: 12 CREDITS
   - NUR501 Nursing Informatics and Healthcare Technologies (1)
   - NUR512 Theoretical Basis of Advanced Nursing Practice (3)
   - NUR602 Qualitative Research (2)
• NUR603 Quantitative Nursing Research (2)
• NUR604S Thesis/Project Introductory Seminar (1)
• NUR604 Thesis/Project (3)

2. NURSE PRACTITIONER SPECIALTY REQUIREMENTS: 24 CREDITS

• NUR505/L Advanced Health Assessment for the Adult-Gerontology Primary Care Nurse Practitioner (4/0)
• NUR509 Advanced Physiology/Pathophysiology for the Adult-Gerontology Primary Care Nurse Practitioner (3)
• NUR513 Issues in Advanced Practice Nursing (2)
• NUR516 Advanced Pharmacology: For The Adult-Gerontology Primary Care Nurse Practitioner (3)
• NUR561/L Adult-Gerontology Primary Care Practice I (6/0)
• NUR562/L Adult-Gerontology Primary Care Practice II (6/0)

TOTAL PROGRAM REQUIREMENTS = 36

THESIS/PROJECT

Students must complete either Thesis or Project. The first credit will be completed in NUR604S Thesis Introductory Seminar; the remaining 3 credits will be completed in NUR604 Thesis. The course may be completed over multiple terms of enrollment. A total of 4 credits are required for completion of the Thesis/Project.

Course Sequence

Access the course sequence for the MS, Adult-Gerontology Primary Care Nurse Practitioner, from the Nursing Department web page or the Program Plans site on the Registrar’s web page.

Advanced Certificate Program – Adult-Gerontology Primary Care Adult Nurse Practitioner

The post master’s advanced certificate program is designed for those students who have a master’s degree in a clinical area and wish to complete requirements to be eligible to take the adult nurse practitioner certification exam.

The post master’s certificate program prepares qualified nurses to be eligible to sit for the certifying exam and is not a degree-granting program. Admission to the certificate program is granted on a space available basis. The certificate program is designed as a part-time program.
REQUIREMENTS

- NUR505/L Advanced Health Assessment for the Adult-Gerontology Primary Care Nurse Practitioner (4/0)
- NUR509 Advanced Physiology/Pathophysiology for the Adult-Gerontology Primary Care Nurse Practitioner (3)
- NUR512 Theoretical Basis of Advanced Nursing Practice (3)
- NUR516 Advanced Pharmacology: For The Adult-Gerontology Primary Care Nurse Practitioner (3)
- NUR561/L Adult-Gerontology Primary Care Practice I (6/0)
- NUR562/L Adult-Gerontology Primary Care Practice II (6/0)

TOTAL CERTIFICATE REQUIREMENTS = 24

Certificate: Admission Requirements

- The post master certificate program is designed for those nurses who have a master degree in a clinical area and wish to complete requirements in order to be eligible to take the adult-gerontology primary care nurse practitioner certification exam.
- Criteria for admission to the certificate program are as follows:
  - Possession of a master degree in a clinical area of nursing from an NLNAC/CCNE accredited program
  - License to practice as a registered professional nurse in New York State
  - One year medical-surgical clinical experience (or equivalent)
  - Three letters of recommendation; for Daemen alumni, only two professional references are required.
  - Interview with the nursing faculty
  - Letter of intent
  - Submission of a resume summarizing professional activities and completed continuing education

Additional information for graduate Nursing programs: Admissions Requirements; Course Repeats; Time Limitations; Requirements for Graduation – consult the Nursing Department web page or the Program Plans site on the Registrar’s web page.
The purpose of this program is to prepare master's level nurses who are skilled in fulfilling the educator role in nursing programs. Nursing education requires nursing faculty prepared at the master's level, who can serve as educators and leaders for the nursing profession. In light of the current nursing faculty shortage, there is a critical need for nurse educators who can promote the growth of nursing students and prepare new nurses to enter the profession. Nurses who complete the Master of Science in Nursing Education will be prepared to fill the educator role.

**Student Learning Outcomes**

**UPON COMPLETION OF THE MASTER IN NURSING EDUCATION PROGRAM, THE GRADUATE WILL:**

1. Engage in the scholarship of teaching to facilitate student learning, professional development, and socialization.
2. Create an environment that promotes critical thinking and problem solving within the teaching-learning process.
3. Use applicable educational principles, theory, and research to develop and implement teaching strategies that optimize student learning.
4. Synthesize information from a variety of disciplines to develop strategies for change in nursing education and curricular development.
5. Work collaboratively within the institutional environment and the academic community to function effectively as a nurse educator.
6. Integrate the values of respect, collegiality, professionalism, and caring to build an organizational climate that fosters the development of learners.
7. Incorporate professional, legal, moral, and ethical standards into practice.
8. Critically analyze and synthesize research to determine applicability to practice.
9. Develop a research project or thesis pertinent to nursing education.
10. Contribute to professional nursing through advanced nursing education practice and professional involvement.
11. Exhibit leadership behavior as a nurse educator as evidenced by enhanced self knowledge, cultural sensitivity, team dynamics, and systems thinking.
12. Analyze the impact of community, societal, and professional trends in health care on nursing education.
Requirements

NURSING RESEARCH AND CORE REQUIREMENTS: 12 CREDITS

- NUR501 Nursing Informatics and Healthcare Technologies (1)
- NUR512 Theoretical Basis of Advanced Nursing Practice (3)
- NUR602 Qualitative Research (2)
- NUR603 Quantitative Nursing Research (2)
- NUR604S Thesis/Project Introductory Seminar (1)
- NUR604 Thesis/Project (3) — see below for pertinent information

SPECIALTY REQUIREMENTS: 18 CREDITS

- NUR504 Strategies and Theories in Education (3)
- NUR513 Issues in Advanced Practice Nursing (2)
- NUR522 Advanced Physiology/Pathophysiology, Health Assessment, And Pharmacology (3)
- NUR528 Assessment and Evaluation in Nursing Education (3)
- NUR600 Curriculum Design and Implementation (3)
- NUR620 Nursing Education Practicum (4)

TOTAL PROGRAM REQUIREMENTS = 30 CREDITS

Thesis/Project

Students must complete 4 credits in either Thesis or Project. The first of the 4 credits will be completed in NUR604S Thesis Introductory Seminar; the remaining 3 credits in either NUR604 Thesis/ Project. The course may be completed over multiple terms of enrollment for a cumulative total of 4 credits.

Course Sequence

Access the course sequence for the MS, Nursing Education, from the Nursing Department web page or the Program Plans site on the Registrar’s web page.

Advanced Certificate Nursing Education

A post master’s certificate program is available for nurses who possess a minimum of a Master of Science in Nursing degree. The purpose of this program is to enhance the student’s knowledge and skills in nursing education. This program would meet the needs of nurses who are already in nursing education positions without nursing education academic preparation. The program would help them to optimize their current job performance as well as to enhance their career potential. The program would also be
useful for nurses who hold graduate degrees in clinical practice areas who are seeking nursing faculty positions and wish to enhance their credentials.

**REQUIREMENTS:**

- NUR504 Strategies and Theories in Education (3)
- NUR528 Assessment and Evaluation in Nursing Education (3)
- NUR600 Curriculum Design and Implementation (3)
- NUR620 Nursing Education Practicum (3)

**TOTAL CERTIFICATE REQUIREMENTS = 12 CREDITS**

**Certificate: Admission Requirements**

This post-Masters certificate requires possession of a minimum of a Master of Science in Nursing.

Additional information relative to graduate Nursing programs: Admissions Requirements; Course Repeats; Time Limitations; Requirements for Graduation – consult the Nursing Department web page or the Program Plans site on the Registrar’s web page.
MASTER OF SCIENCE IN NURSING EXECUTIVE LEADERSHIP

The purpose of this program is to prepare master’s level nurses who are skilled in fulfilling leadership and executive roles within the health care system. The constantly changing nature of the current health care system demands master’s level nurses who can serve as leaders for the nursing profession. There is an urgent need for nurse executives who can promote the growth of the profession as well as work to improve the quality and safety of patient care.

Student Learning Outcomes

UPON COMPLETION OF THE MASTER PROGRAM IN NURSING EXECUTIVE LEADERSHIP, THE GRADUATE WILL:

1. Exhibit leadership skills in working with staff and colleagues to address the health and illness experiences of clients from a variety of familial-socio-cultural backgrounds.
2. Create a leadership environment within a health care agency that enhances each client’s dignity and acknowledges his/her strengths.
3. Use applicable research and theory to lead staff and other colleagues to assist clients in changing modifiable risk factors.
4. Synthesize information from a variety of disciplines to develop strategies for change for colleagues and staff.
5. Work collaboratively with and lead other health care team members to provide care for clients with complex health care needs.
6. Direct continuous quality improvement initiatives to enhance care provided in a health care agency.
7. Incorporate professional, legal, moral, and ethical standards into practice.
8. Critically analyze and synthesize research to determine applicability to practice.
9. Develop a research project or thesis applicable to advanced executive nursing leadership.
10. Contribute to professional nursing through advanced nursing leadership practice and professional involvement.
11. Exhibit change in leadership behavior as evidenced by enhanced self-knowledge, cultural sensitivity, team dynamics, and systems thinking.
12. Demonstrate creative and critical thinking skills necessary to effect personal and organizational change.

Requirements
1. GRADUATE NURSING RESEARCH CORE REQUIREMENTS: 12 CREDITS

- NUR501 Nursing Informatics and Healthcare Technologies (1)
- NUR512 Theoretical Basis of Advanced Nursing Practice (3)
- NUR602 Qualitative Research (2)
- NUR603 Quantitative Nursing Research (2)
- NUR604S Thesis/Project Introductory Seminar (1/1)
- NUR604 Thesis/Project (3) – see below for pertinent information

2. LEADERSHIP SPECIALTY REQUIREMENTS: 24 CREDITS:

- LEAF 500 Organizational Leadership and Self Development (3)
- LEAF501 Critical Thinking, Problem Solving & Decision Making: Methods of Organizational Research (3)
- LEAF502 Leadership and Organizational Ethics, Values, and Social Environment (3)
- LEAF513 Developing Leadership Skills: One-on-One Leadership, Conflict Management, and Team Building (3)
- LEAF515 The Business of Leadership: Financial, Organizational, and Cultural (3)
- LEAF528 Leadership in Health Care Organizations (3)
- LEAF530 Modeling, Branding and Marketing Your Leadership (3)
- LEAF560 Capstone Course in Leadership (3)

TOTAL PROGRAM REQUIREMENTS = 36 CREDITS

Thesis/Project

Students must complete either Thesis or Project. The first credit will be completed in NUR604S Thesis Introductory Seminar; the remaining credits will be completed in NUR604 Thesis/Project. The course may be completed over multiple terms of enrollment. A total of 4 credits are required for completion of the Thesis/Project.

Course Sequence

Access the course sequence for the MS, Nursing Executive Leadership, from the Nursing Department web page or the Program Plans site on the Registrar's web page.

Program Structure and Time Limitations for Completion of Program

The Nursing Executive Leadership Program can be completed in two options. First, each Fall semester, the Wednesday evening program offers each LEAF course in 8 class meetings over an eight week period. The Wednesday program can be completed in 24 months. Each Spring, the second option offers
LEAF courses on Tuesday evenings (each LEAF class runs for eight consecutive weeks). This option can also be completed in two years. The Graduate Nursing Core Research Courses are offered on a traditional semester-long basis.

Students in the Nursing Executive Leadership Program enter and finish as a cohort, maintaining continuous registration in sequenced courses. The cohort model provides the opportunity to build leadership skills within a “real world” context of collaborative work, mutual challenge, and support. While this model offers an optimal learning experience, exceptions can be made for people who must temporarily leave the program. Such students must discuss their situation with the graduate program director (nursing) and file a formal leave of absence. The precise timing of the student’s return from leave will be subject to the sequence availability within an appropriate cohort for the student’s program re-entry. In cases where lack of an appropriate cohort causes a student to exceed the allowed one year’s leave of absence from the graduate program, the student will be permitted, and expected, to re-enroll at the earliest availability of an appropriate cohort. All other Daemen College policies on leaves of absence and time limitations for program completion (including extensions) will apply.

**Advanced Certificate Nursing Executive Leadership**

A post-baccalaureate certificate program is available for nurses who possess a minimum of a Bachelor of Science in Nursing degree. The purpose of this program is to enhance the student’s knowledge and skills in nursing leadership. This program would meet the needs of two potential groups of nurses. First, for nurses who are already in nursing managerial positions, the program would help them to optimize their current job performance as well as to enhance their career potential. The program would also be useful for nurses who are not currently in nurse managerial positions, but who wish to enhance their credentials such that they may be considered for such a position. Students who pursue the post-baccalaureate certificate would also have the option of continuing in the program to complete the requirements for the Master of Science in Nursing Executive Leadership.

**REQUIREMENTS**

- LEAF500 Organizational Leadership and Self Development (3)
- LEAF501 Critical Thinking, Problem Solving & Decision Making: Methods of Organizational Research (3)
- LEAF502 Leadership and Organizational Ethics, Values, and Social Environment (3)
- LEAF513 Developing Leadership Skills: One-on-One Leadership, Conflict Management, and Team Building (3)
- LEAF515 The Business of Leadership: Financial, Organizational, and Cultural (3)
- LEAF528 Leadership in Health Care Organizations (3)
- LEAF530 Modeling, Branding and Marketing Your Leadership (3)
Certificate: Admission Requirements

This post-baccalaureate certificate requires possession of a Bachelor of Science in Nursing.

Additional information for graduate Nursing programs: Admissions Requirements; Course Repeats; Time Limitations; Requirements for Graduation – consult the Nursing Department web page or the Program Plans site on the Registrar’s web page.
For Registered Nurses with a Non-Nursing Baccalaureate Degree

This pathway enables RNs who hold baccalaureate degrees in non-nursing fields to attain advanced standing in the nursing graduate program. Students entering this pathway must document their achievement of identified baccalaureate nursing competencies through a process of academic transcript and resume review, and a personal interview with the nursing faculty. The competencies were identified by the faculty as foundational for nursing graduate study.

The five baccalaureate competencies are:

- Health Assessment
- Community Health/Population-Focused Health
- Leadership/Management/Professional Development
- Research
- Professional Commitment and Engagement

Applicants to the RN to MS accelerated pathway should submit official transcripts from all colleges or universities where they completed coursework as well as a resume which fully describes their past work experience. Copies of evidence of completion of continuing education credits, in-service education programs, and attendance at meetings, conferences, and workshops should also be included along with course descriptions if available. The nursing faculty will review all documentation to assess achievement of the competencies. After the faculty review, the applicant will meet with the faculty to discuss the materials, identify competencies not met, and develop a plan to meet the competencies identified as unmet.

Please note that the accelerated pathway culminates in a MS degree. No baccalaureate degree will be conferred to students in the RN to MS accelerated pathway.

RN to MS Accelerated Program

The accelerated RN to MS program is designed for associate degree and diploma prepared nurses who want to pursue the adult-gerontology primary care nurse practitioner MS degree. Students may enter the Adult-Gerontology Primary Care Nurse Practitioner Master’s Program through this accelerated track option. Criteria for admission to the accelerated program are as follows:
GPA of 3.25 or better upon admission to Daemen College. Students must meet all of the other admission criteria for the graduate program (except for the possession of a baccalaureate degree).

Acceptance into the accelerated track is contingent on space availability in the adult-gerontology primary care nurse practitioner graduate program. Students in the accelerated RN-MS/ANP track may take NUR 509 in lieu of BIO 407 and NUR 517/519 in lieu of an undergraduate elective.
ADVANCED CERTIFICATE: PARTNERS IN HEALTH FOR PEOPLE WITH DISABILITIES (PHEPD)

*The Nursing department is currently not accepting new students to this certificate program.*

A post baccalaureate certificate program is available for nurses who possess a Master of Science degree in Nurse Practitioner or are enrolled in a program leading to a Master of Science in Physician Assistant Studies. The purpose of this program is to enhance the knowledge and skill of Nurse Practitioners and Physician Assistants to provide quality health services to children and adults with developmental disabilities. The program is modeled after the Partners in Health Education for People with Disabilities curriculum from the New York State Developmental Disabilities Planning Council for training of NPs and PAs.

**REQUIREMENTS**

- HSC515 Legal and Ethical Implications for Caregivers of Individuals with Developmental Disabilities (1)
- HSC530 Caring for Children with Developmental Disabilities (1)
- HSC532 Caring for Adults with Developmental Disabilities (1)
- HSC560 Community Care for Individuals with Developmental Disabilities (3)

**TOTAL CERTIFICATE REQUIREMENTS = 6 CREDITS**

**Certificate: Admission Requirements**

This post-baccalaureate certificate requires:

- Enrollment in, or degree completion from an accredited Nurse Practitioner (NP) or Physician Assistant (PA) program.
- Completion of, or current enrollment in an Advanced Health Assessment (NP) or 300 level Physical Assessment course (PA) or the equivalent
- A written statement describing educational objectives and areas of professional and personal interest, particularly in relation to working with individuals with developmental disabilities.
- Submission of a resume summarizing professional activities and completed continuing educational courses.
• An interview with the PHEPD program coordinators is required; a telephone interview may be arranged if an on-site interview is not possible.

Additional information for graduate Nursing programs: Admissions Requirements; Course Repeats; Time Limitations; Requirements for Graduation – consult the Nursing Department web page or the Program Plans site on the Registrar’s web page.
Nursing Courses

Health Science

**HSC 515: Legal and Ethical Implications for Caregivers of Individuals With Disabilities**

1 Credit Hour(s)

This course is an introductory course designed to expand knowledge and sensitivity about the legal and ethical issues surrounding care for individuals with developmental disabilities and their families. The purpose of this course is to improve health care provider students' understanding of the fundamentals related to the legal needs affecting individuals with developmental disabilities and their families. Accessing benefits, services and resources for individuals with developmental disabilities and their caregivers will be explored as a basis for further development in clinical and professional practice. Prerequisite or Corequisite: NUR 505/L or PAS 517/L or equivalent.

Session: Intersession
Year: All Years (GR)

**HSC 530: Caring for Children With Developmental Disabilities**

1 Credit Hour(s)

This course is one in a series designed to educate health care provider students about caring for individuals with developmental disabilities. The purpose of this course is to introduce students to the fundamentals of assessing, supporting and intervening with children and families affected by developmental disabilities. Application of knowledge will be explored in classroom and external learning portions of the class which will include clinic and home visit experiences with children and families affected by developmental disabilities. Prerequisite or Corequisite: Acceptance in the PHEPD Certificate program or permission from the instructor.

Session: Fall and Spring
Year: All Years (GR)
HSC 532: Caring for Adults With Developmental Disabilities

1 Credit Hour(s)

This course is one in a series designed to educate health care provider students about caring for individuals with developmental disabilities. The purpose of this course is to introduce students to the fundamentals of assessing, supporting and intervening with adults with developmental disabilities. Application of knowledge will be explored in classroom and external learning portions of the class which will include clinic and home visit experiences. Prerequisite or Corequisite: Acceptance in the PHEPD Certificate program or permission from the instructor.

Session: Fall and Spring
Year: All Years (GR)

HSC 560: Community Care for Individuals with Developmental Disabilities

3 Credit Hour(s)

This course is one in a series designed to educate health care provider students about caring for individuals with developmental disabilities. The purpose of this course is further explore the role of the health care provider as a leader in planning, implementing and evaluating patient and family-centered care for individual with developmental disabilities. Emphasis is placed on developing collaborative relationships in the community setting. The course includes a didactic component and structured external learning experiences.

Prerequisite: HSC 515 and HSC 530 or HSC 532.

Session: Summer
Year: All Years (GR)

Nursing

NUR 501: Nursing Informatics & HealthTech

1 Credit Hour(s)

Nursing informatics focuses on the use of patient care and other technologies to deliver and enhance nursing care. The use of communication technologies in the integration and coordination of care will be explored while using data management to analyze and improve outcomes of care. Information technology systems, such as decision support systems, are essential to gathering evidence to improve practice, as well as enhance cost effectiveness and patient safety through application of evidence based practice, outcomes research and electronic health records. Application of core scientific and ethical principles including standards for the use of health and information technologies will be explored.

Session: Spring and Summer
Year: All Years (GR)
NUR 504: Strategies and Theories in Education

3 Credit Hour(s)

This course focuses on the development and implementation of effective communication skills and strategies in the teaching/learning process to foster the development of the nurse educator as a leader within the nursing profession. The course explores contextual environments, advances in technology, diversity in learner backgrounds and experiences, and covers both traditional and innovative pedagogies in nursing education. Emphasis is placed on building collegial relationships, critical thinking, reflective thinking, and communication skills through evidenced based practice. This course is offered in a web-enhanced format. This course requires a three-hour classroom lecture session. Prerequisite or Co-requisites: None.

Session: Fall
Year: All Years (GR)

NUR 505: Advanced Health Assessment For the Adult-Gerontology Primary Care Nurse Practitioner

4 Credit Hour(s)

This course is designed to provide the adult-gerontology primary care nurse practitioner student with the knowledge and skills necessary to perform a comprehensive health and physical assessment on clients from young adulthood through senescence. This course is designed to build on knowledge of anatomy, physiology, pathophysiology and health assessment skills previously attained in undergraduate nurse education. Emphasis is placed on diagnostic reasoning skills needed for clinical reasoning in the advanced practice nursing role. Prerequisite: Acceptance into the Adult-Gerontology Primary Care Nurse Practitioner program. This course must be taken in the semester immediately preceding NUR 561/L. Prerequisites or Co-requisites: NUR 509, completed no more than five years prior to registering for Advanced Health Assessment for the Adult-Gerontology Primary Care Nurse Practitioner. Students will be required to purchase special examination equipment by the onset of the semester in which this course is taken. Lecture 3 hours/week. Course also includes 2 hour lab session per week (1 credit).

Session: Fall
Year: All Years (GR)
NUR 505L: Advanced Health Assessment for the Adult-Gerontology Primary Care Nurse Practitioner

0 Credit Hour(s)

This course is designed to provide the adult-gerontology primary care nurse practitioner student with the knowledge and skills necessary to perform a comprehensive health and physical assessment on clients from young adulthood through senescence. This course is designed to build on knowledge of anatomy, physiology, pathophysiology and health assessment skills previously attained in undergraduate nurse education. Emphasis is placed on diagnostic reasoning skills needed for clinical reasoning in the advanced practice nursing role. Prerequisite: Acceptance into the Adult-Gerontology Primary Care Nurse Practitioner program. This course must be taken in the semester immediately preceding NUR 561/L. Prerequisites or Co-requisites: NUR 509, completed no more than five years prior to registering for Advanced Health Assessment for the Adult-Gerontology Primary Care Nurse Practitioner. Students will be required to purchase special examination equipment by the onset of the semester in which this course is taken. This course satisfies the 2 lab hours per week for the NUR 505 course.
Session: Fall
Year: All Years (GR)

NUR 509: Advanced Physiology/Pathophysiology for The Adult-Gerontology Primary Care Nurse Practitioner

3 Credit Hour(s)

This course examines concepts and theories related to disorders of physiological processes, which result in health alterations and disease in the adult and geriatric patient in a primary care setting. Fundamental concepts from cellular to clinical manifestations of altered health and disease are presented. Critical thinking/reasoning, evidence based research and problem-based learning are implemented to support the application of theoretical knowledge about physiology and altered physiology (pathophysiology) to actual adult and geriatric patient situations in the primary care setting.
Session: Fall and Spring
Year: All Years (GR)

NUR 511: Conceptual Basis for Advanced Practice Nursing

2 Credit Hour(s)

This course explores topics essential to conceptualizing advanced nursing practice. Evolution, advancement and regulation of nursing practice are explored. Emphasis is placed on developing a high level of professionalism, including effective communication, leadership competencies, political advocacy and advanced use of knowledge, in nursing. The importance of understanding evidence based practice, the health care delivery system and factors affecting advanced nursing practice are addressed. This course is offered on campus in a web-enhanced format.
Session: Fall and Spring
Year: All Years (GR)
NUR 512: Theoretical Basis of Advanced Nursing Practice

This course focuses on the theoretical basis of advanced nursing practice. The origins and evolution of nursing knowledge, application of nursing theory, and evidence-based practice are explored. Students' personal philosophies of nursing are appraised, frameworks from nursing and other disciplines are analyzed, and select conceptual knowledge important to advanced nursing practice is examined with an emphasis on synthesizing knowledge for use in practice and research. Topics essential to conceptualizing advanced nursing practice, including developing a high level of professionalism, communication skills, advocacy effectiveness, policy awareness, and advanced use of knowledge in and for nursing and health care, are addressed.

Session: Fall and Summer
Year: All Years (GR)

NUR 513: Issues in Advanced Practice Nursing

This course is designed to familiarize students with contemporary issues pertaining to advanced nursing practice. Issues related to economics, ethics, culture and global perspectives of advanced nursing care, quality improvement, system change strategies, and models of care delivery and coordination will be explored. This course will prepare students to practice as leaders in an advanced nursing role. Prerequisite: Acceptance into Daemen Nursing Department, Graduate Division. This course is offered on campus and in a web-enhanced format.

Session: Spring and Summer
Year: All Years (GR)

NUR 515: Theoretical Perspectives in Advanced Practice Nursing

This course explores theoretical frameworks as the foundation for advanced nursing practice. The origins and structure of nursing knowledge are identified and examined and selected theories/conceptual models of nursing and other disciplines are analyzed. The relationship among theory, research and practice is explored. Emphasis is placed on applying theoretical perspectives in advanced nursing practice. This course is offered on campus and in a web-enhanced format.

Session: Fall and Summer
Year: All Years (GR)
NUR 516: Advanced Pharmacology: for the Adult-Gerontology Primary Care Nurse Practitioner

3 Credit Hour(s)
This course fulfills the pharmacology requirement for the graduate adult-gerontology nurse practitioner program. It provides a foundation for the understanding of pharmacological principles that will assist the adult-gerontology nurse practitioner in prescribing medications. An introduction to general principles of pharmacology that are essential for an understanding of individual drug actions will be presented. Special considerations of physiological changes with the geriatric client will be addressed in respect to prescribing of medications. Information about selected medications will be presented in a manner that is relevant to the needs of the adult-gerontology nurse practitioner who cares for patients in a variety of clinical settings. Discussion and class content regarding these medications will focus on drug actions, therapeutic usage, side effects, drug interactions, physiologic implications and monitoring in adult and geriatric patients. Ethical and legal principles related to safe prescription writing will be detailed.
Session: Fall and Spring
Year: All Years (GR)

NUR 517: Pharmacology for the Adult-Gerontology Primary Care Nurse Practitioner

1 Credit Hour(s)
This course provides a foundation for the understanding of pharmacological principles that will assist the adult gerontology nurse practitioner in prescribing medications. An introduction to general principles of pharmacology that are essential for an understanding of individual drug actions will be presented. Special considerations of physiological changes with the geriatric client will be addressed in respect to prescribing of medications. Select groups of medications will be explored focusing on drug actions, therapeutic usage, side effects, drug interactions, and monitoring in adult and geriatric clients. Ethical and legal principles related to safe prescription writing will be detailed. This course is a companion course to NUR 519, and together with NUR 519, fulfills the pharmacology requirement for the graduate adult-gerontology nurse practitioner program. This course includes 15 instructional hours, incorporating face-to-face and online learning.
Session: Fall
Year: All Years (GR)
NUR 519: Selected Topics in Pharmacology for the Adult-Gerontology Primary Care Nurse Practitioner

2 Credit Hour(s)

This course focuses on selected categories of medications that are commonly used in primary care management of adult and geriatric clients. Information about select medications will be presented in a manner that is relevant to the needs of the adult health nurse practitioner who cares for patients in a variety of clinical settings. Discussion and class content regarding these medications will focus on drug actions, therapeutic usage, side effects, drug interactions, physiologic implications and monitoring in adult and geriatric clients. This course is a companion course to NUR 517, and together with NUR 517, fulfills the pharmacology requirement for the graduate adult-gerontology nurse practitioner program. This course includes 30 instructional hours, incorporating face-to-face and online learning. Lecture: 2 hours.

Session: Spring
Year: All Years (GR)

NUR 561: Adult-Gerontology Primary Care Practice I

6 Credit Hour(s)

The first clinical practicum focuses on the role of the nurse practitioner in providing basic primary care for adult clients from young adulthood through senescence. Students apply concepts, theories, and skills from core and prerequisite courses along with a functional, life span orientation. Emphasis is placed on comprehensive assessment of the health status of adult clients, health promotion and disease prevention, and differential diagnosis and treatment of common acute and chronic illnesses. Supervised clinical experiences emphasize clinical decision-making and implementation of evidence-based practice, integrating clinical assessment, management skills, and client teaching. This course involves four hours of in-class course delivery and 20 hours of clinical practice weekly for a total of 250 clock hours for the semester. Additional clinical seminars/laboratories are scheduled during the semester to allow for skills review and discussion of clinical issues. Students are individually supervised in the clinical setting by either a physician or a nurse practitioner preceptor. Ongoing interaction between Daemen College faculty and clinical preceptors is maintained throughout the semester. Prerequisites:NUR 505 (in the semester immediately preceding NUR 561),NUR 509 and NUR 517. Co-requisite: NUR-561L Pre or co-requisite NUR-516/NUR 519.

Session: Spring
Year: All Years (GR)

NUR 561L: Adult-Gerontology Primary Care Practice Practice I Lab

0 Credit Hour(s)

Laboratory techniques in Adult Primary Health Care. Co-requisite: NUR-561. 250 Clock hours of clinical practice.

Session: Spring
Year: All Years (GR)
NUR 562: Adult-Gerontology Primary Care Practice Practice II

6 Credit Hour(s)

This second clinical practicum focuses on the role of the nurse practitioner in providing care for adult clients with complex health problems from young adulthood through senescence. Students apply concepts and theories from the core courses along with a functional life-span orientation toward research and nursing practice. Emphasis is placed on comprehensive assessment of the health status of adult clients with multiple and complex problems, case management, health promotion, preventative health care, differential diagnosis, and application of appropriate management protocols. Supervised clinical experiences include an emphasis on decision-making and implementation of evidence-based practice, which integrates advanced assessment and management skills and client teaching. This practicum involves four hours of in-class course delivery and 20 hours of clinical practice weekly for a total of 250 clock hours for the semester. Clinical seminars are scheduled throughout the semester to discuss clinical issues. Ongoing interaction between Daemen College faculty and clinical preceptors is maintained throughout the semester. Prerequisite: NUR 561; co-requisite: NUR-562L.

Session: Fall
Year: All Years (GR)

NUR 562L: Adult-Gerontology Primary Care Practice Practice II Lab

0 Credit Hour(s)

Laboratory techniques in Adult Primary Health Care. Required prerequisite: NUR 561 and NUR 561L; Co-requisite: NUR-562. 250 clock hours of clinical practice.

Session: Fall
Year: All Years (GR)

NUR 600: Curriculum Design and Implementation

3 Credit Hour(s)

This course focuses on the development, implementation, and evaluation of nursing curricula. Emphasis is placed on designing nursing curricula based on evidence based education and practice, program outcomes, institutional philosophy and mission, societal and healthcare trends and needs, and community and clinical partnerships. The course explores educational principles, change theories and strategies, and philosophical and theoretical frameworks in curricula development. Methods for analyzing curricula and formulation of evaluation strategies and curricular revisions will also be investigated. This course is offered in a web-enhanced format. This course requires a three-hour classroom lecture session. Prerequisite: NUR 504: Strategies and Theories in Education, or permission from the course instructor.

Session: Fall
Year: All Years (GR)
NUR 602: Qualitative Research

2 Credit Hour(s)

This course addresses the process of the inductive mode of research. The history, methods, and outcomes of qualitative research are examined in detail. A number of qualitative research methodologies including phenomenology, grounded theory, ethnography and action research are differentiated. Criteria for maintaining rigor in qualitative research are analyzed. The application of informatics to qualitative research is explored. An emphasis is placed on synthesizing qualitative research as a basis for practice. Lecture: two hours per week.

Session: Fall and Spring
Year: All Years (GR)

NUR 603: Quantitative Nursing Research

2 Credit Hour(s)

This course addresses the deductive mode of research. Steps in the design, implementation and analysis of various quantitative methods will be explored. Criteria for establishing reliability and validity and quantitative research will be appraised. Quantitative methods as applied to informatics, trends in healthcare, and the relationship between quality and safety in practice will be discussed. Data management and statistical analysis will be reviewed. Emphasis will be placed on synthesizing research as a basis for practice.

Session: Fall and Spring
Year: All Years (GR)
The thesis option provides the student with an opportunity to consider a theoretical question in relation to advanced practice nursing and to attempt to answer this question through the research process. The thesis is geared towards the development of a research proposal and the implementation of a pilot study that addresses an issue related to the student’s graduate nursing program. For the thesis option, the student is expected to identify a research question, choose a theoretical framework or a conceptual model, select an appropriate methodology, collect, analyze, and discuss data. Students registering for Thesis for the first time are required to successfully complete NUR604S Thesis Introductory Seminar (1 credit; web-enhanced format). Prior to enrollment in NUR 604. At least two (2) members should be on each thesis committee, with the committee chairperson being a doctorate-prepared full-time faculty member from the Nursing Department. After a successful thesis defense, an electronic PDF copy of the thesis must be submitted to the Nursing Department and will be stored electronically via the library. Note: Students must take a total of 4 thesis credits, including the 1 credit thesis seminar. Credits may be distributed over several terms. The final thesis credit should be taken in the semester that the student defends. A student who has registered for the 4th credit of thesis/project (including the 1 credit earned in NUR604S) and who does not complete the thesis/project in that semester will receive a grade of Incomplete. In such a case, the student will have one additional semester to complete the thesis/project and the grade of "Incomplete" will be changed to Pass Complete. In the event that the student does not complete the thesis/project in the additional semester, the grade of Incomplete will revert to a grade of F. The student will then need to register for one additional credit hour of 604 in order to complete the thesis requirement.

Session: Fall and Spring and Summer
Year: All Years (GR)
NUR 604S: Thesis Intro Seminar

1 Credit Hour(s)

This introductory seminar is designed to introduce the graduate student to the thesis/project process. The course addresses the similarities and differences between the thesis and project options. Ethical issues in research, the human subjects research approval process, and the application of research to practice are explored. Throughout the course, students work to focus and develop a topic that is related to their program of study. By the end of the course, the student is encouraged to choose a particular topical area he/she wishes to focus on as he/she moves forward with the thesis or project. Students registering for a thesis or project credit for the first time are required to take the introductory seminar. After they have successfully completed the introductory seminar, students will continue their work on the thesis or project by working directly with their thesis chair and thesis committee. The thesis option provides the student with an opportunity to consider a theoretical question that relates to their graduate program of study and to attempt to answer this question through the research process. For the thesis option, the student is expected to identify a research question, choose a theoretical framework or a conceptual model, select an appropriate methodology, collect, analyze, and discuss data. The project option is a demonstration of expertise in a field of interest related to the graduate student’s program of study, which serves to either contribute new knowledge to the field or to apply advanced knowledge in a creative manner. Students who are practice oriented, with the goal of developing advanced skills and knowledge, may choose to complete a project. The project method will vary depending on the subject matter chosen. Some examples of appropriate projects include: development of a health teaching module, use of media to promote health teaching, application of existing research to a particular clinical setting, and evaluation of existing health services.

Session: Fall and Spring and Summer
Year: All Years (GR)

NUR 606: Applied Statistics for Evidence-Based Practice

3 Credit Hour(s)

This is the first of two courses designed to give the DNP student practical experience in applying statistical findings to the patient, family, populations, clinical unit, systems, and community levels. This course is intended to strengthen skills which are requisite to critically interpreting and analyzing quantitative nursing and health-related research data. Emphasis is placed on the understanding of statistical concepts rather than computation. This course is offered in a web-enhanced format.

Session: Spring
Year: As Needed (GR)
NUR 608: Practice Theories
2 Credit Hour(s)
Cross-listed as HSC 308. This interprofessional course will provide health care providers with the tools to deliver understandable patient and family education. We will explore the concepts of health literacy and communication for healthcare professionals. We will explore the role of literacy in patient and family education, preparing healthcare professionals to use the best communication tools to assess health literacy and readability. We will also examine how to evaluate health literacy using tools designed for their ability to measure plain and understandable information, transfer information and communicate high risk and care transitions. Students will explore health literacy through the eyes of their discipline, and will develop an appreciation for the advantages to participating in an interprofessional team focused on the improvement of patient and family education. Web-based format.
Session: Summer
Year: As Needed (GR)

NUR 610: Organizational Theory and Health Care Management
2 Credit Hour(s)
This course focuses on organizational theory, organizational behavior, and health care systems management. The course emphasizes organizational and systems principles, theories, and models that guide leadership in quality healthcare improvement and critical systems thinking. The course also emphasizes methods that promote health care systems management and effective interprofessional team leadership. Students will be asked to analyze a particular healthcare organization and related organizational theories. This course will include 2 hours of lecture weekly.
Session: Spring
Year: As Needed (GR)

NUR 612: Environmental and Genetic Influences on Health
2 Credit Hour(s)
This course focuses on environmental and genetic influences and determinants of health for individuals, populations, and communities. This course works within a paradigm that considers genomics to be the interaction of genetics, environment, and the influence of psychosocial, behavioral, and cultural factors. It thus assists the DNP student to holistically integrate genetic, genomics, environmental, epidemiological and scientific underpinnings and concepts in the interpretation of clinical findings and in planning and evaluation of clinical management. This course is offered in a web-enhanced format.
Session: As Needed (GR)
NUR 614: Ethical Issues in Advanced Nursing Practice

2 Credit Hour(s)
This course examines the ethical and philosophical foundations that have shaped the development of the current healthcare system. Course discussions will include critical analyses of the legal, regulatory and ethical issues that impact DNP practice. Case studies and narratives will be used to examine how ethics can guide the DNP’s decision making in clinical practice and research situations. Class discussions will also focus on ethical dilemmas that may be encountered in the current healthcare environment. This course is offered in a Web-enhanced format.
Session: Fall
Year: As Needed (GR)

NUR 616: Leadership Development

2 Credit Hour(s)
This course is designed to explore leadership through an examination of research leading to the development of leadership study and decision-making models, in order to understand that leadership, in practice, is an ongoing process requiring self, situational, motivation and follower analysis. Through this lens, students will learn to analyze leadership challenges and their application to the DNP role. Inter- and intra-professional collaboration models including team leadership will be discussed. By providing a background of leadership and change theories stressing self awareness and personal leadership, critical and reflective thinking, an understanding of the role of organizational culture in shaping leadership styles, and interpersonal skill to achieve relational leadership and systems competence, students will better understand leadership actions which foster positive institutional and organizational change. An emphasis on analysis and experiential learning via assignments and involvement in projects will link course content to real challenges in the system. This course is offered in a web-enhanced format.
Session: Fall
Year: As Needed (GR)

NUR 618: Informatics and Related Technology For Advanced Practice

1 Credit Hour(s)
Informatics for advanced practice focuses on developing proficiency in the utilization of information systems to implement initiatives for quality improvement that supports practice and administrative decision-making. Emphasis is also placed on presenting standards and principles for selecting and evaluating practice and consumer information systems. Related ethical, regulatory, and legal issues will be included. This course is offered in a web-enhanced format.
Session: Summer
Year: As Needed (GR)
NUR 620: Nursing Education Practicum
3-5 Credit Hour(s)

The course emphasizes development of the nurse educator as leader in the practice environment. Focus is placed on functioning in the role of nurse educator and applying the core competencies of nursing faculty which include: facilitation of learning, facilitation of learner development and socialization, use of assessment and evaluation strategies, functioning as a change agent and leader, pursuing continuous quality improvement in the nurse educator role, and functioning within the educational environment. The course includes seminar discussions and nursing education practice: 150 clock hours. Prerequisites: NUR 504: Strategies and Theories in Education, NUR 528: Assessment and Evaluation in Nursing Education, or permission from the course instructor. Note: Post MS certificate students will register for 3 credits and complete 90 hours of nursing education practice.

Session: Fall and Spring
Year: All Years (GR)

NUR 621: Scholarly Writing in Health Care
2 Credit Hour(s)

The course prepares the DNP student to synthesize knowledge through engagement in professional writing scholarship. Advanced instruction focuses on several forms of expository writing common in the health professions while emphasizing effective communication between the writer and different audiences. Emphasis is placed on cultivating critical thinking skills to prepare exemplars of scholarly writing. This course is offered in a web-enhanced format.

Session: As Needed (GR)

NUR 623: Research for Evidence-Based Practice
3 Credit Hour(s)

This is the second of two courses designed to give the DNP student practical experience in applying statistical findings to the patient, family, populations, clinical unit, systems, and community levels. It builds on those skills developed in NUR 606 Applied Statistics, by integrating principles of evidence-based practice and policy. Integration and translation of research to risk assessment, screening, diagnosis, treatment, and health care outcomes is the central focus of this course. Further, consideration of qualitative and other evidence for clinical practice is appraised. Prerequisite: NUR 606. This course is offered in a web-enhanced format.

Session: Fall
Year: As Needed (GR)
NUR 625: Public Policy and Health Care Financing

3 Credit Hour(s)

This course provides an overview of public policy decisions that impact the organization, financing and delivery of health care within the United States Health Care System. The impact of global health issues on public policy and health status will also be discussed. The course will include critical analyses of the social, cultural, financial and political issues that impact the delivery of health care by the DNP. The course will cover basic health care reimbursement mechanisms and will provide students with the skills necessary for navigating within the current health care financing system to promote optimal patient outcomes. This course is offered in a web-enhanced format.

Session: Summer
Year: As Needed (GR)

NUR 627: Clinical Theories

2 Credit Hour(s)

This course is designed to present the content and application of theories that have implications for the independent clinical practice of the DNP as part of the interdisciplinary venue of care. These theories have application to the clinical area, with implication for health behaviors and outcomes at the patient, family, population, clinical unit, systems and community levels. Methods to evaluate current established theories that guide DNP practice will be examined. Models for utilization of theories in DNP practice will be presented. Exemplars of how health-related theories apply to the clinical setting and various patient populations will be explored and critiqued. Technological applications will be incorporated to theory implementation. This course is offered in a web-enhanced format.

Session: Summer
Year: As Needed (GR)

NUR 702: Clinical Internship

1-8 Credit Hour(s)

This course is designed to prepare DNP students to demonstrate practice expertise, specialized knowledge, and expanded responsibility and accountability in the holistic care and management of diverse individuals and families through immersion in clinical settings. Emphasis is placed on appraisal of the practice context to document practice trends, identify potential systematic changes, and formulate improvements in care for patient populations in the systems within their practice. Additionally, the DNP student will develop competence in practice at the aggregate/systems/organizational level. Clinical experiences will be designed to provide the student with the opportunity to work in depth with clinical experts in selected specialty areas. This course will include selected seminar activities and scheduled meetings with course instructor(s) and clinical preceptors. Students are required to complete 500 post-Master's supervised clinical hours by the completion of the program. Pre-/Co-requisites: NUR 606, NUR 608, NUR 610, NUR 621, NUR 623, NUR 627, or permission of the Graduate Program Director. This course is offered in a web-enhanced format.

Session: Fall and Spring
Year: All Years (GR)
NUR 704: Scholarly Project

1-4 Credit Hour(s)

This course is designed to afford the DNP student the opportunity to demonstrate mastery of an advanced specialty in nursing practice. Focus is on the development of a tangible and deliverable academic product that is derived from the practice immersion. The product of the DNP project in the course links scholarly experiences and evidence based health care to the improvement of practice and/or patient outcomes. This course will include selected seminar activities and scheduled meetings with project advisor(s) throughout each semester in which the student is enrolled. Pre-/Co-requisites: NUR 606, NUR 608, NUR 610, NUR 621, NUR 623, NUR 627. This course is offered in a web-enhanced format.

Session: Fall and Spring
Year: All Years (GR)
MASTER OF SCIENCE IN PHYSICIAN ASSISTANT STUDIES (DIRECT ENTRY)

1. PHYSICIAN ASSISTANT STUDIES (98 CREDITS):

- PAS510/L Advanced Human Anatomy I (2/0)
- PAS511 Clinical Microbiology/Immunology (3)
- PAS513 Clinical Laboratory Medicine (2)
- PAS514 Pathophysiology (3)
- PAS515 Fundamentals of Clinical Medicine I (5)
- PAS516/L Advanced Human Anatomy II (2/0)
- PAS517/L Physical Diagnosis I (3/1)
- PAS518 Pharmacology I (3)
- PAS519 Fundamentals of Clinical Medicine II (5)
- PAS520/L Physical Diagnosis II (2/1)
- PAS521 Pharmacology II (3)
- PAS522 Cultural and Psychosocial Dynamics of Medicine (3)
- PAS524 Clinical Pediatrics (2)
- PAS525 Clinical Problem Solving (3)
- PAS526 Surgery (3)
- PAS527 Geriatrics (2)
- PAS528 Emergency Medicine (3)
- PAS529 Research Methodology (3)
- PAS531 Preventive Medicine (2)
- PAS535-536 Medical Professional Issues I-II (1/2)
- PAS538/L Orthopedic Medicine (1/0)
- CLERKSHIPS: 30 credits: PAS601, 602, 603, 604, 605, 606, 607, 608, 609, 610 Clerkship I – X (3 credits each)
- PAS612/613 Research I-II (1/1)
- PAS614/615/616 Clinical Seminar I-II-III (2/2/2)

2. ADDITIONAL REQUIRED COURSES (6 CREDITS):

- Statistics: Select one:
  - HSC329 Statistics for Evidence Based Practice (3)
  - PHI321 Medical Ethics (3)

MS: TOTAL PROGRAM REQUIREMENTS = 104 CREDITS
Admission Requirements

- Baccalaureate Degree. Overall GPA of 3.0 or higher (average of accepted students generally > 3.5)
- 8 credits of Biology with lab (e.g., Zoology, Botany, General Biology I and II, A & P I and II)
- 8 credits of General Chemistry
- 3 credits of Calculus
- 9 credits of Psychology and/or Sociology
- GPA of 3.00 or higher (average of accepted students generally > 3.4) in the following four courses completed within the past five years:
  - 4 credits of Microbiology, 300 level
  - 4 credits of Anatomy, 300 level
  - 4 credits of Physiology, 300 level
  - 4 credits of Organic Chemistry or Biochemistry
- 120 hours of direct patient contact experience
- We do not require the GRE
- Additional considerations will include, but are not limited to:
  - The number of repeats on transcripts
  - The number of withdraws on transcripts
  - The degree of responsibility provided during patient contact experience
  - Quality of writing on essay component
- Recommendations

- Applicants are strongly encouraged to complete at least 8 credits of 300 level or higher science coursework within 12 months of entering the physician assistant program. All courses used to calculate the GPA of the aforementioned classes (Anatomy, Physiology, Microbiology, Organic or Biochemistry) must have been completed within the past 5 years
- Applicants whose first language is not English, must demonstrate their proficiency in the English language by taking the TOEFL iBT® test. The test scores must be submitted directly to CASPA and the full report must be received by the Daemen PA department by January 1. The minimum requirements as stated below are specific to the Physician Assistant Department and do not represent the requirements of the Institution.
  - **Minimum total test score of 100.**
    - Reading Section, minimum score of 24
    - Listening Section, minimum score of 26
    - Speaking Section, minimum score of 26
    - Writing Section, minimum score of 24

Graduation Requirements

Satisfactory completion of all requirements as per the terms set forth by the Physician Assistant Department.
Suggested Course Sequence

Access the suggested course sequence for the MS, Physician Assistant Studies, from the Physician Assistant Department web page or the Program Plans site on the Registrar’s web page.

Physician Assistant Studies Courses

PAS 329: Statistics for Evidence-Based Practice

3 Credit Hour(s)

Fulfills Core Competency; Critical Thinking & Creative Problem Solving; What one learns in PA school will not always apply to medical practice. Learning is never mastered. Thus, to be a good clinician, one must constantly educate oneself by evaluating the latest medical research to keep one's knowledge current. Evidence-based practice provides methodologies to evaluate scientific evidence for the delivery of the highest quality health care. This course is one of two courses in the Physician Assistant Department for the evaluation of medical research that provides: 1. a foundation in probability and statistics, and 2. an introduction to medical research designs and associated inferential statistical analyses. In combination with PAS 529, this course is designed to increase students' competency in the evaluation of medical research. In this course, the emphasis is on basic study design, appropriate descriptive and inferential procedures, and interpretation of results. We will focus on real examples from the medical literature to cover the basics of clinical research design, sampling methodology, statistical methods for evaluating clinical research data, as well as introduce some of the many limitations of basic and clinical research. Topics include: Descriptive statistics, statistical inference probability theory and application, sampling theory, hypothesis testing, estimation, confidence intervals, measures of risk/association, association vs. causation, and pitfalls of p-values. Specific statistical analyses include: t-test, ANOVA, linear correlation, linear regression, relative risk, and the odds ratio with emphasis on clinical trial designs. Pre-requisite: At least second year matriculated Physician Assistant Studies major. (UG)

PAS 510: Advanced Human Anatomy I

2 Credit Hour(s)

Functional and applied human anatomy presented on a systemic basis. The course is divided into sections - general anatomical concepts, thorax, abdomen, perineum, and pelvis. This advanced course will go beyond basic anatomical concepts and emphasize in both lecture and laboratory sessions the functional anatomical relationship to pathological conditions commonly encountered in the primary care setting. The relationship between embryology and the study of pediatrics will be taught. Laboratory sessions will be organized using models and prosection cadavers. Small group interactions will be used to demonstrate problem-solving abilities related to clinical findings and physical examination. Prerequisites: Three year program acceptance; Corequisites: PAS 510L, 511, 513, 514, 516, 516L, 535.

Session: Fall
Year: All Years (GR)
PAS 510L: Advanced Human Anatomy Laboratory
0 Credit Hour(s)
Laboratory techniques for Advanced Human Anatomy I. Corequisite: PAS 510.
Session: Fall
Year: All Years (GR)

PAS 511: Clinical Microbiology/Immunology
3 Credit Hour(s)
This course focuses on the anatomy, physiology, and relationships of bacteria, fungi, protozoa, viruses, and rickettsiae and helminths. Included are the systemic diseases caused by these organisms, control of microorganisms, the host-parasite relationship, and the establishment of disease. The immune system and genetics will be discussed in detail including resistance to disease, immunity and serology, and immune disorders. Corequisites: PAS 510, 510L, 513, 514, 516, 516L, 535.
Session: Fall
Year: All Years (GR)

PAS 513: Clinical Laboratory Medicine
2 Credit Hour(s)
This course focuses on basic laboratory procedures and physiology used to investigate clinical problems encountered in the primary care setting. In addition to office procedures, laboratory tests conducted in the hospital setting useful in making a diagnosis and evaluating treatment effectiveness will be emphasized. Tests relevant to hematology, chemistry, bacteriology, urinalysis, and immunology will be discussed. Students will be exposed to interpreting case studies and laboratory reports. Prerequisite: Three year program acceptance; Corequisites: PAS 510, 510L, 511, 513, 514, 516, 516L, 535.
Session: Fall
Year: All Years (GR)

PAS 514: Pathophysiology
3 Credit Hour(s)
General concepts of disease are covered including degeneration and necrosis, inflammation and repair, fluid and coagulation disturbances, and general aspects of neoplasia. Disease entities in each organ system are studied with regard to causation, evaluation, and morphology of pathological changes. Prerequisite: Three year program acceptance; Corequisites: PAS 510, 510L, 511, 513, 516, 516L, 535.
Session: Fall
Year: All Years (GR)
PAS 515: Fundamentals of Clinical Medicine I
5 Credit Hour(s)
This course provides an introduction to the study of the disease process. Emphasis has been placed on the integration of the essential anatomy, physiology, pathology, microbiology, pharmacology, and medical terminology relevant to medical problems encountered in the primary care setting. The differential diagnosis of symptoms and physical findings along with interpretation of laboratory and radiographic tests appropriate to each system are discussed. Topics to include problems of the respiratory tract, cardiology, hematology, endocrinology, nephrology, urology, and gastroenterology. The course will use both lecture and seminar formats. The student learns the general principles of diagnostic imaging. Prerequisites: Good academic standing in the PA Program. Corequisites: PAS 517 and 518.
Session: Spring
Year: All Years (GR)

PAS 516: Advanced Human Anatomy II
2 Credit Hour(s)
This course is a continuation of PAS 510, Advanced Human Anatomy. Functional and applied human anatomy presented on a systemic basis. The course is divided into sections: head and neck, back, extremities, and neuroanatomy. This advanced course will go beyond basic anatomical concepts and emphasize in both lecture and laboratory sessions the functional anatomical relationship to pathological conditions commonly encountered in the primary care setting. The relationship between embryology and the study of pediatrics will be taught. Laboratory sessions will be organized using models and prosection cadavers. Small group interactions will be used to demonstrate problem-solving abilities related to clinical findings and physical examination. Prerequisites: Three year program acceptance; Corequisites: PAS 510, 510L 511, 513, 514, 535.
Session: Fall
Year: All Years (GR)

PAS 516L: Advanced Human Anatomy II Lab
0 Credit Hour(s)
Laboratory techniques for Advanced Human Anatomy II. Corequisite: PAS 516.
Session: Fall
Year: All Years (GR)
PAS 517: Physical Diagnosis I

3 Credit Hour(s)

Physical Diagnosis I is the first module of a dual semester course. It is presented in the spring semester of the first year of the PA program and is complemented in the following fall semester by PAS 520 Physical Diagnosis II. PAS 517 is comprised of a 3 hour per week class lecture. The overall course objective is for the student to learn to perform and document a complete physical examination. Students will be expected to integrate the knowledge learned in anatomy, physiology, pathology, microbiology, and pharmacology relevant to some of the most common medical problems. Using appropriate medical terminology, students will demonstrate their ability to describe their clinical findings and assessments in both verbal and written formats. Students must keep in mind that clinical competency encompasses many factors including a solid fund of medical knowledge, proficiency in clinical skills, appropriate attitudes, behaviors and critical thinking skills in their approach to the patient’s medical concerns. Prerequisites: Good academic standing in the PA Program. Corequisites: PAS 515, 517, 517L, 518

Session: Spring
Year: All Years (GR)

PAS 517L: Physical Diagnosis I Laboratory

1 Credit Hour(s)

Physical Diagnosis I Lab is a 2 hour per week lab which allows for students to learn, practice, and demonstrate the ability to perform an organ specific physical examination as well as a comprehensive head to toe physical examination by completion of the semester. Each week of the laboratory experience covers a different organ system’s appropriate physical examination. Corequisite: PAS 517.

Session: Spring
Year: All Years (GR)

PAS 518: Pharmacology I

3 Credit Hour(s)

This course is designed in sequence with the topics presented in Fundamentals of Clinical Medicine I and focuses on practical pharmacotherapeutics. Mechanisms of drug action, therapeutic uses, specific effects and toxicity, effects on organ systems, contraindications and drug interactions will be presented. Emphasis is placed on the most commonly used categories of drugs. Prerequisites: Good academic standing in the PA Program. Corequisites: PAS 515, 517, 517L.

Session: Spring
Year: All Years (GR)
PAS 520: Physical Diagnosis II

2 Credit Hour(s)

This course is a 2 credit hour course (a continuation of Physical Diagnosis I) consisting of two hours of physical diagnosis lecture weekly. This course will provide opportunities for the student to apply the pertinent physical examination findings in response to focused historical data and specific patient complaints. The classroom lectures will prepare students to complete organ system specific and specialty specific cases in the laboratory setting. Prerequisites: Good academic standing in the PA Program. Corequisites: PAS 519, 520L, 521, 531, 536, 538/L.

Session: Fall
Year: All Years (GR)

PAS 520L: Physical Diagnosis II Laboratory

1 Credit Hour(s)

The physical diagnosis laboratory meets for 2 hours weekly. The psychomotor skills necessary for performance of the entire physical exam were obtained in Physical Diagnosis I Lab. In this semester students will be able to obtain a comprehensive and problem focused history, perform the appropriate physical examination, and document a patient encounter note for each organ system. Each student will also complete one lab on the female pelvic examination and one lab on the male genitourinary examination. Corequisite: PAS 520.

Session: Fall
Year: All Years (GR)

PAS 521: Pharmacology II

3 Credit Hour(s)

This course is a continuation of PAS 518, Pharmacology I and designed in sequence with Fundamentals of Clinical Medicine II. Prerequisite: Successful completion of PAS 510, 511, 513, 514, 515, 516, 517, 518. Corequisites: PAS 519, 520, 520L, 536, and 538.

Session: Fall
Year: All Years (GR)
PAS 522: The Cultural and Psychosocial Dynamics of Medicine

3 Credit Hour(s)

Topic areas will include clinical decision-making and problem solving, domestic violence, rape, death and dying, developmental and intellectual disabilities, sexuality issues, substance abuse, HIV and other special topics. A critical review of selected readings will be required for seminar discussions. Students are introduced to concepts in health psychology and behavioral medicine which identify the cultural and psychosocial factors contributing to health, physical and emotional well being. Defenses and adaptations are discussed as related to the types of patients the students will work with. Other psychological responses to acute and chronic illness, disability, and death and dying, are discussed as they relate to the patient and the medical practitioner. Students are introduced to the techniques of modeling and role-playing and are required to participate in the roles of health care practitioner, patient and family member. Emphasis is placed on establishing a relationship, and understanding the effects of culture and personality types. Prerequisites: Good academic standing in the PA Program. Corequisites: PAS 519, 520, 520L, 536, and 538
Session: Fall
Year: All Years (GR)

PAS 524: Clinical Pediatrics

2 Credit Hour(s)

This course is an introduction to the study of pediatric and adolescent medicine. It is designed to provide the PA student with a functional understanding of the pediatric exam, growth, development, and disease processes as they relate to the infant and child. Through integration of the basic and clinical sciences, the PA student will become acquainted with neonatology, as well as pediatric cardiology, hematology, nephrology, urology, orthopedics, infectious diseases, gastroenterology, surgery, and psychiatry. Practical application of pharmacological principles to case studies is required. Prerequisites: Good academic standing in the PA Program. Corequisites: PAS 525, 526, 527, 528, 529, and 531.
Session: Spring
Year: All Years (GR)

PAS 525: Clinical Problem Solving

3 Credit Hour(s)

This course encompasses general principles related to the management and care of patients with surgical conditions. Wound healing and surgical techniques, pre- and post-operative management are studied. Surgical diseases of the head and neck, gastrointestinal, endocrine, cardiovascular, pulmonary, and urogenital system are covered. Basic procedures will be presented, including basic suturing technique, wound care, casting, splinting, aseptic technique, gowing and gloving, and other procedures necessary to function in the surgical setting. Prerequisites: Good academic standing in the PA Program. Corequisites: PAS 524, 525, 527, 528, 529, and 531.
Session: Spring
Year: All Years (GR)
PAS 526: Surgery
3 Credit Hour(s)
This course encompasses general principles related to the management and care of patients with surgical conditions. Wound healing and surgical techniques, pre- and post-operative management are studied. Surgical diseases of the head and neck, gastrointestinal, endocrine, cardiovascular, pulmonary, and urogenital system are covered. Basic procedures will be presented, including basic suturing technique, wound care, casting, splinting, aseptic technique, gowning and gloving, and other procedures necessary to function in the surgical setting. Prerequisites: Good academic standing in the PA Program. Corequisites: PAS 524, 525, 527, 528, 529, and 531.
Session: Spring
Year: All Years (GR)

PAS 527: Geriatrics
2 Credit Hour(s)
This course deals with aging and long term care and continues building on the student's awareness of the social context in which health care is provided to the elderly and chronically ill. The course emphasizes the development of communication skills necessary to enhance the humanistic practice of geriatric medicine. Students are required to interview chronic and acute geriatric patients in nursing home and acute care hospital settings. Through required readings, lectures, field experience and group discussions, the students will learn the fundamentals of geriatric medicine and the multi-dimensional aspects of long term care. Prerequisites: Good academic standing in the PA Program. Corequisites: PAS 524, 525, 526, 528, 529, and 531.
Session: Spring
Year: All Years (GR)

PAS 528: Emergency Medicine
3 Credit Hour(s)
Initial, life-saving procedures on the critically ill and seriously injured are considered. Shock, trauma, burns, gastrointestinal, obstetrical, gynecologic, pulmonary, and cardiovascular emergencies are covered. Students are certified in advanced cardiac life support (ACLS). Students learn the principles of sterile technique and universal precautions. There are hands-on skill sessions. Prerequisites: Successful completion of Prerequisites: Good academic standing in the PA Program and BLS CPR certification; Corequisites: PAS 524, 525, 526, 527, 529, and 531.
Session: Spring
Year: All Years (GR)
PAS 529: Research Methodology

3 Credit Hour(s)

Fulfills core competency: Communication Skills; Critical Thinking; Writing Intensive; Research & Presentation requirement. Engaging in the process of clinical research design, students will develop skills that are necessary for reviewing objective data as a component of clinical practice. Students will identify a research question relevant to the practice of medicine and critically review the relevant clinical and scientific literature. Prerequisites: Good academic standing in the PA Program. CorequisiteS: PAS 524, 525, 526, 527, 528, and 531.

Session: Spring
Year: All Years (GR)

PAS 531: Preventive Medicine

2 Credit Hour(s)

This course has been designed to provide the PA student with a functional understanding of prevention strategies employed in the primary care setting. Emphasis has been placed on applying appropriate interventions and services that have been proven effective in preventing disease and improving the human condition as it relates to the quality of life and longevity. In addition, nutrition will be a major focus in this course. Students will review the epidemiological distribution of disease and its sociologic implications. Prerequisites: PAS 510, 510L, 511, 513, 514, 515, 516, 516L, 517, 517L, 518, 535; Corequisites: PAS 519, 520, 520L, 521, 536, 538, 538L.

Session: Spring (GR)

PAS 535: Medical Professional Issues I

1 Credit Hour(s)

Medical Professional Issues is a two course series offered to all Daemen College Physician Assistant students. Part I establishes an introductory level of knowledge about the US healthcare system and the history of the PA profession. Students must demonstrate minimum competency in medical terminology. Prerequisites: Three year program acceptance. Co-requisites: PS510/L, 511, 516/L, 513, 514, PHI 321.

Session: Fall
Year: All Years (GR)

PAS 536: Medical Professional Issues II

2 Credit Hour(s)

Medical Professional Issues is a two course series offered to all Daemen College Physician Assistant students. Part II serves as the primary venue to examine, at great depth and breadth, the professional issues delineated in the ARC-PA Standards. Together, the courses allow students to gain the knowledge and skills to abide by the laws and regulations that govern the PA profession and the practice of medicine. But, perhaps more importantly, students will be prepared to be effective participants and leaders in the profession. Prerequisites: Good academic standing in the PA Program. Co-requisites: PAS 519, 520/L, 521, 522, 538, and 538L.

Session: Fall
Year: All Years (GR)
PAS 538: Orthopedic Medicine

1 Credit Hour(s)

An introduction to the study of musculoskeletal injuries and disease processes. Emphasis has been placed on the integration of the essential anatomy, physiology, pathology, microbiology, pharmacology, and medical terminology relevant to medical problems encountered in the musculoskeletal system. The differential diagnosis of symptoms and physical findings along with interpretation of laboratory and radiographic tests appropriate to each region are discussed. This course includes the Orthopedic Skills Laboratory which focuses on the understanding of musculoskeletal special testing and physical examination skills by region.

Prerequisites: Good academic standing in the PA Program. Co-requisites: PAS 519, 520/L, 521,522, and 536.

Session: Fall
Year: All Years (GR)

PAS 538L: Orthopedic Medicine Lab

0 Credit Hour(s)

Laboratory portion of PAS 538. Co-requisites: 538.

Session: Fall
Year: All Years (GR)

PAS 601: Clerkship I

3 Credit Hour(s)

As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine.

Prerequisites: All 500 level PAS courses. Co-requisites: PAS 614.

Session: Summer
Year: All Years (GR)

PAS 602: Clerkship II

3 Credit Hour(s)

As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine.

Prerequisites: All 500 level PAS courses. Co-requisites: PAS 614.

Session: Summer
Year: All Years (GR)
PAS 603: Clerkship III
3 Credit Hour(s)
As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine. Prerequisites: All 500 level PAS courses. Co-requisites: PAS 614.
Session: Summer
Year: All Years (GR)

PAS 604: Clerkship IV
3 Credit Hour(s)
As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine. Prerequisites: All 500 level PAS courses. Co-requisites: PAS 615.
Session: Fall
Year: All Years (GR)

PAS 605: Clerkship V
3 Credit Hour(s)
As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine. Prerequisites: All 500 level PAS courses. Co-requisites: PAS 615.
Session: Fall
Year: All Years (GR)

PAS 606: Clerkship VI
3 Credit Hour(s)
As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine. Prerequisites: All 500 level PAS courses. Co-requisites: PAS 615.
Session: Fall
Year: All Years (GR)
PAS 607: Clerkship VII
3 Credit Hour(s)
As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine.
Prerequisites: All 500 level PAS courses. Co-requisites: PAS 615.
Session: Fall
Year: All Years (GR)

PAS 608: Clerkship VIII
3 Credit Hour(s)
As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine.
Prerequisites: All 500 level PAS courses. Co-requisites: PAS 616.
Session: Spring
Year: All Years (GR)

PAS 609: Clerkship IX
3 Credit Hour(s)
As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine.
Prerequisites: All 500 level PAS courses. Co-requisites: PAS 616.
Session: Spring
Year: All Years (GR)

PAS 610: Clerkship X
3 Credit Hour(s)
As part of a comprehensive and coordinated 40 week clinical schedule, each four (4) week full-time clerkship is designed to offer the PA student supervised clinical practice experiences in one or more of the following areas: family medicine, internal medicine, medical specialties, pediatric and adolescent medicine, prenatal care, gynecology, surgery, surgical specialties, emergency medicine, and psychiatry/behavioral medicine.
Prerequisites: All 500 level PAS courses. Co-requisites: PAS 616.
Session: Spring
Year: All Years (GR)
PAS 612: Research I

1 Credit Hour(s)

Students utilize EBP (evidence-based practice) principles to write a clinical case study for their peers. EBP is a widely accepted approach used by many medical professionals to encourage sound decision-making and ensure positive outcomes. EBP incorporates observation, research, clinical opinion/analysis and patient perspective into each case. Benefits of implementing EBP into clinical practice include improved patient outcomes, improved patient compliance and a commitment that a provider is up to date with the most recent guidelines and recommendations. Completion of this course will require students to demonstrate competency in critical thinking, creative problem solving, professional writing, and information literacy.

Corequisite: PAS 614
Session: Summer
Year: All Years (GR)

PAS 613: Research II

1 Credit Hour(s)

Students utilize EBP (evidence-based practice) to present a clinical case to their peers in a Grand Rounds format. EBP is a widely accepted approach used by many medical professionals to encourage sound decision-making and ensure positive outcomes. EBP incorporates observation, research, clinical opinion/analysis and patient perspective into each case. Benefits of implementing EBP into clinical practice include improved patient outcomes, improved patient compliance and a commitment that a provider is up to date with the most recent guidelines and recommendations. Completion of this course will require students to demonstrate competency in critical thinking, creative problem solving, communication and information literacy.

Corequisite: PAS 616.
Session: Spring
Year: All Years (GR)

PAS 614: Clinical Seminar I

2 Credit Hour(s)

As a supplement to the experience and knowledge gained through the completion of supervised clinical practice experiences, students enrolled in the summer of the final year of the Daemen College PA Program transition from the classroom to the clinical phase and begin to prepare for the Physician Assistant National Certifying Examination (PANCE) through the use of computer tutorials, group "call back day," lectures, case presentations, and faculty evaluation/mentoring. Written examinations are offered monthly. Students must submit examples of written patient documentation, complete CME courses, and log clinical experiences. All students assigned to supervised clinical practice experiences will register for a two-credit seminar each semester.

Session: Summer
Year: All Years (GR)
PAS 615: Clinical Seminar II

2 Credit Hour(s)

As a supplement to the experience and knowledge gained through the completion of supervised clinical practice experiences, students enrolled in the fall of the final year of the Daemen College PA Program prepare for the program's summative examination and continue to prepare for the Physician Assistant National Certifying Examination (PANCE) through the use of computer tutorials, group "call back day," lectures, case presentations, and faculty evaluation/mentoring. Written examinations are offered monthly. Students must submit examples of written patient documentation, complete CME courses, and log clinical experiences. All students assigned to supervised clinical practic experiences will register for a two-credit seminar each semester.

Session: Fall
Year: All Years (GR)

PAS 616: Clinical Seminar III

2 Credit Hour(s)

As a supplement to the experience and knowledge gained through the completion of supervised clinical practice experiences, students enrolled in the spring semester of the final year of the Daemen College PA Program prepare for the transition to clinical practice and continue to prepare for the Physician Assistant National Certifying Examination (PANCE). The Physician Assistant Clinical Knowledge Rating and Assessment Tool (PACKRAT) is offered. Students must complete self-assessment projects and meet with the Director of Clinical Education for personalized reviews. Board review sessions are provided. Additionally, students continue to complete CME courses, submit examples of written patient documentation, and log clinical experiences. Finally, successful completion of the summative examination is required for program completion.

Session: Spring
Year: All Years (GR)
DIRECT-ENTRY DOCTOR OF PHYSICAL THERAPY (DPT)

Prerequisite Studies

Depending upon academic background, students may be required to complete additional studies as prerequisite to required courses. Prerequisite studies follow:

- BCH317 Bio-Organic Chemistry Lecture (3)
- BIO109/L-110/L General Biology I-II (3/1; 3/1)
- BIO330/L-340/L General Anatomy; General Physiology (4/0; 4/0)
- CHE110/L-111/L Chemistry I-II (4/0; 4/0)
- CMP315 Advanced Composition for Health Professionals (3)
- MTH134 Pre-Calculus (3)
- PHY101/L-102/L Physics I-II (3/1; 3/1)
- PSY: 3 credits in Psychology studies
- PT101-201 Freshman/Sophomore Seminars in Physical Therapy (1/1)
- PT312 Principles of Teaching and Learning (3)

MAJOR: SCIENCES AND PHYSICAL THERAPY: 103 CREDITS:

- BIO541/L 542/L Neurobiology I-II (4/0; 4/0)
- PT501 Applied Biostatistics (3)
- PT504/L-505/L Clinical Functional Anatomy I & II (3/0; 2/0)
- PT506/L-507/L Kinesiology & Biomechanics I & II (3/0; 2/0)
- PT508/L Physiology of Exercise (3/0)
- PT509/L Principles & Applications of Physical Agents (4/0)
- PT514/L-515/L Musculoskeletal Rehabilitation I-II (5/0; 5/0)
- PT516 Clinical Problem Solving in Musculoskeletal Rehabilitation (2)
- PT517 Clinical Medicine I (3)
- PT521/L Prosthetics & Orthotics (2/0)
- PT530 Psychosocial Aspects of Health and Disability (3)
- PT532 Motor Control & Motor Learning (2)
- PT539/L Cardiopulmonary Rehabilitation (3/0)
- PT544/L-545/L Neuromuscular Rehabilitation I-II (4/0; 4/0)
- PT546-549 Clinical Medicine II-III (3/2)
- PT548 Integumentary Care (3)
- PT551 Integrative Seminar in Physical Therapy I-II-III-IV (0)
Admission Requirements

Students with an earned baccalaureate degree (BS/BA) in a related field with minimum overall and science GPAs of 2.8 may apply to enter directly into the professional phase of the entry-level Doctor of Physical Therapy (DPT) program.

Students with an earned baccalaureate degree (BS/BA) in a related field with minimum overall and science GPAs of 2.8 may apply to enter directly into the professional phase of the entry-level Doctor of Physical Therapy (DPT) program. You may apply online through PTCAS. Direct-entry students will be accepted to the professional phase of the program based on their educational background, academic excellence, completion of all other requirements/recommendations, and space availability.

Degree and credit analysis for direct-entry students is completed by the Graduate Admissions Office and Physical Therapy Department Chair.

Direct-entry students must have successfully completed (C or better) all coursework listed below, earning minimum overall and science GPAs of 2.8 to be eligible for consideration for entry into the professional phase of the program.

- 8 credits Biology (with lab)
- 8 credits Chemistry (with lab)
- 3 credits Bio-organic Chemistry lecture (Organic Chemistry or Biochemistry may be substituted)
- 8 credits Physics (with lab)
- 4 credits Anatomy (with lab)
- 4 credits Physiology (with lab)
- 3 credits Pre-Calculus (minimum requirement)
- 3 credits Psychology
- CMP 315 Advanced Composition for Health Professionals * +
- PT 101 and PT 201 Freshman and Sophomore Seminars in Physical Therapy *
- PT 312 Principles of Teaching and Learning *

* may be satisfied through demonstrated proficiency, CLLE or other documentation of previous equivalent coursework

+ 200 level or higher English Composition including medical terminology and documentation formats.

Official transcripts from all colleges attended are required. International students should have transcripts evaluated by World Educational Services [www.wes.org](http://www.wes.org) or Joseph Silny & Associates, Inc. [www.jsilny.com](http://www.jsilny.com). Course by course evaluation is required.

Applicants must consult with the Graduate Admissions Office for all other requirements/recommendations including letter of intent, field work, references, and resume.

**Requirements for Continuance in the Professional Phase of the Program**

Detailed information on minimum grade requirements and other requirements to maintain good academic standing in the professional program is available from the Physical Therapy Department. A minimum grade of C or Pass (for courses graded Pass/Fail) in all courses and a minimum 3.0 GPA in each semester of the curriculum are required in the professional program.

**Graduation Requirements**

Satisfactory completion of all requirements as per the terms set forth by the Physical Therapy Department.

**Suggested Course Sequence**

Access the suggested course sequence for the [DPT, Direct Entry](#), from the Physical Therapy Department web page or the Program Plans site on the Registrar’s web page.
A fellowship program in physical therapy provides a post-professional, planned learning experience in a focused area of clinical practice, education, or research for postdoctoral or post-residency prepared, board-certified therapists. The Daemen OMPT Fellowship program focuses on applications to musculoskeletal physical therapist practice.

ORTHOPAEDIC MANUAL PHYSICAL THERAPY (30 CREDITS):

- PT704 Musculoskeletal System (4)
- PT705 Evidence Based Practice (2)
- PT720 Thrust Manipulation (3)
- PT721 Neuromuscular Mobilization (2)
- PT722 Spinal Exercise Strategies (2)
- PT723 Integrated Management of Sacroiliac Joint Dysfunction (2)
- PT724 OMPT Residency (Mentorship) (3)
- PT725 Problem Solving in Orthopaedic Manual Physical Therapy (2)
- PT726 Research Project (2)
- PT727 Review-Objective Structured Clinical Exam (1)
- PT728 Laboratory in Orthopaedic Manual Physical Therapy (OMPT) (1)
- PT729 McKenzie Part A (3) (McKenzie Institute International)
- PT730 McKenzie Part B (3) (McKenzie Institute International)

TOTAL PROGRAM REQUIREMENTS = 30 CREDITS

ADDITIONAL REQUIREMENTS

Students entering the Fellowship must have a minimum of a bachelor’s degree, license to practice physical therapy, and current state registration to practice. Satisfactory grades in the Fellowship are a minimum grade of B, and minimum 3.0 GPA.

Application Process
Applicants to the Fellowship program must complete and submit the following information:

1. Daemen College Physical Therapy Graduate Program Admission Application as well as https://www.abptrfe.org/RFPTCAS/ApplicantWebsite/
2. letter of intent for admission to the Fellowship;
3. copy of current State registration to practice physical therapy;
4. signed statement attesting to legal and ethical professional standing;
5. resume or curriculum vitae;
6. evidence of three years of orthopaedic physical therapy clinical experience;
7. two letters of reference from physical therapists who have observed the applicant’s clinical performance;
8. one letter of reference from someone who can attest to the applicant’s academic competence.
9. documented American Physical Therapy Association (APTA) Board Certification as an Orthopaedic Clinical Specialist (OCS) or Sports Clinical Specialist (SCS) or completion of an ABPTRFE-accredited residency in Orthopaedic or Sports Physical Therapy

Selection of Candidates

The admission process will be based on a cohort which begins matriculation in January or June. Admission will be based on review of all material submitted for application. All candidates meeting criteria for application will be accepted into the Fellowship program. Admission will be limited to 20 students each January and will be on a first come first serve basis for qualified applicants. To apply, go to www.daemen.edu/admissions. Go to Graduate Admissions, Graduate Programs and apply online.

Course Repeats

It may be necessary for a student to repeat a course to achieve a satisfactory grade. Students must earn a minimum grade of B when repeating a course.

Time Limitation

Excluding an approved Leave of Absence, students are expected to successfully complete all program requirements in a maximum of three (3) calendar years.
Physical Therapy Courses

Physical Therapy

**PT 101: Freshman Seminar in Physical Therapy**

1 Credit Hour(s)

This course is the first in the sequence of two courses designed to introduce students to the physical therapy profession and to the professional phase of the physical therapy curriculum. Students will be introduced to the history of the physical therapy profession, scope of practice, professional organizations, roles of other health care professionals, and the importance of scientific research and its link to the concept of evidence-based practice. Concepts related to managed care and the changing healthcare environment will be explored as they relate to the health care professional and consumer. Additionally, issues of contemporary practice will be discussed and debated. Prerequisite: PT Freshman status or permission of instructor or PT Department.

Session: Fall and Spring
Year: All Years (UG)

**PT 201: Sophomore Seminar in Physical Therapy**

1 Credit Hour(s)

This course is the second in a sequence of two courses designed to introduce students to the professional phase of the physical therapy curriculum and the profession. Topics will include principles of therapeutic communication, ethics and core values, sociocultural issues and cultural fluency in health care delivery, issues in professional continuing education in a dynamic profession, computer literacy in physical therapy, and an introduction to medical terminology and documentation formats in physical therapy. The relationship between course objectives and the Daemen College Core Competency most closely associated with them is also identified. Prerequisite: PT 101 or permission of instructor or PT Department.

Session: Fall and Spring
Year: All Years (UG)
PT 312: Principles of Teaching and Learning

3 Credit Hour(s)

Fulfills core competency: Information Literacy. Together with CMP 315, Advanced Composition for Health Professionals, combination of both courses meets Research & Presentation requirement. This course will focus on the principles of teaching and learning relevant to the role of the physical therapist as an educator addressing the changing needs of the learner across the lifespan. We will begin with an exploration of the role of education in health care including its historical evolution, and associated ethical, legal, and economic issues. Topics will include theoretical models of adult learning styles, adult learning theories, cognitive development, and taxonomies of educational objectives. Principles of teaching and learning will be applied in the affective, cognitive, and psychomotor domains. As the course progresses we will explore characteristics of the learner including: assessment of the learner’s needs across the lifespan, and contextual factors that influence the process of learning including adherence, empowerment, and motivation. Cross-cultural issues broadly defined, that affect the teaching and learning process will be discussed including: access to healthcare, age, culture, disability, family, gender, poverty, religion, and socio-economic status. Throughout this, course students will formally and informally present content to their peers affording the opportunity for application of course content, practice, and feedback. The final course presentation is evidence-based and draws on work completed in CMP 315, and fulfills the presentation component of the core requirement for Research and Presentation within the Physical Therapy curriculum. Prerequisites: PT 101, PT 201 or permission of instructor or PT Department.

Session: Spring
Year: All Years (UG)

PT 501: Applied Biostatistics

3 Credit Hour(s)

Students will develop an understanding of the principles and applications of parametric and nonparametric statistics, particularly with respect to applications in physical therapy. Topics will include: probability, scales of measurement, reliability and validity, sampling techniques, experimental design and hypothesis development (statistical inference), descriptive statistics, parametric and nonparametric tests of significance, correlation, and regression. Selection of appropriate statistical procedures will be presented with reference to principles of experimental design presented in PT 553 Introduction to Clinical Research Design. Students will use both calculators and computer software (SPSS, Excel) for analyzing data and developing graphic representations. Prerequisites: PT Second Year Spring professional status or permission of PT Department.

Session: Spring
Year: All Years (GR)
PT 504: Clinical Functional Anatomy I

3 Credit Hour(s)

This course will build upon the fundamental embryology, histology, and gross anatomical structure acquired in General Anatomy (BIO 330). This course, the first of two clinically-oriented functional anatomy courses, will focus on the detailed structure and function of the human neuromusculoskeletal system. It will concentrate on the relationships of normal and abnormal embryological and developmental processes to gross anatomical structure, and the relationships of normal and abnormal anatomical structure to movement and function across the lifespan. Specific anatomical content will be presented on a regional basis and will include the back, head, neck, shoulder girdle, upper extremity, and thorax. Various teaching/learning methods will be used including lecture, laboratory, and demonstrations. Laboratory sessions will allow students to acquire a three-dimensional macroscopic appreciation of anatomical structure through human cadaver dissection guided by iPad video demonstrations, cadaver prosections, and study of models. Prerequisite: PT First Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)

PT 504L: Clinical Functional Anatomy I Lab

0 Credit Hour(s)

Laboratory techniques for Clinical Functional Anatomy. Required corequisite: PT 504.

Session: Fall
Year: All Years (GR)

PT 505: Clinical Functional Anatomy II Lecture

2 Credit Hour(s)

This course will build upon the fundamental content acquired in General Anatomy (BIO 330) and Clinical Functional Anatomy I (PT504). This course is the second of two clinically oriented functional anatomy courses that will focus on the detailed structure and function of the human neuromusculoskeletal system, specifically the lower extremity and cavities. Lecture is one hour per week and lab sessions are two hours per week. Various teaching/learning methods will be used including lecture, laboratory, and demonstrations. Laboratory sessions will allow students to acquire a three-dimensional macroscopic appreciation of anatomical structure through human cadaver dissection guided by iPad video demonstrations, cadaver prosections, and study of models. Prerequisites: PT 504 and PT First Year Spring professional status or permission of PT Department.

Session: Spring
Year: All Years (GR)

PT 505L: Clinical Functional Anatomy II Laboratory

0 Credit Hour(s)

Laboratory techniques for Clinical Functional Anatomy II. Corequisite: PT 505.

Session: Spring
Year: All Years (GR)
PT 506: Kinesiology and Biomechanics I

3 Credit Hour(s)

This lecture/laboratory course will introduce and emphasize the principles of kinesiology, tissue mechanics and biomechanics of the cervical, temporomandibular, thoracic, and upper extremity joints and their related soft tissues. The clinical application of these principles will be reinforced through both static and dynamic analyses of regional human movement and posture. Kinetic and kinematic analysis of movement of these regions will be explored using such tools as dynamometry and video motion analysis. This course content will be synthesized with the foundations of anatomical structure and physiology presented in PT 504/L; Clinical Functional Anatomy I and PT 508/L; Physiology of Exercise. This integration of anatomical and physiological foundations will aid the learner in proper examination and evaluation of the quality, efficiency, and safety of upper quarter movement patterns and functional task performance. An emphasis will be placed on the analysis and discussion of the mechanical properties of tissues and their respective responses to stress shielding and stress application. Lectures will provide an in-depth study of the biomechanics of the cervical and thoracic spines, temporomandibular joint and upper extremities. The students will analyze forces affecting arthrokinematics and osteokinematics of these respective regions and relate those to whole body and regional mobility and stability by way of clinical application. Laboratories will promote development of skills in critical analysis and examination and evaluation of typical and atypical movement. The student will then develop skill in the application of both kinetic and kinematic biomechanical analysis and begin to foster consideration of biomechanical principles in the design of reliable and valid upper quarter examination procedures and efficacious intervention strategies and parameters. Prerequisite: PT First Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)

PT 506L: Kinesiology and Biomechanics I Lab

0 Credit Hour(s)

Laboratory techniques for Kinesiology & Biomechanics I. Required corequisite: PT 506.

Session: Fall
Year: All Years (GR)
PT 507: Kinesiology & Biomechanics II Lecture

2 Credit Hour(s)

This lecture/laboratory course will focus on the principles of kinesiology, tissue mechanics and biomechanics as they relate to the lower extremity, pelvis, and lumbar spine. The clinical application of these principles will be reinforced through both static and dynamic analyses of regional human movement and posture. Kinetic and kinematic analysis of movement of these regions will be explored using such tools as electromyography (EMG), dynamometry, and video motion analysis. This course content will be synthesized with the foundations of anatomical structure, physiology and kinesiology presented in PT 504 & 505; Clinical Functional Anatomy I & II and PT 508; Physiology of Exercise; and PT 506 Kinesiology and Biomechanics I. This integration of anatomical, physiological, and kinesiological foundations will aid the learner in proper evaluation of the quality, efficiency, and safety of lower quarter movement patterns and functional task performance such as in-depth gait analysis. Lectures will provide an in-depth study of the biomechanics of the lumbar spine, pelvis, and lower extremities. The students will analyze forces affecting arthrokinematics and osteokinematics of these respective regions and relate those to whole body and regional mobility and stability by way of clinical application. Laboratories will promote further development of skills in critical analysis and evaluation of typical and atypical movement, the application of both kinetic and kinematic biomechanical analysis and begin to foster consideration of biomechanical principles in the design of reliable and valid lower quarter examination procedures and efficacious intervention strategies and parameters. Prerequisite: PT First Year Spring professional status or permission of PT Department.

Session: Spring
Year: All Years (GR)

PT 507L: Kinesiology and Biomechanics II Laboratory

0 Credit Hour(s)

Laboratory techniques for Kinesiology & Biomechanics II. Corequisite: PT 507.

Session: Spring
Year: All Years (GR)

PT 508: Physiology of Exercise

3 Credit Hour(s)

This foundational science course introduces and emphasizes the concepts and knowledge of the body's physiological response to exercise, overuse, and disuse. Lectures and laboratory experiences focus on the structural and physiological effects of exercise and establish a knowledge base for the future clinician to develop and critically assess neuromusculoskeletal exercise prescription and cardiopulmonary intervention programs. Prerequisite: PT First Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)
PT 508L: Physiology of Exercise Lab

0 Credit Hour(s)

Laboratory techniques for Physiology of Exercise. Corequisite: PT 508.
Session: Fall
Year: All Years (GR)

PT 509: Principles and Applications of Physical Agents Lecture

4 Credit Hour(s)

This lecture/laboratory course will introduce and emphasize the physiologic effects of electromagnetic and acoustic energy on human tissue. The clinical application of these principles will be reinforced through laboratory practical experiences as well as clinical case studies. This course content will be synthesized with the foundations of anatomical structure and physiology presented in PT 504/L Clinical Functional Anatomy I, PT 505/L Clinical Functional Anatomy II, PT 514/L Musculoskeletal Rehabilitation I, and PT 515/L Musculoskeletal Rehabilitation II. This integration of anatomic and physiological foundations will aid the learner in decision making with regard to application of appropriate physical agents. An emphasis will be placed on the physiologic response of tissues to therapeutic modalities that emit electromagnetic and acoustic energy. Lectures will provide an in-depth study of the science of therapeutic modalities. Students will differentiate between the thermal, acoustic, mechanical, and electrical modalities commonly utilized in the clinic. Laboratories will promote development of psychomotor skills and demonstrate mastery in the safe application of therapeutic modalities. Students will develop consideration of the application of physical agents within treatment strategies that are based upon evidence in practice. Prerequisite: PT First Year Spring professional status or permission of PT Department.
Session: Spring
Year: All Years (GR)

PT 509L: Principles and Applications of Physical Agents Laboratory

0 Credit Hour(s)

Laboratory techniques for Principles and Applications of Physical Agents. Corequisite: PT 509.
Session: Spring
Year: All Years (GR)
PT 514: Musculoskeletal Rehabilitation I

5 Credit Hour(s)

This lecture/laboratory course is the first in a three part series, which will introduce the concepts of musculoskeletal examination, evaluation, and intervention strategies of the cervical spine, thoracic spine, upper extremities, and associated structures. This course will further promote development of knowledge in differentiating musculoskeletal dysfunctions/disorders in the regions noted. Students will further develop and synthesize the concepts of decision making and critical thinking in evidence based practice and professionalism with topics including communication, ethical behavior, professional organization, collaborative/team practice and scope of practice. Additionally, the use of the International Classification of Functioning, Disability and Health (ICF) will be used to describe a patient/client’s impairments, activity and participation limitations. Treatment concepts and techniques will be presented and applied in a conceptual framework emphasizing functional restoration. Laboratories will promote development of skill in the application of examination and intervention techniques discussed in lecture. Techniques will be discussed and practiced in the context of clinical problems. Students will have the opportunity to critically evaluate examination findings via paper cases to build differential diagnosis and problem solving skills. Prerequisite: PT First Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)

PT 514L: Musculoskeletal Rehabilitation I Lab

0 Credit Hour(s)

Laboratory techniques for Musculoskeletal Rehabilitation I. Corequisite: PT 514.

Session: Fall
Year: All Years (GR)
PT 515: Musculoskeletal Rehabilitation II Lecture

5 Credit Hour(s)

This lecture/laboratory course is the second in a three part series, which will further investigate concepts of musculoskeletal examination and evaluation and will promote development of knowledge in differentiating musculoskeletal dysfunctions/disorders of the ankle/foot, knee, hip, lumbar spine, pelvis, and their associated structures. Treatment philosophies and techniques (e.g. structure mobilization and stabilization) will be explored and applied in a conceptual framework emphasizing functional restoration. Additionally, the use of the International Classification of Functioning, Disability and Health (ICF) will be used to describe a patient/client's impairments, activity and participation limitations. Basic care procedures will be presented including wheelchair parts and propulsion, transfer training, gait training, and environmental assessment and modification. In addition, a specialty area of aquatic therapy will be explored. Laboratories will promote development of skill in the application of examination and intervention techniques discussed in lecture. Techniques will be presented and practiced in the context of clinical problems. Students will have the opportunity to critically evaluate examination findings via paper cases to build differential diagnosing and problem solving skills. Students will participate in clinical observations and patient demonstrations in Clinical Exposure to continue their hands-on experience with patients and to further develop patient-therapist and professional communication skills. Prerequisite: PT First Year Spring professional status or permission of PT Department.

Session: Spring
Year: All Years (GR)

PT 515L: Musculoskeletal Rehabilitation II Laboratory

0 Credit Hour(s)

Laboratory techniques for Musculoskeletal Rehabilitation II. Corequisite: PT 515.

Session: Spring
Year: All Years (GR)
PT 516: Clinical Problem Solving in Musculoskeletal Rehabilitation

2 Credit Hour(s)

This course is the third course in a three part series which will provide students an opportunity to further explore topics in musculoskeletal rehabilitation through a problem based learning format. This course will have distinct but related units to promote and enhance further proficiency in musculoskeletal rehabilitation patient/client management. The student will have an opportunity to engage in both the cognitive and psychomotor domains of learning for thrust and non-thrust manipulation of the spine and extremities. Discussion of manipulation theory and current best evidence will be explored. Laboratory will be utilized to present, practice, and refine technique in spinal and extremity thrust and non-thrust manipulation using a case based model approach. Paper cases will be analyzed to further enhance differential diagnosis skills. Examination, evaluation, diagnosis, prognosis, and intervention strategies will be explored using current best evidence. Students will present a patient case from their summer clinical internship (PT 577) to allow the student learner further opportunity to critically think and problem solve as it relates to a patient with musculoskeletal pathology. Ideally, the patient selection would allow for further inquiry into examination, evaluation, diagnosis, prognosis, and intervention. To allow for maturation in critical thinking, the selection might include a challenging patient to examine, evaluate and treat with questionable positive outcomes. Students will be given carefully constructed musculoskeletal case studies not presented in Musculoskeletal Rehabilitation I or II (PT 514/PT 515). Through these case studies, students will focus on knowledge and skills associated with examination and intervention in a higher order thinking manner. These cases will also highlight social/cultural/psychosocial issues, legal and ethical aspects of professional behavior, and integration of published literature into clinical practice. Prerequisite: PT Second Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)

PT 517: Clinical Medicine I

1-3 Credit Hour(s)

This course is the first in a three part clinical medicine series. It is designed to challenge the student to evaluate the knowledge of basic clinical presentations associated with musculoskeletal pathology as a foundation for direct patient care and research. Key topics characteristic of common orthopedic pathologies will be addressed, including etiology; epidemiology; underlying pathophysiology; clinical signs and symptoms related to impairments, functional limitations, and disabilities; natural history and prognosis; diagnostic medical procedures; differential diagnosis; medical, pharmacological and surgical management; and expected outcomes. Differential diagnosis related to musculoskeletal pathology will be emphasized. Content presented will encompass pathologies observed across the lifespan. Prerequisite: PT First Year Fall professional status or permission of PT Department.

Session: Fall and Spring
Year: All Years (GR)
PT 521: Prosthetics and Orthotics

2 Credit Hour(s)

This lecture and laboratory based course is designed to increase the student's understanding of prosthetics and orthotics and the ability of the student to integrate use of these devices appropriately into clinical practice. Principles of prosthetic and orthotic design, function, and fabrication will be discussed. Clinical problem solving for prosthetic and orthotic prescription will be addressed based on examination findings and best evidence in order to optimize function for the patient/client. Pre-prosthetic as well as prosthetic training will be emphasized. Use of orthoses in management of individuals receiving physical therapy will be integrated with knowledge from previous courses in the musculoskeletal and neuromuscular areas of rehabilitation. Prerequisite: PT Second Year Spring professional status or permission of PT Department.

Session: Spring
Year: All Years (GR)

PT 521L: Prosthetics and Orthotics Lab

0 Credit Hour(s)

Laboratory techniques for Prosthetics and Orthotics. Corequisite: PT 521.

Session: Spring
Year: All Years (GR)

PT 530: Psychosocial Aspects of Health and Disability

3 Credit Hour(s)

This course applies biopsychosocial models of health, illness, and disability, including psychosocial aspects of disability; social attitudes and perceptions; adjustment to and secondary effects of disability. This course will develop student competence in responding to individuals who are experiencing physical and psychiatric problems. This course is designed for Physical Therapy students to be taken in the professional phase of the curriculum. Students will have had exposure to patients with musculoskeletal and neurological disorders and will therefore be able to consider the issues addressed in the course in the context of specific illnesses and/or disabilities relating to these body systems. Through readings, guest speakers, video, and community experiences, and in class discussions, this course is intended to challenge your paradigm of how you have perceived both physical and psychiatric disability. Discussions on quality of life, self-help, and recovery are intended to help you develop and sustain your professional relationships with the individuals with whom you may assist in their recovery. As this course is intended to help you understand and respond with comfort to individuals who are experiencing physical and mental health problems, you will have the opportunity to discuss various psychosocial issues that you have experienced personally, in your clinical exposure courses, internships and/or other settings, and using case studies towards a better understanding of how you might more effectively communicate and manage various challenges in the clinical setting. Prerequisites: PSY 103; PT Second Year Spring professional status or permission of PT Department.

Session: Spring
Year: All Years (GR)
PT 532: Motor Control and Motor Learning

2 Credit Hour(s)

This course explores conceptual issues in motor control and motor learning that form an important theoretical foundation for the practice of evidence-based physical therapy. We will examine historical and contemporary theories of motor control, postural control, information processing and motor learning, as frameworks for understanding goal-directed, functional movement. We will also explore theories of motor control and postural control as explanatory models for changes in movement capabilities, as well as typical and atypical development across the lifespan. The postural control process will also be explored from the information processing perspective, focusing on peripheral (e.g. sensory and musculoskeletal) and central (e.g. reaction time, motor planning, attention, cognition, motivation, etc.) aspects of motor control. Environmental task demands will be analyzed from the perspectives of motor control, information processing, and motor learning. Potential functional constraints to the motor control and postural control systems will be explored using a systems model within the context of an ICF framework. Prerequisites: PT Second Year Fall professional status or permission of PT Department.
Session: Fall
Year: All Years (GR)

PT 539: Cardiopulmonary Rehabilitation

3 Credit Hour(s)

This lecture and laboratory course will address the diversified issues of clinical management of patient/client with primary and/or secondary cardiovascular and pulmonary dysfunction within the context of Physical Therapy. Topics will include practice setting specific management principles and therapeutic techniques to address primary and secondary impairments of the cardiovascular and pulmonary systems, as well as prevention of dysfunction in individuals across their lifespan. Topics to be discussed include Chronic Obstructive Lung Dysfunction, Restrictive Lung Dysfunction, Heart Failure, Cardiac Muscle Dysfunction, the post-surgical patient, the patient post-trauma, and the patient with cancer. Prerequisites: PT Third Year Fall professional status or permission of PT Department.
Session: Spring
Year: All Years (GR)

PT 539L: Cardiopulmonary Rehabilitation Lab

0 Credit Hour(s)

Laboratory techniques for Cardiopulmonary Rehabilitation. Corequisite: PT 539.
Session: Spring
Year: All Years (GR)
PT 544: Neuromuscular Rehabilitation I Lecture

4 Credit Hour(s)

This course is the first in a three part series which will apply the conceptual framework of physical therapy management to patients/clients with neuromuscular rehabilitative needs. Operational theories of nervous system organization including systems theories, models of central nervous system reorganization, and recovery models will be introduced and emphasized. Enablement/Disablement models, the Guide to Physical Therapist Practice, Guidelines for Content in Physical Therapy Education, and other conceptual frameworks that aid the physical therapist in evidence-based clinical decision making and reasoning will be explored. This course will begin with an in-depth study of human development from the life span perspective, with an emphasis on development of human movement, postural control and their interrelationship to skill acquisition. Neuromuscular based pediatric movement disorders will be introduced and emphasized within the context of the elements of physical therapy practice and patient/client management. Developmental anatomy and biomechanics, functional neuro-anatomy, and physiology will be linked to discussions of disorders of posture and movement. Historical and contemporary theories of intervention including therapeutic handling will be presented. Medical management options including pharmacology and surgery will be discussed. Course content will include applications of assistive technology including adaptive and therapeutic equipment as it relates to the pediatric patient client population. Course content will reinforce the development of professional and ethical behaviors, the scope of physical therapy practice, collaborative practice models, therapeutic communication skills, and documentation. Laboratory sessions will promote the development of skill in the application of examination and intervention techniques discussed in lecture.

Prerequisite: PT Second Year Fall professional status or permission of PT Department.
Session: Fall
Year: All Years (GR)

PT 544L: Neuromuscular Rehabilitation I Laboratory

0 Credit Hour(s)

Laboratory techniques for Neuromuscular Rehabilitation I. Corequisite: PT 544.
Session: Fall
Year: All Years (GR)
PT 545: Neuromuscular Rehabilitation II

4 Credit Hour(s)

This course is the second in a three part series which will apply the conceptual framework of physical therapy management to patients/clients with neuromuscular rehabilitative needs. This course will use the conceptual models/frameworks and reinforce foundational principles and theories presented in PT 544/L. This course will continue the study of human development, from the life span perspective, with an emphasis on age related changes of postural control and movement and their interrelationship to functional capabilities. Adult onset neuromuscular-based movement disorders will be introduced and emphasized within the context of the elements of physical therapy practice and patient/client management. Anatomy, functional neuroanatomy, and physiology will be linked to discussions of disorders of posture and movement. Historical and contemporary theories of intervention, as well as therapeutic handling, will be presented. Medical management options including pharmacology and surgery will be discussed. Course content will include issues on aging, vestibular rehabilitation, and an expanded discussion of assistive technology including adaptive and therapeutic equipment as it relates to the adult patient/client population. Course content will reinforce the development of professional and ethical behaviors, the scope of physical therapy practice, collaborative practice models, therapeutic communication skills, and documentation. Laboratory sessions will promote development of skill in the application of examination and intervention techniques discussed in lecture. Prerequisites: PT Second Year Spring professional status or permission of PT Department.

Session: Spring
Year: All Years (GR)

PT 545L: Neuromuscular Rehabilitation II Lab

0 Credit Hour(s)

Laboratory techniques for Neuromuscular Rehabilitation II. Corequisite: PT 545.

Session: Spring
Year: All Years (GR)

PT 546: Clinical Medicine II

3 Credit Hour(s)

This course is the second in a three part clinical medicine series. It is designed to challenge the student to evaluate the knowledge of clinical presentations associated with the neuromuscular system as a foundation for direct patient/client care and research. Key topics characteristic of common neuromuscular pathologies will be addressed, including etiology; epidemiology; underlying pathophysiology and histology; clinical signs and symptoms related impairments, activity and participation limitations; natural history and prognosis; diagnostic medical procedures; differential diagnosis; medical, pharmacological and surgical management; and expected outcomes. Differential diagnosis related to neuromuscular pathology will be emphasized and applied to determine appropriateness of physical therapy intervention. Content presented will encompass pathologies observed across the lifespan. Prerequisites: PT Second Year Spring professional status or permission of PT Department.

Session: Spring
Year: All Years (GR)
PT 548: Integumentary Care

3 Credit Hour(s)

The purpose of this course is to introduce the student to the skin and its appendages as they relate to wound etiology, evaluation, treatment, and prevention. The student will explore the anatomical and physiological processes associated with tissue destruction, repair, and remodeling as they relate to specific cause and effect using the wound healing model as the principle pillar of exploration. This course will address the diversified issues of clinical management of the individual with a primary and/or secondary integumentary disorder as they relate to the practice of physical therapy. Topics will include practice setting specific management principles and techniques as they relate to individuals across their life span, with disorders of the integumentary system including, but not limited to: burns, pressure ulcers, arterial and venous stasis disorders, neuropathic lesions, dermatitis, and cellulitis. The student will acquire skills within a theoretical and practical spectrum as it relates to clinical management, environmental constraints, and critical pathways.

Prerequisite: PT Third Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)

PT 549: Clinical Medicine III

2 Credit Hour(s)

This course is the final in the three part clinical medicine series. It is designed to challenge the student to evaluate the knowledge of clinical presentations associated with cardiovascular and pulmonary systems, as well as general medicine topics including gastrointestinal, urogenital, metabolic, and oncologic pathologies, as a foundation for direct patient care and research. Key topics characteristic of the pathologies will be addressed, including etiology; epidemiology; underlying pathophysiology and histology; clinical signs and symptoms related to impairments, functional limitations, and disabilities; natural history and prognosis; diagnostic medical procedures; differential diagnosis; medical, pharmacological and surgical management; and expected outcomes. Differential diagnosis related to these pathologies will be emphasized and applied to determine appropriateness of physical therapy intervention. Content presented will encompass pathologies observed across the life span.

Prerequisite: PT Third Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)
PT 551: Integrative Seminar in Physical Therapy

0 Credit Hour(s)

PT 551 (I-IV) and PT 651 (V) Integrative Seminars focus on the integration of all corresponding courses within each semester of the curriculum. These sessions will act as forums within which the student learner will have the opportunity to conceptualize each aspect of rehabilitation and build them into an overall framework of patient/client care. Each session will generally have a theme of interest such that students can build upon their level of understanding of that material as well as experience, appreciate and value the complexity of the entire process. These forums are designed to act as learning communities to promote independent critical thinking and independent thought while assisting in preparing each student for all lecture, laboratory and clinical exposure components of the semester coursework. Prerequisite: PT professional status (corresponding Fall/Spring semesters) in First through Third years.

Session: Fall and Spring
Year: All Years (GR)

PT 553: Introduction to Clinical Research Design

1 Credit Hour(s)

In this one-credit course students will explore the role of clinical research in supporting clinical decision-making and evidence-based practice. Students will explore the continuum of research methodologies and designs commonly used in clinical research (i.e. descriptive to randomized controlled trials); and they will evaluate the merit and relevance of published research to the practice of physical therapy. Ethical issues in clinical research will be considered including the role of institutional review boards and the requirements of informed consent. Students will lead discussions of research papers, considering key concepts such as sampling, experimental controls, levels of measurement, sensitivity, specificity, reliability and validity. As the semester progresses, groups of students will be linked with a faculty research advisor who will guide them through the process of clinical research in PT 554 and PT 555. Students will write a research question (or questions) that may form the basis of their research project. They will search the published literature and write a preliminary literature review relative to their research question. The culmination of the student's research will be a platform presentation as well as a poster. The posters will be presented at Academic Festival during the spring semester. Prerequisites: PT Second Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)
PT 554: Clinical Research I

2 Credit Hour(s)

This course continues the work begun in PT 553 to develop the skills necessary to contribute to clinical research related to physical therapy. While continuing to work in small groups, students in this course will continue to build on the area of inquiry established in PT 553 which included articulation of a research question and a preliminary evidence-based literature review. This semester students will refine the poster developed in PT 553 and present it at a college-wide poster session during the Daemen College Academic Festival. In addition, this semester each group of students will work as participants in the faculty mentor’s research. Groups will meet regularly throughout the semester with the faculty mentor for discussion of key issues related to the research process including analysis and synthesis of the research literature, experimental design, methodology, data analysis, etc. Each group will construct a research proposal that meets all the criteria for submission to the Daemen College Human Subjects Research Review Committee. A written comprehensive evidence-based literature review will be submitted by each group reflecting the semester’s work. Students are also expected to participate collaboratively in data collection and analysis.

Prerequisites: PT Second Year Spring professional status or permission of PT Department.
Session: Spring
Year: All Years (GR)

PT 555: Clinical Research II

2 Credit Hour(s)

During this semester the student will execute the research investigation designed in PT 554. It is expected that the student in conjunction with the research mentor and peers will have completed a research proposal and will have submitted that proposal to the Daemen College Human Subjects Research Review Committee. Following approval by the HSRRC and working closely with the research mentor, the students will collect and analyze data. Students will collaborate with one another on activities across the course. The culmination of the course will be written research manuscript and a platform presentation at the annual Evidence-Based Practice Clinical Research Symposium open to the Daemen College community, as well as interested individuals from the broader professional community. Prerequisites: PT Third Year Fall professional status or permission of PT Department.
Session: Fall
Year: All Years (GR)
PT 563: Clinical Exposure I (Musculoskeletal I)

1 Credit Hour(s)

The clinical exposure component of the curriculum consists of five semesters of every other week clinic-based experiential learning sessions. This course is the first in the series across each the professional phase academic semesters. These sessions are mentored by clinical adjunct faculty in collaboration with core faculty concurrently teaching the specialty content in the campus-based didactic coursework. These brief, regular exposures to clinical practice allow the student to observe and engage in the practice of physical therapy, further developing cognitive, affective, and psychomotor skills acquired in lecture and laboratory experiences. Small student teams will visit a local clinical facility that provides care to a variety of patient profiles within musculoskeletal rehabilitation. This experience is designed to permit the student to become acclimated to the clinical environment and develop effective patient-therapist communication skills. Students will synthesize knowledge already gained in classroom coursework with practical experience. Prerequisite: PT First Year Fall professional status or permission of PT Department.
Session: Fall
Year: All Years (GR)

PT 564: Clinical Exposure II (Musculoskeletal II)

1 Credit Hour(s)

The clinical exposure component of the curriculum consists of five semesters of every other week clinic-based experiential learning sessions. This course is the second in the series across each the professional phase academic semesters. These sessions are mentored by clinical adjunct faculty in collaboration with core faculty concurrently teaching the specialty content in the campus-based didactic coursework. These brief, regular exposures to clinical practice allow the student to observe and engage in the practice of physical therapy, further developing cognitive, affective, and psychomotor skills acquired in lecture and laboratory experiences. Small student teams will visit a local clinical facility that provides care to a variety of patient profiles within musculoskeletal rehabilitation. This experience is designed to permit the student to become acclimated to the clinical environment and develop effective patient-therapist communication skills. Students will synthesize knowledge already gained in classroom coursework with practical experience. Prerequisite: PT First Year Spring professional status or permission of PT Department.
Session: Spring
Year: All Years (GR)
PT 565: Clinical Exposure III (Neuromuscular I)

1 Credit Hour(s)

This course is the third in the series of five clinical exposures that are coordinated and mentored by academic faculty currently teaching in the specialty content in the campus-based didactic coursework, and adjunct faculty working in the specialty area. These brief, regular exposures to clinical practice will afford the student, while working in a small team (ranging from 2-5 students), the opportunity to observe and engage in the practice of pediatric physical therapy, further developing cognitive, affective and psychomotor skills acquired in lecture and laboratory experiences. This course is designed to offer the student two different types of learning opportunities. The first learning opportunity of this course consists of the student visiting local clinical facilities that provide care to children and adolescents with a variety of pediatric neuromuscular disorders. This observational experience is designed to afford the student the opportunity to become aware of a variety of pediatric practice settings and clinical diagnoses. The second learning opportunity of this course will occur on the Daemen College campus and will provide the student the opportunity to gain direct 'hands-on' care experience with an individual who is living with a pediatric onset, neuromuscular-based disorder of posture and movement. The clinical environment, which will be created on campus, will allow the student to further develop effective patient-therapist communication skills with this specialized patient population. Students will synthesize knowledge already gained in classroom coursework with practical experience. Students will discuss and consider issues of individual differences in patient management, professional responsibilities social/cultural diversity, and documentation of outcome measures, including examination findings, and ongoing intervention. Prerequisite: PT Second Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)
PT 566: Clinical Exposure IV (Neuromuscular II/ Prosthetics and Orthotics)

1 Credit Hour(s)

This course is the fourth in the series of five clinical exposures that are coordinated and mentored by academic and adjunct faculty currently teaching the specialty content in the campus-based didactic coursework. These brief, regular exposures to clinical practice will afford the student, while working in a small team (ranging from 2 to 5 students), the opportunity to observe and engage in the practice of adult neuromuscular rehabilitation and geriatric physical therapy, including the design and fabrication of orthotic and prosthetic devices, and further developing cognitive, affective and psychomotor skills acquired in lecture and laboratory experiences. This course is designed to offer the student two different types of learning opportunities. The first learning opportunity consists of the student visiting local clinical facilities that provide care to adults with a variety of neuromuscular disorders and age-related disorders. This observational experience is designed to afford the student the opportunity to become aware of a variety of practice settings and clinical diagnoses. The second learning opportunity in this course will occur on the Daemen College and Villa Maria campuses and will provide the student the opportunity to gain direct ‘hands-on’ care experience with a patient. The clinical environment, which will be created on campus, will allow the student to further develop effective patient-therapist communication skills with this patient population. Students will synthesize knowledge already gained in classroom coursework with practical experience. Students will discuss and consider issues of individual differences in patient management, professional responsibility, social/cultural diversity, and documentation of outcome measures, including examination results and ongoing intervention. Prerequisite: PT Second Year Spring professional status or permission of PT Department.

Session: Spring
Year: All Years (GR)

PT 567: Clinical Exposure V (Cardiopulmonary/ Integumentary)

1 Credit Hour(s)

This course is the last in the series of clinic-based experiential learning sessions that are coordinated and mentored by academic faculty. These regular exposures to clinical practice allow the student to observe and engage in the practice of physical therapy and other related fields, further developing cognitive, affective and psychomotor skills acquired in lecture and laboratory experiences. Small student teams will visit a group of local clinical facilities and community-based wellness programs that provide care to a variety of patient/clients including cardiopulmonary rehabilitation, integumentary wound care, trauma unit, women’s health, wellness and health promotion, and holistic health. These experiences are designed to permit the student to further develop effective patient/client-therapist communication skills. Students will discuss and consider issues of quality of care, scope of practice, clinical guidelines, documentation, and reimbursement. Prerequisite: PT Third Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)
PT 575: Pre-Clinical Seminar

1 Credit Hour(s)

This seminar format course is designed to prepare the student for his/her clinical internship experiences. Professional aspects of physical therapy will be stressed in this seminar. The design and implementation of the student's clinical education experiences at Daemen are also incorporated into this seminar course. The student will be introduced to essential information pertaining to clinical performance. The evaluation tool, the "Clinical Performance Instrument," will be thoroughly examined. Emphasis will be placed on reinforcement of communication skills essential to professionals in the healthcare environment. Learning experiences will also focus on the following professional areas: professional and educational expectations; professional behavior, ethical and legal standards; HIPAA regulations; communication; cultural considerations in patient management; alternative models in clinical education; infection control and blood borne pathogens; universal precautions; OSHA regulations. Prerequisite: PT First Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)

PT 577: Clinical Internship I

3 Credit Hour(s)

This is a nine (9) week full-time clinical internship designed to develop skills deemed appropriate for entry-level physical therapy practice. Those skills include but are not limited to examination, evaluation, diagnosis, prognosis, and intervention. To accomplish this, students will participate in direct patient care that may include gait training, transfer training, assessment and measurement, intervention and patient education. Integration of the previous semester's academic curriculum will be the focus of the clinical internship. The outpatient facilities utilized for the internship will focus on musculoskeletal patient care. Prerequisites: PT Second Year professional status and Grade of C or better in all PT coursework.

Session: Summer
Year: All Years (GR)

PT 582: Clinical Internship II

3 Credit Hour(s)

This is a nine (9) week full-time clinical internship designed to further enhance the student's patient/client management skills. The focus of this internship will be the management of patients/clients with neuromuscular disorders, incorporating information and skills acquired in the previous academic semesters. The facilities utilized for the internship will focus on neurorehabilitation of any age group. Prerequisites: PT Third Year professional status and Grade of C or better in all required PT course work.

Session: Summer
Year: All Years (GR)
PT 600: Clinical Problem Solving in Neuromuscular Rehabilitation

2 Credit Hour(s)

This course is the third in a three part series which will explore special topics in neuromuscular rehabilitation through a tutorial problem based learning format to promote the development of clinical reasoning, clinical problem solving, collaborative skills, skills in self-assessment and independent learning. Students will work independently or collaboratively in a small group with a faculty mentor/tutor. Selected topics involving patients with neuromuscular diagnoses with specific goals will be presented by a faculty mentor/tutor to small groups in the form of directed learning experiences and patient/client case studies. Working independently or as a small group, students will then proceed in designing and implementing an action plan aimed at achievement of these goals. Students will be required to: interpret and analyze the information provided; gather additional information as necessary from reading and discussions of current scientific professional literature; and synthesize and present coherent, evidence based argument addressing the specific goals of each learning experience or case study. The faculty mentor/tutor will serve as a facilitator for directing the students’ discussions and psychomotor activities. Learning objectives associated with each case study will focus on knowledge and skills associated with examination and intervention, as well as integration of published literature into clinical practice and contemporary practice issues including but not limited to social/cultural/psychosocial issues; legal and ethical aspects of professional behavior; discharge planning (including home/environmental needs, HEP); prognosis; practice issues (i.e. management of a collaborative care plan, supervision, constraints to practice); wellness and prevention; and accessing resources to facilitate patient care. Prerequisite: PT Third Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)

PT 606: Rehabilitation of the Patient With Spinal Cord Injury

1 Credit Hour(s)

This lecture/laboratory course will apply the conceptual framework of physical therapy management to patients/clients who have spinal cord injury during the acute, sub acute and long-term phases of care. Comprehensive exploration of the elements of physical therapy practice and patient/client management for patients/clients of all ages will be emphasized. Students are required to integrate and apply all previous academic/clinical knowledge with regard to musculoskeletal, neuromuscular, cardiopulmonary, and integumentary management, as well as application of environmental assessment/modification and assistive technology to enhance function, physical agents, and patient/caregiver education. Current scientific professional literature, integration of other systems, as well as critical thinking and decision making experiences for problem solving in all steps of patient/client management will be used. Prerequisite: PT Third Year Fall professional status or permission of PT Department.

Session: Fall
Year: All Years (GR)
PT 606L: Rehabilitation of the Patient With Spinal Cord Injury Lab

0 Credit Hour(s)

Laboratory techniques for Rehabilitation of the Patient with Spinal Cord Injury. Corequisite: PT 606.
Session: Fall
Year: All Years (GR)

PT 610: Management and Administrative Issues in Physical Therapy

4 Credit Hour(s)

A broad survey of topics essential to the administration and management of physical therapy services. Topics covered will include: strategic planning, organizational structure, reimbursement and income management, budgeting, marketing, personnel management, quality assurance, ethical dilemmas and problem solving, professional regulation and the legislative process, various forms of liability and risk management, health care policy and systems of health care service delivery, contract issues and the negotiation process, documentation issues, and appropriate delegation, supervision and collaboration in the provision of physical therapy services. Prerequisite: PT Third Year Fall professional status or permission of PT Department.
Session: Fall
Year: All Years (GR)

PT 612: Health Promotion, Fitness and Wellness

2 Credit Hour(s)

This course will provide the student with the conceptual framework for individual and community health promotion, as well as injury/disease prevention across the life span. Course content includes examination of concepts of health, health promotion, wellness and prevention, and health related quality of life (HRQoL). Basic epidemiological principles will be discussed and applied to specific diseases related to the practice of physical therapy including examination of best evidence for screening and prevention. Current theories of health behavior change will be discussed, as well as issues of adherence, locus of control, motivation, and the influence of culture and cultural issues on health promotion. To demonstrate understanding and application of the key concepts of health behavior change, students will assess their own level of wellness, implement a personal plan to address a particular health behavior, and analyze the outcome of the intervention. Community based health promotion will also be addressed including needs assessment, planning, resources, and process and outcome assessment. Students will apply their knowledge by creating a community based health promotion or disease/injury prevention program and present their project to their peers. Issues related to women's health will also be addressed including osteoporosis management, incontinence, pregnancy related issues, as well as pelvic floor dysfunction. Prerequisite: PT Third Year Fall professional status or permission of PT Department.
Session: Fall
Year: All Years (GR)
PT 651: Integrative Seminar in Physical Therapy V

0 Credit Hour(s)

PT 551 (I-IV) and PT 651 (V) Integrative Seminars focus on the integration of all corresponding courses within each semester of the curriculum. These sessions will act as forums within which the student learner will have the opportunity to conceptualize each aspect of rehabilitation and build them into an overall framework of patient/client care. Each session will generally have a theme of interest such that students can build upon their level of understanding of that material as well as experience, appreciate and value the complexity of the entire process. These forums are designed to act as learning communities to promote independent critical thinking and independent thought while assisting in preparing each student for all lecture, laboratory and clinical exposure components of the semester coursework. Prerequisite: PT professional status (corresponding Fall/Spring semesters) in First through Third years.

Session: Fall
Year: All Years (GR)

PT 680: Clinical Internship III

4 Credit Hour(s)

This is a nine (9) week full-time clinical internship designed to integrate all the academic knowledge gained as well as incorporate the previous clinical experiences to attain skills and behaviors of an entry-level physical therapist. The facilities utilized for the internship will focus on in-patient care of any age group and any setting. Prerequisites: PT Third Year professional status and Grade of C or better in all required PT course work.

Session: Summer
Year: All Years (GR)

PT 690: Clinical Internship IV

4 Credit Hour(s)

This is the final nine (9) week full-time clinical internship designed to enhance the student's entry-level skills in a special interest area of physical therapy. The facilities utilized for this internship will incorporate any setting appropriate for the delivery of physical therapy patient/client care. Prerequisites: PT Third Year professional status and Grade of C or better in all required PT course work.

Session: Summer
Year: All Years (GR)
PT 704: Musculoskeletal System

4 Credit Hour(s)

Differentiating musculoskeletal dysfunctions/disorders of the spine and upper and lower extremities, and their associated structures is the emphasis of this course. Students will further develop the concepts of decision-making and critical thinking in evidence-based clinical practice. Musculoskeletal examination and treatment techniques, including spinal and extremity thrust and nonthrust manipulation, will be presented and applied in a conceptual framework emphasizing functional restoration, health, and wellness. Laboratories will promote development of skill in the application of examination and intervention techniques discussed in a lecture format. Techniques will be discussed and practiced in the context of clinical problems. Students will have the opportunity to critically evaluate examination findings via paper cases to further build differential diagnosing and problem-solving skills as they relate to current practice standards. Contemporary perspectives to surgical management will be presented and explored by regional experts in the field. Algorithms for examination and intervention supported by the literature will be presented and discussed.

Session: Summer
Year: All Years (GR)

PT 705: Evidence Based Practice

2 Credit Hour(s)

The use of evidence to guide practice is essential in today's healthcare environment. This course will define evidence-based practice including its advantages and disadvantages. Students will learn the fundamental skills necessary to make patient management decisions based on data and best evidence and implement them into practice. Learning experiences will provide students with opportunities to conduct searches of relevant clinical and scientific literature, to review that literature efficiently and critically, and to utilize principles of research methods to design a patient centered research initiative relevant to their practice setting.

Session: Fall
Year: All Years (GR)

PT 720: Thrust Manipulation

3 Credit Hour(s)

This lecture and laboratory course is designed to teach the theory, rationale, and evidence supporting thrust manipulation. The course is designed to enhance psychomotor skill in utilizing mobilization and manipulation for the management of musculoskeletal disorders. The main focus of the program will be on determining the indications and contraindications of applying the techniques to assure both safety and treatment effectiveness. The areas emphasized will be based on evidence from recent clinical trials using manipulation to treat the spine and extremities.

Session: Spring
Year: All Years (GR)
PT 721: Neuromuscular Mobilization
2 Credit Hour(s)
This course presents examination and treatment strategies for patients who require an integration of neurological and orthopaedic (musculoskeletal) manual therapy procedures. Lab experiences will include skill development in spinal and extremity neuromuscular mobilization.
Session: Fall
Year: Odd Years (GR)

PT 722: Spinal Exercise Strategies
2 Credit Hour(s)
This course is designed to guide clinicians in the analysis of movement dysfunction and in the diagnosis and prescription of corrective exercise programs for spinal disorders. The course will involve both lecture and laboratory sessions and will integrate spinal exercise theories of McKenzie and Sahrmann as well as Australian and Nordic approaches.
Session: Fall
Year: Even Years (GR)

PT 723: Integrated Management of Sacroiliac Joint Dysfunction
2 Credit Hour(s)
This course is intended to provide the participant with basic examination and treatment approaches to the sacroiliac joint. A rationale for this approach will be provided by a review of the available evidence for examination and treatment.
Session: Spring
Year: All Years (GR)

PT 724: OMPT Residency (Mentorship)
3 Credit Hour(s)
A post-professional planned learning experience in a focused area of clinical practice. The clinical residency (fellowship) combines opportunities for ongoing clinical supervision and mentoring with a theoretical basis for advanced practice and scientific inquiry in a defined area of sub-specialization beyond the generally-accepted Description of Specialty Practice.
Session: Fall and Spring and Summer (GR)
PT 725: Problem Solving in Orthopaedic Manual Physical Therapy

2 Credit Hour(s)
A planned program of post professional clinical education for physical therapists that is designed to advance significantly the physical therapist resident’s problem solving abilities in orthopaedic manual physical therapy. The experience combines opportunities for ongoing clinical supervision and mentoring, with theoretical questioning regarding advanced practice, patient questions, and case analysis. This experience may be conducted at the clinical site or through distance learning opportunities.
Session: Fall and Spring and Summer
Year: All Years (GR)

PT 726: Research Project

2 Credit Hour(s)
This course will involve collection of data, interpretation of results, and/or analysis of a research question presented in PT 705 (Evidence Based Practice). The outcome product of the course may be a thorough review of the literature or meta-analysis, case study, case series, or involvement in a study that is suitable for publication or professional presentation.
Session: Fall and Spring and Summer
Year: All Years (GR)

PT 727: Review-Objective Structured Clinical Exam

1 Credit Hour(s)
This course will involve a review of the psychomotor skills learned throughout the Fellowship program. The course will meet on an as needed basis to prepare the student for the Objective Structured Clinical Exam (OSCE). The OSCE is a practical examination involving several stations that assesses the student’s ability to problem solve simulated cases and apply analytical and psychomotor skills in the area of Orthopaedic Manual Physical Therapy.
Session: Fall and Spring and Summer
Year: All Years (GR)

PT 728: Lab in Orthopaedic Manual Physical Therapy

1 Credit Hour(s)
This course is a distance learning laboratory offering which is designed such that the student will be able to view OMPT techniques via a computer live while at home or at work. The professor for this course will demonstrate examination and intervention procedures pertaining to OMPT while the student is provided the opportunity to interact with the professor by asking questions. To access the lab, the student will be given a link to Daemen College OMPT lab session.
Session: Fall and Spring and Summer
Year: All Years (GR)
PT 729: McKenzie Part A

3 Credit Hour(s)

An introduction to the concepts and applications of the McKenzie Method to Mechanical Diagnosis and Therapy focusing on the lumbar spine. As the name implies, this course focuses on the lumbar spine and the application of the McKenzie theory and techniques in the mechanical diagnosis of problems and the therapeutic approaches to resolve these problems. The course also includes patient demonstration, analysis and discussion. The principle format is lecture, discussion and live patient demonstrations.
Session: Spring
Year: All Years (GR)

PT 730: McKenzie Part B

3 Credit Hour(s)

Following Part A, how the McKenzie Method applies to the cervical and thoracic spines will be examined utilizing the same teaching format. This course focuses on the cervical and thoracic spine and the application of the McKenzie theory and techniques in the mechanical diagnosis of problems and the therapeutic approaches to resolve these problems. The course also includes patient demonstration, analysis and discussion. The principle format is lecture, discussion and live patient demonstrations.
Session: Summer
Year: All Years (GR)
MASTER OF PUBLIC HEALTH (MPH)

The Daemen College Master of Public Health (MPH) degree is offered to applicants who have completed a bachelor’s degree and are interested in pursuing graduate study in public health. Daemen’s 45-credit hour MPH program is comprised of competencies across five key public health areas: (1) biostatistics, (2) epidemiology, (3) health services administration, (4) health education/behavioral science, and (5) environmental health. In addition to classroom and web enhanced instruction, students also complete a 240-hour practicum. This field experience provides for real-world applications of training and builds experience working directly with public health professionals. A final capstone project provides students the opportunity to investigate an important public health problem in their area of interest.

Daemen’s unique MPH program is structured so that classes do not begin earlier than 4:00 p.m. This later class format provides students with the opportunity to work while completing their degree. The exception to later classes is the practicum which is scheduled during the summer. Students are expected to be able to complete a full-time summer internship during regular daytime working hours. Further, the practicum may require an additional expense to the student for travel and room and board. The MPH program is a demanding program in coursework, time commitment and financial obligations.

The program offers three specialty tracks of study: Epidemiology, Community Health Education, and a Generalist Track. Regardless of which area of study students pursue, graduates from Daemen’s MPH program will be well prepared to serve their communities in promoting public health and well-being, and preventing disease and injury.

Daemen also offers an accelerated joint degree program in which students earn a Bachelor of Science in Health Promotion after four years and a Master of Public Health degree after the fifth year. Access to the complete curriculum for the accelerated joint BS, Health Promotion and Master of Public Health program can be found on the Daemen MPH webpage.

A similar professional program articulation exists with D’Youville College; D’Youville undergraduate public health students can earn both a Bachelor of Science in Public Health (from D’Youville) after four years and the MPH degree (from Daemen) after a fifth year.

Required Core Courses (23 credits)

- PH500 Epidemiology (3)*
- PH510 Psychosocial and Behavioral Foundations of Public Health (3)
- PH520 Research Methods in Health Promotion (3)*
- PH530 Web Environmental Health (3)
• PH540/L Public Health Biostatistics Lecture and Lab (3/2)
• PH550 Public Health Policy, Administration, and Management (3)
• PH595 Cultural Competency and Health Disparities in Public Health (3)
* PH 500 and PH 520 must be taken during the first semester offered

**Required Specialty Track Courses; Choose One Track (12 credits)**

**COMMUNITY HEALTH EDUCATION**

• PH560 Community Health Education (3 credits)
• PH562 Assessment and Planning in Community Health Education (3 credits)
• PH564 Implementation and Evaluation in Community Health Education (3 credits)
• PH566 Communication, Advocacy and Consultation in Community Health Education (3 credits)

**EPIDEMIOLOGY**

• PH568 – Advanced Epidemiology (3 credits)
• PH570 – Advanced Biostatistics (3 credits)
• PH572 – Chronic Diseases, A Lifecourse Approach (3 credit seminar)
• PH574 – Infectious Disease Epidemiology (3 credit)

**GENERALIST**

Choose any four courses (12 credits) from the other tracks or electives

**Electives (3 credits)**

Choose from electives that include topics on global health, grant writing, community-based participatory research, public health nutrition, public health law, and others as offered or approved by the department.

**Summer Practicum (3 credits)**

Under the direction of a faculty advisor, students complete a summer practicum in their specialty track in order to apply and to further develop their academic skills. Each practicum requires a minimum of 240 hours of documented work and a minimum number of designated weeks (typically 9) at the practicum site. In line with the service learning focus of Daemen College, the practicum, regardless of track, is a concerted effort to integrate classroom learning, community, and service, providing students an opportunity to work alongside members of and in service to the community, and to begin creating a network of colleagues outside of the College.
• PH600 Practicum – Community Health Education track
• PH601 Practicum – Epidemiology track
• PH602 Practicum – Generalist track

**Capstone Seminar (1 credit) and Capstone Project (3 credits)**

The capstone seminar (PH610) provides a supportive setting to help prepare students to identify and plan for their capstone project in their specialty track. The capstone project is a culminating experience that provides students the opportunity to synthesize, integrate, and apply their curricular knowledge to a significant public health problem in their specialty track, and like the practicum, is completed in collaboration with a community partner.

• PH620 Capstone Project in Community Health Education
• PH621 Capstone Project in Epidemiology
• PH622 Capstone Project – General

**TOTAL PROGRAM REQUIREMENTS = 45 CREDITS**

**Admission Requirements**

**Transfer Studies**

Students in the MPH program may apply for up to six graduate transfer credit hours for courses taken from a public health accredited or public health-related accredited institution outside of the College with grades of B or better. Requests for transfer credit will be considered on an individual basis by the program director or departmental designee and must be approved additionally by the College Registrar. Grades assigned to transfer credits will not be included in the calculation of the student’s grade point average.

**Prerequisite Studies**

There are no specific prerequisite courses that are required by students in order to be considered for the MPH program. However, applicants should have a demonstrated interest in public health through previous related academic studies or volunteer or employed public health related work.

**Non-Matriculating Students**

Non-degree or non-matriculating students may take no more than nine credits of “PH” courses before they are required to apply to the program. This does not apply to students admitted to the accelerated BS in Health Promotion / Master of Public Health degree program.
Program Policies and Student Expectations

Time Limitation

A student admitted to the program is expected to maintain continuity in his/her academic program and enroll each semester until all requirements are completed. Normally, a part time student should complete a minimum of three (3) credits per semester. Full time students must complete a minimum of nine (9) credits per semester. All requirements for the Master of Public Health degree must be completed within a period of five years from the student’s enrollment for graduate study unless otherwise approved by the MPH program director. For information on leaves of absence and extensions, consult the Academic Regulations and Standards section in the Graduate Catalog.

Course Repeats, Probation, and Dismissal

Any course for the MPH degree in which less than a grade of B- is earned must be repeated. No course can be repeated more than once. A maximum of two repeated courses is allowed. Students who earn more than three grades below a B- will be dismissed from the program.

Students must maintain an overall minimum cumulative grade point average (GPA) of 3.0 at the end of each semester. Students who earn less than a B- in a course or less than a 3.0 semester or cumulative GPA will be placed on academic probation. A student placed on academic probation will remain on probation for two full-time semesters which immediately follow the date of probation. Academic deficiencies, which resulted in program academic probation must be corrected within the two semesters immediately following the date of probation. Failure to meet the academic standards during a probationary period will result in dismissal from the program.

Professional Conduct

Students are expected to conduct themselves in a manner commensurate with the standards of an institution of higher education and to abide by the “Standards of Honor and Professional Conduct Policies” established by the Division. These standards and policies are guided by the mission of our program and American Public Health Association (APHA) Core Values. Upon entering the MPH program, the essential values are expected to be our common understanding. As future public health leaders, professionalism and ethical conduct will influence how others perceive the field of public health. MPH students are required to maintain high standards for their work. This includes the necessity of remaining current on significant developments in the field and abiding by recognized ethical standards in the conduct and publication of research. As a member of the profession of public health, all matriculating MPH students are required to maintain student membership in the American Public Health Association (apha.org).
Graduation Requirements

Completion of all course work as defined under the curricular requirements for the program, including:

1. Completion of all course work as defined on the student’s Plan of Study, which is designed together with the student’s Graduate Faculty Advisor.
2. Successful completion of a practicum and capstone.
3. A minimum grade of B- in any course. (Refer to the “Course Repeats” section for policies on course repeats.) Students must maintain an overall minimum cumulative grade point average (GPA) of 3.00.
4. Filing an Application for Degree form with the Registrar’s Office at the onset of the final term of study. The Application for Degree form is accessible from the Registrar’s web page.

Daemen College reserves the right to make changes to the Public Health curriculum, professional program entrance criteria, and/or professional program and graduation requirements. All enrolled students must meet all requirements if changed or amended by Daemen College.
Public Health Courses

PH 500: Epidemiology
(3) Credit Hour(s)
This course will provide an introduction to the basic concepts of epidemiology. Concepts for both chronic and infectious disease epidemiology will be taught. Course content will include an overview of the history of epidemiology, disease etiology, outbreak investigation, disease surveillance, and screening. Epidemiological research design concepts will be taught and include experimental and non-experimental designs, attributable, absolute and relative risk, odds ratios, random and systematic error, bias and confounding. Discussions of current public health issues will be illustrated and presented by faculty and students. Offered As Needed. (GR)

PH 510: Psychosocial and Behavioral Foundations of Public Health
(3) Credit Hour(s)
The course will focus on psychosocial theories of health, community change concepts and theories, economics and marketing in decision making, and policies shaped by social and behavioral science. Offered As Needed. (GR)

PH 520: Research Methods in Health Promotion
(3) Credit Hour(s)
Review and critical analysis of components of research design, including collection of data. Both quantitative and qualitative methodologies will be taught. Emphasis is on the health education professional as producer and consumer of research. Offered As Needed. (GR)

PH 530: Environmental Health
(3) Credit Hour(s)
This course will provide an introduction to the public health function of environmental and community health. This course is intended to give students a basic understanding of how environmental factors impact the health of people and the community, and of the efforts made to prevent or minimize the effects of negative impacts. The emphasis of this course is to explore the relationship of people to their environment -- how the environment affects their physical well-being, and what they can do to protect and enhance their health, and to influence the quality of the environment. Offered As Needed. (GR)
PH 540: Public Health Biostatistics
(3) Credit Hour(s)
This course focuses on the application of research methods for public health. Themes include the application of statistical methods using statistical software and the interpretation of the results. Offered As Needed. (GR)

PH 540L: Public Health Biostatistics Laboratory
(2) Credit Hour(s)
Laboratory techniques for Public Health Biostatistics. (GR)

PH 550: Public Health Policy, Administration, and Management
(3) Credit Hour(s)
This course examines public health care systems and policy with integration of concepts for administration and management. Specific areas of study will include finance, ethics/law, need/demand and quality/effectiveness. Policy issues will be utilized and include medical care and public health preparedness. Offered As Needed. (GR)

PH 560: Community Health Education
(3) Credit Hour(s)
This course provides an overview of community health education. The history, theory, and settings for public health education will be discussed. Offered As Needed. (GR)

PH 562: Assessment and Planning in Community Health Education
(3) Credit Hour(s)
This course provides students with the knowledge and skills to assess health resources and needs, and to develop health education and promotion programs to meet specific needs in particular populations. The course further examines the program planning and development process, including both planning and program models, strategy/intervention selection, setting goals and objectives, and performing both primary and secondary needs assessments. Offered As Needed. (GR)

PH 564: Implementation and Evaluation in Community Health Education
(3) Credit Hour(s)
Students will explore the methods and techniques used by health educators to deliver a health education and health promotion program in the community. This course will review health education theories, program designs, and program implementation. Emphasis will be placed on the methodology of the health education program including: communication techniques; presentation channels and delivery; social marketing concepts; measuring outcomes and data collection. Students will design, implement and evaluate a health education program in the community. Offered As Needed. (GR)
PH 566: Communication, Advocacy and Consultation in Community Health Education

(3) Credit Hour(s)
This course is designed to advance communication skills and explore advocacy and consultative roles within the context of community health education. Offered As Needed. (GR)

PH 568: Advanced Epidemiology

(3) Credit Hour(s)
This course presents epidemiology in greater depth and detail than an introductory course. The intent of this course is to provide advanced level training for public health students interested in pursuing careers in public health research and need additional expertise in advanced epidemiology. An additional aim is to explore advocacy roles within the context of public health epidemiology. Offered As Needed. (GR)

PH 570: Advanced Biostatistics

(3) Credit Hour(s)
This course presents advanced topics in biostatistics to provide advanced level training for public health students interested in pursuing careers in public health research and need additional expertise in advanced biostatistics. Topics will include formulating scientific questions in terms of a statistical model, multivariate logistic and linear regression modeling, measures of association, stratification, matched pairs, mixed-effects modeling, analysis of rates, and survival analysis using proportional hazards models. Coursework will include the use of data analysis software for analysis of data. Offered As Needed. (GR)

PH 572: Chronic Diseases, a Lifecourse Approach

(3) Credit Hour(s)
This seminar course presents topics in chronic disease using a lifespan approach. Contemporary chronic health diseases across the life span, which are prevalent in both developed and developing countries, will be discussed including cardiovascular disease, obesity, cancer, stroke, Alzheimer’s disease and others. Offered As Needed (GR)

PH 574: Infectious Disease Epidemiology

(3) Credit Hour(s)
This course covers concepts in the prevention and control of infectious disease. Pathogenesis, epidemiology, and control of infectious diseases affecting global health will be explored. Offered As Needed. (GR)
PH 577: Global Health and Comparative Global Public Health Systems  
(3) Credit Hour(s)  
The course introduces the many contexts of global health. Critical issues to be explored include: the multiple determinants of health; the disparities and burden of disease experienced around the globe, particularly by such populations as women and children; the ethical dimensions related to such disparities; current health priorities, and the importance of global health in the terms of development. The Millennium Development Goals will be referred to as a standard for future goals on a global scale. Offered As Needed. (GR)

PH 579: Contemporary Issues in Community Health Education  
(3) Credit Hour(s)  
Using examples from contemporary and emerging topics in public health, students are presented with strategies for effective community health education. This course will include discussions on contemporary health problems, the use of health education tools for treatment and prevention of health problems, and obstacles to health education. Offered As Needed. (GR)

PH 581: Community-Based Participatory Research for Community Health  
(3) Credit Hour(s)  
Community-based participatory research is an approach that combines evidence-based research strategies with collaborative community based strategies to bridge the gap between research and community health practice. Establishing effective societal behavioral change for improving community health is a primary outcome for measuring success of community-based participatory research. This approach recognizes that community partnerships are essential in the development, implementation, and evaluation of community health programs. Students will be exposed to definitions and principles for this approach. Through lectures, readings, and discussion they will also be exposed to various research designs, ranging from those that emanate from the community, community-academic partnerships, and academic research projects that depend on community participation. Students will also discuss implementation of such research and evaluation strategies. Offered As Needed. (GR)

PH 589: Grant Writing and Scholarship Dissemination in Community Health  
(3) Credit Hour(s)  
Through lectures, readings, and discussion students will learn grant writing and reviewing skills and methods for disseminating scholarship outcomes in public health. As part of this course, students will identify potential funding agencies for public health interventions, develop a grant proposal and gain experience in understanding how to disseminate public health outcomes. Offered As Needed. (GR)
PH 591: Global Public Health Policy and Development

(3) Credit Hour(s)

Through lectures, readings, and discussion, students will understand the factors influencing global health, and the interdependence between developed and developing countries in improving global health. Epidemiologic, nutrition, socioeconomic, and cultural factors that affect global health efforts will be discussed. Considerations when working in a developing country, including potential problems and barriers, will be reviewed. Offered As Needed. (GR)

PH 593: Professional Medical Writing

(3) Credit Hour(s)

Public health professionals must be able to write clearly and effectively. This course prepares the student to synthesize knowledge through the engagement of professional medical writing and scholarship. Students will learn the fundamental skills of professional writing: clarity, accuracy, precision, and brevity. Advanced instruction focuses on several forms of expository writing common in the health professions while emphasizing effective communication between the writer and different audiences. Additionally, a capacity to critically analyze and to accurately evaluate research (information and evidence) is integral to the professional writer. Emphasis is placed on cultivating critical thinking skills to prepare exemplars of scholarly medical writing. Offered As Needed. (GR)

PH 595: Cultural Competency and Health Disparities in Public Health

(3) Credit Hour(s)

Through lectures, readings, and discussion, students will come to understand health disparities and factors that influence race-, ethnic-, and class-based health disparities among various community groups and individuals. The role of health disparities in public health will be discussed, and strategies will be presented to help protect and promote health in the most vulnerable and underrepresented U.S. populations. Offered As Needed. (GR)

PH 600: Practicum-Community Health Education

(3) Credit Hour(s)

Under the direction of a faculty advisor, the student completes a practicum in his/her specialty track in order to apply and to further develop their academic skills. Each practicum requires a minimum of 240 hours of work at the practicum site. Students selecting a focus in global health will complete the practicum in an international setting. Offered Each Year (Summer). (GR)

PH 601: Practicum-Epidemiology

(3) Credit Hour(s)

Under the direction of a faculty advisor, the student completes a practicum in his/her specialty track in order to apply and to further develop their academic skills. Each practicum requires a minimum of 240 hours of work at the practicum site. Students selecting a focus in global health will complete the practicum in an international setting. Offered Each Year (Summer). (GR)
PH 602: Practicum
(3) Credit Hour(s)
This practicum will be taken by students in pursuit of the Generalist track of the MPH program. Under the direction of a faculty advisor, the student completes a practicum in order to apply and to further develop their academic skills. Each practicum requires a minimum of 240 hours of work at the practicum site. Students selecting a focus in global health will complete the practicum in an international setting. Offered Each Year (Summer). (GR)

PH 610: Capstone Seminar
(1) Credit Hour(s)
This seminar provides an opportunity for students to reflect on and discuss their practicum experience with other students. It also provides a supportive setting to help prepare students to identify and plan for their capstone project in their specialty track. Offered Each Year (Fall). (GR)

PH 620: Capstone Project in Community Health
(3) Credit Hour(s)
The capstone project will be completed on a topic pertinent to the student’s specialty track. If completing a focus in global health, the project must also have global health relevance. Offered Each Year (Spring) (GR)

PH 621: Capstone Project in Epidemiology
(3) Credit Hour(s)
The capstone project will be completed on a topic pertinent to the student’s specialty track. If completing a focus in global health, the project must also have global health relevance. Offered Each Year (Spring) (GR)

PH 622: Capstone Project
(3) Credit Hour(s)
This capstone project will be taken by students in pursuit of the Generalist track of the MPH program. The capstone project will be completed on a topic pertinent to Public Health. If completing a focus in global health, the project must also have global health relevance. Offered Each Year (Spring). (GR)
MASTER OF SOCIAL WORK

Program Description
The Master of Social Work (MSW) Program is designed to train students for advanced social work practice with systems of any size (micro, mezzo, and macro). In the foundation year of the master of social work curriculum, students are taught the basics of generalist social work practice. The concentration year focuses on the development of clinical practice skills such as using the DSM-V, managing crisis, applying advanced clinical techniques, demonstrating competency in a clinical practicum that emphasizes children and families, and students will focus on the clinical needs of other marginalized groups. After the completion of this program, students are encouraged to sit for licensure at the LMSW (Licensed Master of Social Work) or LCSW (Licensed Clinical Social Worker) levels.

The two year MSW program is a 60 credit hour program and the one year Advanced Standing MSW Program is a 30-33 credit hour program. Students are required to complete a minimum number of clock hours in field education.

Mission Statement
The Mission of the Daemen College Master of Social Work Program is to provide intimate, quality graduate education that will prepare students with the generalist knowledge and skills to become competent clinical social work practitioners. Our students will seize opportunities to work on behalf of ALL at-risk populations locally and globally. Furthermore, through advocacy, activism, ethics, research, scholarship, altruism and innovative practices demonstrated by the program faculty and staff, students will emulate these unique qualities and make their own individual and collective contributions to the profession of social work.

Program Goals
Goal 1- Prepare students to work with and on behalf of diverse populations.

Goal 2- Prepare students for basic generalist practice with systems of any size.

Goal 3- Prepare students for advanced clinical practice with a focus on children and families.

Goal 4- Prepare graduates to impact the profession of social work locally and globally.
Goal 5- Prepare students to effectively use scholarship and research for the benefit of their practice and the profession.

Goal 6- Prepare students for advocacy and activism to reduce oppression, social and economic injustices.

Goal 7- Prepare students for life-long learning in the profession of social work and other allied areas.

Master of Social Work Programs:

Advanced Standing MSW

Admission Requirements:

Earned a Bachelor’s Degree in Social Work (BA, BS or BSW) within the last five years from a CSWE accredited program.

Submit ALL official transcripts from colleges and universities attended (Regionally accredited colleges and universities only).

Complete and submit a Daemen College graduate school application (Application fee $25.00) and fulfill the admission requirements of the Graduate School at Daemen College.

Complete and submit a 3-4 page typed personal statement that focuses on the following points:

- Your experience in social work, including volunteer experience.
- The life experiences that impacted your interest in social work.
- Your personal qualities that will be useful in serving others as a social work professional.
- Your values that will be useful in serving others as a social worker.
- Your career goals and how social work education will help you achieve these goals.

Have an overall GPA of 3.0 and GPA of 3.2 or higher in major courses such as

- Social Work Methods I/II
- Research Methods I
- Human Behavior in the Social Environment I/II
- Field Instruction I/II
Provide three letters of reference: 1 letter from the BSW Program Chair; 1 letter from an academic source and 1 letter from volunteer/community source.

- Provide a copy of final evaluations (Field Instruction I and II)
- Have completed courses in Human Biology and Statistics with a grade of “C” or better
- A minimum combined, verbal and quantitative, score of 285 or higher (800 on GRE Scores prior to 2012) on Graduate Record Examination (GRE) taken within five years prior to application for admission

REQUIRED COURSES

- SW514 Applied Research and Data Analysis (3)*
- SW611 Crisis Management w/ Evidenced Based Interventions (3)
- SW612 Advanced Clinical Practice w/ Evidence Based Interventions (3)
- SW617 Psychopathology (3)
- SW619 Field Instruction III and Seminar (3)
- SW620 Field Instruction IV and Seminar (3)
- SW652 Concentration: Children and Families I** (3)
- SW653 Concentration: Children and Families II** (3)
- SW680 Social Work Licensure Preparation (0)
- SW682 Clinical Practice w/ Children (3)
- Elective Credit (3)

*Entering Advanced Standing students without a second research course, must take this course.

**Concentration: Children and Families I and II

TOTAL PROGRAM REQUIREMENTS = 30-33 CREDITS

Traditional MSW

Admission Requirements:

A baccalaureate degree from an accredited college or university.

Submit ALL official transcripts from colleges and universities attended (Regionally accredited colleges and universities only).
Complete and submit a Daemen College graduate school application (Application fee: $25.00) and fulfill the graduate admissions requirements of Daemen College.

Complete and submit a 3-4 page typed personal statement that focuses on the following points:

- Your experience in social work, including volunteer experience.
- The life experiences that impacted your interest in social work.
- Your personal qualities that will be useful in serving others as a social work professional.
- Your values that will be useful in serving others as a social worker.
- Your career goals and how social work education will help you achieve these goals.

Provide three letters of reference: 2 from an academic source and 1 from a volunteer experience.

A minimum combined, verbal and quantitative, score of 285 or higher (800 on GRE Scores prior to 2012) on Graduate Record Examination (GRE) taken within five years prior to application for admission.

Have an overall GPA of 2.7 or higher.

Have completed courses in Human Biology and Statistics with a grade of “C” or better.

**REQUIRED COURSES**

- SW511 Foundations of Micro/Mezzo Practice (3)
- SW512 Foundations of Macro Practice (3)
- SW513 Social Work Research (3)
- SW514 Applied Research and Data Analysis (3)
- SW515 Oppression, Power and Change (3)
- SW516 Social Welfare History, Policy and Services (3)
- SW517 Human Behavior in the Social Environment I (3)
- SW518 Human Behavior in the Social Environment II (3)
- SW519 Field Instruction I and Seminar (3)
- SW520 Field Instruction II and Seminar (3)
- SW611 Crisis Management w/ Evidenced Based Interventions (3)
- SW612 Advanced Clinical Practice w/ Evidence Based Interventions (3)
- SW617 Psychopathology (3)
- SW619 Field Instruction III and Seminar (3)
- SW620 Field Instruction IV and Seminar (3)
- SW652 Concentration: Children and Families I* (3)
- SW653 Concentration: Children and Families II* (3)
- SW680 Social Work Licensure Preparation (0)
- SW682 Clinical Practice w/ Children (3)
- Elective Credit (6)

*Concentration: Children and Families I and II

**TOTAL PROGRAM REQUIREMENTS = 60 CREDITS**

**Practice Concentration:**
- Children and Families

**Time Limitation for Degree Completion**
Excluding an approved leave of absence, all requirements for the MSW, Social Work and MSW, Advanced Social Work must be completed within a period of four (4) calendar years, effective from the first date of matriculation in the program.

The Master of Social Work Program at Daemen College does not award credit for life experience.

**Requirements for Graduation**
- Application for Degree: All graduate students are required to file an Application for Degree form with the Registrar’s Office at the onset of the final term of study. The application is accessible on the Registrar’s web page.
- Minimum grade point average (GPA) of 3.00.
Social Work and Sociology Courses

Social Work

**SW 511: Foundations of Micro/Mezzo Practice**
3 Credit Hour(s)
This course emphasizes the development of practice knowledge and skills necessary for micro and mezzo social work practice. Students will be introduced to the philosophies, role sets, values, ethics, and knowledge base of professional social work practice. Specific theories and intervention strategies for use with individuals, families, and treatment groups will be explored and applied.
Session: Fall
Year: All Years (GR)

**SW 512: Foundations of Macro Practice**
3 Credit Hour(s)
This course emphasizes the development of practice knowledge and skills necessary for macro social work practice. Students will be introduced to the philosophies, role sets, values, ethics, and knowledge base of professional social work practice in community and organizational settings. Specific theories and intervention strategies will be explored and applied.
Session: Spring
Year: All Years (GR)

**SW 513: Social Work Research**
3 Credit Hour(s)
This course presents the conceptual foundations and methods of research in order to help students integrate research knowledge within their professional social work practice. The research process is followed from problem identification to the conceptualization of research questions, sampling, design, measurement, data collection, and analysis.
Session: Fall
Year: All Years (GR)
SW 514: Applied Research & Data Analysis
3 Credit Hour(s)
The course will prepare students to utilize applied research techniques to evaluate their practice; improve program, policy, and service delivery systems; and initiate change. Students will also develop skills in collecting quantitative and qualitative data (using appropriate computer applications) and gain a basic understanding of data analysis and interpretation.
Session: Spring
Year: All Years (GR)

SW 515: Oppression, Power & Change
3 Credit Hour(s)
This course will involve students in an examination of oppression, power, and change to provide them the knowledge and skills necessary to engage in anti-oppressive social work practice. Students will identify strategies for more effectively working with diverse and vulnerable populations and will gain a greater appreciation of the advocate's role in eliminating barriers to rights, opportunities, and services for the oppressed and marginalized through an examination of contemporary activism.
Session: Fall
Year: All Years (GR)

SW 516: Social Welfare History, Policy And Services
3 Credit Hour(s)
This course emphasizes the social, cultural, political, and economic implications of major social welfare legislation as well as the linkage between social problems and social policies, programs, and services. Students are also introduced to the legislative process and engage in projects to develop their advocacy skills.
Session: Spring
Year: All Years (GR)

SW 517: Human Behavior and the Social Environment
3 Credit Hour(s)
This course focuses on the development of the individual from conception through older adulthood and examines the impact of various aspects of the social environment (i.e., family, groups, organizations, and community) on that development. Content includes empirically-based theories and knowledge related to interactions between and among individuals, groups, societies, and systems.
Session: Fall
Year: All Years (GR)
**SW 519: Field Instruction and Seminar**

3 Credit Hour(s)

This seminar focuses on the enhancement of generalist practice social work skills and the integration of theory and practice concurrent with the student's field placement. The course offers students an opportunity to process their field placement experience in a safe, confidential, and educationally-enriched environment.

Session: Fall
Year: All Years (GR)

**SW 520: Field Instruction II and Seminar**

3 Credit Hour(s)

This seminar focuses on the enhancement of generalist practice social work skills and the integration of theory and practice concurrent with the student's field placement. The course offers students an opportunity to process their field placement experience in a safe, confidential, and educationally-enriched environment.

Session: Spring
Year: All Years (GR)

**SW 611: Crisis Management With Evidence Based Interventions**

3 Credit Hour(s)

The course is designed to increase student knowledge and skills related to crisis intervention in light of increased acute crises in our society. Students will apply crisis intervention theory and models of intervention to various problem areas such as suicide, sexual assault, domestic violence, substance abuse, grief and loss, disasters, and violent behavior in institutions.

Session: Fall
Year: All Years (GR)

**SW 612: Advanced Clinical Practice With Evidence Based Intervention**

3 Credit Hour(s)

This course examines theories of clinical social work practice and their application in the engagement, assessment (diagnosis), intervention (treatment planning), and evaluation of individual clients. This is an advanced practice seminar in which mastery of all previous generalist coursework of the MSW Program curriculum is assumed.

Session: Spring
Year: All Years (GR)
SW 617: Psychopathology
3 Credit Hour(s)
This course is designed to provide students with an in-depth understanding of the major mental disorders manifested in children, youth, and adults. Student capacity for differential diagnosis and treatment planning will be enhanced through examination of genetic, biological, psychological, and social causes; development; and manifestation.
Session: Fall
Year: All Years (GR)

SW 619: Field Instruction III and Seminar
3 Credit Hour(s)
This course focuses on the enhancement of advanced (clinical) practice social work skills and the integration of theory and practice concurrent with the student’s field placement. This course offers students an opportunity to process their advanced (clinical) field placement experience in a safe, confidential, and educationally-enriched environment through the monthly seminar.
Session: Fall
Year: All Years (GR)

SW 620: Field Instruction IV and Seminar
3 Credit Hour(s)
This course focuses on the enhancement of advanced (clinical) practice social work skills and the integration of theory and practice concurrent with the student’s field placement. This course offers students an opportunity to process their advanced (clinical) field placement experience in a safe, confidential, and educationally-enriched environment through the monthly seminar.
Session: Spring
Year: All Years (GR)

SW 652: Concentration: Children and Families I
3 Credit Hour(s)
This course builds on the generalist curriculum and prepares students to demonstrate advanced competencies in practice with children and families. The course utilizes a systems of care framework that emphasizes family-centered practice, cultural competency, and community-based services as contexts for development of basic competencies in child and family practice. Practice will be informed by a trauma-informed perspective with an emphasis on building protective factors to strengthen children and families.
Session: Fall
Year: All Years (GR)
SW 653: Concentration: Children & Families II
3 Credit Hour(s)
This course builds on the generalist curriculum and prepares students to demonstrate advanced competencies in practice with children and families across the life span. This course expands on Children and Families I by applying the frameworks and practice models learned in the first course to specific issues facing children and families across the life span including child maltreatment, domestic violence, substance abuse, mental illness, physical illness, poverty, and care of aging parents.
Session: Spring
Year: All Years (GR)

SW 680: Social Work Licensure Preparation
0 Credit Hour(s)
This course prepares students to take the Association of Social Work Boards (ASWE) Master and Clinical examinations to secure licensure in New York and other states.
Session: Spring
Year: All Years (GR)

SW 682: Clinical Practice With Children
3 Credit Hour(s)
This course deepens student understanding and application of concepts, theoretical perspectives, and techniques of advanced (clinical) social work practice with children and adolescents (and their families) as primary client system. Various phases of the therapeutic process, including assessment, use of therapeutic modalities, and documentation, are explored and applied. The understanding of play as purposeful, meaningful communication for and with children is integrated throughout the course.
Session: Spring
Year: All Years (GR)
ADMINISTRATION

Gary A. Olson, President; B.A., Kings College; M.A., University of Connecticut; Ph.D., Indiana University of Pennsylvania.

Michael S. Brogan, Vice President for Academic Affairs and Dean of the College; A.S., Erie Community College; B.S., Daemen College; M.S., Ph.D., University at Buffalo; D.P.T., Daemen College.

Patricia Ruppert Brown, Vice President for Enrollment Management; B.A., M.A., State University of New York College at Oswego; Ph.D., Northern Arizona University.

Kelly Duran, Chief Information Officer; B.S., Canisius College.

Sherrie A. Gustas, Executive Director, Office of the President and Board of Trustees; B.S., Medaille College; M.S., SUNY Buffalo State.

Craig A. Harris, Vice President for Institutional Advancement; B.A., State University of New York College at Fredonia; M.S., SUNY Buffalo State.

Robert E. Mills, Special Assistant to the President; B.A., University of Maryland-College Park; M.A., George Washington University; J.D., Georgetown University Law Center.

Greg J. Nayor, Vice President for Student Affairs and Dean of Students; B.A., M.Ed., State University of New York at Potsdam; Ph.D., University of Virginia.

Bridget Niland, Director of Athletics and Special Assistant to the President; B.A., Ed.M., J.D., University at Buffalo.

Richard Schott, Vice President for Business Affairs and Treasurer; B.S., Canisius College; M.B.A., Medaille College.

Sabrina Fennell, Assistant Dean of Academic Support Services; B.S., SUNY College at Fredonia; M.S., SUNY Buffalo State.

Adriane Williams, Associate Director for Academic Advisement and First Year Initiatives; B.A., Daemen College; M.S., SUNY Buffalo State.

Alyssa Crofts, Academic Advisor; B.S., M.A., The College at Brockport.

Robin King, Director, Academic Grants & Sponsored Programs; B.A., University of Vermont; M.S.W., San Diego State University.

Michael R. Berta, Director of the Center for Excellence in Teaching and Learning; B.A., Canisius College; M.A., Ed.D., University of Phoenix.

Cheryl Littlejohn, Online Learning Administrator; B.S., Daemen College.

Karen Moronski-Chapman, Associate Director of Data Analytics, Office of Information Technology; B.A., Daemen College; M.Ed., University at Buffalo.

Hella Jacob, Coordinator of Institutional Assessment and Pedagogical Innovation; M.A. University of Regensburg (Germany); Ph.D. University at Buffalo.

Irene Holohan-Moyer, Registrar; B.A., M.Ed., University at Buffalo.

Tiffany Shadden, Associate Registrar; B.S., Daemen College; M.B.A., Medaille College.

Mary Dormer, Assistant Registrar; B.S. University at Buffalo.

Rimma Nisnevich, Sr. Data Specialist; Diploma (B.S./M.S.), College of Energy, Belarusian Polytechnic Institute.
Brittany Collins, Degree Audit and Articulation Analyst; B.A., SUNY Buffalo State.

Tiffany Hamilton, Assistant Director of Arthur O. Eve H.E.O.P.; B.S., SUNY College at Fredonia; M.S., SUNY Buffalo State.

Jennifer Runco, Coordinator of Disability Services; B.A., M.Ed., University of Maine.

Lindsay Masters, Coordinator of Learning Center; B.S., SUNY College at Fredonia; M.S., Canisius College.

Maureen Millane, Associate Vice President for Community Engagement, Creativity, and Career Development; B.S., Cornell University; M.B.A, Canisius College; Ph.D., University at Buffalo.

Lamark Shaw, Assistant Director of Career Services; B.S., SUNY Buffalo State; M.A., Medaille College.

Melissa Peterson, Director, RIC & Library Services; B.A., Binghamton University; M.A., M.L.S., University at Buffalo.

Kara McGuire, Assistant Director, RIC & Library Services, Circulation/Interlibrary Loan Librarian; B.A., SUNY Buffalo State; M.L.S., University at Buffalo.

Randolph Chojecki, Technical Services Librarian; B.A., Cornell University; M.L.S., University at Buffalo.

Andrea Sullivan, Head of Reference & Instruction; B.A., Daemen College; M.L.S., University at Buffalo.

Rebecca Bley, Reference and Instruction Librarian; B.A., SUNY College at Fredonia; M.L.S. University at Buffalo.

Cheryl Bird, Executive Director, Center for Sustainability and Civic Engagement; B.A., SUNY College at Oswego; M.S., Daemen College.

Lisa Waterrose, Director, Thomas J. Reynolds Center for Special Education & After-School Programs; B.S., Medaille College; M.S., Daemen College.

Catherine Zawodzinski, Data Manager, Education Department.

Robin Gordon, Clinical Coordinator, PA Program; B.S., The King’s College.

Vincenette SanLorenzo, Director of PA Graduate Services; B.S. SUNY Buffalo State.
Phyllis Shroot, Coordinator, Alternative Certification Program in Special Education in Partnership with Total Testing Inc. (TTI); B.A., Stern College, Yeshiva University; M.S., Hunter College.

Susan Marchione, Director of New Program Development & Strategic Initiatives; B.A., M.S., Canisius College; Ed.D, D’Youville College.

Theresa Joyce, Project Coordinator, New Program Development; B.A., SUNY College at Fredonia; Ed.M., Ph.D., University at Buffalo.

Rebecca Stein, Field Coordinator; B.A., Touro College; M.S., Adelphi University.

Office of the Vice President for Business Affairs

Lisa Arida, CPA, Controller & Assistant Treasurer; B.S., Daemen College.

Robyn Kulczyk, Accounting Supervisor; B.S., Hilbert College; MBA, St. Bonaventure University.

Steven Chmielewski, Grants Administrator; B.S., Canisius College.

Marissa S Pace, HR Director; B.S., Murray State University; MBA, University at Buffalo.

Kelly E. Pogore, SHRM-SCP, Associate HR Director; B.S., Cornell University.

Annette Bitterman, Materials Handling Manager,

Jaclyn Herne, Bookstore Manager.

Donald Phillips, Director of Facilities.

Lisa Rosati, Bursar; B.S., Medaille College.

Melanie Schmitt, Assistant Bursar; B.S., M.S., Daemen College.

Lindsay A. Wolfe, Payroll Director; B.A., University at Buffalo; M.B.A. P.A., Canisius College.

Tina T. Burke, Assistant Payroll Director; B.S., Saint Francis University.

Jeffrey Pagano, Director of Financial Aid; B.A., SUNY College at Fredonia.
Sandra Looker, Assistant Director of Financial Aid; B.F.A., Rochester Institute of Technology; M.Ed., Roberts Wesleyan College.

Scott Rowe, Assistant Director of Financial Aid; B.A., SUNY College at Geneseo; M.S., SUNY Buffalo State.

Maggie Fage, Sr. Financial Aid Counselor; B.A., Hilbert College; M.Ed., University at Buffalo.

Marsha Hallen, Perkins Loan Administrator; B.S., Medaille College.

Diana Alvarado, Print Shop Supervisor; A.A.S., Niagara County Community College.

**Office of the Vice President for Student Affairs**

Danielle Weaver, Director of Housing and Residence Life; B.A., Saint Lawrence University; M.S., SUNY Buffalo State.

Meg Altman-Cosgrove, Assistant Director of Residence Life; B.S., M.S., Daemen College.

Susan F. Girard, Director of Health and Insurance Services; B.A., Daemen College.

Shannon M. Radder, Director of Counseling Services; B.A., Daemen College; M.S., St. Bonaventure University.

Christopher P. Malik, Director of Student Activities; B.A., SUNY College at Potsdam; M.A., University at Buffalo.

Kimberly Pagano, Director of Orientation and Leadership Development; B.A., Canisius College; M.S., Daemen College.

Paul Lagno, Head Coach, Men’s and Women’s Cross Country & Track and Field; B.S., University at Albany; M.S., Florida State University.

Andrew Bennett, Head Men’s Golf Coach; B.A. University of North Carolina at Chapel Hill; M.S., Canisius College.

Office of Information Technology

Darlene DiCesare, IT Operations Administrator & Assistant to CIO,

Aaron Barraclough, Systems Administrator; B.S., Daemen College.

Joseph LaPorta, Technical Support Specialist; B.S., SUNY Buffalo State.

Brian Caraway, Director of Computer Support and Network Administration; B.S., SUNY Buffalo State.

Christopher Pack, Director of Systems Administration; B.S., SUNY Buffalo State.

John Zaepfel, Director of Web Development; B.A., University at Buffalo.

Ryan Ackley, Director of Information Management; B.S., St. Bonaventure University.

David Balcerzak, Information Systems Analyst; B.S., SUNY Buffalo State.

James J. Bachraty, Director of Classroom & Events Technology;

Thomas P. Wojciechowski, Director of Web Communications; B.F.A., University at Buffalo; M.S., Daemen College.
FACULTY

Arts Administration

ROBERT WATERHOUSE, Associate Professor of Theatre and Director of the Arts Administration Program; B.A., University of Essex, England; M.A., Ph.D., University at Buffalo.

Dietetics Internship

ROBIN SCHENK, Director of Dietetics Program; B.S., University of Southern Mississippi; M.S.Ed., St. Bonaventure University.

Education

JEFF ARNOLD, Assistant Professor of Education and Director of Teacher Leader Quality Partnership (TLQP); B.S., M.Ed., Ph.D., University at Buffalo.

SARAH AVTZON, Assistant Professor, Alternative Teacher Certification Program; B.A., Yeshiva University; M.A., Azrieli Graduate Institute; M.S., Columbia University; Ph.D., Walden University.

BATSHEVA BERKOVITS, Adjunct Instructor, Alternative Teacher Certification Program; B.A., M.A., Mercy College.

JODI L. BRENNER, Adjunct Instructor, Alternative Teacher Certification Program; A.A.S., Kingsborough Community College; B.S., SUNY Empire State College; M.S., Brooklyn College; S.A.S, Baruch College.

MARK BROWN, Associate Professor of Education; B.S., Canisius College; M.S., SUNY Buffalo State; Ph.D., University of Cincinnati.

ELISA CHREM, Adjunct Instructor, Alternative Teacher Certification Program; B.S., M.S., M.A., Brooklyn College.

CHAYA SHOSHI CWEIBER, Adjunct Instructor, Alternative Teacher Certification Program; B.A., Empire State College; M.S., Adelphi University.

NIA-SOPHIA DIEZ, Adjunct Instructor, Alternative Teacher Certification Program; B.A., St. Joseph’s College; M.S., Adelphi University.
MIRIAM DREISINGER, Instructor, Alternative Teacher Certification Program; B.A., SUNY at Albany; M.A., Manhattan College; Ed.D., St. Mary's University of Minnesota.

SHOSHANA EHRENPREIS, Assistant Professor, Alternative Teacher Certification Program; B.A., Thomas Edison State College; M.S., Adelphi University; Ph.D., Capella University.

TRACY EISMAN, Adjunct Instructor, Alternative Teacher Certification Program; B.A., Nazareth College, M.S., University at Buffalo.

FRANK ENGELBERG, Instructor, Alternative Teacher Certification Program; B.A., Hofstra University; M.S., Ed.D., Yeshiva University.

SARA CHAYA FARBSITEIN, Instructor, Alternative Teacher Certification Program; B.S., M.S., Touro College; Ph.D., Capella University.

HARVEY FERTIG, Adjunct Instructor, Alternative Teacher Certification Program; B.A., Brooklyn College; M.S., NYU; C.A.S., Brooklyn College.

MARY H. FOX, Associate Professor of Education and Director of Alternative Certification Graduate Programs in Education; B.A., University of Maryland; M.A., George Washington University; Ph.D., Florida State University.

COURTNEY GERKEN, Adjunct Instructor, Alternative Teacher Certification Program; B.A., New Paltz University; M.S., Adelphi University.

DINA GONGOLA, Instructor, Alternative Teacher Certification Program; B.A., Thomas A. Edison State College; M.S., Adelphi University; Ph.D., Walden University.

YISROEL GROSSBERG, Adjunct Instructor, Alternative Teacher Certification Program; Bachelors in Talmudic Law, Beth Medrash Govoha; B.A., M.S., Touro College.

BAILA HERBSTMAN, Adjunct Instructor, Alternative Teacher Certification Program; B.S., Empire State College; M.S., Rutgers University.

MARC KATZ, Instructor, Alternative Teacher Certification Program; B.A., M.A., M.S., Touro College; Ed.D., Northcentral University.

VICKI MADDAUS KNAPP, Assistant Professor and Director of the Applied Behavior Analysis Program in the Education Department; B. S., Western Michigan University; M.S., Eastern Michigan University; Ph.D., University of Kansas; Board Certified Behavior Analyst-Doctoral; NYS Licensed Behavior Analyst.
SUSAN KRICKOVICH, Associate Professor of Education and Department Chair, Undergraduate Education; B.S., M.S., Ed.D., University at Buffalo.

ROCHEL LAZEWNIK, Assistant Professor, Alternative Teacher Certification Program; B.A., Thomas Edison State College; M.S., Long Island University; Ph.D., University of Cincinnati.

ROCHEL LIEBERMAN, Adjunct Instructor, Alternative Teacher Certification Program; B.S., Touro College; M.A., Lehman College.

SHTERNA LITZMAN, Adjunct Instructor, Alternative Teacher Certification Program; B.A., M.S., Touro College.

KATHY MALCOMSON, Adjunct Instructor, Alternative Teacher Certification Program; B.A., Queens College; M.S., Hunter College.

FEIGA MANDEL, Adjunct Instructor, Alternative Teacher Certification Program; B.A., College of Staten Island; Dual M.S., College of Staten Island.

ERIC MASLIN, Adjunct Instructor, Alternative Teacher Certification Program; B.A., M.S, Touro College.

CHERYL MIODOWNIK, Instructor, Alternative Teacher Certification Program; B.S., Baruch College; M.S., Adelphi University; Ph.D., Ferkauf Graduate School of Psychology, Yeshiva University.

MARLENE MORRIS, Adjunct Instructor, Alternative Teacher Certification Program; B.A., St. Francis College; M.A., Columbia University; C.A.S., Brooklyn College.

ALAN MOSKOWITZ, Adjunct Instructor, Alternative Teacher Certification Program; B.A., M.S., Touro College.

MALKA ORATZ, Adjunct Instructor, Alternative Teacher Certification Program; B.A., Thomas Edison State College; M.S., Walden University.

VANESSA PATRONE, Adjunct Professor of Applied Behavior Analysis Program in the Education Department; B.A., SUNY Geneseo; M.A., University of Maryland Baltimore County; Board Certified Behavior Analyst; NYS Licensed Behavior Analyst.

DEVORAH PACTH, Adjunct Instructor, Alternative Teacher Certification Program; B.A., Thomas Edison State College; M.S., Adelphi University.
SARA ROTHSTEIN, **Adjunct Instructor, Alternative Teacher Certification; B.A., College of Staten Island; M.S., Touro College.**

DEVON RUGGIERO, **Adjunct Instructor, Alternative Teacher Certification Program; B.A., SUNY at New Paltz; M.S., Brooklyn College; M.S., Adelphi University.**

ETTY SAMUEL, **Adjunct Instructor, Alternative Teacher Certification Program; B.S., Touro College; M.S., College of Staten Island.**

MINDY SCHREINER SCIRRI, **Assistant Professor of Education; B.A., University of Rochester; M.A., Binghamton University; Ph.D., Syracuse University.**

AVROHOM SCHWARTZ, **Adjunct Instructor, Alternative Teacher Certification Program; B.A., Yeshiva University; M.S., Touro College.**

EVELYN SHACHNER SEEVE, **Assistant Professor, Alternative Teacher Certification Program; B.A., Touro College; M.A., Ph.D., Hofstra University.**

FRAN SHANKER, **Adjunct Instructor, Alternative Teacher Certification Program; B.A., Queens College; M.S., Brooklyn College; M.S., Columbia University.**

BRUCE SHIELDS, **Associate Professor of Education; B.S., Slippery Rock University; M.A., University at Missouri; M.Ed., Ph.D., University at Buffalo.**

PESSY SLOAN, **Assistant Professor, Alternative Teacher Certification Program; B.A., Touro College; M.A., Ph.D., Hofstra University.**

FAITH CONDON THAYER, **Assistant Professor, Alternative Teacher Certification Program; B.A., Western Connecticut State University; M.A., Pratt Institute; Ph.D., Lesley University.**

MALKA ALTER UNGAR, **Adjunct Instructor, B.A., M.A., Touro College.**

ZAHAVA STERN WIENER, **Assistant Professor, Alternative Teacher Certification Program; B.A., Yeshiva University; M.A., Ph.D., Fordham University**

ELIZABETH R. WRIGHT, **Associate Professor of Education, Associate Dean, and Divisional Dean for Health & Human Services Division; B.A., Binghamton University; M.S.W., J.D., University at Buffalo.**

**Executive Leadership and Change**
MARC ADLER, Adjunct Instructor; B.A., M.B.A., M.A., University at Buffalo.

SUZANNE CHAMBERLAIN, Adjunct Instructor; B.A., University of Massachusetts; M.A., University of Missouri; M.S., SUNY Buffalo State.

CHRISTINA COYLE-LENZ, Interim Program Director; B.S., M.B.A., University at Buffalo; M.S., SUNY Buffalo State.

MARGARITA COYNE, Adjunct Instructor; B.S., University at Buffalo; M.S., Daemen College.

JOETTE FIELD, Adjunct Instructor; B.S., M.S., SUNY Buffalo State.

JOHN S. FREDERICK, Founder and Instructor, Executive Leadership and Change Program; B.S., M.S., SUNY Buffalo State; Ed.D., University at Buffalo.

TERRY FULCHER, Adjunct Instructor; B.S., M.S., Daemen College.

STEVEN J. HARVEY, Adjunct Instructor; B.S., M.S.Ed., Ph.D., University at Buffalo.

ARLENE KAUKUS, Adjunct Instructor; B.A., SUNY Buffalo State; M.S., Case Western Reserve University; M.B.A., University at Buffalo.

LISA NAPORA, Adjunct Instructor; B.A., SUNY Buffalo State; Ph.D., University at Buffalo.

KIMBERLY PAGANO, Adjunct Instructor; B.A., Canisius College; M.S., Daemen College.

STEPHEN WHITTON, Adjunct Instructor; B.A., Haverford College; Ph.D., University of Wisconsin-Madison.

JOSEPH F. WINTER, Adjunct Instructor; B.S., Daemen College; M.B.A., Canisius College.

International Business

TORSTEN DOERING, Assistant Professor of Accounting, Director of the International Business Program; Dipl. Ing., Cologne University of Applied Sciences; Dipl. Wirt. Ing., Niederrhein University of Applied Sciences; M.B.A., Ph.D., University at Buffalo.

MICHELE FLINT, CPA, Associate Professor of Accounting/MIS; B.S., Syracuse University; M.B.A., St. Bonaventure University; Ed.D., University of Rochester.
AARON JOYAL, Assistant Professor of Marketing; B.S., Embry-Riddle Aeronautical University; M.B.A., University of Central Florida; Ph.D. candidate, University of Memphis.

LINDA KUECHLER, Professor of Accounting and Business Administration; B.A., Canisius College; M.B.A., Rochester Institute of Technology; Ph.D., University at Buffalo.

CARMEN MARTORANA, Adjunct Instructor; B.S., Rochester Institute of Technology; B.S., SUNY Buffalo State; M.S., Canisius College.

PAUL H. McAFEE, Adjunct Instructor; B.A., University of Maryland; M.B.A., University of Rochester.

TITO RODRIGUEZ, Adjunct Instructor; B.S. Polytechnic Institute of New York University; M.S., Massachusetts Institute of Technology; M.B.A., The Wharton School, University of Pennsylvania.

JAMES WALTERS, Adjunct Instructor; B.A., M.B.A., University at Buffalo.

Nursing

LISA S. BALL, FNP, Associate Professor of Nursing; B.S., University of Western Ontario; M.S., Ph.D., University at Buffalo.

JOSETTE BRODHEAD, Assistant Professor of Nursing; A.A., Miami Dade Community College; B.S.N., Columbus State University; M.S.H.S., Independence University; M.S.N., Mansfield University; Ph.D., Capella University.

EILEEN DAETSCH, ANP-BS, Clinical Instructor of Nursing, B.S., The College at Brockport; M.S., University at Buffalo.

VIRGINIA M. HART, ANP, Clinical Assistant Professor of Nursing, Advanced Practice Nursing Programs Director; B.S., University at Albany; M.S., University at Buffalo; D.N.P., St. John Fisher College.

JANICE HOBB-GLOSE, Assistant Professor of Nursing; B.S., Roberts Wesleyan College; M.S., University at Buffalo; D.N.S., The Sage Colleges.

MARTHA KERSHAW, Assistant Professor of Nursing; B.S., Niagara University; M.S., Daemen College.

PATRICIA KLEMENTOWSKI, ANP-BC, Clinical Instructor of Nursing, B.S., Niagara University, M.S., University at Buffalo.
WENCAN LU, FNP, Assistant Professor of Nursing; B.S., Shanghai Maritime Institute; A.A.S., Erie Community College; B.S., Niagara University; M.S., D'Youville College; D.N.P., Daemen College.

ANN MARIE MacISAAC, ANP-BC, Clinical Instructor of Nursing, B.S., Niagara University, M.S., University at Buffalo

DEBORAH H. MERRIAM, Assistant Professor of Nursing; B.S., Roberts Wesleyan College; M.S., Canisius College; M.S., Daemen College; D.N.S., The Sage Colleges.

DIANE MULCAHY, FNP-BC, Clinical Instructor of Nursing, B.S., California State University, M.S., UCLA.

CHERYL NOSEK, Professor of Nursing, Department Chair; B.S., University at Albany; M.S., D.N.S., University at Buffalo.

GIOVANNA PLOUFFE, ANP-BC, Clinical Instructor of Nursing, B.S., Daemen College, M.S., University at Buffalo, D.N.P., University of Wisconsin, Madison.

KAROL REJMAN, Instructor of Nursing, B.S., M.S., Ph.D., University at Buffalo.

MARY LOU RUSIN, Professor Emeritus of Nursing, B.S., M.S., Ed.D., University at Buffalo.

DIANE RYAN, ANP, Associate Professor of Nursing; B.S., D'Youville College; M.S., University at Buffalo; Ph.D., University at Buffalo.

VERONICA VALAZZA, Assistant Professor of Nursing; B.S., M.S.N., M.B.A., Western Governors University; D.N.P., Capella University.

DEBORAH WYDYSH, ANP-BC, Clinical Instructor of Nursing, B.S., Niagara University, M.S., University at Buffalo.

Physical Therapy

JENNIFER BOGULSKI, Clinical Assistant Professor; D.P.T., Daemen College.

JULIE BUONO, Instructor of Physical Therapy; B.S., Daemen College.

MICHAEL S. BROGAN, Professor of Physical Therapy and Vice President for Academic Affairs and Dean of the College; B.S., D.P.T., Daemen College; M.S., Ph.D., University at Buffalo.

MICHAEL J. BROWN, Clinical Assistant Professor of Physical Therapy; D.P.T., University at Buffalo.
CLAY CASE, Instructor of Physical Therapy; B.S., D.P.T., Daemen College.

JODI DAUBER, Instructor of Physical Therapy; B.S., D.P.T., University at Buffalo.

LAURA FAVARO, Clinical Assistant Professor of Physical Therapy; B.S., M.S., Ithaca College; D.P.T., D'Youville College.

GREGORY S. FORD, Associate Professor of Physical Therapy and Chair of the Physical Therapy Department; B.S., M.S., D.P.T., Daemen College; Ph.D., University at Buffalo.

MARY ROSE FRANJOINE, Associate Professor of Physical Therapy; B.S., M.S., D.P.T., Daemen College.

JOSEPH GRAVINO, Instructor of Physical Therapy; B.S., D.P.T., Daemen College.

SHARON L. HELD, Associate Professor of Physical Therapy; B.S., D.P.T., Daemen College; M.S., University at Buffalo.

LISA INGLIS, Clinical Assistant Professor of Physical Therapy; B.S., McMaster University; M.S./P.T., University of Toronto; Transitional D.P.T., University of South Dakota.

DANIEL KELLER, Instructor of Physical Therapy; D.P.T., University at Buffalo.

THERESA KOLODZIEJ, Director of Clinical Education; B.S., D.P.T., Daemen College; M.S., Ph.D., University at Buffalo.

KIRA KREMER, Instructor of Physical Therapy; B.S., SUNY College of Environmental Science and Forestry; D.P.T., SUNY Upstate Medical University.

JOSEPH MICHAEL LORENZETTI, Instructor of Physical Therapy; M.S., D’Youville College; D.P.T., University of St. Augustine.

DAVID MAY, Instructor of Physical Therapy; B.S., University at Buffalo.

MARGARET A. MAZZONE, Clinical Assistant Professor of Physical Therapy; B.S., SUNY Health Science Center at Syracuse; M.S., Daemen College; Ph.D., University at Buffalo.

LUCY PAPIA, Instructor of Physical Therapy; B.S., D.P.T., Utica College.

MALLORY PETRUS, Instructor of Physical Therapy; D.P.T., Daemen College.
MICHAEL POLICELLA, Instructor of Physical Therapy; D.P.T., University at Buffalo.

JENNIFER PRIORE, Clinical Assistant Professor of Physical Therapy; B.S., M.S., D.P.T., Daemen College.

MICHAEL ROSS, Assistant Professor of Physical Therapy; B.S., Daemen College; M.S., University of Dayton; M.H.Sc., D.H.Sc., University of Indianapolis.

NICHOLAS RUSCHMANN, Instructor of Physical Therapy; M.S., D’Youville College.

RON SCHENK, Professor of Physical Therapy, Director of the Orthopaedic Manual Physical Therapy Program; B.S., M.S., Ithaca College; Ph.D., University at Buffalo.

NICHOLAS MICHAEL SMITH, Instructor of Physical Therapy; B.S., Canisius College; D.P.T., D’Youville College.

JOHN J. STACHURA, Clinical Assistant Professor of Physical Therapy; B.S., M.B.A., University at Buffalo; D.P.T., Daemen College.

JAMIE TIBERI, Instructor of Physical Therapy; B.S., University at Buffalo; M.S., Daemen College.

LAURIE WALSH, Associate Professor of Physical Therapy; B.S., University at Buffalo; M.S., Daemen College; J.D., University at Buffalo.

JESSICA A. WIATROWSKI, Assistant Director of Clinical Education; B.S., M.S., Daemen College.

JULIE WOLFLEY, Instructor of Physical Therapy; B.S., D.P.T., Daemen College.

PUBLIC HEALTH

WHITNEY E. MENDEL, Assistant Professor of Public Health; M.S.W., Ph.D., University at Buffalo.

BRIAN H. WROTNIAK, Director, Master of Public Health Program; B.S., Daemen College, M.S., University of Indianapolis, Ph.D., University at Buffalo.

YIQIONG XIE, Assistant Professor of Public Health; M.P.H., Sichuan University; Ph.D., Tulane University.

SOCIAL WORK

DIANE R. BESSEL, LMSW, CNM, Program Director and Assistant Professor of Social Work; B.A., University at Buffalo; M.S.S.A., Case Western Reserve University; Ph.D., University at Buffalo.
JOANNE M. CANNAVO, LCSW-R, Associate Professor of Social Work; B.A., Canisius College; M.S.S.A., Case Western Reserve University; Ph.D., University at Buffalo.

ERIN CARMAN, Assistant Professor of Social Work; B.A., M.S.W., J.D., University at Buffalo.

MAGGIE DREYER, LCSW-R, Director of Field Education and Clinical Instructor; B.A., Daemen College; M.S.W., University at Buffalo.

GEORGE SIEFERT, MSW, Associate Dean of Behavioral Sciences & Social Work Programs and Associate Professor of Social Work and Sociology; B.S.W., The College at Brockport; M.S.W., San Diego State University; Ph.D., University at Buffalo.

ACCREDITATION AND INSTITUTIONAL POLICIES

Daemen College is authorized by the Board of Regents of the State of New York to award degrees and certificates for programs registered with the New York State Board of Regents.

Accreditation

Daemen College is accredited by the Middle States Commission on Higher Education (MSCHE), 3624 Market Street, 2nd Floor West, Philadelphia, PA 19104, (267) 284-5000. Email: info@msche.org, Spanish: espanolinfo@msche.org. The Middle States Commission on Higher Education is a regional accrediting body recognized by the Council for Higher Education Accreditation (CHEA), April 2013 and the U.S. Department of Education (USDE).

Master’s (M.S.), post-Master’s Certificate, and clinical doctorate (D.N.P.) programs in Nursing are accredited by the Accrediting Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, (404) 975-5000, fax (404) 975-5020, email: info@acenursing.org, a specialized accrediting body recognized by the Council for Higher Education Accreditation (CHEA), September 2011, and the U.S. Department of Education (USDE).

The clinical doctorate in Physical Therapy (D.P.T.) is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), American Physical Therapy Association (APTA), APTA Headquarters Accreditation Dept., 1111 North Fairfax Street, Alexandria, VA, 22314-1488, (703) 684-2782, (800) 999-2782, fax (703) 684-7343, email: accreditation@apta.org. CAPTE, an accrediting body for professional programs for the physical therapist, is recognized by the Council for Higher Education Accreditation (CHEA), September 2012, and the U.S. Department of Education (USDE). Note: CAPTE accredits only programs which prepare students to sit for licensure examinations. The M.S. – Fellowship Program in Orthopaedic Manual Physical Therapy is credentialed by the APTA and has met the clinical guidelines of the American Academy of Orthopaedic Manual Physical Therapists (AAOMPT).

The graduate program in Physician Assistant Studies (B.S./M.S., M.S.) is accredited by the Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA), 12000 Findley Road, Suite 275, Johns Creek, GA 30097, (770) 476-1224, fax (770) 476-1738, a specialized accrediting body recognized by the Council for Higher Education Accreditation (CHEA), January 2004. Email: arc-pa@arc-pa.org.
The **Master of Science (M.S.)** in **International Business** (Marketing; Management Information Systems) and dual degrees **(B.S./M.S.)** in **Accounting/Professional Accountancy** and in **Business Administration/International Business** are accredited by the **International Accreditation Council for Business Education (IACBE)**, 11374 Strang Line Road, Lenexa, Kansas 66215, USA, (913) 631-3009, fax (913) 631-9154, email: iacbe@iacbe.org. IACBE is a specialized accrediting body recognized by the Council for Higher Education Accreditation (CHEA), January 2011.

Graduate programs in **Teacher Education, Master of Science (M.S.)**, are accredited by **Council for the Accreditation of Educator Preparation (CAEP)**, 1140 19th Street NW, Suite 400, Washington DC 20036, (202) 223-007. CAEP is a specialized accrediting body for teacher education programs recognized by the Council for Higher Education Accreditation (CHEA), March 2016.

The **Master of Science (M.S.)** in **Athletic Training** is accredited by the **Commission on Accreditation of Athletic Training Education (CAATE)**, 6850 Austin Center Blvd., Suite 100, Austin, TX 78731-3184, (512) 733-9700, toll free (844) 462-2283. CAATE is a specialized accrediting body recognized by the Council for Higher Education Accreditation (CHEA), September 2014.

**Availability Statement and Procedures to Review Accrediting and Licensing Documents**

Accrediting and Licensing documents are available for inspection. Requests should be in writing to and sent to the:

*Office of the President/Daemen College*

*4380 Main Street, Amherst, NY 14226-3592*
Offices Designated to Disseminate Consumer Information

The following offices of Daemen College have been designated to disseminate consumer information:

- Office of Enrollment Management
- Office of Financial Aid
- Office of Institutional Research
- Office of the Registrar
- Office of Student Accounts

Complaints

Daemen College is committed to serving its students effectively and responsively. Students with questions or concerns should communicate directly with the department or office concerned, with a view to resolving the issue as expeditiously as possible. If the matter remains unresolved at the department/unit level, students should bring their complaint to the attention of the dean of the pertinent academic division, the dean of students, the bursar, or the associate vice president for academic affairs (504/ADA Officer, Title IX Officer), as applicable. The Student Dispute Resolution Procedure or the Grievance Procedure in Discrimination and Harassment Cases (both contained in the Daemen College Student Handbook) will be followed when applicable.

Students who are unsure of whom to contact or who need further guidance may contact Dr. Kathleen Boone, Associate Vice President for Academic Affairs, Duns Scotus Hall 102, Daemen College, 4380 Main St., Amherst, NY 14226, telephone: 716.839.8301 for assistance.

Nondiscrimination and Equal Opportunity Policy

Daemen College is committed to compliance with its obligations under Title IX of the Educational Amendments of 1972, Titles VI and VII of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, the Americans With Disabilities Act, the Age Discrimination in Employment Act, Executive Orders, the New York State Human Rights Law, and other applicable antidiscrimination laws. It is the policy of Daemen College to provide all students and applicants an equal access to all programs and facilities without regard to sex, sexual orientation, gender, race, color, creed, religion, veteran or military status, national origin, age, disability, familial status, marital status, domestic violence victim status, status as an ex-offender, arrest record, predisposing genetic characteristics or genetic information, or any other characteristic protected by federal or New York State law. Furthermore, the College will not discriminate against any individual with respect to the application of College policies, or the criteria for the successful completion of any course or program on the basis of sex, sexual orientation, gender, race, color, creed, religion, veteran or military status, national origin, age, disability, familial status, marital status, domestic violence victim status, status as an ex-offender, arrest record, predisposing genetic
characteristics or genetic information, or any other characteristic protected by federal or New York State law.

Every person in the Daemen College community is required to be familiar with and act in accordance with this policy. This includes administrators, faculty, staff, students, contractors, and vendors. All violations of this policy will be addressed and, where appropriate, discipline will be administered. Any person or entity found in willful violation of this nondiscrimination policy shall be subject to termination, expulsion, or contract termination as appropriate.

The College President has assigned day-to-day responsibilities for the implementation and administration of this policy to the Associate Vice President for Academic Affairs, Dr. Kathleen Boone, who serves as the College’s Equal Opportunity and Affirmative Action Officer, Title IX Coordinator, and 504/ADA Coordinator. Any questions concerning this policy and any complaints of discrimination should be communicated to Dr. Boone, Duns Scotus Hall, Room 102, telephone (716) 839-8301 (campus extension 8301), kboone@daemen.edu.

A complaint of discrimination may also be filed with the Office for Civil Rights (OCR) of the U.S. Department of Education. Complaints are to be filed within 180 calendar days of the alleged act of discrimination and may be made to the New York regional office of OCR:

New York Office
Office for Civil Rights
U.S. Department of Education

New York, NY 10005-2500
Telephone: 646-428-3900
FAX: 646-428-3843; TDD: 877-521-2172
Email: OCR.NewYork@ed.gov

Accommodation of Students With Disabilities

Daemen College complies with the Rehabilitation Act of 1973, the Americans with Disabilities Act, and applicable state and local laws providing for nondiscrimination against qualified individuals with disabilities. This policy applies to participation in all College programs and activities. Daemen College will also provide reasonable accommodations for qualified individuals with disabilities so that they may participate at a level equivalent with that of non-disabled students. In this connection, Daemen College has established an accommodation assessment procedure for evaluation of requested accommodation in light of legal guidelines. It is Daemen College's policy to:
Ensure that qualified individuals with disabilities are treated in a nondiscriminatory manner in the admissions process and that qualified students with disabilities are treated in a nondiscriminatory manner with respect to all services, programs and activities.

Keep all medically related information confidential in accordance with the requirements of the Rehabilitation Act, the Americans with Disabilities Act, and the Family Educational Rights and Privacy Act.

Provide qualified applicants and students with disabilities with reasonable accommodation, except where such an accommodation would create an undue hardship on the College.

Notify individuals with disabilities that the College provides reasonable accommodations to qualified individuals with disabilities by including this policy in the College Catalog and the Student Handbook.

PROCEDURE FOR REQUESTING AN ACCOMMODATION

If a qualified applicant for admission to the College or a student of the College anticipates a need for an accommodation to complete a course of study or to participate in a College program or activity (student housing, etc.), the request for accommodation should be brought to the attention of the Associate Director of Disability Services. Where the disability or the need for an accommodation is not obvious, the individual may be required to provide current evidence of the disability and the limitations that require accommodation. The Associate Director of Disability Services will discuss with the applicant or student the limitation resulting from the disability and the potential reasonable accommodations that the College might make. The Associate Director may also consult as needed with the Associate Vice President for Academic Affairs, who is the College’s 504/ADA Officer. The College has established specific guidelines for the documentation of disabilities; the guidelines may be obtained from the College’s 504/ADA officer (Associate VP), the Disability Services Office, or from the College’s website. The Associate Director, in conjunction with the appropriate faculty, the 504/ADA Coordinator, and, if necessary, a professional evaluator retained by the College, will determine the feasibility of the requested accommodation, considering various factors including, but not limited to, the nature and the cost of the accommodation and whether the accommodation will impact the fundamental nature of the course or program. The applicant/student will be informed of the College’s decision on the accommodation request. If a student is not satisfied with the determination made by the College with respect to the request for accommodation, the student may file a grievance pursuant to the College’s Grievance Procedure in Discrimination Cases, a copy of which may be found in the Student Handbook or obtained from the Office of the Associate Vice President for Academic Affairs.

PROCEDURE FOR RECEIVING APPROVED ACCOMMODATIONS

The Associate Director of Disability Services will give the student an Accommodation Form specifying the accommodations approved by the College. It is the student’s right and responsibility to request approved accommodations in College programs, activities, or services. In keeping with the College’s nondiscrimination policy, accommodations are to be made only at the request of the student, not
assumed or imposed by other parties. The student shall present his/her Accommodation Form to the appropriate faculty member or administrator to substantiate a request for accommodation. Accommodations should not be provided to students without evidence that the accommodation has been approved by the College. A student lacking such documentation should be referred to the Associate Director of Disability Services according to the above procedure for requesting an accommodation.

Should any problem arise in securing an approved accommodation, the student should bring the problem to the immediate attention of the 504/ADA Officer, who will assist in resolving the matter. In addition, any member of the College community with questions or concerns about the College’s disability policy and procedures should contact the 504/ADA Officer. Retaliation against students, applicants, or employees for exercising their rights under this policy is strictly prohibited and will not be tolerated. Claims of retaliation should be reported to the 504/ADA Officer (Associate Vice President for Academic Affairs, Duns Scotus Hall, Room 102, telephone (716) 839-8301).

Student Rights Under the Family Educational Rights and Privacy Act (FERPA Policy)

Pursuant to the Family Educational Rights and Privacy Act of 1974 (FERPA), Daemen College has adopted a policy that protects the confidentiality of student educational records and grants third party access to such records only with the student’s consent or under other limited conditions. The College may publish certain directory information, such as the student’s name, address (including email), telephone number, date and place of birth, major field of study, participation in activities and sports, weight and height of members of athletic teams, dates of attendance, enrollment status (includes advance registration data, anticipated graduation year, class status), resident status (commuter or resident), degrees and awards received, and the most recent educational institution attended by the student, unless advised in writing by the student not to do so. The College policy also grants students access to their records, except, where applicable, for the financial information of their parents. A procedure has been established whereby students can challenge the content of their educational records, and if appropriate, provide a written explanation to be placed into their records. To review the full policy, see the Student Handbook (online) or contact the Registrar’s Office.
ACADEMIC CALENDAR FOR 2017-2018

Note: different calendar dates may apply for select courses and/or offerings at locations other than the main campus. Consult the complete academic calendar on the Daemen web page for details.
